Section 2. Definitions

"Person" includes firms, associations and corporations.

"Commissioner" means State Tax Commissioner.

"Transaction" means the delivering, accepting, or presenting for recording of a document.

"Value" means in the case of any document not a gift, the amount of the full consideration paid or to be paid, including any liens to be assumed; in the case of a gift or any other document without consideration, the actual monetary value of the property conveyed or transferred.

"Document" means any deed or any other written instrument which transfers real property, or any interest in real property, within this State from one person to another.

"Document" does not mean or include the following, which are, therefore, not subject to the property transfer tax, to wit:

1. A Will.
2. A deed or other written instrument which transfers real property, or any interest therein, having a value of \$100 or less. Thus, a deed transferring real property valued at \$100.01 is taxable, while a deed transferring real property valued at \$100 or less is not taxable.
3. A testamentary trust--This is a transfer of property to a trustee for the benefit of a third party and which becomes effective upon the death of the person making the transfer.
4. Inter vivos trust--This is a transfer of property to a trustee for the benefit of a third party which is effective during the life of the person making the transfer.
5. A deed of partition--A division of land between co-owners.
6. A deed made pursuant to mergers of corporations.
7. A deed made by a subsidiary corporation to its parent corporation for no consideration other than the cancellation or surrender of the subsidiary's stock. Such a transaction would be taxable if any consideration involved would exceed \$100.
8. A lease.
9. Any transfer between husband and wife.
10. Any transfer between parent and child and his or her

spouse, without consideration, or between child and parent. A parent can give his child and his or her spouse real property and the transfer is not taxable, but if he sells it to the child and his or her spouse, the transfer is taxable if the selling price exceeds \$100.

11. A transfer between any person and a "straw" party for any purpose when the transfer is without consideration.

12. Gifts to, or transfers from or between voluntary charitable or educational associations or trustees thereof and like nonprofit corporations having the same, or similar, purposes. Transfers with consideration to such associations by a third party are subject to the tax.

13. A quitclaim or corrective deed without consideration. Either of this type deed with a consideration of over \$100 is subject to the tax.

14. A transfer to or from the United States, the State of West Virginia, or to or from any of their instrumentalities, agencies or political subdivision by gift, dedication deed or condemnation proceeding.

15. Deeds of Trust or mortgages given as security for a debt.

A figurative exemption exists in the case of a deed conveying real estate situated in more than one county, in that stamps representing the total value or consideration may be attached to only one of the deeds and the other documents are, therefore, not subject to the tax. A declaration stating such a situation must be attached to all documents concerned.

The law imposes the primary tax liability upon the grantor. In the event the grantee accepts a document without the tax having been paid or the stamps affixed, such tax shall be paid by the grantee. Likewise, the grantee shall pay the tax on any transfer of real property from

a trustee or a county clerk transferring real property sold for taxes.

A transfer of real estate when a life estate is retained is subject to the property transfer tax on the present day market value of said property less the computed value of the estate of the life tenant as set forth in the Statutory formula of life tenancy. (Code 43-2).

Suggested Declaration:

DECLARATION OF VALUE

I hereby declare: the true and actual value of the property transferred by the document to which this declaration is appended, is to the best of my knowledge and belief \$____; said true and actual value having been determined by subtracting the computed value of the estate of the life tenant from the present day market value of said property.

Section 3. Taxation Rate

A state excise tax is levied and imposed on and after midnight of June 30, 1959, upon the privilege of transferring title to real estate by every person who delivers, accepts, or presents for recording, any document referred to in Section 2 of these regulations, or in whose behalf any document is delivered, accepted, or presented for recording.

(A) The rate of tax is one dollar and ten cents (\$1.10) for each five hundred dollars value or fraction thereof as represented by such document as stated in the declaration of value appended thereto, which state tax shall be payable by the grantor unless the grantee accepts the same without the

tax having been paid, in which case the tax shall be paid by grantee at the time of delivery or presenting for recording of such document.

Section 4. Stamps, Affixation and Cancellation

4.01 Evidence of Payment.--The payment of the tax imposed upon the privilege of transferring title to real estate shall be evidenced by the affixing of a documentary stamp, or stamps, to every document by the person executing, delivering, or presenting for recording such document.

4.02 Affixing Stamps.--Each stamp shall be affixed in such a manner that its removal will require the continued application of steam or water.

4.03 Cancellation of Stamps.--The person using or affixing such stamps shall write or stamp, or cause to be written or stamped thereon, the initials of his name and the date upon which stamps were affixed or used so that stamps may not again be used.

In the event the person presenting the document for recording has failed to cancel the stamps affixed thereto, the county clerk must then cancel the stamps by writing the date on the face of each stamp.

Where recorded documents are not microfilmed or otherwise photographically reproduced for recordation, the clerk shall write or stamp on the recorded copy of each such document the amount of tax stamps which were affixed thereto and the date of cancellation of such stamps.

4.04 Availability.--Stamps shall be offered for sale by the

clerks of the various county courts. Such stamps to be furnished to the county clerks by the Commissioner.

4.05 Denominations and Description.--Documentary adhesive stamps, as prepared and furnished the county clerks by the Commissioner, are the approximate size and number of perforations of a standard U.S. postage stamp. The top center bears a facsimile of the obverse side of the West Virginia State Seal. Immediately under the seal is imprinted "Property Transfer Tax", immediately under this caption is the denomination of the stamp printed in red ink. Just above and to the right of the "y" in Property, is the symbol for copyright and "W.VA.".

Stamps are issued by the Commissioner to the county clerks in serially numbered sheets of 50 stamps. The "A" series are gray in color and \$1.10 denomination; the "B" series are red in color and \$3.30 denomination; the "C" series are blue in color and \$8.80 denomination; the "D" series are green in color and \$14.30 denomination; the "E" series are purple in color and \$34.10 denomination; the "F" series are brown in color and \$62.70 denomination.

4.06 Issuance and Receipt.--Upon written request by the county clerk, stamps are issued by the Commissioner, accompanied with two, of three, typewritten copies of the following receipt. One copy is for the records of the county clerk and one copy for signature of acknowledgment of the clerk and returned to the Commissioner, the Commissioner sends the third copy to the Division of Inspection and Supervision of Public Offices of the State Tax Department for future audit.
