EMERGENCY RULE TITLE: Informal and Relative Family Child Care Home Registration

Requirements

1. Date of filing: June 6, 2006
  
2. Statutory authority for promulgating emergency rule:  
WV Code 49-2B-4 et seq.
  
3. Date of filing of proposed legislative rule: June 6, 2006
  
4. Does the emergency rule adopt new language or does it amend or appeal a current legislative rule?  
The emergency rule adopts new language.
  
5. Has the same or similar emergency rule previously been filed or expired?  
No similar emergency rule has been filed or expired.
  
6. State, with particularity, those facts and circumstances which make the emergency rule necessary for the **immediate** preservation of public peace, health, safety or welfare.  
House Bill 4790 provides for the voluntary registration of informal and relative family child care providers and becomes effective June 11, 2006. The bill requires an emergency rule be filed.  
Without this emergency rule, these child care providers will be unable to participate in the Child

and Adult Care Food Program, which will result in a loss of approximately \$1,338,072 in United States Department of Agriculture reimbursements to the state.

7. If the emergency rule was promulgated in order to comply with a time limit established by the Code or federal statute or regulation, cite the Code provision, federal statute or regulation and time limit established therein.

H.B. 4790 is effective June 11, 2006 and affects WV Code 49-2B, et seq. 8. State, with particularity, those facts and circumstances which make the emergency rule necessary to prevent substantial harm to the public interest.

In January 2005, the United States Department of Agriculture mandated that all child care providers participating in the Child and Adult Care Food Program be registered by the West Virginia Department of Health and Human Resources. Prior to passage of H.B. 4790, no registration process was available for informal and relative providers. As a result, the program could potentially lose a large number of much-needed caregivers. There are approximately 460 informal providers in the state caring for around 1,000 children. The loss of these providers in the program would mean a loss of approximately \$1,338,072 in United States Department of Agriculture reimbursements to the state. In addition, these providers will most likely continue to care for the affected children without the oversight of the food program or the Department.

**Fiscal Note Summary**

Summarize in a clear and concise manner what impact this measure will have on costs and revenues of state government.

There will be no impact on costs for state government as the registration and monitoring of informal and relative family child care providers can be performed by existing staff. While no new revenues will be generated, registration of informal and relative family child care providers will prevent the loss of \$1.3 million in federal Child and Adult Care Food Program funds, which currently flow to the West Virginia Department of Education to pay the cost of providing meals in 460 homes to approximately 1000 children. Without a registration process, the United States Department of Agriculture is indicating that these homes will no longer be eligible for funding.

### MEMORANDUM

Please identify any areas of vagueness, technical defects, reasons the proposed rule would not have a fiscal impact, and/or any special issues not captured elsewhere on this form.

Costs for Providers: There will be minimal costs for voluntary registration. Child care providers will be required to purchase an ABC rated fire extinguisher, a carbon monoxide detector if they have unvented heaters, and obtain a physical exam. This will cost approximately \$70.00 per person. However, providers who accept subsidized children will be able to receive materials such as fire extinguishers, safety gates and carbon monoxide detectors from their local Child Care Resource and Referral Agency for free.

## **Brief Summary**

Title 78  
Legislative Rules  
Department of Health and Human Resources

Series 20

### **Informal and Relative Family Child Care Home Registration Requirements**

This emergency rule creates basic health and safety requirements for informal and relative family child care homes that voluntarily register with the Department of Health and Human Resources. This rule was created in collaboration with West Virginia Child and Adult Care Food Program staff, informal and relative family child care providers, Department of Health and Human Resources state staff, local child care regulatory staff, and child care resource and referral agency staff. Six regional meetings were held across the state to enable staff from these programs to assist in developing the proposed rule. The rule covers the following items as required by §49-2B-8:

1. Physical and mental health of persons in the home;
2. Criminal and child abuse or neglect histories;
3. Discipline;
4. Fire and environmental safety;
5. Equipment and program for children;
6. Health, sanitation and nutrition; and
7. Regulatory processes and requirements.

### **Informal and Relative Family Child Care Home Registration Requirements**

During the last legislative session, the Legislature passed House Bill 4790, which is effective June 11, 2006 and affects WV Code §49-2B, et seq. This bill creates two new types of child care providers, both of which may voluntarily register with the Department of Health and Human Resources. In order to fulfill the terms of §49-2B-5 of House Bill 4790, the Department of Health and Human Resources is required to promulgate emergency rules that create registration requirements for informal and relative family child care providers before the first day of July, two thousand six.

This action was taken in order to preserve the ability of informal and relative providers to participate in the Child and Adult Care Food Program. In January 2005, the United States Department of Agriculture mandated that all child care providers participating in the Child and Adult Care Food Program must be regulated by another agency besides staff in the Department of Education. Prior to the passage of House Bill 4790, West Virginia Code did not provide a process for regulation of informal and relative providers. This meant that the Child and Adult Care Food Program could potentially lose a large number of much-needed caregivers. There are approximately 450 informal providers in the state, caring for around 1,000 children. The loss of these providers in the program would translate to a loss of approximately \$1,338,072 in United States Department of Agriculture reimbursements to the state.
