TO: ALL INTERESTED PARTIES

In accordance with the Environmental Protection Agency (EPA) regulations for complying with the National Environmental Policy Act (NEPA) of 1969 (P.L. 91-190), a review has been performed on a request for a categorical exclusion for the environmental review requirements under NEPA, for the proposed action described below:

PROJECT SUMMARY FOR CATEGORICAL EXCLUSION

PROPOSED ACTION:

The project will provide additional water mains on in the Pikeside area which will include Kelly Island Road (WV 9/13) and Winchester Avenue (Route 11), and a replacement water main on Paynes Ford Road (WV 19), totaling approximately 20,000 linear feet (LF) of new 12" and 16" water main line. The project will consist of approximately 6,014 linear feet of 16", 11,430 linear feet of 14", and 2,191 linear feet of 12" water line and all necessary valves and appurtenances.

ENVIRONMENTAL BENEFITS:

The existing Pikeside Area water distribution system is currently served by undersized water mains that date back to the 1950s, with limited capacity, and is in need of a replacement/upgrade for the public health and safety of an approximate population of 30,000 people. The project will be situated on previously disturbed ground and close to previous existing mains and infrastructure. All proposed infrastructure will be buried underground, and there will not be any above-ground structures.

CATEGORICAL EXCLUSION CRITERIA:

EPA regulation 40 CFR 6.106(d) permits the use of categorical exclusions from substantive environmental requirements of the National Environmental Policy Act (NEPA) for:

1. Actions which are solely directed toward minor rehabilitation of existing facilities, functional replacement of equipment, or construction of ancillary facilities; or
2. Other actions specifically allowed in program-specific subparts of this regulation. Criteria that would prevent the use of a categorical exclusion are found in 40 CFR §6.107(e) summarized as follows:
3. The action may have a significant effect on the quality of the human environment, or 4. The action may affect cultural resource areas, endangered or threatened species, environmentally important natural resources, or other identified resource areas of concern; or 5. The action is not cost-effective or may cause public controversy.

ANALYSIS:

The proposed project meets the criteria for a categorical exclusion. It involves the installation and replacement of water mains throughout the Pikeside Area. Our review indicates that the infrastructure will be placed underground in previously disturbed areas. All work is expected to have no adverse environmental impact.

ENERGY EFFICIENCY AND CLIMATE CHANGE EFFECTS

There is no net change in greenhouse gasses anticipated for this project or negative impact on surrounding environmental resources since all infrastructure is underground. No electrical components are included with this project.

FLOODPLAIN MANAGEMENT ANALYSIS

All above-ground infrastructure improvements included with Berkeley County PWSD water system improvements project are located at an elevation above the 100-year flood plus 3 feet (907' plus 3'). The only floodplain in which work is proposed (i.e. construction of buried water main infrastructure) is at Evans Run. No above-ground structures are proposed in the said floodplain; and the BPH requirement to elevate above-ground structures to a minimum of three (3) feet above the one hundred (100) year flood elevation, such as given in 64-77-8 Para. 8.2.a. is not applicable since all proposed infrastructure will be buried underground in the said floodplain.[5]

REVOCATION:

This conclusion can be revoked if additional and/or future information indicates any of the following:

1. The proposed action no longer meets the defined category due to changes in the proposed action;
2. Serious local or environmental issues now exist; and/or
3. Federal, state or local laws may be violated.
