#### **§14-1-3. Meetings Of The Board.**

3.1. The Board shall hold regular meetings at least twice a year at which time an examination of applicants for license shall be given. These meetings will be held on the second Sunday, Monday and Tuesday of February and July, unless otherwise directed by the president, but Tuesday is to be applicable when the president of the Board deems it advisable for purpose of further business session or the secretary for purpose of further examination of applicants taking the Board examinations or by majority vote of the members of the Board.

3.2. Special meetings of the Board shall be held upon request of a majority of the members of the Board or upon the call of the secretary as directed by the president. At least five (5) days notice of such meeting shall be given in writing setting forth the time and place of such meeting.

The applicant shall also state in such application whether he has taken any other State Board examinations and the results of the examinations and whether or not he has actively engaged in practice of optometry in any other state. With the application he shall include two (2) current photographs of himself, not to exceed 2 inches by 2 inches in size.

4.2. Such application shall contain the signatures of three (3) persons who attest to the good moral character of the applicant and in addition to these signatures a letter from each of these individuals shall accompany the application form. Each signature on the application form shall be sworn to before any officer legally qualified to administer oaths.

4.3. In such application the applicant shall state that he will abide by the laws of this State regulating the practice of optometry and by the Rules and Regulations adopted, or which hereafter be adopted, by the Board.

4.4. Such application shall be subscribed by the applicant and sworn by him before any officer legally qualified to administer oaths.

However, it is recommended that applications be in the hands of the secretary thirty (30) days prior to the examination dates to facilitate processing time and assurance of permission of the applicant to take the examinations. In the event an applicant intends to retake said examination, the fee (if applicable) and the notice of his intention to retake said examination must also be in the secretary's office ten (10) days prior to the examination dates. The completed application, records and fees are to be mailed to the secretary in one (1) parcel and all transcripts, when so designated, are to be left unsealed.

4.8. The fee for taking the examination shall be fifty dollars (\$50.00). (West Virginia Code section six, article one, chapter thirty.)

### **Title 14 - Series 1**

4.1 – The rule should be amended to require additional background information on the applicant. In particular, an applicant should be required to provide a complete practice history that includes information on any license suspension, revocation or other disciplinary action taken against the applicant in another state. Detailed information of any criminal history should also be required.

5.4 – Is there available a national examination for Optometrists similar to the United States Medical Licensing Examination (physicians) or the National Bar Examination (lawyers) which utilizes a standardized test that could be used as part of the applicant's licensing process in West Virginia?

6.2 – The meaning and scope of the word "work" as used here is vague and ambiguous. The word should be more clearly defined to mean, at a minimum, the satisfactory completion of the course work with a passing grade and a minimum number of credit hours completed. Alternatively, the Board may wish to upgrade the educational requirements to mandate the completion of a Baccalaureate Degree prior to admission to a college of optometry.

7.2 and 8.1 – The fee structure (\$20.00 annually) seems insufficient to generate adequate revenues to pay for a fully staffed and operational governing board.

The Board of Medicine collects a \$300 bi-annual fee on over 3,000 active practicing physicians in West Virginia to cover its costs.

9.1 – The rule should be amended to prohibit any person from using the title or designation "physician." This would help alleviate the problem that arose in Morgantown where several Optometrists listed themselves in the telephone Yellow Pages under "Physicians."

10.4 – The continuing education requirement (8 hours) is low in comparison to the educational requirements required by many other professional governing boards. The total hours required should be increased. A restriction, however, should be inserted permitting only a small portion of the total hours required be obtained in non-clinical education such as office management programs. A certain number of hours should be required in the area of pharmacological therapeutics.

#### Title 14, Series 4

5.1.3, 5.1.4 – It is unclear the reasoning behind the required disclosure of the name of any person who "may" have "treated" the patient after the alleged incident. A similar disclosure applies to health care institutions. The use of the word "may" seems vague and the extent to which the word "treated" applies to any medical treatment would lead to the disclosure of irrelevant information.

Thank you again for the opportunity to submit these comments. We appreciate the important responsibility the Board has to help maintain the highest level of professional standards to ensure patient safety for the benefit of every West Virginian.

Re: Comments on Title 14 - Series 1 and 4

Dear Mr. Jenkins:

Following are written comments in follow up of my conversation with your government relations specialist, Ms. Amy K. Tolliver.

Generally, the proposed modification of the Title 14 rules is an attempt to comply with HB 4062, passed by the legislature last session, i.e., a standardization of complaint procedures across all state boards.

It is the Board's intent to modify the remaining rules after changing our law in the next session of the legislature. The changes we intend are strictly technical in nature in that we wish to transfer such things as our license fee, scheduled meeting dates, fines, etc. from our law into rules where they will be easier to modify. We specifically intend to address several of the issues you raise, i.e., license fee, continuing education requirements, etc.

We appreciate your comments and I must admit that you raised some points we need to examine more closely, i.e., 4.1, and 6.2.

The answer to 5.4 is yes. We currently require the passage of all three parts of the National Board of Optometry in lieu of the itemization in 5.4.

We agree whole-heartedly with your analysis of 7.2 and 8.1. These articles are the primary motivation for modifying Chapter 31 and the attendant rules.

We disagree with your suggestion concerning 9.1, which is covered by 14-1-11. The optometrists in question were well aware they were in violation of the optometry law.

The Board approved the use of the term optometric physician one or two years ago as better describing our expanded scope of practice..

Sincerely,
