These sections of the legislative rule detail the English proficiency testing requirements for foreign-educated individuals applying for a physical therapy license with the West Virginia Physical Therapy Board (hereinafter "Board"), and the fees charged by the Board. With the rising number of applicants whose native language is not English, the need for this revision is paramount because the testing service utilized by the Board has changed its format of the examination as well as the passing scores since this rule was implemented by the Board. The computer based test that is currently listed in the legislative rule no longer exists, and has been replaced by an Internet based test. Moreover, the scoring of the Internet based test is calculated differently than the Computer based test, so there is no means to convert the Internet based test score to the Computer based test score as currently listed in the rule.

Further, the Board is also proposing those fees that do not need to be published within the rule itself to be deleted from the rule such as copying and postage fees. This will enable the Board to better serve the public, change the fees accordingly without necessitating a rule change, and keep up with these ever increasing costs.

EMERGENCY RULE TITLE: General Provisions

1. Date of filing _____
2. Statutory authority for promulgating emergency rule:
West Virginia Code Section 30-20-5(a)(4)

3. Date of filing of proposed legislative rule: _____
4. Does the emergency rule adopt new language or does it amend or appeal a current legislative rule? The emergency rule amends a current legislative rule.

5. Has the same or similar emergency rule previously been filed and expired?
No

6. State, with particularity, those facts and circumstances which make the emergency rule necessary for the **immediate** preservation of public peace, health, safety or welfare.
Please see attached.

7. If the emergency rule was promulgated in order to comply with a time limit established by the Code or federal statute or regulation, cite the Code provision, federal statute or regulation and time limit established therein.

N/A

8. State, with particularity, those facts and circumstances which make the emergency rule necessary to prevent substantial harm to the public interest.

Please see attached.

6. The proposed section being amended details the requirements of the English proficiency examination for those foreign educated individuals applying for a physical therapy license in West Virginia. Several substantive changes have been made in testing procedures that require these proposed amendments to be immediately revised by the West Virginia Board of Physical Therapy in order to ensure accurate and current information on these testing requirements is being obtained by the applicants. The passing scores as listed within the rule now for Computer based tests do not reflect the Internet based test that is currently given to applicants. Moreover, scores cannot be converted from the Internet based test to a Computer based test score in order to determine if the applicant passed the examination.

In order to maintain the services provided by the Board, the Board is also proposing those fees that do not need to be published within the rule itself to be deleted from the rule such as copying and postage fees. This will enable the Board to better serve the public and revise the fees accordingly without necessitating a rule change every time these fees increase such as postage and copying costs.

8. With the rising number of applicants whose native language is not English, the need for this revision is paramount because the testing service utilized by the Board has changed its format of the examination as well as the passing scores since this rule was implemented by the Board. Applicants need accurate and current information regarding this examination to be available to them to become licensed as a physical therapist in the state of West Virginia. And without this amendment those educated outside the United States may be restricted in their ability to obtain licensure to their detriment and the citizens of West Virginia that they may have been able to serve as a physical therapist.

In order to maintain the services provided by the Board, the Board is also proposing those fees that do not need to be published within the rule itself to be deleted from the rule such as copying and postage fees. This will enable the Board to better serve the public and revise the fees accordingly without necessitating a rule change every time these fees increase
