SUMMARY OF FACTS AND CIRCUMSTANCES

FACTS

The National Voter Registration Act of 1993 required all states to implement voter registration at public assistance agencies and through state-funded programs whose primary purpose was to serve persons with disabilities. S. B. 520, passed in 1994, established these requirements as state law and provided for a rule-making process to identify the agencies required to provide these services beginning January 1, 1995.

CIRCUMSTANCES

Although West Virginia Code §3-2-13 requires the emergency rule be filed by October 1, 1994, designating the agencies to provide voter registration, the Secretary of State has worked with the various agencies of state government to identify the appropriate programs and office sites since July. Only in early November was the office able to complete the identification of the agencies which must provide these services in order to meet the requirements of the federal and state law.

7. **If the emergency rule was promulgated in order to comply with a time limit established by the Code or federal statute or regulation, cite the Code provision, federal statute or regulation and time limit established therein.**

WV Code §3-2-13 requires it be filed by October 1, 1994, but we were

unable to get complete information from agencies by that time.

(see also #6).

8. **State, with particularity, those facts and circumstances which make the emergency rule necessary to prevent substantial harm to the public interest.**

The National Voter Registration Act requires that applicants of public assistance agencies and agencies serving the disabled provide voter registration on site beginning January 1, 1995. Without this designation, agencies may not comply with the federal law and voters may be disenfranchised and the state may be liable for court costs if complaints of noncompliance are filed.
