RE: WV Code of State Regulations

=====

I am hereby requesting that the following rules be withdrawn.

1. *10 Title 145, Legislative Rule, GOCID, Series 1, Amended Eligibility Rules for the Governor's Emergency Employment Program

As there was not a set of original rules filed, the amendments prove of no significance. Furthermore, there are no funds available for this program and the program is not operative. This program is not subject to 29A of the Code.

2. *10 Title 145, Procedural Rule, GOCID, Series 2, Rules for Notice of Inducement for Industrial Development Bonds

Executive Order 18-86 provides for the same information set forth in these rules.
