

## **SUMMARY OF THE RULE**

### **TITLE 194**

#### **SERIES 1 GENERAL PROVISIONS**

This rule is being submitted to amend and increase the schedule of fees and create a new Series 4 Schedule of Fees. This will allow the fee structure to be in a series relating only to fees.

#### **FACTS AND CIRCUMSTANCES**

THIS SERIES IS BEING SUBMITTED TO INCREASE THE SCHEDULE OF FEES. DUE TO A SIGNIFICANT INCREASE IN EXPENSES RELATED TO THE INVESTIGATION AND DISPOSITION OF COMPLAINTS AS WELL AS LEGAL FEES; THIS HAS CREATED AN URGENT NEED FOR ADDITIONAL FUNDS. THIS WILL REQUIRE THE BOARD TO INCREASE FEES IN ORDER TO OPERATE. THE BOARD DOES NOT RECEIVE ANY GENERAL REVENUE FUNDS AND IS REQUIRED TO BE SELF-SUFFICIENT.

IF THE REGULATORY BOARD COULD NOT FULLY OPERATE, PROTECTION OF THE PUBLIC WOULD BE GREATLY JEOPARDIZED AND CONSUMERS AND CLIENTS WOULD NOT HAVE AN AVENUE TO REPORT ANY UNLICENSED PRACTICE OR IMPROPER MISCONDUCT. BUSINESSES THAT PROVIDE THESE SERVICES WOULD NOT BE ABLE TO OPERATE LAWFULLY WITHOUT THE BOARD. THROUGHOUT THE HISTORY OF THE BOARD, THERE HAS NOT BEEN ANY LEGAL PROCEEDINGS THAT HAVE BEEN AS LENGTHY AND EXHAUSTED THE AMOUNT OF FUNDS THAT HAS OCCURRED THIS YEAR.

**Fiscal Note Summary**

Summarize in a clear and concise manner what impact this measure will have on costs and revenues of state government.

This will not have any impact on the costs and revenues of state government. This board is a Chapter 30 board and is required to be self-sufficient in regards to its funding. The board operates on its own revenue that is generated by licensure and other related fees. The board does not receive any general revenue funds.

**Fiscal Note Detail**

Show over-all effect in Item 1 and 2 and, in Item 3, give an explanation of Breakdown by fiscal year, including long-range effect.

Rule Title: \_\_\_\_\_

Rule Title:

GENERAL PROVISIONS

**3. Explanation of above estimates (including long-range effect):**

Please include any increase or decrease in fees in your estimated total revenues.

The board is increasing the schedule of fees. This includes the initial application and renewal fees for licensure. The license renewal is on a biennial basis so the revenue generated is increased in one fiscal year and decreased in the next consecutive fiscal year depending on the number of license renewals due for that particular year. It also depends on the total number of new license applications submitted for each fiscal year and those who may currently be licensed that fail to renew due to relocation, exiting the field, etc.

Estimated license applications and renewals for FY 2012 would generate approximately \$80,000.00 in additional revenue.

Estimated licensure applications and renewals for FY 2013 would generate approximately \$40,000.00 in additional revenue.

This revenue would enable the board to maintain operations and retain a cash balance to cover any extraordinary expenses (e.g. legal fees) incurred during any fiscal year and what is recommended by legislative auditors to carryover from one fiscal year to another.

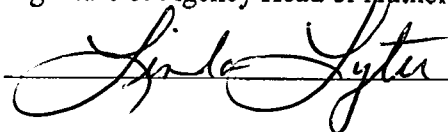

**MEMORANDUM**

Please identify any areas of vagueness, technical defects, reasons the proposed rule would not have a fiscal impact, and/or any special issues not captured elsewhere on this form.

RE: Notice of Proposed Board Rule

I have read and re-read the proposed fee increases for massage licensure sent June 15, 2011. It appears to me that an increase of fees to \$350 for an initial application fee and a two year license is high and will only encourage more "new" massage therapists to work under the radar without a license. These MTs, in most cases, will just have finished school and paying tuition or moved from another state, without a client base yet established thus making the proposed fees an added overhead expense in an economy that is already challenging.

I didn't read any mention of prorating the fees. Does this mean that everyone will get a full 2 year of licensure for their fee? There is no provision for those who for whatever reason do not want a 2 year license.

---

I understand one of the board's responsibilities is to protect the public's interest in receiving good quality massage therapy but what about the people you're licensing? I personally have emailed the board 4 times and followed up with a phone call each time. I had specific questions on either scope of practice, reflexology, mentoring and reporting unlicensed massage therapists. I have never received a response from the board to any of my questions. Similarly a client emailed and called several times, in March 2011, for information and it took over 10 business days before she ever got a response. Is this serving the public? What does the board do for LMTs paying the fees that have questions? For \$200 for a 2 year license I think a timely respond is not asking too much. Nor do I think 4 emails in 12 years of practicing here in West Virginia are excessive. If the fees are going to increase, I understand that for renewal of my license my fees are not scheduled to be increased at this time, I believe service should be better for those of us paying.

Thank you for the opportunity to voice my opinion on this matter.

Sincerely,

*Mary Beth Korf*

Re: Notice of Proposed Board Rule – Massage Therapy Fee Raises

30 June 2011

To Whom It May Concern:

I am writing to dispute the fee schedule increase within the public comment period. As a member of the public that regularly uses massage therapy, I am afraid that the steep increase in fees (nearly 3x higher) will threaten many out of the profession, especially the extremely capable part-time or on-call individuals.

As a massage therapist myself, nationally certified through NCBTMB and licensed in WV & MD, certified in VA, I have many fees and costs I have to incur in this profession – for example, membership in a trade association (AMTA, approx \$260 year), insurances, three state license fees, continuing education (well exceeding \$1,000 per year for myself), table, linens, massage products such as lotions, self care (massages for myself, physical therapy for my hands), and so on.

---

As you can see, a steep raise like this is extremely detrimental. I spent over \$6,000 on my schooling and am still in the process of making that back. I work on-call at two places averaging currently less than 10 massages per month. It would be extremely difficult for me to incur any higher cost, even if only paying it every two years.

Please understand, the renewal fee of \$300 (2-year license – section 2.4) EXCEEDS that of Maryland – a RMP in MD pays about \$249, while a LMT pays about \$279 just for the 2-year period. WV does not have as strict standards as MD (in the sense that an LMT in MD must have 60-hours of college/university credit), and it seems odd that we should be paying more than MD. VA renewal fee is presently less than WV.

I certainly can understand the need for a raise, and am OK with that if it is providing something to my profession – however, I ask you to please consider a smaller increase or a step-plan over the next 3-5 years to get up to what is proposed. This will ensure everyone's success and be more attractive to other professions wanting to enter the state.

Please let me know if there is anything I can do to further help.

WV Massage Therapy Licensure Board,

I can understand license fee going up, even if this is a big jump! I don't understand the \$50 re-application fee. I think it is uncalled for. The economy is still in a fragile state. It is hard enough to keep my massage practice going without this fee added. A small business is very hard to keep running right now. Less clients & more business expense. We have CEU'S, AMTA, License fees state, city, etc..

I can't afford to pass this expense on to my clients. I think this needs to be reconsidered. Please do what you can to resolve this issue.

Thank you,

This is irresponsible on your part. We are not asking or expecting you to run after every report that comes into your office. No one could do that. Discernment. The ones you do go after, take away their license and fine them a large fee - increase your support that way. More than our double our fees and the really good responsible therapists will hurt the most - and pay the most - for these people who need to pay the high fees, in fines though. Please do not do this. The state will lose many of the therapists you want to keep - and the ones who are not assets will increase to fill the gap. Increase your money with large fines, but not by more than doubling our fees.

a not responsible therapist,

Dear Board Members:

Please accept this as submission for Public Comment Period regarding Increase of Fees. Cost for operation of business has taken a significant increase not only for the Board but also for massage therapist's businesses. The percent of this proposed increase appears excessive. I am expressing my concern of this method of increase.

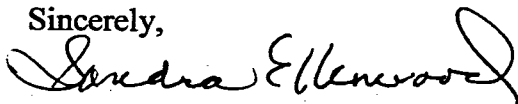

I am certain the increase is probably needed; however I would suggest moving to this proposed increase in incremental increases over the next two renewal periods.

---

I would also suggest an addition of reduced rates for Massage Therapists that have reduced client base. Some Massage Therapists choose to continue providing services but have reduced their client base. I would therefore suggest a lesser fee for renewal based on a client base of less than a set number, such as 50.

Thank you for consideration of these additions to the proposed fee increase.

Sincerely,

Sandra Ellenwood, LMT

**Subject:** Increase of license fees

Greetings to the Board,

Ladies and Gentlemen of the Board, I am writing to you concerning the recent proposal of an increase to our licensing fees. In this day and time of very tight budgets, escalating fees, and the cost of living on the rise it is hard to hear of the need to sustain yet another rise in my cost of doing business.

I feel very strongly however, that at times, this is what is required of those of us who wish to see massage therapy continue to grow in its professionalism. If, we as a group, want to see our Board stand behind us and help to see that there is indeed some sort of regulation we should be prepared to help fund the Board's increasing costs.

To that end I will support the need to increase our licensing fees and have faith that this will allow the Board to function in a manner that will continue to raise our professional standing.

Respectfully,

---

Pamela Dick LMT

RE: (30) day public comment Period for the boards' fee increase

Dear Massage Licensure Board,

My response to your fee increase comment period is "NO". I feel this is not fair to us Massage Therapist to make up for the mistakes of this board for not budgeting the budget correctly. Furthermore, other neighboring states rates are much less. VA is 70.00, Ohio is 50.00, Pennsylvania is 75.00. If you have around [\$150,000] coming in now just on Renewals, and that's not counting on the new therapist added on through out the year. That should be more than plenty to do whatever needs to be done. If other neighboring states can do it with much lower fee's, why can't we. I say NO.

Sincerely,

*Dana Ostling, LMT*

Re: Proposed West Virginia Licensure Board Emergency Rule

To the Members of the West Virginia Massage Therapy Board  
(WVMTLB),

The West Virginia Chapter of the American Massage Therapy

Association has 204 members, and its Board wishes to respond to the plans to increase the licensing fee schedule. We understand that the WVMTLB is empowered by statute to set reasonable fees; however, we find increases ranging from 50% to 200% to be excessive. Such enormous increases in the current economic climate will cause hardship for people already struggling to make ends meet. For instance, a new massage school graduate in private practice would face \$350 for application and licensing, \$195 to \$225 for the MBLEX or NCBTMB exam, \$30 WV state business registration and possibly a city business license fee before they even open their door. The 60% increase in renewal fees will likely result in fewer renewals, forcing some therapists to stop working altogether, while others may simply continue to work without a license. Since the Board's functional objective is to govern the practice of massage therapy to protect the public, how will an increase in unlicensed practice be addressed? Many who do renew will ultimately raise their session fees to cover the cost and may lose clients because of it, resulting in decreased tax revenue. As of March, 2011, the average annualized initial licensing fee nationwide was \$85.95, while average annualized renewal was \$63.62. It is onerous for West Virginia's fees to be so far above national averages. The state's nurses pay \$35 per year for licenses, while counselors pay \$85 for two years and professionals in both of these jobs have much higher average incomes than massage therapists.

Our understanding of state law is that the Board has the authority to fine persons practicing without a license from \$500 to \$1,000 and we are curious to know if fines have ever been collected, as this would generate revenue. The economy has forced many individuals, families businesses and governments to institute austerity measures and we believe the Board should do the same, perhaps holding fewer face to face meetings, instead using teleconferencing and also restricting travel.

The board members of WV-AMTA value the efforts of the WVMTLB to protect the public and recognize that unusual situations led to these increases, but are steadfast in the belief that it is unfair for therapists

who operate ethically to bear this burden.

Sincerely,

Re: Proposed Fee Hike for Massage Therapy License

Dear WV Massage Licensing Board:

Atasia Spa, L.L.C. opposes the fee hike for Massage Therapists. In this current economic situation, it is definitely not the time to increase the fee, in some cases more than doubling the fee from the existing rates.

Business is down across the board, Massage Therapists are already feeling the brunt of hard economic times, and there are no signs of an economic recovery. The proposed fee hike will adversely affect current Massage Therapists including many who are surviving from paycheck to paycheck. The fee for new Massage Therapists will discourage people from entering the profession – a profession key to this small town.

Berkeley Springs is a destination spa town dependent on tourism. Atasia is a significant employer with 20 employees (18 West Virginia residents). 8 of those employees are Massage Therapists including myself. During the economic downturn of the last few years, we have avoided layoffs by making strategic staffing decisions including hiring of part-time, seasonal, and weekend employment.

Here are some of the reasons for our opposition to the fee increases:

- 1: In these economic times, we simply can't raise rates for our massages in order to give raises to employees to offset not only the proposed increased cost of Massage Licenses, but expensive CEUs, Liability Insurance and professional memberships like AMTA.

Toll Free: 1-877-258-7888 • Telephone: 1-304-258-7888 • Web: [www.atasiaspa.com](http://www.atasiaspa.com)

2. At Atasia, we hire some part-time Massage Therapists to fill in for the summer and fall seasons. These employees work other jobs to feed their families. We also have a retired Massage Therapist who came back to work because of the need to make a few extra dollars to pay ever mounting bills. The fee increase from \$125.00 to \$200.00, or up to \$350.00 to reapply for a license, will definitely dissuade such part-time employment which supports the local and state economy.
  
3. Here in the Eastern Panhandle, we also hire some Massage Therapists from neighboring states of Maryland, Pennsylvania, and Virginia because local Massage Therapists are not always available and the only massage school in the state is in Charleston, approximately five hours away. The proposed \$350.00 fee for new applicants is truly – and unnecessarily – unattractive. It will definitely deter Massage Therapists who live less than 30 miles away in nearby states from working in West Virginia. And it will make it more difficult for WV spas to find new employees. That, in turn, will hurt the massage industry in this part of our state.

The reason you provided for the fee increases is significant expenses incurred to investigate and to resolve complaints. The West Virginia Board of Barbers and Cosmetologists whose license fee is \$35.00, conducts regular inspections and investigations – apparently successfully. Given the similar nature of our services, fees more than five times for renewals and up to ten times the amount for reapplications for barbers and cosmetologists seem particularly excessive – especially in light of the importance of Spas to the economy in Berkeley Springs and the fact that people are already suffering from the economic downturn.

This fee hike is not reasonable, particularly at this time in our nation's economic history. It is grossly unfair to the small Spas in the state when two large corporations continue to enjoy an exemption so that their employees are not required to be licensed to provide massages.

Thank you for your kind consideration.

Sincerely,

Frankie Tan, (LMT)

First, the WV Massage Therapy Licensure Board ("hereinafter Board") would like to thank those of you who chose to take this opportunity and submit your written comments to the Board during the thirty (30) day comment period relating to the proposed legislative rules in regards to the fee structure.

As a state regulatory professional licensing board, the state law requires all professional licensing boards to be self-sufficient. Professional licensing boards do not receive any form of funding from the State of WV general revenue fund. By law, the total revenue generated is from all fees collected through licensure activities.

In regards to the collection of fines as a revenue source; it is a mandatory requirement of state law that all fines must be transferred to the state general revenue fund. The board cannot retain any of these fines as a revenue funding source.

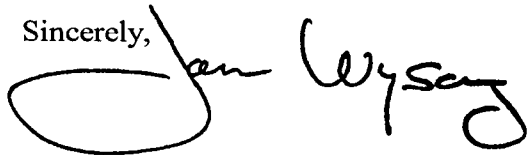

The Board has no control over what other professional licensing fees are in this state or in any other state. In the State of West Virginia, all licensure boards are required to be self-sufficient and set fees accordingly, based on the number of licensees.

The Board does not have any control over the other related costs that students or licensees incur in regards to education requirements, business operations, professional memberships, taxes and insurance, etc., as well as the number of clients a licensee has or the fee a licensee charges for their services.

The Board is committed to maintaining the lowest possible fee structure, as it has since it was established over thirteen years ago. The Board has followed recommendations of the Legislative Auditor by entering into an agreement with the WV Board of Acupuncture to share office and administrative costs to assist both boards. These are the only two boards that have chosen to participate in this type of cooperative relationship.

As a regulated professional, licensed massage therapists are finally recognized in the health care industry, while the nature of some of the complaints are more complex. It is the Board's official duty and legal responsibility to review all complaints submitted and investigate as needed. Legal fees along with any other related costs in the investigation and disposition of these types of complaints have significantly increased. Throughout the history of the board, there has not been any complaints and legal proceedings that have exhausted the amount of funds that have occurred this past year. As a licensing regulatory board, the Board represents professionalism and ethical conduct which is a legal requirement of a massage therapist who practices in the State of West Virginia and will continue to do so. The Board recognizes the concern during this current economy, but the board has the official duty to set the fee structure in order to function. Thank you again for your comments!

Sincerely,
