11.1.b. Ensure that the guidance, behavior management and discipline practices are constructive and educational in nature, appropriate to each child's age and circumstances, and in keeping with the center's policies and procedures;

11.1.c. Ensure that staff members are aware of behavior issues relating to an individual child, and treat behavior problems individually and in private;

11.1.d. Delegate behavior management to qualified staff members who have an ongoing relationship with a child; and

11.1.e. Ensure that when it appears that a child is developing a pattern of unacceptable behavior, the staff member with the delegated responsibility for the child discusses the child's behavior in private with the director and informs the child's parents.

11.2. Guidance. At all times, staff members are responsible for providing positive guidance that is appropriate to each child's age, understanding and circumstances. Staff members shall:

11.2.a. Teach by example;

11.2.b. Recognize and encourage acceptable behavior;

11.2.c. Make eye contact with the child and kneel or sit beside the child whenever possible when speaking to the child;

11.2.d. Supervise with kindness, understanding and firmness;

11.2.e. Define clear limits, set fair and consistent rules and, when appropriate, permit an older school-age child to participate in the development of rules and procedures;

11.2.f. Help a child develop self control to assume responsibility for his or her own actions;

11.2.g. Guide a child's activities in an orderly manner;

11.2.h. Prepare a child for his or her next activity a few minutes ahead of time, and allow the child a brief transition time before beginning the new activity;

11.2.i. Help a child avoid long waiting periods when the child has nothing to do by ensuring that the environment includes materials that hold his or her attention; and

11.2.j. Help a child feel successful at tasks and provide options if chosen tasks prove to be too difficult.

11.3. Behavior Management and Discipline. When a behavior problem arises, qualified staff members shall:

11.3.a. Redirect the child to alternative behavior or other activities;

11.3.b. Encourage the child to control his or her own behavior, cooperate with others and solve problems by talking things out;

11.3.c. Speak so that the child understands that feelings are acceptable, but inappropriate behaviors and actions are not;

~~11.3.d.~~ Use appropriate time-out periods only as necessary for a child to calm down or gain control of his behavior and not for over one (1) minute for each year of a child's age, ~~up to a maximum of five~~

~~(5) minutes for the child under school-age~~ Time-out may be used only for children over the age of three (3) years;

11.3.e. Ensure that during a time-out period the child is within sight and hearing of a staff member in a safe, lighted and well-ventilated space;

11.3.f. Maintain perspective about the minor misbehavior of the school-age child and recognize that every infraction does not warrant staff attention or intervention; and

11.3.g. Take action that relates to inappropriate behavior and ensure that any action that is taken is without bias and in proportion to the child's act.

11.4. Handling Behavior Problems. Staff members and other adults at a center shall not handle behavior problems by:

11.4.a. Subjecting a child to physical punishment of any kind, including, but not limited to, shaking, striking, spanking, swatting, thumping, pinching, popping, shoving, spitting, biting, hair pulling, yanking, slamming, excessive exercise or any cruel treatment that may cause pain;

11.4.b. Putting anything in or on a child's mouth as punishment;

11.4.c. Restraining a child by any means other than a firm grasp around a child's arms or legs and then for only as long as is necessary for the child to regain control;

11.4.d. Subjecting a child to psychological punishment of any kind, including, but not limited to, ridicule, humiliation, or negative remarks about the child or the child's family, including remarks about race, gender, religion, or cultural background;

11.4.e. Using harsh or profane language, or actual or implied threats of physical punishment;

11.4.f. Punishing or threatening a child in association with food, rest or toilet training;

11.4.g. Isolating a child without supervision or placing the child in a dark area such as a box, closet, or similar confined space;

11.4.h. Permitting a child to discipline other children;

11.4.i. Punishing an entire group for the actions of one child or a few children; or

11.4.j. Seeking or accepting parental permission to use physical punishment or other actions prohibited by this rule.

11.5. Difficult Behavior Plan. When a child's behavior problems continue over time, the director and staff member with delegated responsibility shall develop and implement a plan for managing the difficult behavior. The director shall ensure that:

11.5.a. When possible, a parent participates in the development of the plan and, in all cases, the center shall provide the parent with a copy of the completed plan and regular written reports of the child's progress;

11.5.b. When necessary and appropriate, other professionals also participate in the development and implementation of the plan and, when necessary, receive written reports of the child's progress; and

11.5.c. Staff members cooperate in implementing the plan and keep on file at the center a copy of the plan, a record of the steps taken during implementation, and the child's progress in meeting the goals of the plan.

11.6. Abuse and Neglect. A center shall develop, implement and maintain policies and procedures for the reporting of child abuse and neglect that include:

11.6.a. The definition of child abuse and neglect;

11.6.b. The requirement to report immediately, in accordance with ~~W. Va.~~ West Virginia Code 49-6A-1 et seq., any suspected incident of child abuse and neglect to the director or designated person-in-charge, and to Child Protective Services; or when the staff member believes that the director or designated person-in-charge would not or has failed to report the suspected incident to the Child Abuse Hotline, 1-800-352-6513; and

11.6.c. A statement posted at the center in clear public view stating that the center reports suspected child abuse and neglect to Child Protective Services.

11.7. Informing Staff about Behavior Management and Report Procedures. The center shall inform staff about behavior management procedures and child abuse and neglect reporting by:

11.7.a. Providing each staff member a copy of its policies on behavior management and the reporting of child abuse and neglect, and providing revised policies when changes occur;

11.7.b. Obtaining a signed and dated acknowledgement that the staff member has read and understands the policies or revised policies; and

11.7.c. Placing the signed acknowledgement statement in the staff member's file.

11.8. Informing Parents about Behavior Management and Reporting Procedures. At the time of a child's admission, a center shall inform parents about the center's behavior management procedures and child abuse and neglect reporting requirements by:

11.8.a. Providing to each child's parent written copies and an oral explanation of a center's policies on behavior management and the reporting of child abuse and neglect, and updating parents on policy changes when they occur;

11.8.b. Obtaining a signed and dated acknowledgement that the center has explained the policies and provided the parent with a copy. The statement shall bear the child's name, the date of enrollment, and, if different, the date the parent signs the statement; and

11.8.c. Placing the signed statement in the child's file for as long as the child is enrolled.

§78-1-12. Space Requirement.

§12.1. Licensed Capacity. A center shall ensure that at all times the maximum number of children participating in activities on or off the premises does not exceed the licensed capacity determined by the

separately computed area of indoor space, outdoor space and bathroom facilities, not to exceed the lowest number of the three computations. Personnel and group size may be factored into the maximum capacity for certain age groups.

12.2. Indoor Space.

12.2.a. A center shall provide a minimum of thirty-five (35) square feet per child of usable indoor space that is approved by the Secretary for daily program activities. A center shall make the rooms and areas of the center that are not approved for a child's use inaccessible to the children.

12.2.b. Indoor space for daily program activities does not include any space that is not available for a child's activities including space occupied by columns, vestibules and corridors; fire escapes; areas used exclusively for eating; areas used exclusively for napping; bathrooms; staff lounges; adult work areas including offices, laundry and furnace rooms; kitchens; permanently equipped isolation areas; storage spaces; and areas occupied by furniture except for areas that have:

12.2.b.1. Children's chairs and tables;

12.2.b.2. Adult sized comfortable chairs or a couch;

12.2.b.3. Moveable play equipment and shelves for children's activities; or

12.2.b.4. A surface for changing diapers.

12.2.b.5. For centers that have a separate and distinct designated activity area for children under twelve (12) months of age, cribs may be considered part of that useable indoor space, provided that no more than thirty (30) percent of the useable space is occupied by cribs.

12.2.c. A center shall not provide activity space in a basement area unless the basement area is approved by the State Fire Marshal.

~~12.2.d. When a center operates a summer recreation camp program that provides outdoor activities for six (6) or more hours each day, the center shall provide at least ten (10) square feet of useable indoor activity space per child inside or provide a covered permanent structure that has the required activity space.~~

12.3. Outdoor Space.

12.3.a. A center shall provide an outdoor play activity area that includes a minimum of seventy-five (75) square feet of space per child, or if the outdoor play activity area has less than that a center shall:

12.3.a.1. Establish an outdoor play activity schedule for rotating groups of children to meet the minimum space requirement and to ensure that each child has an opportunity to play outdoors each day; and

12.3.a.2. Submit to the Secretary for his or her approval a copy of the current outdoor play activity schedule and shall use the outdoor space only after receiving the Secretary's written approval that shall be displayed at the center for public view.

12.3.b. A center shall:

~~☐12.3.b.1. Provide an outdoor play activity area that is on its premises or immediately adjacent to its premises; or~~

~~☐12.3.b.2. When neither of the options in Paragraph 12.3.b.1. of this rule is possible, shall submit a plan for the Secretary's approval for alternate outdoor play activity space to meet the children's outdoor activities requirement and shall use the outdoor space only after receiving the Secretary's written approval.~~

12.4. Bathrooms. The center shall provide one (1) flush toilet and one (1) lavatory per fifteen (15) children, excluding children in diapers who are not receiving toilet training.

~~12.4.a. The center shall provide one (1) flush toilet and one (1) lavatory per fifteen (15) children, excluding children in diapers who are not receiving toilet training.~~

~~12.4.b. When a center operates a summer recreation camp program that provides outdoor activities for six (6) or more hours each day, if the center received written approval from the local health department, the center may use a commercial portable toilet and warm water, soap, paper towels, rinse water, and a pit or other method for disposing of waste water.~~

~~13.6.e.8.~~ The outdoor area is free of wading pools and other equipment that might hold water ~~and which~~ pose a drowning hazard to the child or a breeding environment for mosquitoes.

13.7. Storage of Equipment, Materials and Supplies. A center shall provide storage for equipment, materials and supplies that includes:

~~13.7.a.~~ An low, open shelf, at the appropriate level from the floor, for activity items so that children may select, remove and replace items independently;

13.7.b. A container, shelf, or cupboard that is inaccessible to children but permits staff to reach supplies, such as clean diapers, without leaving a child unattended;

13.7.c. A closet when used that is accessible to children and has a latch with an internal release so that the door can be opened by a child inside the closet; and

13.7.d. Separate storage areas for each child's personal belongings, including appropriate safety storage for the school-age child's money and ongoing projects.

§78-1-14. Program

14.1. For each program offered, a center shall prepare and follow a written daily schedule that:

14.1.a. Reflects the goals and objectives set out in the statement of purpose;

14.1.b. Is based on knowledge of child development and learning, and on the needs of the enrolled children;

14.1.c. When necessary to accommodate the needs of a child, follows a written individualized plan, developed with advice from a variety of professional sources, including, but not limited to, an early intervention specialist or a licensed health care provider; and

14.1.d. Is posted in clear, public view.

14.2. A center shall ensure that each program includes flexible program activities that:

14.2.a. Are appropriate to a child's age and developmental level;

14.2.b. Include an appropriate balance of:

14.2.b.1. Indoor and outdoor activities;

14.2.b.2. Activities that use both large and small muscles;

14.2.b.3. Quiet and active play periods;

14.2.b.4. Active and passive learning experiences;

14.2.b.5. Individual and several types of group activities; and

14.2.b.6. Teacher-initiated and child-initiated activities;

14.2.c. Provide opportunities for a child to choose from among several possible activities, or choose not to participate in structured activities at certain times of the day;

14.2.d. Provide a variety of social experiences through grouping arrangements, including mixed-age experiences, that take into account each child's level of maturity;

14.2.e. Include routines at regularly scheduled times, such as sleeping, eating, dressing, toileting, hygiene and diapering;

14.2.f. Are planned so that a child has sufficient time to progress at his or her own developmental rate and does not experience a prolonged waiting period between activities or tasks;

14.2.g. Provide a child with the freedom to get a drink of water or go to the toilet as he or she feels the needs, in keeping with the requirements of this rule; and

14.2.h. Respect cultural diversity and incorporate aspects of a child's culture, including his or her language, traditional food and celebrations.

14.3. A center shall ensure that each program follows guidelines for:

14.3.a. Sleeping routines. A center shall:

14.3.a.1. Provide a designated area where a child can sit quietly or lie down to rest;

14.3.a.2. Ensure that a child twenty-four (24) months of age and under is able to nap according to his or her developmental needs;

14.3.a.3. Ensure that the schedule for a child between twenty-five (25) months of age and school-age who is in care for more than four (4) daytime hours includes a regular nap period of at least one (1) hour each day for the child who sleeps, an opportunity for rest and quiet play for the child who is unable to sleep during the nap period, and a regular nap period for the school-age child who needs it; and

~~14.3.a.4.~~ Ensure that staff members initially place the child twelve (12)~~six (6)~~ months of age and under, or under the age when he or she can turn over independently, on his or her back unless the parent provides a written statement from a licensed health care provider prohibiting the child from being placed in that position for sleep;

14.3.b. Brushing Teeth. A center shall provide appropriate opportunities for the children in care to have supervised practice of brushing teeth on a daily basis; and

14.3.c. Outdoor Activity. A center shall provide a minimum of one (1) hour of outdoor activity daily when: ~~When a child is in care for more than four (4) daytime hours, weather and circumstances permitting, a center shall provide a minimum of one (1) hour of outdoor activity daily, on days when the temperature is forty (4) degrees Fahrenheit or more, and may provide outdoor activity on other days, as appropriate.~~

14.3.c.1. A child is in care for more than four (4) daytime hours; and

14.3.c.2. Weather and circumstances permit according to the following:

14.3.c.2.A. The temperature is forty (40) degrees Fahrenheit or more;

14.3.c.2.B. There are no weather or condition advisories indicating to remain indoors;

14.3.c.2.C. On other days as appropriate.

14.4. For children twenty-four (24) months of age and under, a center shall follow these additional daily program requirements:

14.4.a. Beginning with the pre-admission meeting between the director or designated staff member and the parent, a center shall work with a child's parent to prepare a written schedule that:

14.4.a.1. Respects a child's normal pattern of activities, sleeping and eating;

14.4.a.2. Is consistent with a child's needs and capabilities;

14.4.a.3. Provides a child with opportunities to interact with staff members, participate in program activities, be outdoors daily as appropriate, and be diapered or toileted as needed; and

14.4.a.4. Identifies qualified staff who will primarily care for the child.

14.4.b. A center shall ensure that the schedule is available for reference in the child's program area.

14.4.c. A center shall ensure that qualified staff members:

14.4.c.1. Evaluate and modify the schedule on a frequent and regular basis, according to the child's developmental needs and in consultation with the child's parent; and

14.4.c.2. For each child twelve (12) months of age and under, prepare a written daily report with information about a child's activities in the following areas:

14.4.c.2.A. Food intake;

14.4.c.2.B. Sleeping patterns;

14.4.c.2.C. Bowel movements;

14.4.c.2.D. Developmental milestones, such as sitting and crawling; and

14.4.c.2.E. Unusual events.

14.5. Staffing Pattern. A center shall arrange its staffing pattern so that each child has a primary care giver who is a qualified staff member. Staff members shall interact personally with the infant, toddler, and child under school age by:

14.5.a. Holding, rocking and playing whenever possible, including while bathing, dressing and carrying the child;

14.5.b. Encouraging positive communication and language development by making eye-to-eye contact with the child, singing, talking, reacting to the child's ~~sounds~~ communications, naming objects, reading stories and playing musical games;

14.5.c. Paying attention to crying and meeting the immediate needs of the child;

14.5.d. Ensuring that no child is routinely left in a crib or playpen, except for sleep or rest; and

14.5.e. Providing a child who is awake play equipment and opportunities to play freely on a clean, safe floor.

~~14.6. For school-age children, a center shall follow these additional daily program requirements:~~

~~14.6.a. A center shall post a daily schedule of activities that reflects the time of day and the number of hours that it provides care before school, after school, and on days when school is closed;~~

~~14.6.b. A center shall ensure that the program described in the daily schedule meets the requirements of Subsection 14.1 of this Section, includes activities that reflect a school-age child's interests and skills, and provides opportunities for the child to:~~

~~14.6.b.1. Be involved in activity planning, including his or her own;~~

~~14.6.b.2. Complete homework and work on projects or hobbies;~~

~~14.6.b.3. Be involved with children of the same age; and~~

~~14.6.b.4. Join in group play and community activities.~~

~~14.6.c. A center shall ensure that staff members in school-age programs have the skills and training to respond to the needs of the older child and recognize that interactions with the school-age child differ significantly from interactions with the younger child. The staff members shall:~~

~~14.6.c.1. Actively seek meaningful conversations with a child and talk about events of importance and mutual interest;~~

~~14.6.c.2. Be available and responsive to a child, listen with attention and respect, and encourage the child to share experiences, ideas and feelings;~~

~~14.6.c.3. Help a child develop problem-solving skills by describing problems and encouraging him or her to evaluate the situation;~~

~~14.6.c.4. Facilitate rather than instruct by offering suggestions, providing positive reinforcement, and encouraging efforts, and recognizing accomplishments; and~~

~~14.6.c.5. Have developmentally appropriate expectations of a child's social behavior.~~

~~14.6. Summer Recreation Camp. A center operating a summer recreation camp shall follow these guidelines:~~

~~14.6.a. Other than the requirements in Subsection 14.1 of this rule, a center shall ensure that the daily schedule provides for outdoor or off-site activities a majority of the time;~~

~~14.6.b. Other than the requirements of Subdivision 14.7.c. of this rule, a center may, from time to time, schedule an occasional overnight activity;~~

~~14.7.c. When a center that operates a summer recreation camp program schedules an overnight activity, the center shall provide a mat, cot or bed for each child; and~~

14.7.d.14.6. Night Time Care. When a center provides evening or nighttime care, the center shall:

~~14.7.d.1~~
~~14.6.a.1. Plan a program that respects the normal sleeping periods, and evening and morning routines of the child;~~

~~14.7.d.2~~
~~14.6.a.2. Establish and post a schedule for the child in consultation with the child's parent that provides for:~~

~~14.7.d.2.A~~
~~14.6.a.2.A. Quiet activities before bedtime and opportunities for the older child to complete homework or work on projects or hobbies;~~

~~14.7.d.2.B~~
~~14.6.a.2.B. Meals and snacks;~~

~~14.7.d.2.C~~
~~14.6.a.2.C. Routine preparations for bed; and~~

~~14.7.d.2.D~~
~~14.6.a.2.D. Dressing in the morning, when appropriate.~~

~~14.7.d.3~~
~~14.6.a.3. Ensure that no child remains in care for more than eighteen (18) hours in a twenty-four (24) hour period.~~

~~14.7.d.4~~
~~14.6.a.4. Ask the parent to provide for the child's personal use a clean, comfortable, nonflammable or flame retardant sleeping garment and other personal items, such as a comb or brush, and label the child's personal use items; and~~

~~14.7.d.5~~
~~14.6.a.5. Ensure that staff members supervise a child's bath or individual shower, respecting the child's privacy according to the child's developmental needs.~~

14.8.14.7. Active Media. When a center plans an activity that involves active media, the center shall ensure that:

14.8.a.14.7.a. The active media supplements but does not replace traditional early childhood materials;

14.8.b.14.7.b. A child has a choice of other activities and materials;

~~14.8.e.14.7.c.~~ Staff members are available to support the activity by discussing the use of the active media with the child;

~~14.8.d.14.7.d.~~ The computer software chosen is developmentally appropriate and supports creative play and learning; and

~~14.8.e.14.7.e.~~ No video games or computer software with sexual or violent content, profanity or aggressive behavior are used.

~~14.9.14.8.~~ Passive Media. Regarding passive media, a center shall ensure that:

~~14.9.a.14.8.a.~~ Passive media is not routinely part of the daily schedule;

~~14.9.b.14.8.b.~~ When passive media is used, that staff members are available to support the use of it by discussing what is viewed with the child;

~~14.9.c.14.8.c.~~ When a center allows the child to watch television programs and movies, the contents are designed to benefit the child, viewing time is limited and the child who does not wish to watch has a choice of other activities; and

~~14.9.d.14.8.d.~~ No television programs, cartoons or movies with sexual or violent content, profanity or aggressive behavior are viewed; and

~~14.8.e.~~ Television, video or other such electronic media is not used with children 24 months of age and younger.

~~14.10.14.9.~~ Special Activity. When a center participates in a special activity, the center shall provide staff who are trained and supervised to enforce safety regulations, provide necessary instructions, and identify and manage environmental and other hazards related to the special activity. Prior to the special activity, the center shall:

~~14.9.a.~~ Have on file an activity plan that includes, but is not limited to:

~~14.9.a.1.~~ The qualifications of the supervisor of the special activity;

~~14.9.a.2.~~ The special qualifications, if any, of any other staff member necessary for adequate supervision of the activity;

~~14.10.a.3.14.9.a.3.~~ A supervision plan that includes the number of staff members needed to adequately supervise the activity;

~~14.9.a.4.~~ The conditions under which a child may participate in the activity, such as the child's age or skills;

~~14.9.a.5.~~ Any special equipment necessary, such as life jackets, helmets, or other safety gear; and

~~14.9.a.6.~~ Special safety practices and emergency procedures;

~~14.10.b.14.9.b.~~ Provide the parent with a copy of the activity plan and have written permission dated and signed by the parent for the child's participation in the activity; and

14.9.c. Assign appropriate staff to the activity by:

14.9.c.1. Choosing a staff member for the special activity who has appropriate experience, training or certification in the activity;

14.9.c.2. Having on file at the center verification of the responsible staff member's experience, training or certification; and

14.9.c.3. Ensuring that the responsible staff member is present at the site of the activity.

~~14.11.~~14.10. Water Activities. When a center plans water activities, the center shall:

14.10.a. Have on file at the center written permission dated and signed by the parent prior to the child's participation in any water activity;

14.10.b. Ensure constant supervision of a child participating in any aspect of any activity involving water;

14.10.c. Ensure adequately prepared staff who are in the water or prepared to enter it at any time and have a system, known to the children and staff members, for checking to ensure that each child is safe when in the water;

~~14.11.d.~~14.10.d. Ensure that when a child is participating in a Level I or Level II water activity, a staff member is present who has successfully completed training in first aid and CPR, appropriate to the age of the child;

14.10.e. Ensure that when a child is participating in a Level II water activity, the activity is also guarded by an individual who:

14.10.e.1. Is an appropriately certified lifeguard;

14.10.e.2. Has skills in rescue and emergency procedures specific to the aquatic area and activities guarded; and

14.10.e.3. Is trained and supervised to enforce safety regulations, provide necessary instructions, and identify and manage environmental and other hazards related to the aquatic activity; and

14.10.f. Ensure proper equipment and safety further by:

14.10.f.1. Evaluating the child and classifying the child as either a swimmer or a non swimmer, prior to allowing a child to participate in a Level II water activity;

14.10.f.2. Assigning equipment, facilities and activities equivalent to the child's individual abilities and based on a child's classification; and

14.10.f.3. Ensuring that rescue equipment is in full working condition, available and accessible to a child at each water activity site.

14.11. Field Trip. When a center plans a field trip, the center shall:

14.11.a. Have on file a written field trip plan that includes:

- field trip;
- 14.11.a.1. The names of the children, staff members, and any other participants on the field trip;
 - 14.11.a.2. The departure and return times;
 - 14.11.a.3. The means of travel and routes to be taken;
 - 14.11.a.4. An alternate plan in case of bad weather;
 - 14.11.a.5. The name of a contact person at the center;
 - 14.11.a.6. The name, address, and telephone number, if applicable, of each destination;
 - 14.11.a.7. Relevant safety rules to be followed; and
 - 14.11.a.8. Special emergency procedures;

~~14.11.b. Obtain written permission from the child's parent prior to the field trip; and~~

~~14.11.c. Identify the name or names of the assigned qualified staff member or members responsible for the field trip who shall take with him or her a copy of the written field trip plan, first aid supplies and emergency information for each participating child.~~

§78-1-15. Health.

15.1. Child Immunization Records.

15.1.a. Within thirty (30) days of admitting a child, a center shall have on file a record of a child's immunizations or a plan for completion signed by the child's licensed health care provider.

~~15.1.b. If center policy allows, Exemptions from immunization requirements shall be available for parents who provide written documentation of religious objections to immunization, or who provide a signed statement from the child's licensed health care provider indicating that immunization is contraindicated based on the child's medical condition.~~

15.1.c. Exemption from immunization requirements shall be available for parents who provide a signed statement from the child's licensed health care provider indicating that immunization is contraindicated based on the child's medical condition

15.2. Child Health Assessment.

15.2.a. A center shall have on file no later than thirty (30) days after the admission, the child's health records, including a record of a health assessment signed by the child's licensed health care provider, that includes the following medical and developmental information, and any special required instructions for the center:

- 15.2.a.1. The child's current height and weight:

15.2.a.2. A description of any allergy, current health problem or condition that may affect the child's adaptation to care, including abnormal results of screening tests, for vision, hearing, tuberculosis, or lead poisoning;

15.2.a.3. Prescribed daily medications and any potential side effects; and

15.2.a.4. The child's health history, including, as applicable, information about a serious illness or significant communicable disease, an injury that required medical attention or hospitalization, a previous surgery, or a history of prematurity.

15.2.b. A center shall provide parents with a national periodicity WV HealthCheck periodicity chart for child health exams and shall ensure that a child's health assessment is updated with new or current information according to the schedule established by the American Academy of Pediatrics, or at least every six (6) months for the child twenty-four (24) months of age and under, and at least every two (2) years for the child under the age of six (6) years twenty-five (25) months and over.

15.2.c. If a child is between six (6) weeks and three (3) months of age, a center shall have on file a statement signed by the child's licensed health care provider permitting the child to enter group care.

15.3. Medical Treatment.

15.3.a. A center shall develop, implement and maintain health policies and procedures that include protocols to follow when medical treatment is required by a child whose parent has on file a signed statement objecting to treatment.

15.3.b. When the child's parent objects to medical treatment on the grounds that it conflicts with the convictions of his or her religion or conscience, the center shall have on file a statement of the objection to treatment signed by the child's parent.

15.4. Child Illness at the Center.

15.4.a. A center shall ensure that staff members observe a child daily and watch for changes that may indicate injury, infestation or illness, and record any observed changes in the child's file. Changes include:

15.4.a.1. Behavior or appearance that is unusual for a child;

15.4.a.2. A skin rash, itchy skin, or itchy scalp; or

15.4.a.3. A complaint of pain or not feeling well.

15.4.b. When staff members observe changes in a child that may indicate illness or when a child is ill, staff members shall:

15.4.b.1. Remove the child to a designated quiet area to rest comfortably under supervision;

15.4.b.2. Take the child's temperature and record it in the child's file;

15.4.b.3. Use universal precautions, as required; and

15.4.b.4. Contact the child's parent or other individual authorized by the parent to assume responsibility for the child.

15.4.c. When taking a child's temperature, staff members shall not use a mercury thermometer or the rectal method for any child.

15.4.d. A center shall inform the parent and suggest that the parent consult a licensed health care provider for a child who has a fever:

15.4.e. A center shall exclude a sick child from the center:

15.4.e.1. Immediately when a child has a serious communicable illness;

15.4.e.2. When the illness prevents a child from participating in routine activities;

15.4.e.3. When a child's illness results in a greater need for care than staff members can provide without compromising the health and safety of the other children;

15.4.e.4. When a child appears to have any of the following symptoms, unless a licensed health care provider determines that they do not indicate a communicable disease:

15.4.e.4.A. Fever with stiff neck, lethargy, irritability, or persistent crying;

15.4.e.4.B. Diarrhea in addition to signs of dehydration, such as a decrease in urination as indicated by a reduction in the number of wet diapers, no tears when crying or a decrease in activity, or blood or mucus in the stool;

15.4.e.4.C. Vomiting three (3) or more times, or with signs of dehydration;

15.4.e.4.D. Undiagnosed rash that is accompanied by a behavior change, difficulty in breathing or joint pain, or that is characterized by open sores, blood, red or purple pin-head spots, or bruises not associated with an injury, or lasts more than one (1) day;

15.4.e.4.E. Mouth sores with drooling;

15.4.e.4.F. Infestation, such as scabies or head lice;

15.4.e.4.G. Abdominal pain that is persistent, or intermittent with other signs such as a fever;

15.4.e.4.H. Difficulty in breathing; or

15.4.e.4.I. Lethargy such that the child does not play; and

15.4.e.5. When a child has any of the following diagnosed conditions;

15.4.e.5.A. Diarrhea and blood or mucus in the stool;

15.4.e.5.B. Contagious signs of pertussis, measles, mumps, chicken pox, rubella or diphtheria;

- (24) hours;
- 15.4.e.5.C. Streptococcal infection until treated with antibiotics for twenty-four
 - 15.4.e.5.D. Pinkeye with yellow or white discharge;
 - 15.4.e.5.E. Untreated tuberculosis; or
 - 15.4.e.5.F. Other conditions as determined by a licensed health care provider.

15.4.f. When excluding a child to prevent transmission of illness or readmitting a child who has been excluded, the center shall abide by the following guidelines:

15.4.f.1. During the course of an identified outbreak of any communicable illness, the center shall exclude the child if a licensed health care provider determines that the child is contributing to the transmission of the illness;

15.4.f.2. When a child has been diagnosed with a vaccine-preventable communicable disease, a center shall exclude the child who has not been immunized against the disease until a licensed health care provider determines that a risk of disease transmission has passed;

15.4.f.3. When a licensed health care provider excludes a child because of a communicable illness, a center shall readmit the child only after the child's parent provides a signed statement from a licensed health care provider that the risk of transmission is no longer present and the child is well enough to participate in center activities; and

15.4.f.4. After receiving a signed statement from a licensed health care provider that the child poses no health risk to the children at the center, the center may permit the child to remain at the center.

15.4.g. Guidelines for handling reportable diseases introduced in a center include that:

15.4.g.1. A center shall report to the local health department the introduction of a diagnosed reportable disease as listed in Appendix 78-1 ~~EB~~ of this rule, including, chickenpox, diphtheria, giardia lamblia, hepatitis A, mumps, meningitis, pertussis (whooping cough), rheumatic fever, rubella (German measles), rubeola (measles), salmonella, shigella, and tuberculosis;

15.4.g.2. A center shall inform the parent of each child immediately of the presence of the disease and the need to contact a licensed health care provider for further information; and

15.4.g.3. A center shall complete a serious occurrence report as required under this rule.

15.4.h. Medication Administration. With advice from a licensed health care provider, a center shall develop, implement and maintain health policies and procedures that include the following procedures for the administration of medication:

15.4.h.1. A center shall only administer medication with written permission from the child's parent, and with a prescription or a written order from a ~~physician or other~~ licensed health care provider except as provided for in section 15.4.h.7.;

15.4.h.2. ~~A center may refuse to administer non-prescriptive medications; The center shall secure instructions from the child's parent for each medication to be administered. The center may not accept instructions that indicate to administer the medication on an as needed basis unless the order is~~

accompanied by a medical treatment plan written by the child's licensed health care provider which describes the as needed condition. All medication instruction must be legibly written, signed by the parent, attached to the medication log and must include:

15.4.h.2.A. Child's first and last name;

15.4.h.2.B. Name of medication to be given;

15.4.h.2.C. Reason the medication is being given;

15.4.h.2.D. Directions for the administration of medication including the specific dosage, specific frequency or time to be given, route to be given and the time of the last dosage administered by the parent.

15.4.h.3. A center may secure a parent's written permission to apply sun screen supplied by the center provided the center gives the parent information, in writing, about the product prior to its application.

~~15.4.h.3-15.4.h.4.~~ A center shall store all medication in its original bottle or package and shall place medication other than sun screen and diaper ointment in a locked cabinet or container that is inaccessible to children and can be opened only by key or combination. The container or cabinet shall be away from food, and refrigerated or unrefrigerated according to instructions on the prescription, order or label. ~~When a center stores medication and food in the same refrigerator, the center shall place the medication in a sealed plastic container;~~

15.4.h.4.A. Refrigerated medication shall be in a container which cannot leak;

15.4.h.4.B. If the container used is plastic, it shall be a hard molded plastic container. Plastic bags are prohibited for storage.

~~15.4.h.4-15.4.h.5.~~ A center shall ensure that medication is only administered by designated qualified staff members with training in medication administration;

~~15.4.h.5-15.4.h.6.~~ A center shall ensure that prescription medication is only administered when:

~~15.4.h.5.A.~~ The prescriptive medicine bottle or package has the original pharmacy label showing the prescription number, name of the medication, date the prescription was filled, the licensed health care provider's ~~physician's~~ name, the child's first and last names, specific, legible directions for administration and storage, and the expiration date; ~~or~~

15.4.h.7. A center shall ensure that non-prescription medication is only administered when the following criteria are met:

15.4.h.7.A. The center administers oral non prescription medication for no more than three (3) consecutive days within a thirty (30) day period without written instruction from a licensed health care provider;

15.4.h.7.B. The center applies non prescription topical products (ointments, creams, or lotions) for no more than five (5) consecutive days within a thirty (30) day period without written

instruction from a licensed health care provider. Sunscreens or lip balms used for preventative purpose are excluded from this requirement;

~~15.4.h.5.B~~-15.4.h.7.C. The original non prescriptive medicine bottle or package also has a label with the child's first and last names written by the parent, specific, legible directions for administration including the appropriate dosage based on weight or age, directions for and storage, and the name of the licensed health care provider who wrote the order and the date of the order verification that the medicine will not expire during the time to be used;

15.4.h.7.D. Medication to reduce fever does not contain aspirin or any product containing aspirin listed as an ingredient such as sodium bicarbonate (Alka-Seltzer®) or bismuth subsalicylate (Pepto-Bismol®);

15.4.h.7.E. Medication for cough, cold or congestion does not contain codeine;

15.4.h.7.F. Any topical containing diphenhydramine hydrochloride (Benydryl®) shall not be applied without written instruction from a licensed health care provider.

15.4.h.7.G. That the medication shall not be administered in a manner inconsistent with the manufacturer's recommendations without written instructions from the child's licensed health care provider.

15.4.h.7.H. The center shall ensure that a staff member applies sunscreen or lip balm for a child up to school age. The sunscreen shall be applied in accordance with the product labeling guidelines.

15.4.h.7.I. The center shall permit a school age child to apply his or her own sun screen or lip balm under the direct supervision of a staff member.

~~15.4.h.6~~-15.4.h.8. A center shall ensure that before administering medication when the directions are not legible, the parent checks with staff members check with the child's licensed health care provider or, if applicable, the pharmacy that filled the prescription;

~~15.4.h.7~~-15.4.h.9. When a child no longer needs the medication or its expiration date passes, a center shall return the medication to the parent, and document the date of its return. A center shall not administer medication after its expiration date;

~~15.4.h.8~~-15.4.h.10. A center shall ensure that records of medication administration are individual and kept:

~~15.4.h.8.A~~-15.4.h.10.A. In a medication log that is cumulative; and

~~15.4.h.8.B~~-15.4.h.10.B. Completed in ink by the staff member who administers the medication, and includes the child's name, the name of the medication, the date and time of the administration, the ~~name and~~ dosage and route of the medication, the child's reaction, if any, and the name of the staff member who administered it.

15.4.h.10.C. Sunscreen and lip balm application are not required to be logged.

15.4.h.11. A center shall ensure when a documentation error is made that a single line is drawn through the error with the staff person correcting the error initialing it.

~~15.4.h.9.~~15.4.h.12. A center shall ensure if and when a medication error is made, the staff member who makes the error:

~~15.4.h.9.A.~~15.4.h.12.A. Informs the center director and the parent of the child affected by the error;

~~15.4.h.9.B.~~Contacts the licensed health care provider of the child affected by the error;

~~15.4.h.9.C.~~15.4.h.12.B. Completes a serious occurrence report as required under the rule;

~~15.4.h.9.D.~~15.4.h.12.C. Observes the child for any reaction to the error and, if a licensed health care provider has been contacted, follow the provider's instructions the child shows a reaction, contacts 911. If 911 service is not available to the area then emergency services shall be contacted; and

~~15.4.h.9.E.~~Draws a line through an incorrect recording entry, initials the error and writes the correct information; and

~~15.4.h.10.~~15.4.h.13. A center may permit a child to self-administer his or her own medication under the following circumstances:

~~15.4.h.10.A.~~15.4.h.13.A. With written permission from the child's parent and licensed health care provider physician and in accordance with procedures established in this rule, a child may self-administer asthma medication, emergency allergy medication or other similar emergency medication;

~~15.4.h.10.B.~~15.4.h.13.B. With written permission from the child's parent and licensed health care provider physician, the center may establish procedures to permit the child, under supervision, to self-administer insulin or other injected medication that the child requires; ~~or~~ and

~~15.4.h.10.C.~~15.4.h.13.C. When the child self-administers medication, qualified staff members will keep a written record of the administration in the medication log.

15.4.h.14. A center shall have a procedure that requires medication logs be reviewed on a daily basis to ensure that medicine is being properly administered and documented.

15.4.h.15. A center shall post the "Seven Rights of Medication Administration" near to the storage of medication.

~~15.4.i.~~Prior to the application of sun screen for outdoor play, the center shall:

~~15.4.i.1.~~Have written permission from the parent on file;

~~15.4.i.2.~~Ensure that the sun screen is labeled with the child's first and last names;

~~15.4.i.3.~~Give the parent written information about the sun screen;

~~15.4.i.4. Ensure that a staff member applies sun screen to a child up to four (4) years of age; and~~

~~15.4.i.5. Permit a child more than four (4) years of age to apply his or her own sun screen under direct supervision of a staff member.~~

15.5. Dental Health.

15.5.a. A center shall develop a dental health plan that provides for staff training in oral health concepts and child oral health education, appropriate to the age of the children at the center.

15.5.b. Staff members shall not give a child a bottle, a sipping cup of milk or juice as a pacifier.

15.5.c. For a child twenty-five (25) months and over, a center shall ensure that the child:

15.5.c.1. Has a personally labeled toothbrush with bristles in good condition, that is stored in a sanitary manner so that it does not touch another toothbrush and that its bristles are exposed to the air to dry;

15.5.c.2. Does not share his or her toothbrush with other children; and

15.5.c.3. Uses toothpaste that is dispensed in a sanitary manner.

§78-1-16. Nutrition and Food.

16.1. Dietary Guidelines for children beginning at age two (2). A center shall provide children with meals and snacks that are consistent with the United States Department of Agriculture's current Dietary Guidelines for Americans (See Appendix 78-1-C.) as set forth in Appendix 78-1-D of this rule.

16.2. Dietary guidelines for children under 24 months of age:

16.2.a. At a minimum, meals and snacks the facility provides for infants and toddlers shall contain food in the meal and snack patterns shown in Appendix 78-1 C. Food shall be appropriate for infants' individual nutritional and developmental stages as determined by written instruction from the parents or licensed health care providers.

16.2.b. The center shall offer solid foods and fruit juices to infants 6 months of age and younger only upon the recommendation of the parent and the child's licensed health care provider.

16.2.16.3. Special Dietary Needs. When planning meals and snacks a center shall:

16.2.a.16.3.a. Consider information provided by the parent or a licensed health care provider about a child's special dietary needs, including special needs because of a medical condition ~~or other reason, such as vegetarianism~~ or a religious prohibition; and

16.2.b.16.3.b. Keep information about the child's special dietary needs in a location that is accessible to staff who prepare and serve food, while protecting a child's right to confidentiality.

16.3.16.4. Food Groups. A center shall include foods from the four (4) basic food groups: milk, ~~protein meat/beans~~, fruits and vegetables, and grains, ~~as listed in Appendix 78-1-D of this rule~~, for the child thirteen (13) months of age and over as follows:

20.3.b. Hazardous Chemical and Toxic Items. A center shall ensure that:

20.3.b.1. Products containing potentially hazardous chemicals, including identified poisons, medications, certain cleaning supplies, and art supplies, not clearly labeled as "nontoxic," are inaccessible to the children in a locked cabinet away from food, and when possible, stored in their original containers and never in containers originally designed for food; and

20.3.b.2. For each product containing potentially hazardous chemicals, a center has on file a material safety data sheet, available at the point of purchase or from the manufacturer.

20.3.c. Lead Paint. A center shall seal or remove lead paint from the premises according to current safety standards and at a time when the children are absent during the entire sealing or removal process. The center shall secure approval from the Health Department prior to implementing a plan to deal with lead paint.

20.3.d. Electrical Equipment.

20.3.d.1. Electrical cords. A center shall ensure that each electrical cord is insulated and in good repair.

20.3.d.2. Extension cords and plug-in strips. A center shall not use an electrical extension cord except on a temporary basis, but if using it shall ensure that the cord is in good repair. A center may use an electrical multiple plug-in strip with a circuit breaker in good repair.

~~16.1.e.1-~~20.3.d.3. Electrical Outlet. A center shall ensure that when an electrical outlet within reach of a child younger than school age is not in use, it is protected by a cover.

~~16.1.e.2-~~20.3.d.4. Electrical Appliance. A center shall not locate an electrical appliance in an activity area used by a child except for a brief period when an adult supervises the use of the electrical appliance for a program.

20.3.e. Microwave Oven. If a center uses a microwave oven, the center shall train staff members in the correct use and potential dangers of the oven and post a warning on or near the oven to check the temperature of food heated in the oven before feeding it to a child.

20.3.f. Heating Devices. A center shall provide a shield to protect the children from a hot pipe or radiator and shall not use unvented fuel fire heaters.

20.3.g. Doors. A center shall ensure that:

20.3.g.1. All doors close properly and fire doors are closed at all time; and

20.3.g.2. All clear glass doors are clearly marked at the children's eye level.

20.3.h. Floors. A center shall firmly anchor all floor coverings.

20.3.i. Barriers and Gates. The center shall ensure that:

~~16.1.e.3-~~20.3.i.1. All temporary walls or items being used as physical barriers are firmly anchored or cannot be moved or tipped by a child so that they pose no threat to the safety of the child; and

20.3.i.2. Stairways to which the child has access have appropriate railings and safety gates or other barriers at the top and bottom.

20.3.j. Strings, Cords and Hanging Items.

20.3.j.1. When a child wears a piece of clothing with a drawstring, a center shall:

20.3.j.1.A. Inform the child's parent of the potential risk of strangulation; and

20.3.j.1.B. Ensure that prior to the child's participation in an activity, staff members remove or secure any drawstring that might pose a risk to the child.

20.3.j.2. Pacifiers. A center shall ensure that a pacifier attached to a string or ribbon that is six (6) inches or more in length, is not placed around a child's neck or affixed to the child's clothing.

20.3.j.3. A center shall ensure that a child under school age does not have access to a string or cord that is six (6) inches or more in length and attached to a fixed object, such as a window shade, or access to other hanging items, such as a tablecloth.

20.4. Outdoor Safety.

20.4.a. Barriers and Exits.

~~16.1.e.4-~~20.4.a.1. A center shall ensure that the outdoor play activity area for a child under school age:

20.4.a.1.A. Is enclosed on all sides by a natural barrier or secure fence that is at least four (4) feet high with a bottom edge that is less than three and one-half (3 ½) inches from the ground;

20.4.a.1.B. If it has a fence, the fence has no openings greater than three and one-half (3 ½) inches;

20.4.a.1.C. If it has a natural barrier, the barrier has the strength and density to prevent humans and animals from entering or exiting the playground;

20.4.a.1.D. If it is attached to a building, the barrier or fence provides at least two (2) exits from the play area, including one (1) exit that is at a distance from the building; and

20.4.a.1.E. When it has an exit that does not lead directly indoors, that it is protected by a gate equipped with a closure mechanism that is out of the reach of a small child and prevents the child from leaving the play area, but can be easily opened by an adult.

~~16.1.e.5.20.4.a.2.~~ 20.4.a.2. A center may use an unenclosed outdoor play activity area for school-aged children if it is determined to be hazard-free by the Secretary.

~~16.1.d.20.4.b.~~ 20.4.b. Surfaces for Play Area. A center shall ~~have up to four (4) years from the effective date of this rule to comply with the requirements of this section to ensure:~~

20.4.b.1. That the play area has more than one (1) type of surface, including a surface that is suitable for children's wheeled vehicles and pull toys;

20.4.b.2. That the surface of the play area in an equipment use zone is composed of:

20.4.b.2.A. Loose fill, including sand, pea gravel, shredded tires, wood chips or wood mulch, to a depth of at least six (6) inches, increasing with the height of the equipment to twelve (12) inches as recommended by the Consumer Product Safety Commission as specified in Appendix 78-1 E of this rule;

20.4.b.2.B. A unitary surface, such as rubber tiles or mats, or rubber poured in place; or

20.4.b.2.C. An appropriate combination of loose fill and unitary surface material;

20.4.b.3. That hard surface materials, such as asphalt, concrete, bricks, blocks, dirt and grass, are not used in equipment use zones;

20.4.b.4. That appropriate surface materials are located directly under equipment and extend six (6) feet in all directions from the perimeter of the equipment, except from swings where they extend according to the following:

20.4.b.4.A. For single-axis, traditional swings, through a use zone that is twice the height from the ground to the crossbar, front and back; and

20.4.b.4.B. For tire swings that rotate, six (6) feet beyond the farthest reach of the tire in all directions; and

20.4.b.5. That concrete footings are covered by surface material to a depth that is adequate to prevent injury from a fall as recommended by the Consumer Product Safety Commission as specified in Appendix 78-1 E of this rule.

20.4.c. Hazards. A center shall ensure that:

20.4.c.1. The play area is well drained and free of debris;

20.4.c.2. The outdoor environment is clear of hazards, including pits and abandoned wells, tree roots, appliances and all potential hazards, including heat pumps, air conditioning units and external wiring, meters and telephone boxes, are inaccessible to the child;

20.4.c.3. The child is protected from moving vehicles; and

~~16.1.d.1.20.4.c.4.~~ 20.4.c.4. When there is reason to believe that exposure to the soil in the outdoor play activity area might harm the child, it has on file evidence that the soil does not contain hazardous levels of any toxic chemical or substances.

§78-1-21. Pest Management.

21.1. A center shall document that it has an integrated pest management program as required by the WV Department of Agriculture.

21.2. A center shall provide for insect and rodent control that does not compromise safety of children.

§78-1-22. Transportation.

22.1. When providing transportation, a center shall ensure that:

22.1.a. The vehicle used is currently licensed, inspected, insured, and is equipped with signs and warning lights or alternative warning devices as required by W.Va. Code §17C-2-7a;

22.1.b. By September 1, 2012, any vehicle used for transportation that has a capacity that exceeds ten (10) passengers shall meet the National Highway Traffic Safety Administration (NHTSA) standards for a school bus. Provided, that any vehicle used prior to September 1, 2012 for transportation that has a capacity that exceeds ten (10) passengers and does not meet the NHTSA standards shall follow the recommendation of the NHTSA for preventing rollover.

22.1.c. By July 1, 2008, any center which provides transportation in a vehicle with a capacity that exceeds ten (10) passengers and does not meet the standards for a school bus shall submit a plan to the Secretary for how the center will comply with requirement 22.1.b.

~~22.1.b.~~
20.1.a.22.1.d. The driver is at least twenty-one (21) years of age and holds a current driver's license for the type of vehicle being driven;

~~22.1.c.~~

23.4.c.2. Recognize and encourage acceptable behavior;

23.4.c.3. Make eye contact with the child whenever possible when speaking to the child;

23.4.c.4. Supervise with kindness, understanding and firmness;

23.4.c.5. Set expectations for behavior, define clear limits, set fair and consistent rules and when appropriate, permit the school-age child to participate in the development of rules and procedures;

23.4.c.6. Help a child develop self control to assume responsibility for his or her own actions;

23.4.c.7. State expectations in the positive; and

23.4.c.8. Visually post expectations so that children are encouraged to regulate their own behaviors.

23.4.d. When unacceptable behavior persists with the school-age child, the qualified staff member in accordance with the child's age and developmental level shall:

23.4.d.1. Talk with the child privately and calmly;

23.4.d.2. Help the child to verbalize the expectation that is not being met;

23.4.d.3. Help the child to verbalize the reason for the expectation;

23.4.d.4. Help the child to verbalize acceptable choices and possible solutions;

23.4.d.5. Help the child to verbalize possible consequences if the unacceptable behavior continues.

23.4.e. When conflict between children becomes physical, staff shall intervene immediately and use positive problem-solving methods.

23.5. Space. When a center operates a summer recreation camp:

23.5.a. The center shall provide at least ten (10) square feet of useable indoor activity space per child inside or provide a covered permanent structure that has the required activity space;

23.5.b. The center shall submit a plan for the Secretary's approval for outdoor activity space to meet the children's outdoor activities requirement and shall use the outdoor space only after receiving the Secretary's written approval.

23.6. Toilets. A summer recreation camp program that receives written approval from the local health department may use a commercial portable toilet and warm water, soap, paper towels, rinse water and a pit or other method for disposing of waste water.

23.7. Program. Programs for school-age children shall:

23.7.a. Meet the goals of the center as established by the statement of purpose;

23.7.b. Be based on knowledge of child development for the school-age child;

23.7.c. Have a schedule for routines that is posted and is predictable and in accordance with Subsection §78-1-14.1 of this rule other than the following:

23.7.c.1. Out-of-school time programs shall reflect the time of day and the number of hours that care is provided before school, after school, and on days when school is closed.

23.7.c.2. Out-of-school time programs shall provide activity that transitions the child from home to school in the morning and from school to home in the evenings;

23.7.c.3. Summer recreation camps shall have a schedule that provides for outdoor and/or off-site activity 80% of the time weather permitting;

23.7.d. Have varied and well-planned activities;

23.7.e. Have a qualified staff person verbally communicate the expectations for each activity;

23.7.f. Have activities which are age appropriate, offer challenges and incorporate skill level progression of the school-age child;

23.7.g. Offer options when it is recognized that the skill level is too difficult for the child.

23.7.h. Engage children in decision making and program activity development;

23.7.i. Offer the opportunity for projects that can be completed independently with only guidance from staff;

23.7.j. Offer group projects, group play and interest group involvement;

23.7.k. Offer interest centers such as art, dramatic play, school work, science, nature, music, reading, construction, physical activity;

23.7.l. Include activities within the community such as field trips, community work projects or volunteer activities;

23.7.m. Include diversity within activities;

23.7.n. Offer activities without bias to gender;

23.7.o. Encourage the development of life skills;

23.8. A center operating a summer recreation camp may allow for an occasional overnight activity. When offering the overnight activity the summer recreation camp shall:

23.8.a. Have a written plan of the activity and its oversight that is kept in an administrative file;

23.8.b. Provide staff with written instructions on the operation of the activity;

23.8.c. Provide parents with written information and any special instructions for the activity;

23.8.d. Ensure that the child's daily nutritional requirements are met;

23.8.e. Ensure there is safe drinking water available;

23.8.f. Provide a mat, cot or bed for each child;

23.8.g. Not have a child in care for more than 24 hours; and

23.8.h. Ensure that no staff member must remain awake for more than 18 hours and that if children are sleeping at least one staff member is awake at all times.

23.9. Nutrition. A center with an out-of-school time program shall serve a snack to the school-age child arriving after school;

23.10. Emergency procedures. A summer recreation camp and day camp shall comply with section §78-1-19 of this rule regarding emergency procedures except as stated below:

23.10.a. The camp must have a procedure for practicing moving to the safe location within the first two (2) days of camp and mid-way through the summer;

23.10.b. The camp will teach and implement a system that has staff and children taking account of children in the camp and immediately reporting if a child is missing;

23.10.c. A qualified staff member assigned to each group of children shall be responsible for carrying or having immediately available a first aid kit;

23.10.d. When a center operates a summer recreation camp program or day camp program at a site where a direct-line telephone is not available then the center must ensure that staff members have access to a working communication device that will allow contact to emergency personnel.

§78-1-234. Enforcement Actions.

The secretary may revoke or make a license provisional, or issue an order of closure to a Day Child Care Center in accordance with W.Va. Code §§49-2B-11 and -12.

~~§78-1-245. Administrative and Judicial Review.~~

~~24.1.25.1 In accordance with the provisions of W.Va. Code §49-2B-13, an applicant or licensee aggrieved by a decision of the Secretary may seek an administrative review of the decision by making a request for a hearing by the Secretary within thirty (30) days of receiving notice of the decision.~~

~~24.2.25.2 An applicant or licensee may seek immediate relief from a decision of the Secretary by a showing of good cause made by verified petition to the circuit court of Kanawha County or the circuit court of the county in which the affected center is located.~~

APPENDIX 78-1 A: CORE COMPETENCIES OF EARLY CHILDHOOD EDUCATORS

Core Competencies of Early Childhood Educators have been developed in West Virginia to identify the skills and knowledge that early childhood educators need to effectively serve young children and their families. In West Virginia, it is implicitly understood that these competencies are necessary to promote the optimal development of all children, including those with special needs, and that activities and environments should be adapted to accommodate each child's learning modality and style.

The Core Competencies of Early Childhood Educators developed in West Virginia are based on the National Association for the Education of Young Children's (NAEYC) *Guidelines for the Preparation of Early Childhood Professionals* and the requirements for the Child Development Associate (CDA) credential. A competent early childhood educator:

Safety

- Provides a safe environment to prevent and reduce injuries;
- Is attentive to children's activities;
- Has skills and knowledge to prevent injuries and handle emergencies and injuries appropriately when they occur;
- Has formal training and current Certification in First Aid for children, including rescue breathing; and
- Recognizes indicators of child abuse and neglect and understands legal responsibility to report suspected child abuse.

Health

- Is familiar with what diseases require exclusion of children; what diseases require isolation of children in attendance; and what diseases and conditions can be included in the regular classroom;
- Models and promotes good health and nutrition habits;
- Provides environment that contributes to the prevention of illness;
- Nurtures children's developing identity and feelings of self-worth;
- Integrates health care activities into the curriculum;
- Can identify symptoms of common early childhood illnesses;
- Provides for nutritional needs of children as specified under USDA; and
- Can demonstrate effective procedures to prevent the spread of disease.

Environment

- Appropriately addresses issues of space, social relationships, materials and routines in setting the environment;
- Promotes warm, positive, nurturing and respectful interactions among providers, children and families;
- Creates an interesting, secure and enjoyable environment that encourages play, exploration and learning;
- Supports a broad array of experiences;
- Establishes a reliable routine;
- Maintains an appropriate adult/child ratio; and
- Encourages visits and participation by parents and includes families as partners in the provision of services.

Physical Development

- Provides a variety of equipment, activities and opportunities to promote the physical development of children;
- Provides for physical development, including large and small muscle strengthening, coordination and control;

- Recognizes, respects and accommodates wide differences in individual rates of physical development;
- Demonstrates an understanding of patterns and stages of a child's physical growth; and
- Observes and discusses with parents and notes in writing any unusual patterns of growth or unusual behavior that might be related to physical capability.

Cognitive Development

- Provides activities and opportunities that encourage curiosity, exploration and problem-solving;
- Uses developmental criteria and an understanding of learning styles in working with children;
- Responds to children's interests by providing new learning opportunities;
- Responds to children's questions with information and enthusiasm;
- Respects the relationship of cognitive development to other areas of development (physical, social and emotional);
- Demonstrates an understanding of patterns and stages of a child's cognitive growth; and
- Understands and can explain to parents the ways in which each of the activities for children contribute to cognitive development.

Development of Creativity

- Provides opportunities that stimulate children to play with sound, rhythm, language, materials, space and ideas in individual ways;
- Supports and respects children's expression of creative abilities;
- Encourages spontaneous expression; and
- Expands children's imaginations.

Communication

- Communicates verbally and non-verbally with other staff to create a well-functioning team;
- Models good communication skills;
- Provides opportunities and support for children to understand, acquire and use verbal and non-verbal means of communicating thoughts and feelings;
- Provides ample opportunity for children to listen, interact and express themselves freely with other children and adults; and
- Demonstrates an understanding of the patterns and stages of a child's language development.

Self

- Provides physical and emotional security for each child;
- Helps each child to know, accept and take pride in himself or herself;
- Helps children develop independence;
- Demonstrates and encourages respect for a valuing of cultural, racial, gender, socio-economic and physical ability differences;
- Supports the child's self-esteem by providing opportunities for children to master new abilities, to experience success and safely make mistakes;
- Helps children find their own ways to handle increasingly challenging tasks;
- Demonstrates an understanding of patterns and stages of a child's self-growth;
- Recognizes each child as a unique person and establishes a caring relationship; and
- Recognizes each child's identity as part of a family and works in partnership with parents.

Social

- Helps each child feel secure and accepted in the group;
- Helps children learn to communicate and get along with others;
- Encourages feelings of empathy and mutual respect among children and adults;
- Integrates multi-cultural and anti-bias themes, literature and experience in all curriculum areas;
- Demonstrates an understanding of patterns and stages of a child's social development; and
- Demonstrates the ability to facilitate the development of group cooperation among the children and to contribute to a feeling of community and family supportiveness in the program as a whole.

Guidance

- Provides a supportive environment in which children learn and practice appropriate and acceptable behaviors;
- Provides consistent limits and realistic expectations;
- Clearly and positively defines expectations;
- When setting expectations, takes into account each child's development and needs;
- Supports children's efforts to independently resolve their own problems;
- Discusses guidance with parents and makes sure that children understand any differences in approach between the home and the program; and
- Demonstrates ability to use positive methods of guidance rather than punishment.

Families

- Supports the family's role as primary care giver and teacher of their children;
- Respects and supports each child's cultural, racial and socio-economic background
- Creates and maintains open, friendly, cooperative relationships with each child's family;
- Encourages each family's involvement in the program in a variety of ways, responsive to each family situation:
- Supports the child's relationship with his or her family;
- Respects the diverse values of families;
- Individualizes referrals to community resources for families;
- Recognizes children and families with emotional distress, abuse and neglect, and provides avenues of assistance;
- Establishes regular communication with parents to gain needed information about the child's life outside the program and give parents needed information about the child's play; and
- Generates opportunities for the program and parents to collaborate.

Program Management

- Works cooperatively with co-workers and families
- Has a systematic approach to organizing, planning and keeping records;
- Delegates responsibility;
- Uses all available resources to ensure effective operation;
- Keeps accurate records of needs, plans and practices; and
- Observes and records children's behavior, and makes plans based on observed needs.

Professionalism

- ~~Make decisions based on knowledge of early childhood theories and practices;~~
- ~~Promotes quality in child care services;~~
- ~~Takes advantage of opportunities to improve competence;~~
- ~~Continues to set new goals, and take initiative;~~
- ~~Works to resolve issues and problems cooperatively and respectfully;~~
- ~~Advocates for quality child care;~~
- ~~Develops relationship with other child care professionals for support and information exchange;~~
- ~~Is familiar with and assists families in accessing available community resources; and~~
- ~~Joins professional organizations and plays responsible role.~~

Exploration and Mastery of Skills and Language	Grasping Toys: teething toys, beads on rings, rubber or plastic pop beads, squeeze-squeak toys, sturdy cloth toys, disks or keys on a ring, interlocking rings, grasping balls; Construction: light-weight blocks for grasping and stacking; Puzzles: simple two- or three-piece fit-together objects used as grasping toys; Skill-Development: pop-up boxes, simple activity boxes or cubes, texture pads, simple nesting cups, stacking ring cones, container to empty and fill; Books: small picture books of cloth or plastic or cardboard to hold; simple picture books for lap reading.
Music, Art and Movement	Art and Crafts: large, nontoxic crayons, large paper taped to a surface; Musical Instruments: bell on a handle, wrist or ankle bells, rattles or materials that make a sound when shaken, banging materials that are simple and light-weight; Audio-Visual Materials: adult-operated tapes or discs with simple rhymes and songs.
Gross Motor	Large-Movement: push and pull toys without rods, such as simple cars on large wheels or rollers; Balls and Sports: balls, including clutch and texture balls, chime, flutter and action balls; Outdoor and Gym: safe swings sized and designed for infants, low soft or padded climbing platforms for the child who crawls.

TABLE C: EQUIPMENT AND MATERIALS FOR THE CHILD 13 - 24 MONTHS OF AGE

Type of Materials	Types of Supplies and Equipment
Social and Fantasy	<p>Non-breakable Mirrors: well-secured unbreakable wall mirrors, unbreakable full-length and hand mirrors; Dolls: soft-bodied or washable rubber or vinyl baby dolls (no moving eyes or articulated limbs), simple accessories for care giving (feeding, diapering and sleeping), dolls clothes that are simple and removable, and (from about 18 months) small peg or other people figures that can not be swallowed; Stuffed Toys: washable, soft animals with features that are painted, stitched or molded and soft rubber or vinyl animals for exploration and beginning pretend play; Puppets: hand puppets for holding by adults and (from about 18 months) small hand puppets sized to fit the child's hand; Transportation: simple, light-weight vehicles, with large wheels or rollers, that are light-weight, rounded or molded in appearance and may make a noise when pushed, first trains with one or two cars and a simple or no coupling system but no tracks, and (from about 18 months) more detailed vehicles or trains with simple coupling systems such as wood links, blunt hooks or magnets; Role-Play: play telephone, simple housekeeping and work-role equipment, simple doll equipment; Play Scenes: (from about 18 months) small people or animal figures with simple supporting materials such as a vehicle or barn, or unit blocks to make familiar scenes.</p>
Exploration and Mastery of Skills and Language	<p>Grasping Toys: (the child may be losing interest in small hand-held manipulatives); Sand and Water: simple floating objects that are easily grasped in one hand, a small shovel and pail, and (from about 18 months) nesting materials for pouring, funnels, colanders, water activity centers and small sand tools; Construction: light blocks made of soft cloth, rubber or rounded plastic, wooden cubes for grasping and stacking (15 – 25 pieces) and (from about 18 months) unit blocks (20 – 40 pieces), large plastic bricks of the press together type; Puzzles: simple pre-puzzles or form boards in familiar shapes (2-3 pieces) and (from about 18 months) fit-in puzzles with very firmly attached knobs (3-5 pieces); Skill-Development: pop-up boxes that operate easily, simple activity boxes or cubes with doors, lids or switches, simple nesting cups and stacking materials, and (from about 18 months) activity boxes with more complex mechanisms such as a turning knob or dial or simple key, simple lock boxes, more complex nesting materials, objects in closed containers that may be opened, stacking materials (4-5 pieces), cylinder blocks, pegboards with a few large pegs, simple matching and lotto materials; Books: picture books made of cloth, plastic or cardboard, simple picture and rhyme book with repetition for lap reading, and (from about 18 months) touch-me or tactile books.</p>
Music, Art and Movement	<p>Art and Crafts: a few large, nontoxic crayons and large paper taped to a surface; Musical Instruments: rhythm instruments operated by shaking (bell, rattles) and (from about 18 months) instruments for banging (cymbals, drums); Audio-Visual Materials: adult-operated tapes or discs, music with simple repeating rhythms, rhymes and songs, and (from about 14 months) music to “dance” (bounce) to, and (from about 18 months) simple point-to and finger-play games and songs.</p>
Gross Motor	<p>Large-Movement – Push and Pull Toys: push toys with rods with handles on the ends, toys to push along the floor, including simple cars or animals on large wheels or rollers, and (from about 18 months) simple doll carriages and wagons and push and pull toys filled with multiple objects; Balls and Sports: soft, light-weight balls especially balls with interesting audio or visual effects, larger balls including balls the size of beach balls, and (from about 18 months) balls for beginning throwing and kicking; Ride-On Equipment: stable ride-ons propelled by pushing with the feet,</p>

ride-ons with storage bins; **Outdoor and Gym:** climbing platforms that are low, sort or padded, tunnels for climbing through, baby swings made of energy-absorbing materials with seats curved or body shaped and a front closing, and (from about 18 months) low toddler stairs with handrails.

TABLE D: EQUIPMENT AND MATERIALS FOR THE CHILD 24 - 36 MONTHS OF AGE

Type of Materials	Types of Supplies and Equipment
Social and Fantasy	<p>Non-breakable Mirrors: well-secured unbreakable wall mirrors, unbreakable hand mirrors; Dolls: soft-bodied or washable rubber or vinyl baby dolls, simple accessories for care giving (feeding, diapering and sleeping), dolls clothes that are simple and removable, small peg or other people figures for fantasy scenes; Stuffed Toys: soft rubber, wood or vinyl animals for exploration and pretend play, including mother and baby animals; Puppets: small hand puppets sized to fit the child's hand and representing familiar human and animal figures and community diversity; Transportation: small cars and vehicles to use with unit blocks; larger vehicles for pushing and fantasy play, large wood trucks to ride on, simple trains with coupling systems but no tracks; Role-Play: dress-up materials, housekeeping equipment, simple doll equipment; Play Scenes: small people or animal figures with simple supporting materials such as a vehicle or barn, or unit blocks to make familiar scenes.</p>
Exploration and Mastery of Skills and Language	<p>Sand and Water: people, animals and vehicles for fantasy play, small containers for pouring, small tools such as a shovel or scoop; Construction: wooden unit blocks, large plastic bricks, large nuts and bolts; Puzzles: 4-5 pieces fit-in puzzles (from 24 months), and (from 30 months) 6-12 pieces fit-in puzzles; Skill-Development: 5-10 pieces to nest or stack, simple lock boxes, hidden-object pop-up boxes, safe pounding/hammering toys, cylinder blocks, shape sorters, matching materials, color or picture dominoes, feel bags or boxes or smell jars; Books: sturdy books with heavy paper or cardboard pages, tactile or touch-me, pop-up or hidden picture and dressing books; Pattern-Making: peg-boards with large pegs, color cubes, magnetic boards with forms; Dressing, Lacing, Stringing: large beads, cards and frames.</p>
Music, Art and Movement	<p>Art and Crafts: large, nontoxic crayons and markers, adjustable easel, large paint brushes, nontoxic paint and finger paint; large paper, colored construction paper, blunt-ended scissors, chalkboard and large chalk; Musical Instruments: rhythm instruments operated by shaking (bell, rattles) or banging (cymbals, drums) and more complex instruments (tambourine, sand blocks, triangle, rhythm sticks); Audio-Visual Materials: adult-operated tapes or discs, music with repeating rhythms for rhythm instruments, music to "dance" (bounce) to, simple point-to and finger-play games and songs, short films and videos of familiar objects and activities.</p>
Gross Motor	<p>Large-Movement – Push and Pull Toys: simple doll carriages and wagons, push toys that look like adult equipment; Balls and Sports: balls of all sizes, especially balls for kicking and throwing; Ride-On Equipment: stable ride-ons propelled by pushing with the feet, bouncing or rocking ride-ons, and (as the child nears 36 months) small tricycles; Outdoor and Gym: tunnels, appropriately sized and safe swings, low climbing structures and slides.</p>

TABLE E: EQUIPMENT AND MATERIALS FOR THE CHILD 36 -72 MONTHS OF AGE

Type of Materials	Types of Supplies and Equipment
Social and Fantasy	<p>Mirrors: full-length mirrors, unbreakable hand mirrors; Dolls: washable rubber or vinyl baby dolls and (for the child over 60 months), child-proportioned dolls with culturally relevant features and skin tones, accessories for care giving (feeding, diapering and sleeping), dolls clothes that are simple and removable, small peg or other people figures for fantasy scenes; Stuffed Toys: rubber, wood or vinyl animals for pretend play and to provide replicas of real domestic and wild animals for learning; Puppets: small hand or arm or finger puppets sized to fit the child's hand and representing familiar human and animal figures and community diversity, simple puppet theater; Transportation: cars and vehicles to use with unit blocks; larger vehicles with simple working parts for pushing and fantasy play, large wood trucks to ride on, small trains with magnetic or hook connections and simple wood tracks; Role-Play: detailed and culturally-relevant dress-up materials and props, housekeeping equipment, doll equipment; Play Scenes: small people or animal figures with simple supporting materials such as a vehicle or road sign or barn, to use with blocks or other materials to make familiar scenes.</p>
Exploration and Mastery of Skills and Language	<p>Sand and Water: people, animals and vehicles for fantasy play, small containers for pouring or measuring, large and small sand tools, and (after 48 months) sand molds and a water pump; Construction: wooden unit blocks, large hollow blocks, plastic bricks, and (from 48 months) most types of interlocking blocks, except metal or very small blocks; Puzzles: (at 36 months) fit-in or framed – puzzles up to 30 pieces; (at 48 months), 20-30 pieces; (at 60 months) up to 50 pieces; simple jig-saw puzzles – 10-25 pieces; number and letter puzzles, puzzle clocks; Skill-Development: materials for matching and sorting and ordering, geometric concept materials, number materials that are simple and concrete, measuring materials, simple mechanical devices such as gears and levers, science materials, natural materials to sort, plants and animals to care for, printmaking materials, beginning computer software; Books: picture books with simple stories and rhymes, complex pop-up books, age-appropriate stories; Pattern-Making: peg-boards with smaller pegs, color cubes, magnetic boards with forms, and (from 48 months) a variety of beads for stringing, mosaic books, felt boards, and (by 60 months) block printing materials; Dressing, Lacing, Stringing: cards and frames for lacing and sewing and (from 60 months) beginning weaving materials; Games: dominoes based on color or picture, simple matching and lotto games, bingo, and (from 48 months) simple card games and games requiring fine motor coordination, first board games based on chance not strategy, and (from 60 months) dominoes based on number and bingo or lotto based on letter or number matching.</p>
Music, Art and Movement	<p>Art and Crafts: large, nontoxic crayons and markers in many colors, adjustable easel, paint brushes of various sizes, nontoxic paint and finger paint; large paper, colored construction paper, easy-to-use-round-ended scissors, chalkboard and large chalk, paste and nontoxic glue, collage materials, clay and dough and tools, and (from 48 months) workbench and hammer, and (from 60 months) smaller crayons and markers, watercolor paints and simple sewing forms with blunt needles; Musical Instruments: all rhythm instruments, blowing instruments (for one-child use only) Audio-Visual Materials: live or recorded music for singing, movement or use with rhythm instruments, adult-operated tapes or discs with songs, rhymes and stories for listening, short films and videos.</p>

Gross Motor	Large-Movement – Push and Pull Toys: small wagons and wheelbarrows, push toys that look like adult equipment, and (from 60 months) full-sized wagons and sweepers that really work; Balls and Sports: balls of all sizes, especially balls for kicking and throwing, and (from 48 months) lightweight softballs and bats, and (from 60 months) jump rope and a lightweight flying disc; Ride-On Equipment: tricycles sized to the child, three and four-wheeled pedal toys, vehicles with a steering mechanism, full size rocking or bouncing “horse,” ride-ons that several children can use together, and (from 48 months) low-slung tricycles; Outdoor and Gym: stationary outdoor climbing equipment, appropriately sized and safe swings, and (from 48 months) slides with side rails and ladders and ropes or hanging bars and rings on a swing or climbing equipment and outdoor building materials.

TABLE F: EQUIPMENT AND MATERIALS FOR THE CHILD 6 -8 YEARS OF AGE

Type of Materials	Types of Supplies and Equipment
Social and Fantasy	Mirrors: mirrors that adults would use, unbreakable hand mirrors; Dolls: washable rubber or vinyl baby dolls with culturally relevant features and skin tones and accessories for care giving (feeding, diapering and sleeping), small peg or other people figures for fantasy scenes; Stuffed Toys: realistic rubber, wood or vinyl animals to incorporate into scenes and models or show characteristics for learning; Puppets: puppets that represent familiar and fantasy figures for acting out stories, simple puppet theater; Transportation: generic small models of cars and vehicles, construction or workbench materials to make models of forms of transportation; Role-Play: materials for creating and practicing real-life activities and letter-creating materials; Play Scenes: small people or animal figures with supporting materials to create fantasy scenes or models related to curriculum themes.
Exploration and Mastery of Skills and Language	Construction: large number of varied materials for detailed construction and for creating models (including metal parts and nuts and bolts); Puzzles: three-dimensional puzzles, and jig-saw puzzles with 50 to 100 pieces; Skill-Development: materials for making books, math manipulatives and fraction and geometrical materials, measuring materials, science materials, natural materials to examine and classify, plants and animals to study and care for, computer programs for language arts and books at a wide variety of difficulty levels for children to read, story books for reading aloud, books made by the children; Books: picture books with simple stories and rhymes, complex pop-up books, age-appropriate stories; Pattern-Making: mosaic tiles, geometric puzzles, art and craft materials for creating permanent designs; Dressing, Lacing, Stringing: bead stringing, braiding, weaving, spool-knitting and sewing materials; Games: simple card and board games, games based on words, reading and spelling, memory, and numbers and counting (dominoes, Pachisi) and beginning strategy games (checker, Chinese checkers).
Music, Art and Movement	Art and Crafts: a large variety of materials – crayons, markers, colored pencils, art chalks and pastels – in many colors, paint brushes of various sizes, a variety of paints including water colors, a variety of art papers for drawing and tracing and painting, regular scissors, paste and nontoxic glue, collage materials, clay that hardens, tools, more complex printing equipment, craft materials – simple looms, leather for sewing and braiding, papier-mache, plaster of paris, beads for jewelry- and a workbench with tools and wood for projects; Musical Instruments: a wide range of real instruments Audio-Visual Materials: live or recorded music for singing, movement or use with rhythm instruments, adult-operated tapes or discs with songs, rhymes and stories for listening or for the child’s independent use.
Gross Motor	Balls and Sports: youth or standard-size balls and equipment for beginning team play, materials for target activities; Ride-On Equipment: (riding bicycles is no longer considered a center activity); Outdoor and Gym: complex climbing structures including ropes, ladders, hanging bars and rings.

APPENDIX 78-1 DC: NUTRITION — ~~FOOD GROUPS AND MEAL AND SNACK PATTERNS~~

~~FOOD GROUPS~~

The United States Department of Agriculture's Dietary Guidelines for Americans recommend serving foods from the four (4) basic food groups: milk, protein, fruits, and vegetables, and grains. The chart below provides sample food from each food group.

	FOOD GROUP	SAMPLE FOODS
1	Milk	milk, yogurt, cheese
2	Protein	meat, fish, poultry, eggs, peanut butter, dried beans, dried peas
3	Fruits and Vegetables	a wide variety of green, white, yellow and red vegetables and fruits
4	Grains	Whole grain and enriched breads, cereals, pasta, crackers, and rice

MEAL PATTERNS

When planning meals and snacks, centers can be guided by the following meals patterns that are consistent with the United States Department of Agriculture's Dietary Guidelines for Americans and were developed for the Child and Adult Care Food Program.

A: MEAL PATTERNS FOR THE CHILD UP TO 12 MONTHS OF AGE

Age	Breakfast	Lunch or Supper	Supplement
Birth through 3 months	4-6 fl. oz. Formula ¹ or Breast milk ^{2 3}	4-6 fl. oz. Formula ¹ or Breast milk ^{2 3 6}	4-6 fl. oz. Formula ¹ or Breast milk ^{2 3}
4 through 7 months	4-6 fl. oz. Formula ¹ or Breast milk ^{2 3} 0-3 Tbsp. Infant Cereal ^{1 4}	4-6 fl. oz. Formula ¹ or Breast milk ^{2 3} 0-3 Tbsp/Infant Cereal ^{1 4} 0-3 Tbsp. Fruit and/or Vegetable	4-6 fl. oz. Formula ¹ or Breast milk ^{2 3}
8 through 11 months	6-8 fl. oz. Formula ¹ or Breast milk ^{2 3} 2-4 Tbsp. Infant Cereal ¹ 1-4 Tbsp. Fruit and/or Vegetable	6-8 fl. oz. Formula ¹ or Breast milk ^{2 3} 2-4 Tbsp. Infant Cereal ^{1 4 4} and/or 1-4 Tbsp. Meat, fish, poultry, egg yolk, cooked dry beans or peas or ½ - 2oz. Cheese: or 1-4 oz. Cottage Cheese, cheese food or cheese spread; and 1-4 Tbsp. Fruit and/or Vegetable	2-4 fl. oz. Formula, Breast milk ^{2 3} , or fruit juice ⁵ .1/2 Bread ^{4,6} or 0-2 Crackers ^{4,6}

¹Infant formula and dry infant cereal shall be iron fortified

²It is recommended that breast milk be served in place of formula from birth through 11 months.

³For some breast fed infants who regularly consume less than the minimum amount of breast milk per feeding, a serving of less than the minimum amount of breast milk may be offered with additional breast milk offered if the infant is still hungry.

⁴A serving of this component shall be optional.

⁵Fruit Juice shall be full strength.

⁶Bread and bread alternates shall be made from whole grain or enriched meal or flour.

APPENDIX 78-1 E-D – DIAPER CHANGING AND TOILET TRAINING

§64-21-9. Diaper Changing and Toilet Training.

- 9.1. Children shall be diapered or have soiled underwear changed in an established diaper changing area. The changing area shall not be located in food preparation areas.
- 9.2. Staff shall change children diapers or soiled underwear on a clean, safe, impervious, nonabsorbent surface that is used for no other purpose.
- 9.3. Staff shall clean the child's perineal (urinary and anal) area with disposable wipes.
- 9.4. After removing a soiled diaper and before putting a fresh diaper on a child, staff members shall wipe their own hands with a pre-moistened towelette or a damp paper towel.
- 9.5. Both the child's and the staff member's hands shall be thoroughly washed after each diaper change. If disposable gloves are used, they must be discarded immediately and hands washed.
- 9.6. Changing tables and surfaces shall be cleaned and disinfected after each use by cleaning to remove visible soil, followed by wiping with an approved disinfectant solution, whether or not disposable, nonabsorbent paper is used. If disposable paper is used, it shall be discarded immediately after each diapering.
- 9.7. Soiled cloth diapers and/or soiled training pants shall be stored in a labeled container with a tight-fitting lid provided by a commercial diaper service or in a sealed plastic bag that is sent home with the child at the end of the day. If diapers are laundered by a commercial diaper service, the service shall be accredited by the Diaper Service Accreditation Council. Feces from soiled cloth diapers or training pants shall be disposed of by dumping in a toilet.
- 9.8. Soiled disposable diapers shall be stored in conveniently located, washable, plastic-lined, tightly covered waste containers. Each container shall be labeled and kept clean and free of buildup of soil or odor.
- 9.9. Toilet training chairs, if used, shall be of easily cleanable construction and after each use shall be emptied into a toilet, and thoroughly cleaned and sanitized in a utility sink.
- 9.10. Hand washing sinks shall not be used for rinsing soiled diapers or clothing or for cleaning toilet training equipment.

APPENDIX 78-1 FE: OUTDOOR SURFACES

The following chart indicates the relationship between specific depths of surface materials and the critical height of play equipment that is the height below which a life-threatening head injury would not be expected to occur after a fall from the equipment. For example, six (6) inches of uncompressed wood chips is sufficient for equipment that has a critical height of seven (7) feet, but six (6) inches of medium pea gravel or fine or coarse sand is only sufficient for equipment that has a critical height of five (5) feet.

MATERIAL	UNCOMPRESSED DEPTH			COMPRESSED DEPTH
	6 inch depth	9 inch depth	12 inch depth	9 inch depth
Wood chips*	7-foot fall	10-foot fall	11-foot fall	10-foot fall
Double Shredded Bark Mulch	6-foot fall	10-foot fall	11-foot fall	7-foot fall
Engineered Wood Fibers **	6-foot fall	7-foot fall	>12-foot fall	6-foot fall
Fine Sand	5-foot fall	5-foot fall	9-foot fall	5-foot fall
Coarse Sand	5-foot fall	5-foot fall	6-foot fall	4-foot fall
Fine Pea Gravel	6-foot fall	7-foot fall	10-foot fall	6-foot fall
Medium Pea Gravel	5-foot fall	5-foot fall	6-foot fall	5-foot fall
Shredded Tires***	10-12-foot fall	N/A	N/A	N/A

* This product was referred to as Wood Mulch in previous versions of this handbook. The term Wood Chips more accurately describes the product.

** This product was referred to as Uniform Wood Chips in previous versions of this handbook. In the playground industry, the product is more commonly known as Engineered Wood Fibers.

*** This data is from test conducted by independent testing laboratories on a 6 inch depth of uncompressed shredded tire samples produced by four manufacturers. The test reported critical heights that varied from 10 feet to greater than 12 feet. It is recommended that persons seeking to install shredded tires as a protective surface request test data from the supplier showing the critical height of the material when it was tested in accordance with ASTM F1 292.

TITLE 78
LEGISLATIVE RULES
DEPARTMENT OF HEALTH AND HUMAN RESOURCES

SERIES 1
DAY CARE CENTERS LICENSING

Comments Summary and Response

§ 78-1-2. Application and Enforcement.

§ 78-1-3. Definitions.

Comment Summary: Kudos to the change of "day care" to "child care" throughout the proposed revision. We do not care for days but for children. It gives credence to our profession!

Comment Summary: All child care regulations, whether in the school system or Head Start, or in the home the regulations should be the same. This comment is in reference to identifying and defining three types of school age programs.

Response: The three types of school age programs are an identification of differing program types within the license of a child care center. While certain regulations should be the same in all settings, due to the nature of those settings and other laws and regulations involved, it is not possible or appropriate for all regulations to be the same.

Comment Summary: I feel that regulation 3.34.b.3. should be revised to read "At the incorrect time, other than within sixty (60) minutes before or after the scheduled time, instead of thirty (30) minutes. It is standard accepted practice in health care to allow 60 minutes lead time one way or the other to administer the meds that would typically be given in a child care setting. If the time of administration was that critical, then the licensed health care provider could note that on the directions. The physician, the parent, the Licensing Specialist has to be called. Most physicians question why they are being called, feel the call is unnecessary, and don't want to be bothered.

Response: Change will not be made. Child care centers are not health care settings and do not typically have a licensed health care professional on staff to advise if the incorrect time for a particular medication would be harmful. Proposed regulations do not require the physician to be contacted. This comment will be taken as support of that change.

Comment summary: 3.9 Child Abuse and Neglect – According to WV State Code, 49-1-3: "...under circumstances which harm or threaten the health and welfare of the child." For mandated reporters it is vital that the completion of the state code citation for this definition is made. The word/phrase "threaten or threat of" are necessary for many reporters to really understand the necessity of reporting based on the suspicion of abuse/neglect.

Response: The current definition and the citation to the definition in code will be added: §49-1-3. (c) "Child abuse and neglect" or "child abuse or neglect" means physical injury, mental or emotional injury, sexual abuse, sexual exploitation, sale or attempted sale or negligent treatment or maltreatment of a child by a parent, guardian or custodian who is responsible for the child's welfare, under circumstances which harm or threaten the health and welfare of the child.

Comment summary: 3.60 Time-out Period – Broadening the definition to include the “maximum amount of time” that must be used as the standard would be helpful. Perhaps the following could be added: “no more than one minute for each year of a child’s age” and only not utilized as the primary discipline technique. Please consider a statement that time-out is not a developmentally appropriate practice for very young children as they do not understand the purpose or the lesson to be learned.

Response: See the comment and response on this topic under §78-1-11.

Comment summary: 3.68. The requirements for a volunteer should be clearly defined in the same manner they are defined for staff. For example, if they need to have a physical examination it needs to be stated in the regulations. Is a vision and hearing screening be required for volunteers?

Response: This section is a definition of the terms used. Other requirements related to a volunteer would be found in other sections of the rule. However, requirements in Section 8 of the rule will be changed to clarify and provide guidance on this question. As changed, a volunteer scheduled to work in the center for at least forty hours in a month would need a vision and hearing screening.

§ 78-1-4. Licensing Information and Provisions.

Comment summary: 4.4.a.2; 4.4.b An amendment to your license that only calls for reevaluation for square footage verses the intent to make physical structure to the building.

Response: The comment meaning is not clear.

§ 78-1-5. Inspection and Investigation.

§ 78-1-6. Governance.

Comment summary: 6.3a.6 ;6.3a.4; 6.3a.7; and 6.3a.10 Appears to be out of place under Administrative Manual – meshed with staff (need to go under Section 78-1-7 - 7.1)

Response: The items listed in the comment need to be addressed in the administrative manual as they relate to what the employees need to know about those topics and procedures. In reviewing this subsection as a result of the comment, 6.3.a.9 was moved to 6.3.a.3. Section 7.1 applies to policies and procedures as related to the child and family.

§ 78-1-7. The Child and Family.

§ 78-1-8. Staffing.

Comment summary: My concern is related to the requirement of a WCTCECE certification to replace other training. Suggestion: 1. Identify Stars Pathway Levels that would be exempt from the proposed rule change. 2. Work with the Head Start Collaboration office coordinator and the Head Start Association coordinator to provide Stars recognition to Head Start mandated training and allow these trainings to be credited toward licensing regulations required training.

Response: There is no proposed requirement to have the training certificate replace Head Start training. What is proposed is that all qualified staff apply for credentialing on the WV STARS Career Pathway and to complete training which is necessary to keep the credential current. This permits the training hours to be flexible within a three year period. Tracking of professional development for center administrators as well as the regulatory process for enforcing the professional development requirements is also less complicated. Head Start training currently may be registered with STARS.

Comment summary: Is it saying that after school/before school staff or summer program staff will not need to have a employee health assessment?

Response: No. To clarify, 23.1 has been changed to "Training".

Comment summary: 8.3.d.2. Written references – Does this mean that in instances where Head Starts have more than 1 facility these teachers no longer have to have 3 references? Do we need a definition of center director as applies to multiple sites across multiple counties? Is there a clarification for Head Start programs that have more than one center?

Response: Other than the numbering, this regulation has not changed. It is possible to have one director and two sites. The meaning of the last question is not clear in connection with this citation. If Head Start terminology differs from the licensing regulations, compare duties to determine definitions, which is how licensing staff review positions.

Comment summary: 8.4.b. This standard needs to be applied to any area from volunteers to parents in a general section. The state of WV allows those that are currently registered on the Sex Offender Registry to have custody of their biological children. Sex Offenders have no restrictions on where they frequent, unless specified in a dispositional Court decree, once they have completed their sentence and any probation. However parents can still volunteer in early childhood classrooms and pick their children up since this requirement is only listed under Staffing Prohibitions. If this statement is meant to qualify as "No person"...it should be stated under multiple sections of these regulations.

Response: An addition to regulation 19.6.a. (current rule) will include "or persons coming onto the premises whose health or behavior may be harmful to a child or staff member." The center will need procedures to guide staff with managing such situations. A center is not precluded

from having additional policies that further address the concerns in the comment as long as a parent that is not legally prohibited has access to his/her child.

Comment summary: 8.4.c.4 Remove the release or combine sentences.

Response: Correction made. See proposed 8.4.d.

Comment summary: 8.5.a. Hiring Prohibitions – 8.5a – consulted with our attorney who also agrees there is concern that being under indictment does not confirm guilt.

Response: An indictment does not confirm guilt, but it does indicate a potential unknown threat. Our attorney advises that the “state has a legitimate and rational basis for the protection of children in substitute/temporary care.”

Comment summary: 8.5.d. A person that fails to disclose information should not be given a second chance – should not have opportunity to apply for waiver.

Response: Experience shows that there are persons who legitimately did not know or understand that they had been convicted or had a substantiated case of abuse or neglect. This does not preclude a center from implementing a more stringent policy that agrees with the comment.

Comment summary: 8.5.g.1 Violation of HIPPA regulations

Response: This is not a violation of the HIPPA. The phrase “from the employee” will be added for clarification.

Comment summary: 8.5.g and 8.5.g1-2 Exactly what does a physical examination include?

Response: There is no suggestion for change in this comment. The following is provided for understanding to the commenter: The center may prescribe what is necessary to perform the duties of the position and have a physical exam to address those activities, or the physical examination may be determined by the licensed health care provider. Caring for Our Children: National Health and Safety Performance Standards provides the following comment:

“To focus the evaluation by the health professional, child care facilities should provide the job description or list of activities that the staff person is expected to perform. Unless the job description defines the duties of the role specifically, under federal law the facility may be required to adjust the activities of that person. For example, child care facilities typically require the following activities of caregivers:

- a) Moving quickly to supervise and assist young children;
- b) Lifting children, equipment, and supplies;
- c) Sitting on the floor and on child-sized furniture;
- d) Washing hands frequently;
- e) Eating the same food as that served to the children (unless the staff member has dietary restrictions);
- f) Hearing and seeing at a distance required for playground supervision or driving;

g) Being absent from work for illness no more often than the typical adult, to provide continuity of caregiving relationships for children in child care.”

Comment summary: 8.5.g.2 Cost prohibitive – you cannot get medical doctor to complete vision and hearing screening – you would need a specialized person to complete each of those.

Response: Vision and hearing affects the quality and type of supervision that a staff member can provide. A center and staff person needs to know if there are any limitations to a person’s vision and hearing so appropriate adjustments can be made to ensure supervision of children.

§ 78-1-9. Staff Responsibilities and Qualifications.

Comment summary: I would like to request that you add an exception or an automatic waiver for those public school students age 17 who are enrolled in the Child Development Specialist program approved by the WV Department of Education and the WV Department of Health and Human Resource and who are employed in Department of Labor, Office of Apprenticeship registered Child Care Centers as Youth Apprentices.

Response: Waivers address specific and individual situations, and are not granted automatically.. However, a regulation has been added that would permit a second year Youth Apprentice to count in staff:child ratio. A regulation now reads: A student intern who is at least 17 years of age, a Youth Apprentice, and in the second year of classes in the Child Development Specialist program approved by the WV Department of Education may count in the staff:child ratio, but may not work alone.

Comment summary: 9.4.b. A staff member who qualifies at a minimum as a teacher.

Response: Qualified staff is defined and teacher describes the minimum qualified staff.

§ 78-1-10. Supervision of Children in Groups.

§ 78-1-11. Supervision of the Individual Child .

Comment summary: 11.3.d 3.60 (Time out period) is defined very simplistically. This is the best guidance and definition. Is it reasonable to request the same definition be placed in 3.60. Would it also be helpful to indicate that this technique should be utilized a maximum of 3 or less times in a day and if more than consultation should be sought with the parent and supervisor immediately? Please include that the location of time out should be in a place free of potentially harmful objects and be as stimulation-free as possible. It should not occur in a space where the potential for a child to endanger him/herself or others should behavior escalate (i.e., not behind a door with a glass window).

Response: The definition defines the term. This section provides the standard to be applied when using time out. The rule does state that time out periods must be in a safe, lighted and

well-ventilated space. This does not preclude and centers are encouraged to expound upon the use of time out in the center's policies and procedures.

Comment summary: 11.4.g. Expand definition to include: if isolation is deemed the most appropriate method to allow a child to regain composure the space utilized for this isolation must be free of potential dangers to the child or other should the child's behavior escalate.

Response: This is not a definition. It is a prohibition.

§ 78-1-12. Space Requirement.

§ 78-1-13. Furnishings, Equipment and Materials .

Comment summary: 13.4.i.5. Eliminate recommendation of what is to be worn during nap. It leads to a problematic situation of who provides the sleepers, launders them, and how many a child may need each day. Some babies prefer to be swaddled while sleeping, while some babies are very warm natured and would become uncomfortably warm in a sleeper. If centers are maintaining the appropriate staff/child ratio, babies will be monitored while sleeping. Also, there are room temperature requirements currently in place by the Health Department regulations for child care centers.

Response: The wording has been changed to indicate a sleeper or a thin blanket.

Comments summary: (1) With Lacrosse Encephalitis, West Nile etc. I feel that provisions to eliminate potential mosquito breeding areas should be taken. Perhaps the following (or something of similar appropriate language) could be added: Sect. 13.6c9 All outdoor activity areas and equipment shall be maintained so as to prevent the collection of standing water that could provide insect breeding areas.

(2) (Submitted from Brad Cochran, Program Manager, Public Health Sanitation) Local Health Departments are required to be looking for potential mosquito breeding areas at child care centers and adding this section, would be a good idea. Playground equipment such as tire swings that do not have holes drilled in the bottom is an ideal breeding area for mosquitoes to breed.

Response: Wording has been changed to include a warning regarding breeding areas.

Comment summary: Section mentioning wading pools not allowed due to drowning issues. Section 6.4 of health regulation states: Wading pools are prohibited unless they are an integral part of a swimming pool which complies with the division of health rule, 64CSR16, which is our rule that regulates public swimming pools. I believe the 2 rules should read the same.

Response: Licensing defers to the health rule and its enforcement in the regulation of swimming pools. No change necessary.

§ 78-1-14. Program.

Comment summary: 14.3.a.4. Suggestion: It is best to place infants ages birth through 12 months on their backs to sleep. Infants who can roll over should be allowed to adopt the sleep position they are comfortable with, however the caregiver should place the infant to sleep on his/her back. Additionally, babies heads should not be covered with blankets, the room temperature should be between 68-72 degrees and the baby should not be overdressed.

Response: The age to place infants on their backs has been changed to 12 months.

§ 78-1-15. Health.

Comment summary: What is the reasoning on not requiring children over six to have a health assessment , if they are attending a childcare center, even if it is only for the summer?

Response: The proposed change was originally included to align the child care center requirement on health assessment for the school age child with expectations for children attending public schools. The proposed regulation has been changed to require a child first enrolling into a center to have a health assessment on file regardless of the child's age.

Comments summary: 1) As a physician, I am a bit befuddled why all the restrictions and logs on sunscreens. If the kids need them they need to be applied, and I am unaware of any short or long term deleterious side effects of sunscreen. Suggestion: omit any reference to sunscreens or lip balms. Sunscreens and lip balms are not medicines that need to be logged or charted or written down.

2) 15.4.h.11. sunscreen: exclude sunscreen from having to be logged--they are not medicines, and do not need to be treated as such. Places an undue burden on staff. Suggestion: with written permission from parents for application. sunscreens and lip balms do not need to be logged.

Response: Sunscreens and lip balms were placed in the category of over the counter medication due to their ingredients. However, based on this comment and the practicality of such a requirement, the suggestion to exclude sun screen and lip balm from being logged is accepted.

Comments summary: 1) 15.4.h.7.A and B OTC meds: The new guidelines on OTC meds are appropriate, and should relieve some of the current problems in locating physicians to write scripts for OTC medications, already approved by the FDA.

2) All medication should have instructions from a doctor to be given to a child.

3) 15.4.h.7.A. Administration of non prescription medication without licensed health care provider instruction is in direct conflict with the Head Start Performance Standards. Standards state that physicians' instructions must be obtained for all medications.

4) The medication section updates language, separates prescription vs non-prescription and leans on the parents for communication with practitioners.

5) I support the amendment to the regulation on the administration of Over the Counter medication. Pediatricians appreciate not having to write an order for every OTC given in child care.

Response: The proposed change was made based on comments to the current rule from health care providers, child care centers and parents. Many licensed health care providers have aided in the formulation of the proposed change to help ensure that it protects children and is reasonable. The proposed change does not preclude Head Start or any other center from developing a more stringent policy.

Comment summary: 15.2. Nationally periodicity schedule-It seems WV HealthCheck EPSDT schedule should be included.

Response: Agreed. Change has been made.

§ 78-1-16. Nutrition and Food.

Comments Summary: (1) My child's center contracts with the school system for lunches and there are often things provided that my three year old will not eat; not just because my child is picky, but because the food is planned for older children. The center will provide an alternative, but cannot be expected to have a huge variety. We pay \$2.50 per lunch at the child care center which is charged separately; the charge is .80 per day for children who go to public pre-school and a parent can choose to pack a lunch. If my child was at home, he would eat the lunch I prepare, so what is the difference? The center could set standards for what is included in lunches that are packed.

(2) I would like to change the current statute that requires hot lunches from the school system be served in child care centers. \$2.50 per tray to end up in the garbage is wasteful and of no benefit to children or parents.

(3) Parents should be allowed to send a nutritious lunch. Guidelines for lunches could be suggested by the State and Center. The younger children are, the more particular they are. School age children can take lunches to school – centers should have the same right.

4) Children of all ages should be permitted to bring food from home. Children can bring what they like to eat. I have seen children barely eat anything because they do not like it. A center cannot make a lunch that every kid will like.

5) I don't believe children should bring food to the child care, because of USDA guidelines.

Response: Centers should be preparing or catering food that is suitable for the age child being served. Centers should also consider participating in the Child and Adult Care Food Program offered through the WV Department of Education for the reimbursement of meals. USDA guidelines do not affect food brought from home. Some county health departments will not approve food coming from home that is not commercially prepared and packaged.

Both sides of the issue of permitting pre-school age children to bring food from home were considered. Parental choice was the one factor that made this decision difficult. The factors that weighed in the decision not to permit food from home for the pre-school age child include: Comments from Caring for Our Children, National Health and Safety Standards such as, "As new foods are introduced, children learn to self-feed concurrently with the attainment of physical growth, physiological readiness, and the development of motor coordination, cognitive and social skills. ...Children pick and choose from different kinds and combinations of foods offered. Eating jags are to be expected as evidence of growth and self-feeding. Family homes and out-of-home care settings have many opportunities to guide and support sound eating habits and food learning experiences for children. Early food and eating experiences are the foundation for the formation of attitudes about food, eating behavior, and consequently, food habits. Sound food habits build on eating and enjoying a variety of healthful foods. ... By learning about new food, children increase their knowledge of the world around them, and the likelihood that they will choose a more varied, better balanced diet in later life. Eating habits and attitudes about food formed in the early years often last a lifetime";

Considered was the complicating factor for child care centers that staff must be able to observe, note and prevent any sharing of food among pre-school aged children and prevent cross-contamination of food due to food allergies. The pre-school aged child may not understand the importance of not sharing food from home or of not eating food that another child has brought to the center.

There is no consensus within the child care community, professionals and parents on this topic. Therefore, a change will not be made.

Comments summary: 1) According to Caring for Our Children, breast milk can be used up to 48 hours. State licensing requirements are 24 hours. I think this is an issue that needs to be reexamined as well as the new regulation of discarding bottles(formula or breast milk) after 30 minutes. I think that time period is not long enough.

2) Topic: 16.11.c.12.D. breast milk: research out if breast milk might be good for longer than the stated periods.

3) The regulation requires discarding breast milk in 24 hours. According to "Caring For Our Children, National Health and Safety Performance Standards", unused expressed human milk shall be discarded after 48 hours if refrigerated, or by 3 months if frozen and stored in a deep freezer at 0 degrees F. Unused frozen human milk which has been thawed in the refrigerator shall be used within 24 hours.

4) Sections regarding breast milk storage are fine although I can't say if 30" vs 1 hour breast milk at 41 F is correct or not. I am sure that there is data behind this and perhaps Mary Boyd could clarify this to us. It appears to me a little excessive and might lead to a lot of milk being discarded since is not unusual that refrigerators are sometimes above this temperature due to frequent opening alone.

Response: Regarding discarding milk after 30 minutes, the regulation has been changed for guidance and clarification to: A center shall discard breast milk or formula when it remains at a

temperature higher than forty-one (41) degrees Fahrenheit for more than one (1) hour or within thirty (30) minutes after a child has finished feeding.

Regarding the storing of breast milk for 24 hours, the current regulation assumes that the center may not know if the milk brought to the center had been previously frozen and therefore the cautious action is to discard after 24 hours since that is the recommended procedure for breast milk that has been thawed. Comments are accepted and the proposed requirements will include 48 hours for fresh breast milk.

Comment summary: 20.3.c. The jurisdiction that the health department has to approve such a plan.

Response: The meaning of the comment is unclear.

§ 78-1-21. Pest Management.

§ 78-1-22. Transportation .

Comment summary: Drivers should not be counted in the staff/child ratios on a regular basis.

Response: The requirements qualify when there must be an additional person during transportation even if the driver alone would meet the staff:child ratio.

Comment summary: 22.1.b. & 22.1.c. Does this apply to school buses that must adhere to WV Department of Transportation regulations?

Response: No. The regulation will be clarified.

§ 78-1-23 School Age Program.

Comments summary: 1) The new provision in Sect. 23.9 allowing school age children to bring home prepared foods to eat in the facility conflict Rules enforced by local health officers and boards of health. WV Code 16-1-4 allowed the development 64CSR21Child Care Centers and

64CSR17 Food Service and Sanitation Rule. 64CSR21 Sect. 11.1 requires all child care centers comply with 64CSR17. 64CSR17 makes the 1999 Food Code the guidelines for food sanitation. Food Code Sect. 3-201.11(B) states: Food prepared in a private home may not be used or offered for human consumption in a food establishment.

2) (Submitted from Brad Cochran, Program Manager, Public Health Sanitation.) I spoke to Linda Whaley, Food Program Manager, before responding.... We are both in agreement that the BPH would not be against allowing children to bring home prepared foods as long as the following guidelines are met:

1. The food from home is for a specific child- It is not meant to be a common meal or snack for multiple children. The only exception to this would be if a parent bought non- potentially hazardous snacks (i.e. pretzels, chips) at a retail store and brought them in to be shared as a snack. Un- opened bags only.
2. The students name must be clearly marked on the lunch bag/box.
- 3.No additional food preparation can be done by the Day Care Center staff with the exception of warming a food in a microwave.
4. If refrigeration is required, at a minimum, designate a specific area of the refrigerator for storage of the lunch bags. A separate small, compact refrigerator designated specifically for this purpose would be the ideal situation.

3) How are we suppose to have the parents meet the nutritional guidelines when packing their own lunch.? This will not happen and the camps will be spending even more money supplementing the food groups to meet this requirement. This would be ridiculous to pass this! Suggestion: Summer Recreation camps need to provide nutritional lunches that meet the guidelines!

Response: No clear consensus has been reached among the child care community and professionals on this issue. Therefore, the proposed requirements permitting food from home for the school age child has been withdrawn.

§78-1-G.

Comment summary: Staff/Child Ratio - One of the most important aspects of quality associated with better developmental outcome is group size. Effects of high-quality child care persist into early grade school are better expressive and receptive language, pre-math skills, social skills and self-image.

The staff/child ratios listed exceed those recommended by experts from the National Health and Performance Standards and by the National Association for the Education of Young Children. Please consider the following Birth - 12 mos. 3:1, Group size 6; 13 - 30 mos. 4:1, Group size 8; 31 - 35 mos. 5:1, Group size 10; 3 yr olds 7:1, Group size 14; 4 yr olds 8:1, Group size 16, 5 yr olds 8:1, Group size 16; 6-8 yr olds 10:1, Group size 20; 9 -12 yr olds 12:1, Group size 24, according to "Caring For Our Children, National Health and Safety Performance Standard" (page 4).

Response: Agreed. However, staff:child ratio is set as close to the national standards as the child care community in West Virginia can accommodate and afford at this time. No change.

Child Care Center Licensing Requirements

Topic: Required Training

Concern/Issue: CASE of WV Head Start Program has six licensed sites for a total of twelve classrooms and expects to receive a license for one additional site with three classrooms by early fall. There are two teachers for each classroom, thirty (30) full time staff.

My concern is related to the requirement of a WCTCECE certification to replace other training. The educational accomplishments of the current staff is as follows; four teachers have BS Degrees, ten teachers have Associate Degrees, five teachers are within 12 college credits of Associate Degrees, six teachers have completed the ACDS Program and one has completed the CDA certification. The program has some teaching vacancies; however, the minimum education background, for newly employed staff is an Associate Degree. The WVTCECE certification is at Level III on the pathway, the CDA, ACDS, and Associate Degrees are at higher levels on the pathway, do we need to focus on a Level III certification for individuals who have already accomplished Levels IV, V, VI or VII?

Suggestion: Suggestions:

1. Identify Stars Pathway Levels that would be exempt from the proposed rule change.
2. Work with the Head Start Collaboration office coordinator and the Head Start Association coordinator to provide Stars recognition to Head Start mandated training and allow these trainings to be credited toward licensing regulations required training.

Topic: Child Centers

Concern/Issue: All child care regulations, whether in the school system or Head Start, or in the home the regulations should be the same. This comment is in reference to identifying and defining three types of school age programs.

Would like to review the definition for staff member type "driver" for clarification.

Drivers should not be count in the staff/child ratios on a regular basis.

All medication should have instructions from a doctor to be given to a child.

I don't believe children should bring food to the child care, because of USDA guidelines.

Child Care Center Licensing Requirements

Topic: Age requirement

Concern/Issue: The rule that child care workers under age 18 must work under the direct supervision of a qualified staff member, cannot be left alone with any child except their own, and cannot be counted in staff:child ratios creates a barrier for 17 year old high school students who have made a commitment to preparing themselves for careers in child care or early childhood education through a program approved by the WV Department of Education, the WV Department of Health and Human Services and the US Department of Labor, Office of Apprenticeship.

Without this exception or automatic waiver, child care centers will be reluctant to hire these students and the students will be delayed in completing their apprenticeship and thus in obtaining the benefits of the USDOL certification - including credit toward the WV Department of Education paraprofessional certification and college credit toward an Associate Degree in Education with attendant credit toward a 4 year degree in early childhood education leading to public school teacher certification.

Suggestion: I would like to request that you add an exception or an automatic waiver for those public school students age 17 who are enrolled in the Child Development Specialist program approved by the WV Department of Education and the WV Department of Health and Human Resource and who are employed in Department of Labor, Office of Apprenticeship registered Child Care Centers as Youth Apprentices.

Unlike a 17 year old with no background or training, The Youth Apprentices will have taken and/or will be concurrently be taking formal classroom training related to child care work in a program consisting of four courses. They will have the support of their classroom teacher during this time. Additionally, the registered apprenticeship site will be training and documenting the student's progress in meeting the on-job-training standards. They will continue their apprenticeship after obtaining age 18 until they have completed the required 3200-4000 clock hours of OJT.

I believe this combination of formal classroom and structured apprenticeship training gives these 17 year old students the knowledge and skills necessary to respond to emergencies and the needs of young children.

These students have made a commitment to preparing themselves for careers in child care or early childhood education. This exception or automatic waiver will help them reach their goals and allow them to provide high quality care to the children under their supervision.

Child Care Center Licensing Requirements

Topic: Breast Milk

Concern/Issue: According to Caring for Our Children, breast milk can be used up to 48 hours. State licensing requirements are 24 hours. I have upset moms that do breast feed that they are not able to use their milk at the center for 48 hours. I think this is an issue that needs to be reexamined as well as the new regulation of discarding bottles(formula or breastmilk) after 30 minutes. I think that time period is not long enough.

Topic: Medication Admin.

Concern/Issue: I feel that regulation 3.34.b.3. should be revised to read "At the incorrect time, other than within sixty (60) minutes before or after the scheduled time, instead of thirty (30) minutes. This is referring to the administration of medications and Serious Occurrence Reporting. It is standard accepted practice in health care to allow 60 minutes lead time one way or the other to administer the meds that would typically be given in a child care setting. If the time of administration was that critical, then the licensed health care provider could note that on the directions.

As the reg is currently written, if a center gives medication 35 minutes early or late, then the Serious Occurrence Reporting Procedure is to be followed. The physician, the parent, the Licensing Specialist has to be called. Most physicians question why they are being called, feel the call is unnecessary, and don't want to be bothered.

13.4.i.5. Seasonally appropriate covers shall be used, sufficient to maintain adequate warmth. For children 12 months of age and younger it is recommended that a sleeper be worn. If a covering is used it shall be a thin blanket that is tucked around the mattress of the crib and only covers the child as high as his or her chest.

Suggestion: At the incorrect time, other than within sixty (60) minutes before or after the scheduled time, instead of thirty (30) minutes.

Eliminate recommendation of what is to be worn during nap. It leads to a problematic situation of who provides the sleepers, launders them, and how many a child may need each day. Some babies prefer to be swaddled while sleeping, while some babies are very warm natured and would become uncomfortably warm in a sleeper. If centers are maintaining the appropriate staff/child ratio, babies will be monitored while sleeping. Also, there are room temperature requirements currently in place by the Health Department regulations for child care centers.

Concern/Issue: 1. The new provision in Sect. 23.9 allowing school age children to bring home prepared foods to eat in the facility conflict Rules enforced by local health officers and boards of health. WV Code 16-1-4 allowed the development 64CSR21 Child Care Centers and 64CSR17 Food Service and Sanitation Rule. 64CSR21 Sect. 11.1 requires all child care centers comply with 64CSR17. 64CSR17 makes the 1999 Food Code the guidelines for food sanitation. Food Code Sect. 3-201.11(B) states: Food prepared in a private home may not be used or offered for human consumption in a food establishment.

2. With LaCrosse Encephalitis, West Nile etc. I feel that provisions to eliminate potential mosquito breeding areas should be taken.

Suggestion: 1. I am not sure a solution for this problem. Local health official will be forced to debit regulated facilities due to their responsibility to enforce Public Health Law.

2. Perhaps the following (or something of similar appropriate language) could be added:

Sect. 13.6c9 All outdoor activity areas and equipment shall be maintained so as to prevent the collection of standing water that could provide insect breeding areas.

Concern/Issue: re. sunscreen

as a physician, I am a bit befuddled why all the restrictions and logs on sunscreens. If the kids need them they need to be applied, and I am unaware of any short or long term deleterious side effects of sunscreen. Sounds like someone is trying to be a bit too picky, and placing an onerous burden on staff. This will only hinder, not aid, the smooth function of the day care providers.

Suggestion: omit any reference to sunscreens or lip balms. Sunscreens and lip balms are not medicines that need to be logged or charted or written down.

Beth: I spoke to Linda Whaley, Food Program Manager, before responding to Item #1. We are both in agreement that the BPH would not be against allowing schoolage children to bring home prepared foods as long as the following guidelines are met:

1. The food from home is for a specific child- It is not meant to be a common meal or snack for multiple children. The only exception to this would be if a parent bought non- potentially hazardous snacks (ie.... pretzels, chips) at a retail store and brought them in to be shared as a snack. Un- opened bags only.
2. The students name must be clearly marked on the lunch bag/box.
- 3.No additional food preparation can be done by the Day Care Center staff with the exception of warming a food in a microwave.
4. If refrigeration is required, at a minimum, designate a specific area of the refrigerator for storage of the lunch bags.A separate small, compact refrigerator designated specifically for this purpose would be the ideal situation.

As to the 2nd comment, LHDs are required to be looking for potential mosquito breeding areas st child care centers and adding this section, would be a good idea. Plyground equipment such as tire swings that do not have holes drilled in the bottom is an ideal breeding area for mosquitoes to breed.

As I was reading the sections on outdoor activity areas, I noticed a section mentioning wading pools not be allowed due to drowning issues. Section 6.4 of oyr regulation states: Wading pools are prohibited unless they are an integral part of a swimming pool which complies with the division of health rule, 64CSR16,which is our rule that regulates public swimming pools. I believe the 2 rules should read the same.

If I can be of further assistance, let me know.

I think that the sections pointed out regarding medications handling and breastmilk storage are fine although I can't say if 30" vs 1 hour Breast milk at 41 F is correct or not. I am sure that there is data behind this and perhaps Mary Boyd could clarify this to us. It appears to me a little excessive and might lead to a lot of milk being discarded since it is not unusual that refrigerators are sometimes above this temperature due to frequent opening alone. The medication section updates language, separates prescription vs non-prescription and leans on the parents for communication with practitioners (HIPAA concerns?).

It was not easy to get to these regs by the way.

Concern/Issue: 15.4.h.7-regarding the use of over the counter medications. I agree with the proposed changes that require written instructions from a licensed health care provider for the use of over the counter medications if they are used for a child's illness for more than three consecutive days in a 30 day period. In regards to 16.11.e.12.D.- a center should be able to use refrigerated breast milk within forty-eight(48) hours of receipt instead of twenty-four(24) hours as it currently appears in the regulations. This is consistent with current opinions of health care providers and advocates of breast feeding.

Early Care & Education

Dear Ms. Hall:

I am writing in regards to a concern that I have with the lunches at the daycare facility that my children attend. The daycare facility has a contract with the Wyoming County Schools to provide lunches, which is fine. The concern that I have though is that there are a lot of things on the menu that my three year old will not eat. For instance: beef stroganoff, tacos with refried beans, hamburgers, chili beans, etc. It is not that my child is picky; it is just that he is three years old. There are a lot of high school kids that do not like these things either. The daycare does provide an alternative if we ask for one, but the daycare cannot at anytime know that every kid likes that same thing and cannot be expected by the parents to have a huge variety of lunches to choose from.

The daycare does not include lunch in their tuition, so that makes it that our lunches are charged separate, which is fine. The charge for lunch though is \$2.50. The daycare gets no amount of money for these lunches; the \$2.50 is paid directly back to the Wyoming County Schools. This is around \$50 extra per month for one child. If for instance that we could pack our lunches for our children on the days that they do not like the food on the menu, then we would not be charged for lunch that day. The current rule for the daycare is that lunches are provided by the daycare everyday, so like I mentioned before that is around \$50 extra per month just for lunch. I would rather pack a lunch from home with a sandwich, a banana and a vitamin C juice than to pay \$2.50 for a lunch that he is not going to eat.

My concern is that 3 and 4 year olds that go to preschool can pack their lunch any day and not have to pay the \$.80 they are charged for lunches, but I am not allowed to pack a lunch for my child to take to daycare and I have to pay \$2.50. However, if I was able to be a stay at home Mom, my child would be eating lunch from my home kitchen, so what is the difference if I was to pack him a lunch to take to daycare?

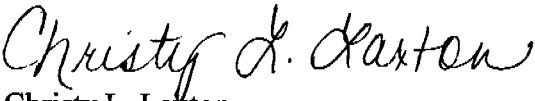

This is just a concern that some of the parents of the children at daycare have about having to buy lunches when they are not necessarily what our children like to eat. I would like to be able to pack lunches for my children. The daycare could set standards for what could be included in

the lunches when packed from home. For instance, no candy and the lunch would have to have vitamin c juice and would also have to include a fruit.

It is my understanding that this is not an option at this time and we, as parents of these children, were just wondering if something could be done about it. If not, we would just like to have a better understanding of the situation and find out why it is a rule to have the daycare provide the lunches when all other meals that our children eat are out of our home kitchens.

Thank you very much for your time in this matter. If for any reason you would like to talk with me, please feel free to contact me by email at christylaxton@wyomingcounty.com or by phone at 304-732-6577.

Sincerely,

Christy L. Laxton

SUBJECT: Changes being considered in regulations - Permitting school age programs to allow food from home if certain conditions are met.

I would like this regulation to read as follows: "A hot lunch must be available to all children in a child care center, but not mandatory." Parents should be allowed to send a nutritious lunch with their child. Guidelines for these lunches could be suggested by the State and Center.

I do not believe the state has the right to tell parents what their children must eat. A lunch from home is fixed the way they are used to eating and parents know what they will eat. What good is a hot lunch if it is thrown in the trash can. We make two choices available but that is not always enough. The younger the child is, the more particular they are. These are the children most affected by the hot lunch regulation. School age children can bring their lunches to public school. I would like to see centers have the same right.

Dear Mrs. Hall:

As a parent of a child in day care, I would like to ask you to consider changing the current statute that requires hot lunches from the school system to be served to the children in day care centers. Most children are finicky and to have to pay \$2.50 per day for a tray of food that is thrown into a trash can is simply wasteful and of no benefit to the child or the parents. I realize restrictions need to be made for the lunches, but this can still be done in a way that a parent can choose according to their own child's likes and dislikes.

Thank you so much for your time and consideration.

Sincerely,

Kim Browning

Dear Beth Hall,

In regards to the change being considered that will permit school age programs to allow food from home if certain conditions are met, I feel that this should permit all children, no matter the age to bring a lunch from home. I feel that hot lunch must be offered by the center, but not all children will eat everything. I would much rather a child bring something from home that they are going to eat, rather than not eat because they don't like what they are served.
