Summary of Proposed Rule

- 2.12 To amend the existing rule by requiring that pets be restrained by a leash no longer than ten feet along designated roads and trails, in addition to the current rule that requires pets to be restrained by a leash no longer than ten feet in and around campgrounds, picnic areas, playgrounds and other similar intense public use areas.

Statement of Circumstances Which Require This Rule

Some state park, forest and wildlife management area visitors have experienced user conflicts on some highly used roads and trails where, for example, joggers are coming into contact with dogs that are not being kept on leashes by their owners. The current park rule does not specifically require pet owners to keep their pets on leashes along trails and park roads that are not available for public vehicular traffic. Our objective with this rule modification is to minimize this conflict with competing use of roads and trails.

Summary of Proposed Rule

- 2.21 To amend the existing rule prohibiting the possession of beer, wine, liquor, and all other alcoholic beverages in all boat launch ramp parking areas within the boundary of Bluestone State Park to include prohibiting the possession of beer, wine, liquor, and all other alcoholic beverages in camping areas within the boundary of Bluestone State Park.

-

Statement of Circumstances Which Require This Rule

The consumption of alcoholic beverages in the campgrounds at Bluestone State Park has always created management problems but in recent years those problems have escalated. Along with the consumption of alcoholic beverages comes loud music, profanity, unruliness and the total disregard for other campers. With four campgrounds in the park the superintendent and assistant superintendent are often called upon to deal with intoxicated individuals in different locations resulting in complaints from campers and a perceived lack of control. This problem is affecting the image of Bluestone State Park as a family destination and without the ability of the park superintendent to control and eliminate this problem we could possibly loose revenue.

1. Effect of Proposed Rule

	ANNUAL FISCAL YEAR				
	INCREASE	DECREASE	CURRENT	NEXT	THEREAFTER
ESTIMATED TOTAL COST	\$ 1500.	\$	\$	\$	\$ 500/yr.

OTHER					

2. Explanation of above estimates:

There will be a minimal cost of approximately \$1500.00 for the initial construction of signs to designate the trails and roads where pets must be kept on leashes. Thereafter costs would be minimal to maintain signs.

There are no direct costs associated with this proposed rule change on possession of beer, wine, liquor and all other alcoholic beverages at Bluestone State Park.

3. Objectives of these rules:

Pet Leash rule - to minimize user conflict on trails and roads closed to public vehicular access.

Possession of beer, wine, liquor and all other alcoholic beverages rule for Bluestone State Park is designed to eliminate disturbances in the campgrounds at Bluestone State Park by intoxicated and unruly campers by prohibiting possessing beer, wine, liquor and all other alcoholic beverages in the campgrounds.

Rule Title: Rules governing the public use of West Virginia State Parks,
Forests and Wildlife Management Areas under the Division of Natural
Resources

4. Explanation of Overall Economic Impact of Proposed Rule.

A. Economic Impact on State Government.

While there is no minimal economic impact on state government from both rule changes the potential exists for continued disturbances in the campgrounds at Bluestone State Park could result in a loss of revenue because campers will find other places to take their families.

B. Economic Impact on Political Subdivisions; Specific Industries; Specific groups of Citizens.

Could potentially result in a loss of revenue to the park system.

C. Economic Impact on Citizens/Public at Large.

A group is defined as a family, business, corporation or non-profit organization whose by-laws are registered with the Secretary of State. The group shall designate a contact person who is responsible for securing the picnic shelter or cabin reservation each year. The non-transferrable fee waiver expires when the amount of the donation equals the loss of revenue from the fee waiver or until the individual dies or the group ceases to exist. The Director shall determine the donation value by the cost of materials and labor donated and shall divide that value by the standard rental fee charged at the time construction is completed to determine the expiration date of the fee waiver with the Director being the sole judge of the value of donated labor.

Construction of cabins is restricted to state parks or state forests which already have cabins. Individuals or groups who are eligible for this fee waiver may make reservations for the use of a picnic shelter or cabin one week in advance of established reservation policies.
