ATTACHMENT TO THE NOTICE OF PUBLIC HEARING ON A PROPOSED RULE.

A BRIEF SUMMARY OF THE PROPOSED NEW REGULATIONS GOVERNING MEAT INSPECTION.

The Code of West Virginia (Chapter 19, Article 2B-3) requires the Commissioner of Agriculture to promulgate regulations governing meat inspection and such "regulations shall, insofar as practicable, be in conformity with the rules and regulations issued under the federal meat inspection act". Therefore, in order to strictly adhere to this provision, the proposed rule intends to adopt by reference USDA meat inspection regulations. This revision will allow the maintaining of the regulations equal to USDA regulations. Our current meat inspection regulations have not been updated since 1980. Thus, instead of making hundreds of changes and amendments to comply with the federal requirements, the USDA regulations will be incorporated by reference.

The Federal Meat Inspection Act which allows for contribution of federal funds to the State (50% of the total cost of the program), stipulates that payments are contingent at all times upon the administration of the state program at least equal to federal, in terms of law and regulations.

Therefore, the proposed rule is needed to revise regulations governing meat inspection.
