399. Entrance money is not refunded on the death of a greyhound or his failure to start.

400. The nominator is liable for the entrance money or stake and the death of a greyhound or a mistake in its entry when eligible, does not release the subscriber or transferee from liability for stakes.

401. In the absence of notice to the contrary, entrance and declarations for sweepstakes which close during or on the eve of a racing meeting, close at the office of the Racing Secretary who shall

make provisions therefor. Closing at all other times for sweepstakes shall be at the office of the Association.

402. When an hour for closing is designated entries and declarations for sweepstakes cannot be received afterwards; but if an hour is not designated, they may be mailed or telegraphed up to midnight of the day of closing, provided they are received in time for compliance with every condition of the race.

403. Nominations for stake races received and postmarked before midnight of the day of closing shall be valid if received twenty-four (24) hours in advance of closing overnight entries.

404. If a miscarriage of any entry or declaration in a stake is alleged, satisfactory proof that it was mailed or telegraphed must be presented within a reasonable time or it shall not be received.

405. A person entering a greyhound thereby becomes liable for the entrance money or stake.

406. An entry of a greyhound in a sweepstake is a subscription to the sweepstakes and the subscriber is liable for stake and forfeit, but should he transfer the entry he is liable only in cause of default to the transferee. Similarly, the seller of a greyhound with engagements is liable for stake or forfeit if the engagement is not kept.

407. A person making a wrong entry or nomination shall be liable for stake and forfeits under the nomination.

408. The entrance money, starting and subscription fees, in every race shall go to the winner unless otherwise provided in the conditions of the race, but when, from any cause, a race is not run off, all stakes or entrance money, if any is paid, shall be refunded.

409. When a person is prevented by these rules from entering or starting a greyhound for any race without pay arrears for which he would not otherwise be liable, he may, by paying the same, enter or

start the greyhound and have the arrears placed on the forfeit list as due to himself.

(a) If the seller of a greyhound with engagements is compelled to pay arrears through the purchaser's default, he may place the amount on the forfeit list as due from the purchaser to him. This rule shall also apply in the transfer of entries when the transferee defaults.

(b) The Racing Secretary, with the approval of the Judges, shall have full authority to waive the obligations incurred by this rule according to the circumstances of the case.

410. Any person not having money to his credit with the Association must, before his greyhound can start, pay (in cash, if required) to the Association, all entrance money, stakes and arrears then due it or on the greyhound he intends to start.

411. If a greyhound is sold to a disqualified person, said greyhound's racing engagements shall be void as of the date of sale.

412. In case of fire or accident, or for other reasons, after due public notice, all races or stakes may be postponed or declared off, and when so declared off, all subscriptions and declaration money paid must be refunded.

413. No more than one greyhound of any licensed owner shall be allowed to run in any race, except as in stake or sweepstakes races unless express written permission has been granted by the West Virginia Racing Commission.

Section 30 POST POSITION

~~417.~~ 2 The post position of greyhounds in starting shall be assigned by lot or drawing, supervised by the Commission Judge and Racing Secretary, at a time and place properly posted in the paddock, at least one day previous to the running of the races, so that any and all owners, trainers or authorized agents interested may be present if they so desire.

Section 31 DECLARATIONS

42[illegible]. The declaration of a greyhound out of an engagement is irrevocable.

43. Declarations in sweepstakes shall be made in the same manner as is provided for making entries therein to the Racing Secretary who shall record the day and hour of receipt and give early publicity thereto.

44. Declarations in purse races must be made by the owner, trainer, or Authorized Agent to the Racing Secretary or his assistant at least one-half hour before the time designated for the drawing of post positions on the day previous to the day on which the greyhound is to race, or at such time as the Racing Secretary may appoint.

Section 32 SCRATCHES

49. To scratch a greyhound entered in a race, sufficient cause must be given to satisfy the Judges. All scratches and the cause must be reported immediately to the Judges.

50. Any scratches that occur that are the result of a violation of a racing rule must carry a penalty and/or suspension of said greyhound for a period of six (6) racing days. Scratches for other causes must be disciplined at the discretion of the Judges.

(a) However, if any owner or trainer fails to have the greyhound entered at the track at the appointed time for weighing-in, and, as a result, said greyhound is scratched, the Judges shall impose a forfeiture and/or suspension on the person responsible.

431. If three (3) or more greyhounds are withdrawn or scratched in any one race, the Judges may cancel said race.

432. The Judges may scratch a greyhound entered in a race for sufficient cause.

Section 33 THE RACE

437. If a greyhound bolts the course, runs in the opposite direction, or does not run the entire prescribed distance for the race, it shall forfeit all rights in the race and, no matter where it finished, the Judges shall declare the finish of the race the same as if said greyhound were not a contender. However, for the purpose of the rule, said greyhound shall be considered a "starter".

438. If a greyhound bolts the course, or runs in the opposite direction during the running of the race, and in so doing, said greyhound, in the opinion of the Judges, interferred with any other greyhound in the race, the Judges shall declare it "No Race" and all monies wagered shall be refunded; except when, in the opinion of the Judges, such interference clearly did not interfere with the outcome of the race.

439. If it appears that a greyhound may interfere with the running of the race because of failure to leave the box, because of an accident or for any other reason, any person under the supervision of the Judges stationed around the track, may remove said greyhound from the track. However, for the purpose of the rule, said greyhound shall be considered a "starter".

440. All greyhounds must wear the regulation association muzzle and blanket while racing. Blinker muzzles may not be used.

441. Muzzles and blankets must be carefully examined in the paddock by the Paddock Judge before the greyhounds leave the post and again be examined before the Judges at the Judges' Stand or before the Starter at the starting box by the Patrol Judge.

442. All greyhounds must be exhibited in the show paddock before post time of the race in which they are entered.

443. After the greyhounds leave the paddock on their way to the starting point, and until the Judges direct the gates to be reopened, all persons except the racing officials and necessary attendants

shall be excluded from the track to be run over.

444. No race shall be called official unless the lure is in advance of the greyhounds at all times during the race and if at any time during the race, any greyhound or greyhounds catch or pass the lure, the Judges shall declare it "No Race" and all monies shall be refunded.

445. The Judges shall closely observe the operation of the lure and hold the Lure Operator to strict accountability for any inconsistency of operation.

446. If a greyhound is left in the box when the doors of the starting box open at the start, there shall be no refund -- but if one or more greyhounds are prevented from leaving the box at the start because of being locked in the starting box, the money wagered on said greyhound or greyhounds so locked in the starting box, shall be deducted from the pool and it shall be refunded. The Judges shall make the sole decision on the question of what greyhound or greyhounds are prevented from starting in a race through failure of the doors of the starting box to open.

447. If a race is marred by jams, spills or racing circumstances other than accident to the machinery while a race is being run, and three (3) or more greyhounds finish, the Judges shall declare the race finished; but if less than three (3) greyhounds finish, the Judges shall declare it "No Race" and all monies shall be refunded.

See Sec 34 WEIGHTS AND WEIGHING

452. All greyhounds must be weighed not less than one (1) hour before the time of the first race of the day.

453. Before a greyhound is allowed to school or race at any track, the owner or trainer must establish its racing weight with the Clerk of Scales.

454. At weighing-in time, should there be a variation of more than one and one-half (1 1/2) pounds either way from its established weight, the Judges shall order said greyhound scratched.

455. At weighing-out time, if a greyhound loses weight in excess of one (1) pound from its weigh-in weight while in the lock-out kennels, the Judges shall order said greyhound scratched. However, upon certificate from the Veterinarian that such loss of weight while in the lock-out kennels does not impair the racing condition of the greyhound, the Judges may allow said greyhound to race. → sec 455 Next Page

456. If at weighing-in time, should there be more than two (2) pounds variation between the weight of its present race and the weight at weighing-in time of its last race, the Judges shall order said greyhound scratched.

457. The weight regulations provided in ~~Rules 452, 453, 454, 455 and 456~~ Sections 34.1, 34.2, 34.4, 34.5 and 34.6 above shall be printed in the daily program.

458. The established racing weight may be changed from time to time on written request of the owner or trainer and by written consent of the Judges, providing such change is made four (4) calendar days before the greyhound is allowed to race at the new weight.

(a) All greyhounds having an established weight change of more than one (1) pound must be schooled at least once; or more at the discretion of the Judges, at the new established weight before being eligible for starting.

459. Greyhounds that have not raced or schooled officially for a period of three (3) weeks will be allowed to establish a new racing weight with the written consent of the Judges and may be schooled officially immediately upon receipt of said written consent.

460. The Judges shall have the privilege of weighing a greyhound entered in a race at any period from the time he is entered in a race until post time.

44.3 589. An appeal from a decision of a Racing Official to the Commission shall not affect such decision until the appeal has been acted upon by the Commission.

590. Upon receipt of the written demand for such hearing, in accordance with ~~Rule 588~~ Section 44.2, a time and place not less than ten (10) nor more than thirty (30) days thereafter will be set by the Commission. Section 45 MUTUEL DEPARTMENT

45.1 597. No Association shall be licensed to hold a race meet by the Commission until a totalisator, approved by the Commission, ha

been installed to handle the pari-mutuel wagering.

The cycle of frequency of change on the totalisator board shall not be more than sixty (60) seconds.

45.2 ~~598.~~ Whenever the Tote Board fails mechanically and is obviously unreliable as to the amounts wagered or at any other such time as he may deem it necessary, the Auditor of the Pari-Mutuels, may require that the pay-off be computed on the sums then wagered in each pool as shown by the recapitulation of the sales registered by each ticket-issuing machine. Such method is commonly known as a "physical takeoff". This rule is not to apply to computerized plants, however errors are to be adjusted in accordance with ~~Rule 602~~ Section 45.11

45.3 ~~599.~~ Every Association not equipped with automatic price computers, shall employ and use six (6) competent persons to perform pari-mutuel calculations, two of whom shall be assigned to each of the positions of "Straight", Place", and "Show". Each person so assigned shall make an independent calculation, and both persons must be in complete agreement before the price is posted for each position in every race.

45.4 ~~600.~~ Each Racing Association must in all cases of pari-mutuel pool distribute not less than Two Dollars and Twenty Cents ($2.20) on each winning two-dollar wager.

45.5 ~~601.~~ If more than five separate interests are declared official starters by the Board of Judges, there must be win, place and show wagering in the pari-mutuels. If more than four separate interests are declared official starters by the board of Judges, there must be at least win and place wagering in the pari-mutuels.

45.6 ~~602.~~ The result of every race is determined insofar as the mutuel pay-off is affected when it is posted as "official" and, as immediate distribution of the respective pools is required, no subsequent change in the order of finish shall involve the mutuel department.

45.7 ~~603~~. If the Judges or the Veterinarian excuse a greyhound or greyhounds and order the greyhound or greyhounds scratched, before they are locked in the gate, and such action reduces the number of greyhounds in separate interests actually engaged in the race below the number required for show or place betting, refunds may be made of the place and show pools, either or both, to bring the number of greyhounds in separate interests within the required minimum of greyhounds necessary for such pools.

45.8 ~~604~~. If any greyhound or greyhounds should be excused by the Judges after the greyhounds shall have left the paddock for the post, the money bet on any greyhound or greyhounds so excused shall be deducted from the pool and refunded to the purchaser or purchasers of tickets on the greyhound or greyhounds so excused, provided, after the start, there shall be no refund.

45.9 ~~605~~. All payments to holders of tickets entitled to share in the distribution of the respective pools shall be in proportion to their investment in the greyhound or greyhounds sharing in the distribution from these pools; reference to payments out of pools, meaning the distributable portion thereof; but refunds when made include all the money in the pool or pools to which they apply.

45.10 ~~606~~. Should there be any error in calculation where the public is underpaid, the amount of the underpay shall be added to the same pool on the next race. If such an error should result in the public being overpaid, the amount of the overpay will be chargeable against the funds of the racing association.

45.11 ~~607.~~ No Association shall recognize either during the course of a race meeting or thereafter, any claim on pari-mutuel tickets unless a valid pari-mutuel ticket is presented. In the case of mutilated tickets if the portions of the tickets presented are sufficient to definitely identify the ticket as a winning ticket, the Association may accept the mutilated ticket and make payment. No mutilated ticket may be paid by the Association if any of the following parts are missing:

Complete Code Word
Greyhound Number
Race Number
Date

45.12 ~~608.~~ If two greyhounds run a dead heat for first place, the money in the "straight" mutuel pool is divided the same as in the "place" pool calculation.

45.13 ~~609.~~ If two greyhounds run a dead heat for second place, the division is as follows: The winner of the race receives his full share of one-half of the "place" money, and the two dead heaters receive one-half each of the balance or one-fourth each of the whole.

→ See 609A next page

45.14 ~~610.~~ If a greyhound should run second upon which no "place" ticket has been sold, all the "place" pool is apportioned to the "place" tickets sold on the greyhound that finished first, there being only ONE participating ticket and not TWO as usual, the calculation being the same as in a "straight" pool.

45.16 ~~611.~~ If a greyhound should finish third upon which no "show" ticket has been sold, all of the "show" pool is divided between the "show" tickets sold on the greyhounds that finished first and second, there being but TWO participating tickets and not THREE as usual the calculation being the same as in the "place" pool.

45.17 ~~612.~~ If only one greyhound finishes in a race, all money in all pools shall be refunded. ~~(See Rule 4 and 8 for fee)~~

~~609~~A. If a greyhound should be adjudged to have finished first in a race, and no money has been wagered on such greyhound in the win pool, the net win pool shall be distributed to those bettors who wagered therein (win pool) on the greyhound adjudged to have finished second.

45.18 ~~613.~~ If only two (2) greyhounds finish, all money shall be refunded. ~~(See rule 447)~~ (See Section 33.11)

45.19 ~~614.~~ The State Judge shall close and lock all Mutuel Machines at the scheduled Post Time as shown on the field Mutuel Board.

45.20 ~~615.~~ Each Association shall maintain suitable electric apparatus for locking the totalisator windows. It shall be operated from the Judge's stand by one of the Judges designated for this duty.

45.21 ~~616.~~ While the betting is in progress, there shall be frequent posting of the approximate odds on the greyhounds taking part in the race.

45.22 ~~617.~~ Suitable apparatus must be provided whereby notice is given to the mutuel department (1) that the greyhounds that are to run are on the track after leaving the paddock, (2) that they are parading, (3) that the greyhounds have reached the starting box and (4) that the greyhounds are off.

45.23 ~~618.~~ Totalisator adjustments will be summarized at the close of each meeting, and, if the net result is a credit to the company operating the totalisator, then the Auditor of Pari-Mutuels will obtain a check from the company for the amount of the net credit, made payable to the West Virginia Racing Commission, which said Commission will deposit with the State Treasurer.

45.24 ~~619.~~ Daily Double Rules shall be as follows:

A ~~(1)~~ The daily double is not a parlay and has no connections with or relation to the mutuel betting. All tickets on the daily double will be calculated in an entirely separate

pool. All tickets will be to win (straight) only. No "entry" or "field" shall be permitted in any race involved in the daily double.

B If no ticket is sold combining the two winners, the daily double pool then shall be apportioned equally between those having tickets including the winner in the first race and those having tickets including the winner in the second race, in the same manner in which a "place" pool is calculated and distributed.

C If no ticket is sold including the winner of the first race, the entire pool will be paid to holders of tickets which include the winner of the second race of the daily double.

D Likewise, if no ticket is sold including the winner of the second race, then the entire pool will be paid to holders of tickets which include the winner of the first race of the daily double.

E If no ticket is sold including the winner of either race, then the pool shall be paid to the holders of tickets which include the greyhounds finishing second in the two races of the daily double.

F If no ticket is sold which would require distribution of the daily double pool, the Association shall make a complete and full refund of the pool.

G If, for any reason, the first race of the daily double is cancelled and declared "no race", full and complete refund will be made of the daily double pool. If, for any reason, the second race of a daily double is cancelled and declared "no race", the daily double pool shall be distributed to the holders of the daily double tickets on the winner of the first race in the same manner as the straight pool of the first race is distributed ex-

cept as to the amount of distribution which shall be controlled by the amount bet in the daily double pool.

H (8) If after the first half of the "Daily Double" has been run and declared "Official" a greyhound is excused or scratched in the second half of the "Daily Double" then a consolation pay-off shall be made to holders of the Daily Double to the excused or scratched greyhound of the second half of the Daily Double computed in the following manner:

> The Net Daily Double Pool (Gross Pool less commission) shall be divided by the Total number of tickets sold combining the winner of the First Half, the quotient thus obtained shall constitute the Consolation Pay-Off, to be paid to holders of each ticket combining the winner of the First Half and the scratched or excused greyhound in the Second Half. The entire Consolation Pool (number of eligible tickets times the Consolation Price and not the breakage, shall be deducted from the Net Daily Double Pool. The remaining Pool is the new Net Pool for the Daily Double.

I (9) If holder of tickets loses the first race of the daily double and the greyhound is scratched in the second race, no money shall be refunded.

J (10) Before the running of the second half of the Daily Double, the pay-off prices of each combination coupled with the first winner shall be prominently posted, unless the first race of the Daily Double has resulted in a dead heat in which case the prices will not be posted and an announce

ment to this effect will be made over the loud speaker.

45.25 621. No Association holding a race meeting under a license issued by the West Virginia Racing Commission shall permit bets to be made on the grounds of said Association on any race run outside of said grounds, and no foreign book or gambling device of any kind shall be permitted on said grounds.

45.26 622. Such rules for pari-mutuel betting as may be specified by the Commission shall be printed in the daily racing programs sold to the public within the premises of Racing Associations.

45.27 623. PERFECTA WAGERING:

A (a) The "perfecta" form of wagering may be permitted by permission of the Commission upon application of the licensee.

B (b) The "perfecta" is a contract by the purchaser of a ticket combining two greyhounds in a single race, selecting the two greyhounds that will subsequently finish first and second in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order to finish as officially posted.

C (c) The "perfecta" is not a parlay and has no connection with or relation to the win, place and show betting and will be calculated as an entirely separate pool.

D (d) In the event no ticket is sold on the winning combination of a perfecta pool, the net pool shall be apportioned equally between those having selected the winner and those having selected the greyhound finishing second in the same manner in which a place pool is calculated.

E (e) In case of a dead heat between two greyhounds for first place, the net perfecta

pool shall be calculated as a place pool to holders of tickets of the winning combination/s. In case of a dead heat between two greyhounds for second place, the perfecta pool shall be calculated as a place pool, the holders of tickets combining the winning greyhound and the two greyhounds finishing second participating in the pay off.

F (11) In the event of an entry finishing first and second, the next exacta or perfecta pool shall be distributed to holder of tickets combining the entry with the greyhound finishing third.

G (12) If a greyhound/s in a race on which there is perfecta wagering is excused by the Judges, all moneys wagered on combinations which include this greyhound shall be deducted from the perfecta pool and refunded to the purchaser of tickets on the greyhound/s.

H (13) If no ticket is sold that would require distribution of a perfecta pool, the association shall make a complete and full refund of perfecta pool.

45.28 ~~624.~~ (14) "BIG" OR "TWIN" PERFECTA WAGERING:

A (15) The "Big Perfecta" is a form of pari-mutuel wagering in which the bettor selects two greyhounds, that will finish first and second in each of two races in the exact order as officially posted.

B (16) "Big Perfecta" tickets shall be sold only at "Perfecta" windows by the licensee and only from automatic double issue machines.

C (17) Each bettor purchasing "Big Perfecta" tickets shall designate his two selections as the first two greyhounds to finish in that order in

the first race of the two designated races.

D 18 After the official declaration of the first two greyhounds to finish in the first race of the "Big Perfecta" each bettor holding a ticket combining the first two greyhounds in the exact order of finish must, prior to the running of the second "Big Perfecta" race exchange such winning tickets for a "Big Perfecta" exchange ticket at the "perfecta" windows and at such time shall select the two greyhounds to finish in the second race of the "Big Perfecta" in the exact order as officially posted. No further money shall be required of the holder of the ticket in order to make the exchange.

E 18 No "Big Perfecta" exchange ticket upon the second race shall be issued except upon the surrender of the "Big Perfecta" ticket from the first race as described in these rules. The "Big Perfecta" pool obtained from the sales of "Big Perfecta" tickets upon the first race shall be held, subject to those rules, and divided among the winning tickets of the "Big Perfecta" exchange tickets, subject to these rules to the contrary. "Perfecta" windows shall be open for the purpose of making the exchange as described only after the first race has been declared official and such windows shall close at official post time at the start of the second race of the "Big Perfecta" races.

F 18 If a winning "Big Perfecta" ticket from the first race is not presented for exchange within the time provided, the bettor forfeits all rights to any distribution or refund except in the event the second half of the "Big Perfecta" is cancelled

or declared "No Race" or if no exchange ticket includes either the first or second greyhound of the second half of the "Big Perfecta". ~~(See No. 11)~~ (See Section 45.28.0)

G If a greyhound is scratched in the first race of the "Big Perfecta" races, all Big Perfecta" tickets on the scratched greyhound will be refunded.

H If a greyhound is scratched in the second race of the "Big Perfecta", all exchange tickets combining the scratched greyhound shall become consolation tickets and shall be paid a price per dollar denomination calculated as follows: the net "Big Perfecta" pool (gross pool less commission) shall be divided by the total purchase price of all ticket combining the winners of the first race of the "Big Perfecta". The quotient thus obtained shall be the price to be paid to holders of exchange tickets combining the scratched greyhound in the second race of the 'Big Perfecta". The entire consolation pool (number of eligible tickets times the consolation price) plus the breakage shall be deducted from the net "Big Perfecta" pool.

I If no "Big Perfecta" ticket is sold as a winning combination in the first race of the "Big Perfecta", the "Big Perfecta" pool shall be divided among those having tickets including the greyhound finishing first or second and such distributions shall be calculated and made as a place pool, in such an instance the "Big Perfecta" race shall end and the pool be closed for the day.

J If no "Big Perfecta" exchange ticket is sold on the winning combination, the net pool shall then be apportioned equally between those having tickets including the greyhound finishing first and those having tickets including the greyhound

finishing second in the same manner in which a place pool is calculated and distributed.

K (11) If a "Big Perfecta" exchange ticket combines only one of the two winners and no "Big Perfecta" exchange ticket combines the other winner, the entire pool shall be distributed as a straight pool to the holders of those tickets.

L (12) If no exchange ticket includes either the first or second greyhound of the second half of the "Big Perfecta", the entire net pool shall be distributed as a straight pool to all holders of exchange tickets and winning combinations of the first half that have not been exchanged.

M (13) In the event of a dead heat for place in the first race of the "Big Perfecta" races, all "Big Perfecta" tickets combining the first greyhound and either of the place greyhounds shall be eligible for exchange for "Big Perfecta" exchange tickets.

N (14) In the event of a dead heat for place in the second race of the "Big Perfecta" races, the "Big Perfecta" pool shall be divided, calculated and distributed as a place pool to the holders of "Big Perfecta" exchange tickets combining the first greyhound and either of the place greyhounds. In the event of the dead heat to place and there are no tickets sold on one combination then the other combination having winning greyhounds shall be declared the winner. If no exchange tickets combine the winning greyhound with either of the place greyhounds in the dead heat, the "Big Perfecta" pool shall be calculated and distributed as a place to holders of tickets representing any interest in the net pool.

O (25) If for any reason the second of the "Big Perfecta" races is cancelled or declared "No Race", the pool shall be calculated as a straight pool and shall be distributed among the holders of the tickets combining the first two greyhounds, players of the first race of the "Big Perfecta" otherwise eligible for "Big Perfecta" exchange tickets and also distributed to holders of the "Big Perfecta" exchange tickets.

P (26) If there is a dead heat for the winning greyhound in either of the two designated races for the "Big Perfecta", such calculation of distributions of the "Big Perfecta" pool shall be made in the manner in which any ordinary perfecta pool would be made should there be a dead heat for the win despite the number of greyhounds involved in the dead heat.

Q (27) The word "Perfecta" used in these rules is to be construed to mean "Exacta" where exacta wagering is conducted.

45.24 625. TRIZACTA - TRIFECTA WAGERING:

A (1) Trizacta is a contract between purchaser of a ticket combining three (3) greyhounds in a single race, selecting the three greyhounds that will finish first, second and third in that race.

B (2) Trizacta tickets shall be sold in not less than $2.00 denominations and only from three number issuing machines.

C (3) Races in which trizacta pools shall be conducted shall be approved by the Racing Commission and shall be clearly designated in the program.

D (4) The design of trizacta tickets shall be clearly and immediately distinguishable from

o her pari-mutuel tickets.

E (18) If less than three greyhounds finish, payoff shall be made on tickets selecting the actual finishing greyhounds in order, ignoring the balance of the selection.

F (18) Payment of the ticket will be made only to the purchaser who has selected the same order to finish as officially posted.

G (18) The Trizacta is not a "parlay" and has no connection with or relation to the win, place, or show betting, and will be calculated in an entirely separate pool.

H (18) If a greyhound is scratched or declared a non starter, no further trizacta tickets may be issued designating such greyhound, and all tickets previously issued designating such greyhound shall be refunded and money deducted from the gross pool.

I (18) If no ticket is sold on a winning combination of a trizacta pool, the net pool shall then be apportioned equally between those having tickets selecting the first and second place greyhounds. If no ticket is sold selecting the first and second greyhound in the trizacta pool, the net pool shall then be apportioned equally between those having tickets selecting the greyhound or greyhounds that finished first in the trizacta race. Should no selection be made as above mentioned, the net pool shall be apportioned equally between those having selected the greyhound finishing second combined with the greyhound finishing third.

J (18) Should no selection be made as above mentioned, those having selected the second greyhound for second and the third greyhound for third with

any other greyhounds, contrary to the win, place, and show pool practice, the aggregate number of tickets as mentioned in this paragraph shall divide the net pool and be paid the same pay off price.

K (21) In case of a dead heat for first place, the winning combination shall include the first two greyhounds as finishing in either position, and the greyhound finishing third. In case of a dead heat to place, the winning combination shall be the greyhound finishing first and the two greyhounds finishing in a dead heat for place, as finishing in either position. In case of a dead heat for third, the winning combination shall be the greyhound finishing first, the greyhound finishing second, and the two greyhounds finishing in a dead heat for third, as finishing in either position, and distribution shall be made in accordance with established pari-mutuel practice relative to dead heats.

L (22) Should no ticket be sold that would require distribution of the trizacta pool to a winner as above defined, the Association shall make full refund of the pool.

M (23) No entries or field greyhounds shall be allowed to start in any race on which Trizacta pool is sold.

45.30 526. Should any emergency arise in connection with the operation of the Mutuel Department not covered by these rules and immediate decision be necessary, the Mutuel Manager shall make the decision and a prompt report of the facts will be made to the Racing Commission. If an error is made in posting the odds or the pay-off figures on the public board, it shall be corrected promptly and only the correct amounts shall be used in the pay-off, irrespective of the error that may have
