BRIEF SUMMARY AND STATEMENT OF CIRCUMSTANCES

The West Virginia Statewide Addressing and Mapping Fund was created by the Legislature in 2001, pursuant to W. Va. Code § 24E-1-5, as a special revenue fund funded by private sources. Pursuant to the provisions of W. Va. Code § 24E-1-11, the Board will terminate on April 1, 2007. Upon termination of the Board, W. Va. Code §24E-1-5 further provides that any amounts remaining in the Fund are to be distributed to county commissions in accordance with legislative rules to be proposed by the Board by January 1, 2005. The proposed rules filed by the Board herewith are being filed to meet this requirement. The rules propose distributing any remaining funds to eligible county commissions in the same manner and proportions as wireless enhanced 911 fees are distributed to county commissions under W. Va. Code § 24-6-6b.

Fiscal Note Summary

Summarize in a clear and concise manner what impact this measure will have on costs and revenues of state government.

None. The West Virginia Statewide Addressing and Mapping Fund was created pursuant to WV Code 24E-1-5 as a special revenue account funded by private sources. This Code section further requires the transfer of any amounts remaining in the fund upon the termination of the Board to county commissions and requires the Board to propose rules governing the distribution of any such funds by January 1, 2005. These proposed rules are being filed to satisfy that requirement and will result in no fiscal impact on costs and revenues of state government.

WEST VIRGINIA STATEWIDE ADDRESSING AND MAPPING BOARD

JUN 22 2007 P 3:56

SERIES 3
FINAL DISTRIBUTION AND USE OF
STATEWIDE ADDRESSING AND MAPPING FUND

OFFICE WEST VIRGINIA
SECRETARY OF STATE

§169-3-1. General.

1.1. Scope. Pursuant to W. Va. Code § 24E-1-5, the West Virginia statewide addressing and mapping board adopts the following rules governing the final distribution and use of any remaining amounts in the statewide addressing and mapping fund upon the termination of the board scheduled under W. Va. Code § 24E-1-11 for April 1, 2007.

1.2 Authority. W. Va. Code §§ 24E-1-5; 29A-3-15.

1.3. Filing Date. -----

1.4. Effective Date. -----

1.5 Definitions.

1.6.a. "Board" means the West Virginia statewide addressing and mapping board.

1.6.b. "Fund" means the West Virginia statewide addressing and mapping fund.

1.6.c. "Emergency services purposes" means use related to 9-1-1 or enhanced 9-1-1 dispatch and response.

1.6.d. "Project" means the project for the creation of a statewide addressing and mapping system for emergency services purposes, but usable as a base for other purposes, in accordance with and consistent with Chapter 24E, Article 1 of the West Virginia Code.

1.6.e. "System" means the statewide addressing and mapping system to be created as a result of the project, with the participation of public agencies and other entities, including, without limitation, the establishment of city-type addressing and mapping systems essential to the prompt and accurate dispatch of emergency service providers. The term "system" also includes any local modifications that may be made to the system in order to tailor it to meet specialized local concerns.

1.6.e. "Eligible county commissions" means those county commissions that comply fully with the board's standards and other requirements for the statewide addressing and mapping system.

§169-3-2. Final Distribution and Use of Remaining Amounts in Fund.

2.1 Distribution and Use of Fund. The board shall, as its last act prior to its termination, transfer to eligible county commissions any remaining amounts in the fund, in the same proportions and manner as wireless enhanced 911 fees are distributed to county commissions under W. Va. Code § 24-6-6b for the year in which the remaining amounts from the fund are distributed. In accordance with the Legislature's express intention under W. Va. Code §§ 24E-1-1 and 24E-1-5 that the fund be used solely for establishment of a statewide addressing and mapping system primarily for emergency services purposes, those amounts may be used by county commissions solely to implement and maintain the project or the system within each county primarily for emergency services purposes.

2.2 Ineligible County Commissions. Any county commission that fails to comply fully with the board's standards and other requirements for the statewide addressing and mapping system, and that does not remedy its failure, or demonstrate substantial progress toward doing so and obtain an appropriate waiver from the board by the time of the final distribution of the fund, is ineligible to receive any distribution from the fund. Instead, the board shall distribute the share of the fund that the county commission would have received to the eligible county commissions, in the same proportions and manner as wireless enhanced 911 fees are distributed to county commissions under W. Va. Code § 24-6-6b for the year in which the remaining amounts from the fund are distributed.
