Examination and Issuance of Driver's Licenses

Summary of Content

This rule makes a number of changes to driver's license examination and issuance requirements in response to the need for increased documentation and verification of the eligibility of applicants to receive West Virginia driver's licenses and Identification Cards. The proposed changes include:

1. Requiring that non-U.S citizen applicants for a driver's license show that the United States Immigration and Naturalization Service authorizes their presence in this country.

2. Providing an alternative to the Social Security number requirement for non-citizens whose presence in this country is authorized, but who are not eligible for a social security number from the Social Security Administration. Applicants will be required to furnish an Individual Taxpayer Identification Number (ITIN).

3. Requiring applicants and licensees to provide proof of West Virginia residence at time of original application and renewal of a driver's license.

4. Allowing applicants to choose to use their maiden name as their middle name on their driver's license.

5. Addressing formal Human Rights complaints that allege unequal application of rule, policy and procedures by amending rule to provide greater guidance on licensing issues.

6. Authorizing the issuance of temporary driver's licenses to applicants for renewal who otherwise qualify for renewal under limited circumstances. Authorize the issuance of temporary Identification Cards to applicants who otherwise qualify, pending verification of documents.

7. Requiring Hazardous Material Endorsement test be given in English and that issuance be governed in accordance with the U.S. Patriot Act.

8. Allowing applicants with out-of-state suspension or revocation to renew their driver's license if the suspension or revocation is 1) based on an offense for which West Virginia does not suspend or revoke driving privileges, 2) is a non-Driving Under the Influence offense which is more than ten years old or 3) Is an offense which the state or jurisdiction can not provide records or assistance to clear.

7. Making stylistic changes to code section references and numbering of rule.

Examination and Issuance of Driver's Licenses

91 CSR 4

Statement of Circumstances Requiring Rule

The promulgation of this rule is necessary to make a number of changes to the driver's license issuance requirements in response to the need for all states to tighten the documentation and verification of applicants for driver's licenses. The importance of secure identification credentials has been brought to the forefront of national security by the tragic events of September 11, 2001. More than half of the September 11th hijackers had obtained fraudulent driver's licenses in Virginia, New Jersey and elsewhere. The driver's license is the key to boarding an airplane, opening bank accounts, renting a car and renting an apartment. Even without the events of September 11, identity theft is among the nation's fastest growing crimes. Driver's licenses are a chief tool to get credit cards and access banking accounts.

West Virginia has one of the nation's most advanced driver's licensing systems. It has one to one facial matching, optional finger imaging, and anti counterfeiting features. However, the system is only as good as the checking of documentation required to get a license and get into the system.

Consequently, West Virginia's driver's license issuance rules are strengthened to dissuade persons who attempt to get their photo in someone else's name, who attempt to get a driver's license using bogus addresses, and establish that West Virginia driver's licenses are for persons who can show that they are in this country legally.

Other provisions of the rule are changed to provide for a more equitable way of determining the display of a name on a driver's license, and authority to implement pending federal rules which require United States Department of Justice background checks on licensees who apply for an endorsement to haul hazardous material.
