FILED
1986 MAR 31 AM 10:52

The Honorable Ken Hechler
Secretary of State
State Capitol, Suite 157-K
Charleston, West Virginia 25305

Dear Mr. Hechler:

On March 13, 1984, we filed in the State Register two copies of finally promulgated legislative rules regarding the appraisal of property for periodic statewide reappraisals for ad valorem property tax purposes. These regulations are cited as W. Va. Leg. Reg. 11-1A, Series Ia (effective April 12, 1984). These regulations were filed pursuant to the authority of West Virginia Code § 64-2-11(1a)(11) which was added by Committee Substitute for Senate Bill No. 425 which took effect on March 10, 1984.

The above regulations required that on or before March 31 of each year, certain information be filed in the State Register relating to certain factors to be considered in the valuation of coal and other natural resource properties. More specifically, the subject matter of the attachments and its relationship to the promulgated regulations may be described as follows:

A. CAPITALIZATION RATE SURVEY

1. For use in the valuation of active mining properties that includes: coal, limestone, sandstone, clay and shale, sand and gravel, and salt.

2. This information is provided pursuant to the requirements of the regulations set forth in § 11-04(c)(1)(C)(3) on pages 26 and 27; and § 11-08(c)(1)(C)(3) on pages 108 and 109.

B. REVIEW OF INACTIVE RESERVE COAL PROPERTY SALE.

1. This information is provided pursuant to the requirements set forth in § 11.04(c)(3)(B) on pages 28 and 29.

C. REVIEW OF COAL PROPERTY ROYALTY RATES.

1. This information is provided pursuant to the requirements set forth in § 11.04(c)(1)(B) on pages 15 and 16.

D. REVIEW OF OTHER NATURAL RESOURCES INACTIVE RESERVE SALES.

1. This paragraph D relates to limestone, sandstone, clay and shale, sand and gravel, and salt.

2. This information is provided pursuant to the requirements set forth in § 11.08(c)(3) on pages 109 through 111.

E. REVIEW OF OTHER NATURAL RESOURCES ROYALTY RATES.

1. This information relates to limestone, sandstone, clay and shale, sand and gravel, and salt.

2. This information is provided pursuant to the requirements set forth in § 11.08(c)(1)(B) on pages 97 through 100.

The State Tax Department will accept written public comments on these reports until May 1, 1986, and will consider these reports and the public comments when it issues the final capitalization rates, values per acre and royalty rates in valuing coal property and other natural resource property. These final reports will be issued on or before July 1, 1986.

We note that under the regulations cited [§§ 11.04(c)(3)(B), 11.04(c)(1)(B), 11.08(c)(3) and 11.08(c)(1)(B)], the Tax Commissioner is required to file this survey to include sale and lease reports for transactions that have occurred during the eight (8) years prior to the appraisal date. Although the base year for the reappraisal

is 1983, these reports will not only include the prior eight years' information (1976 to 1983) but will include some transactional information for years 1984 and 1985. This additional sale and lease data is being filed to inform the property owners that upon implementation of the reappraisal possible updates in values which reflect more recent transactions will be considered.

Very truly yours,

Michael E. Caryl
State Tax Commissioner

Coal
Limestone
Sandstone
Clay and Shale
Sand and Gravel
Salt

March 31, 1986

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

The attached report is being filed in compliance with West Virginia Code § 11-1A-11.04(c)(1)(c)(3) and § 11-1A-11.08(c)(1)(c)(3). The information herein contained will be considered by the West Virginia Tax Department for the development of a capitalization rate(s) for use in the reappraisal of active coal, limestone, sandstone, clay, shale, sand, gravel, and salt properties. Public comment on the data contained in this report will be accepted until May 1, 1986, and the selection of a final capitalization rate will be issued on or before July 1, 1986.

According to West Virginia Code § 11-1A-2, "The base year for the first statewide reappraisal shall be the year one thousand nine hundred eighty-three (1983)." Therefore, this report will only contain that information which relates to the capitalization rate components for the base year as discussed in the above-mentioned regulations. However, research will be conducted on interest rates, loan rates and tax rates for the fiscal years 1983-84, 1984-85 and 1985-86 so that possible updates in values can be considered.

SURVEY

In developing a capitalization rate for use in valuing active mining properties, consideration will be given to three (3) approaches generally considered in estimating the discount component. These are:

(1) Market comparison

(2) Summation technique

(3) Bands of investment

The accumulation of data necessary for use in these three approaches was accomplished by giving attention to the following items:

(a) Research and review of possible willing-buyer, willing-seller sales of active mining operations that have taken place in West Virginia over the past eight years. (1976-1983)

(b) Review of the Federal Reserve Statistical Release for the period July, 1980 to July, 1983, with special attention given to the auction rates for 90-day Treasury Bills, 6-month Treasury Bills and 1-year Treasury Bills.

(c) Questionnaire sent to fifty-two (52) lending institutions which were identified in the Keystone Coal Industry Manual as having been involved in offering financial services to the coal industry in West Virginia and/or the Appalachian area. Of these 52, twenty-three (23) were in-state institutions. The questionnaire included responses for the following topics:

(1) Interest rates and factors involved in financing active mining operations for various types of mineral properties for 1981, 1982, and 1983.

(2) Interest rates involved in financing acquisition of various types of mineral reserve properties for 1981, 1982, and 1983.

(3) Equity-capital requirements for financing active operations and for acquisition of reserves.

(4) Allowances for second-mortgage possibilities for equity-capital requirements.

(5) Management charges.

(d) Review of Tax Department statistical reports relating to classified assessed valuations and distributions of taxes.

I. Market Comparison

(a) Active Coal Properties

A review of records at courthouses where active properties are located and a review of newspaper articles announcing possible sale transactions have shown that sales of active coal properties have occurred over the past eight years. However, because of the limited amount of transactions, the Tax Department has only been able to research and construct an appraisal on the following transfers:

(1) Valley Camp Coal Co. - New York Marine Carriers (transfer cancelled on day of closing)

(2) Republic Steel Corporation - Royal Land Co.

(3) Coal Lick Coal Co. - Mary Ruth Corporation

(4) F. W. Browning - W. P. Coal Company

(5) Wheeling Dollar Savings & Trust Company - Eastern Royalty Company

(6) Island Creek Coal Company - Coremco Land Development Corp.

A review of the appraisal to sale comparisons can be made at the Tax Department's Property Tax Division office.

(b) Active Other Natural Resource Properties

A review of records at courthouses in counties where active properties were located did not reveal sale transactions of such properties. Therefore, this approach for the active properties of limestone, sandstone, clay, shale, sand, gravel and salt will not be used.

II. Summation Technique

(a) Safe Rate - 90-day Treasury Bills [for further discussions of the determination of the Safe Rate, see West Virginia Code §§ 11-1A-11.04(c)(1)(c) and 11-1A-11.08(c)(1)(c)]

	80-81	81-82	82-83
July	8.120%	14.797%	11.576%
August	9.259	15.606	8.925
September	10.561	14.605	8.094
October	11.604	13.674	7.750
November	13.888	10.995	8.089
December	15.310	11.058	7.946
January	14.928	12.412	7.873
February	14.905	13.780	8.177
March	13.217	12.674	8.394
April	13.918	12.677	8.252
May	16.295	12.022	8.278
June	14.427	12.545	8.860

Fiscal Year Average - (80-81) = 13.036%
(81-82) = 13.070%
(82-83) = 8.518%

3-Year Average = 11.541%

(b) Risk Rate - interest differential between loan rates and 90-day Treasury Bills. [for further discussions of the determination of the Risk Rate, see West Virginia Code §§ 11-1A-11.04(c)(1)(c) and 11-1A-11.08(c)(1)(c)]

Loan Rates (from Questionnaire)

	1981	1982	1983
(1)	16.5% to 19.75%	13% to 17%	11.75% - 12.5%
(2)	Prime to Prime + 3%	Prime to Prime + 3%	Prime to Prime + 3%
(3)	15.75% to 20%	11% to 17%	10.5% to 15%
(4)	14% to 17%	13% to 15%	12% to 14%
(5)	15% to 16%	14% to 15%	13% to 14%
(6)	Prime to Prime + 2%	Prime to Prime + 2%	Prime to Prime + 2%
(7)	18.57% to 20.57%	14.58% to 16.58%	10.83% to 12.83%
(8)	Prime to Prime + 4%	Prime to Prime + 4%	Prime to Prime + 4%
(9)	18%	18%	12% to 13%
(10)	--	--	12% to 15%
(11)	16% to 20%	13% to 18%	12% to 14%

Prime Rate (Range of rates)

July 1980 - June 1981	-	10.75% to 20.50%
July 1981 - June 1982	-	15.75% to 20.50%
July 1982 - June 1983	-	10.5% to 16.50%

(c) Non-Liquidity Rate - interest differential between 90-day Treasury Bill rates and Treasury Bill rates which reflect time necessary to sell active properties. [for further discussions of the determination of the Non-Liquidity Rate, see West Virginia Code §§ 11-1A-11.04(c)(1)(c) and 11-1A-11.08(c)(1)(c)]

6-month Treasury Bills

	80-81	81-82	82-83
July	8.110%	14.402%	12.236%
August	9.443	15.548	10.105
September	10.546	15.047	9.539
October	11.566	14.013	8.299
November	13.612	11.530	8.319
December	14.770	11.471	8.225
January	13.883	12.930	7.898
February	14.134	13.709	8.233
March	12.983	12.621	8.325
April	13.434	12.861	8.343
May	15.334	12.220	8.198
June	13.947	12.310	8.890

Fiscal Year Average - (80-81) = 12.647%
(81-82) = 13.222%
(82-83) = 8.884%

3-Year Average = 11.584%

1-Year Treasury Bills

	80-81	81-82	82-83
July	7.999%	13.735%	12.318%
August	9.385	14.542	11.195
September	10.484	15.056	10.286
October	11.299	14.580	9.521
November	12.219	13.159	8.567
December	13.261	11.504	8.234
January	12.554	13.143	8.007
February	12.801	13.180	8.308
March	11.481	12.509	8.427
April	12.991	12.731	8.275
May	14.623	12.194	8.050
June	13.146	12.173	8.880

Fiscal Year Average -	(80-81)	=	11.854%
	(81-82)	=	13.209%
	(82-83)	=	9.166%

3-Year Average = 11.410%

(d) Management Rate - charges for management of investment portfolios (from questionnaire).

Rates: (1) 5% of gross income

(2) $5/$1000 of principal

III. Bands of Investment.

Information received from questionnaires concerning equity capital requirements did not provide adequate responses for the use of this approach.

Property Tax Rate (Component)

Average statewide Class III Levy Rate for properties in West Virginia were:

Year	Levy Rate	X	Assess/App. Rate	=	Property Tax Rate
1980-81	2.51%	X	60%	=	1.506%
1981-82	2.49%	X	60%	=	1.494%
1982-83	2.46%	X	60%	=	1.476%

HERSCHEL H. ROSE III
COMMISSIONER

February 22, 1984

On January 5, 1984, the West Virginia State Tax Department filed a proposed legislative rule governing, among other things, the valuation of mineral property ownership for ad valorem property tax purposes. In connection with these rules, the Department is required to research certain financial aspects of the natural resource/mining industry.

Attached is a questionnaire that has been developed for this research. Your efforts in completing the attached questionnaire will materially aid this office in our research efforts. Should you have questions concerning this request, please contact Mr. Donald W. Hebb at telephone number (304) 348-3940. Completed questionnaires should be returned by March 15, 1984 to:

West Virginia State Tax Department
Local Government Relations Division
1615 Washington Street, East
Charleston, West Virginia 25311

Attention: Donald Hebb

Your efforts in completing and returning the attachment will be greatly appreciated.

Very truly yours,

Herschel H. Rose III
State Tax Commissioner

- NATURAL RESOURCE FINANCING QUESTIONNAIRE

FOR

_____
(Name of Respondent)

1. During calendar years 1983, 1982, and 1981, what range of interest rates did you require on business loans to assist in financing mineral mining operations?

Type of Mining Operation	1983 From	1983 To	1982 From	1982 To	1981 From	1981 To
A. Coal						
B. Oil						
C. Gas						
D. Limestone						
E. Sandstone						
F. Clay and Shale						
G. Sand and Gravel						
H. Salt						

Comments: _____

_____

_____

_____

2. In setting the rates in Question 1 above, do certain factors such as location of operations and/or types of operations (i.e. deep mines, surface mines, deep wells, shallow wells) affect the rates?

Yes _____ No _____

If yes, please explain.

_____

_____

_____

3. During calendar years 1983, 1982 and 1981, what range of interest rates did you require on loans to finance acquisition of reserve mineral properties?

Type of Mining Operation	1983 From	1983 To	1982 From	1982 To	1981 From	1981 To
A. Coal						
B. Oil						
C. Gas						
D. Limestone						
E. Sandstone						
F. Clay and Shale						
G. Sand and Gravel						
H. Salt						

Comments: _____

_____

_____

4. What kind of equity capital (down-payment) is required for:

(a) financing mineral mining operations? (amount and/or percentage)

_____

(b) financing acquisition of reserve mineral properties? (amount and/or percentage)

_____

5. Does the required equity capital vary according to the specific mineral interest? (coal, oil, gas, etc.)

Yes _____ No _____

If yes, please explain.

_____

_____

_____

_____

6. Do you allow a portion of the equity capital to be financed by another loan? (i.e. second mortgage)

Yes _____ No _____

If yes, what amount or percentage?

_____

7. Does your company offer investment portfolio management?

Yes _____ No _____

If yes, what investment management charge(s) do you require? (amount or percentage)

_____

8. Does this portfolio management charge vary according to such aspects as type of mineral, type of mine, size of portfolio, etc.?

Yes _____ No _____

If yes, please explain.

REVIEW OF INACTIVE RESERVE COAL PROPERTY SALES

March 31, 1986

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Code § 11-1A-11.04(c)(3)(B), the following report is a county-by-county list of inactive reserve coal property sales that have occurred in West Virginia primarily during the eight years (1976-1983) prior to the reappraisal base year of 1983 (some sales for 1984 and 1985 are also included within this report). Although this report contains information from over 1,060 sale transactions, the Tax Department is aware that it (the report) does not include every coal sale transacted during this period, nor is the Tax Department concluding that every sale listed is a "willing seller-willing buyer arms-length transaction." Thus, further reviews will be necessary not only to distinguish willing buyer-willing seller arms-length transactions but to apportion values attributable to coal rights from those sales that involve property interests or rights in addition to coal.

The State Tax Department will accept written public comments on this report until May 1, 1986, and will consider this report and the public comments when it issues the final regional values per acre to be used in valuing inactive coal reserves on or before July 1, 1986.

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia is assigned to a specific region. These regions are as follows:

Region 1 - Brooke, Harrison, Marion, Marshall, Monongalia, and Ohio Counties.

Region 2 (No present mining) - Cabell, Calhoun, Doddridge, Hancock, Jackson, Pocahontas, Putnam, Roane, Tyler, Wetzel, Wirt, and Wood Counties and the northwest portion of Kanawha County (Jefferson, Union, and Poca Districts, and those parts of Big Sandy and Elk Districts that lie north of the Elk River).

Region 3 - Barbour, Grant, Mineral, Preston, Randolph, Taylor, Tucker and Upshur Counties.

Region 4 - Braxton, Clay, Gilmer, Greenbrier, Lewis, Mason, Nicholas, and Webster Counties.

Region 5 - Boone, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Raleigh, Summers, Wayne and Wyoming Counties and the southeast portion of Kanawha County (Washington, Malden, Loudon, Cabin Creek Districts, and part of Big Sandy and Elk Districts which lie south of Elk River).

2. DIST - District

For computer purposes, each district and municipality in each county has been assigned a number. A listing of this information can be viewed at the Tax Department offices at 814 Virginia Street, East, Charleston, West Virginia. Also, in those cases where this report did not provide a district number, the lease document did not describe the district where the property was located or the property was located in more than one district or county.

3. Deed Book - Page No.

The number identified here indicates the deed book and page number of the listed sale transfer.

4. Date

The dates shown in this column are either the date of transaction or the date of recordation.

5. Grantor

The name(s) listed in this column indicates the individual or company who is selling the property identified in the "Seams" column.

6. Grantee

The name(s) listed in this column indicates the individual or company who is buying the property identified in the "Seams" column.

7. Acreage

In this column, the amount of acreage involved in the sale transaction is shown. Also, it should be pointed out that the following adjustments have been made:

(a) If more than one parcel was involved in the sale, the acreage amount shown is the total of those parcels. Also, if one parcel involved coal rights and another involved mineral rights, the two were added together for one total figure.

(b) If the sale involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column identifies the estates involved in the sale transaction. Where specific coal seams were sold, those are shown by abbreviations. These abbreviations are as follows:

- BK = Bakerstown seam
- C or coal = coal estate
- C.O.G. = coal, oil, gas estate
- CB = Coalburg
- DG = Douglas
- F or fee = fee estate
- Frpt = Freeport
- GB = Gilbert
- Kt = Kittanning coals
- LK = Lower Kittanning
- LWE = Lower War Eagle
- LE = Little Eagle
- MIN = mineral estate
- M.O. = Mined out coal
- Pg = Pittsburgh
- PL = Peerless
- P_3 = Pocahontas #3
- P_6 = Pocahontas #6
- Rs = Redstone
- R of W = Right of Way
- Sur & coal = Surface and coal rights
- Sw = Sewickley (Northern Counties), Sewell (Southern Counties)
- UF = Upper Freeport
- UK = Upper Kittanning
- Wb = Waynesburg
- 5b = Five Block

9. Price

The figures shown in this column are the selling prices of the properties shown in the "Seams" column.

10. Rate

The numbers shown in this column are derived by dividing the acreages amounts into the selling price. Since some of the sales shown in this report involve more than coal seams or more than one specific coal seam, each individual rate or value per deed acre will have to be reviewed before a value per "coal seam" acre is derived.

11. NR Code - C

Identification symbol for computer purposes.

12. NR Code - S

Identification symbol for computer purposes.

13. County Total

Although numbers shown in this area are the sums of the acreage amounts and selling prices, no conclusions have been reached regarding value. Further review of sales is necessary in order to apportion value attributable to the coal.

REVIEW OF COAL PROPERTY ROYALTY RATES

March 31, 1986

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Code § 11-1A-11.04(c)(1)(B), the following report is a county-by-county list of coal property leases that have primarily occurred in West Virginia during the eight years (1976-83) prior to the reappraisal base year of 1983 (some leases for 1984 and 1985 are included in this report). Although this report contains information from over 1,050 leasehold transactions, the Tax Department speculates that it (the report) probably does not include every coal leasehold transacted during this time period, nor does it include those leases that were transacted prior to 1976 but are still in effect today.

The State Tax Department will accept written public comments on this report until May 1, 1986, and will consider this report and the public comments when it issues the final royalty rates to be used in valuing active coal properties on or before July 1, 1986.

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia is assigned to a specific region. Since the determination of royalty rates for valuing active coal properties is being done on a statewide basis, the region numbers shown on this report have no special meaning at this time.

2. DIST - District

For computer purposes, each district, and municipality in each county has been assigned a number. A listing of this information can be viewed at the Tax Department offices at 814 Virginia Street, East, Charleston, West Virginia. Also, in those cases where this report did not provide a district number, the lease document did not describe the district where the property was located or the property was located in more than one district or county.

3. Deed Book - Page No.

In some West Virginia counties coal property leases are recorded in deed books along with sales of all properties. In other counties, specific lease books are utilized for such transactions. Thus, in determining which specific book the transaction is entered, assistance should be requested from the county clerk's office.

4. Date

The dates shown in this column are either the date of transaction or the date of recordation.

5. Grantor

For leasehold transactions the term Grantor (or more applicable, Lessor) indicates the individual or company who is transferring the rights to mine or produce the coal to some one else. In those cases where more than one individual or company was titled as a Lessor, computer space only permitted the use of one name.

6. Grantee

For leasehold transactions the term Grantee (or more applicable, Lessee) indicates the individual or company who is receiving the rights to mine or produce the coal. In those cases where more than one individual or company was titled as a Lessee, computer space only permitted the use of one name.

7. Acreage

In this column, the amount of acreage involved in the leasehold transaction is shown. Also, it should be pointed out that the following adjustments have been made:

(a) No acreage indicated - for those transactions in which an amount of acreage was not shown, this report will designate those as .00 acres.

(b) If more than one parcel was involved in the lease, the acreage amount is the total of those parcels.

(c) If the lease involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column is the type or types of coal seams which were spelled out as being part of the seams leased for mining purposes. Since this report shows abbreviations, please note the following:

- blank = lease did not mention a specific coal seam
- coal or all = all seams
- AL = Alma
- BK = Beckley (southern counties), Bakerstown (northern panhandle)
- CG = Cedar Grove
- CB = Coalburg
- CH = Chilton
- CL = Clarion
- Dg = Douglas
- Do = Dorothy

- EG = Eagle
- EL = Elk Lick
- FC = Fire Creek
- FR = Freeport
- Gb = Gilbert
- He = Hernshaw
- HF = Hughes Ferry
- IG = Iaeger
- KT = Kittanning
- LE = Little Eagle
- LCG = Lower Cedar Grove
- LCB = Lower Coalburg
- LWE = Lower War Eagle
- LK = Lower Kittanning
- MK = Middle Kittanning
- MH = Mahoning
- PL = Peerless
- P3 = Pocahontas #3
- P4 = Pocahontas #4
- P6 = Pocahontas #6
- P12 = Pocahontas #12
- P13 = Pocahontas #13
- POW or Pw = Powellton
- Pg = Pittsburgh
- RS = Redstone
- SL = Stockton-Lewiston
- SW = Sewell (southern counties),
  Sewickley (northern counties)

- SWA = Sewell A
- UCG = Upper Cedar Grove
- UK = Upper Kittanning
- UF = Upper Freeport
- Wb = Waynesburg
- WF = Winifrede
- WT = Washington
- WM = Williamson
- 5B = Five Block
- #2 gas = Campbell's Creek #2 gas

9. Price

Not used in this report.

10. Rate

For this report, this column lists the royalty rates that were mentioned in the leasehold documents. Since there is a limited amount of space available on the computer printout, certain abbreviations were made. These include the following:

- $2.00 ton = $2 per ton royalty
- 5% = royalty is 5% of selling price per ton
- D or deep = rate for deep mining
- S, St or strip or surface = rate for strip mining
- N/A = lease did not mention a specific rate
- A, Au or Aug = rate for auger mining
- C&S = coal and surface owner

11. NR CODE - C

Identification symbol for computer purposes.

12. CARD CODE - L

Identification symbol for computer purposes.

13. County Total

This number is the sum of acreages involved in leases for each county. Since some of the leases do not show acreage amounts, this number should be disregarded.

REVIEW OF OTHER NATURAL RESOURCES
INACTIVE RESERVE SALES

Limestone
Sandstone
Clay and Shale
Sand and Gravel
Salt

March 31, 1986

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Code § 11-1A-11.08(c)(3), the following report is a county-by-county list of other natural resource inactive reserve property sales that have occurred in West Virginia during the eight years (1976-83) prior to the reappraisal base year of 1983.

Since the Tax Department was only able to collect information from 30 sale transactions and is aware that additional transfers may have taken place during the eight-year time period, a questionnaire for additional purchase price data was sent to all of the limestone, sandstone, clay and shale, sand and gravel, and salt producers listed in the 1982 West Virginia Mineral Producers Directory (W. Va. Geological and Economic Survey Report).

Also, it should be pointed out that the State Tax Department may not conclude that every sale listed in this report is a "willing seller-willing buyer arms-length transaction. Thus, further reviews will be necessary not only to distinguish willing buyer-willing seller arms-length transactions but to apportion values attributable to specific natural resource rights from those sales that involve rights in addition to the specific natural resources.

The West Virginia Tax Department will accept written public comments on this report until May 1, 1986, and will review those comments in coordination with this report in order to select final inactive reserve values on or before July 1, 1986.

QUESTIONNAIRE (See Attachment)

Out of the 102 questionnaires sent by the West Virginia Tax Department on February 7, 1984, responses were received from 23 companies with an additional 7 returned as "Addressee Unknown." Of those responses received, the section dealing with purchase prices for deep mineable and surface mineable reserves, was as follows:

	Deep Mineable Reserves	Surface Mineable Reserves
Limestone	$550/acre, $1500/acre	$1500/acre
Sandstone(Ind)	N/A	N/A
Sandstone(Agg)	N/A	N/A
Clay-Shale	N/A	N/A
Sand-Gravel	N/A	N/A
Salt	N/A	N/A

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia was assigned to a specific region. However, since the determination of values for other natural resources is being done on a statewide basis, the region numbers shown on this report have no special meaning at this time.

2. DIST - District

Not used in this report.

3. Deed Book - Page Number

The recording of all property sales in the State of West Virginia is done in deed books. However, since some of the information shown in this report are from "Options to Purchase," such documents are recorded in other county books. Thus, in determining which specific book the transaction is entered, assistance should be requested from the county clerk's office.

4. Date

The dates shown in this column are either the date of transaction or the date of recordation.

5. Grantee

The term "Grantee" indicates the individual or company who is transferring the property rights shown in the "Seam" column.

6. Grantor

The term "Grantor" indicates the individual or company who is purchasing the property rights shown in the "Seam" column.

7. Acreage

In this column, the amount of acreage involved in the property sale is shown. Also, it should be pointed out that the following adjustments have been made:

(a) No acreage listed: deed only described the location of the property, and failed to list acreages involved.

(b) If more than one parcel was involved in the sale, the acreage amount shown is the total of all parcels involved.

(c) If the sale involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column identifies the estates involved in the sale transaction. Since many of the sales shown in this report show purchases for surface rights in addition to mineral rights, notations are made for those mineral rights. The abbreviations shown are as follows:

- SS	=	Sandstone
- LS	=	Limestone

9. Price

The figures shown in this column are the selling prices of the properties shown in the "Seams" column.

10. Rate

The numbers shown in this column are derived by dividing the acreage amounts into the selling price. Since some of the sales shown in this report involve more than just natural resource rights, each individual rate or value per deed acre will have to be reviewed before a specific natural resource value per acre is derived.

11. NR Code - M

Identification for computer purposes.

12. NR Code - S

Identification for computer purposes.

13. County - Total

Although numbers shown in this area are the sums of the acreage amounts and selling prices, no conclusions have been reached regarding values. Further review of sales is necessary in order to apportion values attributable to the various natural resources.

State Tax Department of West Virginia

Charleston 25305

HERSCHEL H. ROSE III
COMMISSIONER

February 7, 1984

As part of the recently filed Legislative Regulation 11-1A, Series 1A, Section 11.08, Valuation of Other Active Natural Resources, I have the responsibility to publish a report on March 31, 1984, which is to include information on sale and lease transactions for those resources that occurred from 1976 through 1983. Also, for those natural resources which were not involved in such transactions, a narrative describing lease and sale values is required.

In order to accomplish this report, I would like to have your assistance in completing the attached questionnaire. If you have any questions concerning this request, please contact Don Hebb at (304) 348-3940. Completed questionnaires should be returned by March 9, 1984 to:

State Tax Department
Local Government Relations Division
1615 Washington St., E.
Charleston, West Virginia 25311

Attention: Don Hebb

Thank you for your time and effort. I appreciate your response.

Very truly yours,

H. Herschel Rose III

Herschel H. Rose III
State Tax Commissioner

HHRIII/dht

QUESTIONNAIRE

Date: _____

Name: _____

Position: _____

Organization: _____

Discussion:

The responses to the following questions are to be based on market conditions of 1976 through 1983, with a major emphasis to be placed on conditions in 1983. Thus, please keep these time periods in mind when you complete the questionnaire.

A. Active Operations:

An active operation involves those properties in which production has or is taking place. In the areas where you have general knowledge, please place an amount per ton for the prices and costs requested.

B. Reserves:

Reserves involve those properties in which the specific natural resource is mineable and merchantable and can be put into an active operation given the required market conditions. In the areas where you have general knowledge, please place an amount per acre for the prices requested.

C. Additional Information and Comments:

If you have knowledge of actual open-market sale and/or lease transactions, reports that justify the responses made on the questionnaire or any comments pertaining to the information requested, please place those responses in these areas.

Active Operations:

		Limestone	Sandstone Industrial	Sandstone Aggregate	Clay, Shale	Sand, Gravel	Salt
Sales Price Per Ton	Deep Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____

REVIEW OF OTHER NATURAL RESOURCE ROYALTY RATES

Limestone
Sandstone
Clay and Shale
Sand and Gravel
Salt

March 31, 1986

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Code § 11-1A-11.08(c)(1)(B), the following report is a county-by-county list of other natural resource property leases that have occurred in West Virginia during the eight years (1976-83) prior to the reappraisal base year of 1983. Since the Tax Department was only able to collect information from 15 leasehold transactions, a questionnaire for additional royalty information was sent to all of the limestone, sandstone, clay and shale, sand and gravel, and salt producers listed in the 1982 West Virginia Mineral Producers Directory (West Virginia Geological and Economic Survey Report).

The West Virginia Tax Department will accept written public comment on the data contained in this report until May 1, 1986, and will review those comments in coordination with this report in order to select final royalty rates on or before July 1, 1986.

QUESTIONNAIRE

Out of the 102 questionnaires sent by the West Virginia Tax Department on February 7, 1984, responses were received from 23 companies with an additional 7 returned as "Addressee Unknown." Of those responses received, the sections dealing with economic royalty rates for deep and surface mining, was as follows:

	Deep Mine Royalty Rates	Surface Mine Royalty Rates
Limestone	$.10/ton, $.20/ton	$.10/ton, $.13/ton
Sandstone (Ind)	N/A	3% to 6% of selling price
Sandstone (Agg)	N/A	$.40/ton
Clay-Shale	N/A	N/A
Sand-Gravel	N/A	$.40/ton
Salt	N/A	N/A

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia was assigned to a specific region. However, since the determination of royalty rates for valuing active other natural resource properties is being done on a statewide basis, the region numbers shown on this report have no special meaning at this time.

2. DIST - District

Not used in this report.

3. Deed Book - Page No.

In some West Virginia counties property leases are recorded in deed books along with sales of all properties. In other counties, specific lease books are utilized for such transactions. Thus, in determining which specific book the transaction is entered, assistance should be requested from the county clerk's office. Also, in those instances where no deed book and page number is shown, the information shown was delivered by the companies involved or by the county assessor.

4. Date

The dates shown in this column are either the date of transaction or the date or recordation.

5. Grantor

For leasehold transactions the term Grantor (or more applicable, Lessor) indicates the individual or company who is transferring the rights to mine or produce the natural resource to some one else. In those cases where more than one individual or company was titled as a Lessor, computer space only permitted the use of one name.

6. Grantee

For leasehold transactions the term Grantee (or more applicable, Lessee) indicates the individual or company who is receiving the rights to mine or produce the natural resource. In those cases where more than one individual or company was titled as a Lessee, computer space only permitted the use of one name.

7. Acreage

In this column, the amount of acreage involved in the leasehold transaction is shown. Also, it should be pointed out that the following adjustments have been made:

(a) No acreage indicated - for those transactions in which an amount of acreage was not shown, this report will designate those as .00 acres.

(b) If more than one parcel was involved in the lease, the acreage amount is the total of those parcels.

(c) If the lease involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column is the type of natural resource which was spelled out as being involved in the lease agreement. Since this report shows abbreviations, please note the following:

- S.S = Sandstone
- LS = Limestone
- SH = Shale
- S&G = Sand and Gravel
- Rock = Limestone, Sandstone

9. Price

Not used in this report.

10. Rate

For this report, this column lists the royalty rates that were mentioned in the leasehold documents. Since there is a limited amount of space available on the computer printout, certain abbreviations were made. These include the following:

- $.10/ton = $.10 per ton royalty
- 5% = royalty is 5% of selling price per ton

11. NR CODE - M

Identification symbol for computer purposes.

12. CARD CODE - L

Identification symbol for computer purposes.

13. County Total

This number is the sum of acreages involved in leases for each county. Since some of the leases do not show acreage amounts, this number should be disregarded.

FINAL COMMENTS

The Tax Department is aware that a preliminary review of this report shows that royalty rates for certain natural resource rights, such as salt, were not mentioned. For those resources, this office will continue its research into such factors as sales prices for the mined natural resource, production costs, and any other data that will give assistance in determining those rates.

State Tax Department of West Virginia

Charleston 25305

HERSCHEL H. ROSE III
COMMISSIONER

February 7, 1984

As part of the recently filed Legislative Regulation 11-1A, Series 1A, Section 11.08, Valuation of Other Active Natural Resources, I have the responsibility to publish a report on March 31, 1984, which is to include information on sale and lease transactions for those resources that occurred from 1976 through 1983. Also, for those natural resources which were not involved in such transactions, a narrative describing lease and sale values is required.

In order to accomplish this report, I would like to have your assistance in completing the attached questionnaire. If you have any questions concerning this request, please contact Don Hebb at (304) 348-3940. Completed questionnaires should be returned by March 9, 1984 to:

State Tax Department
Local Government Relations Division
1615 Washington St., E.
Charleston, West Virginia 25311

Attention: Don Hebb

Thank you for your time and effort. I appreciate your response.

Very truly yours,

H. Herschel Rose III

Herschel H. Rose III
State Tax Commissioner

QUESTIONNAIRE

Date: _____

Name: _____

Position: _____

Organization: _____

Discussion:

The responses to the following questions are to be based on market conditions of 1976 through 1983, with a major emphasis to be placed on conditions in 1983. Thus, please keep these time periods in mind when you complete the questionnaire.

A. Active Operations:

An active operation involves those properties in which production has or is taking place. In the areas where you have general knowledge, please place an amount per ton for the prices and costs requested.

B. Reserves:

Reserves involve those properties in which the specific natural resource is mineable and merchantable and can be put into an active operation given the required market conditions. In the areas where you have general knowledge, please place an amount per acre for the prices requested.

C. Additional Information and Comments:

If you have knowledge of actual open-market sale and/or lease transactions, reports that justify the responses made on the questionnaire or any comments pertaining to the information requested, please place those responses in these areas.

Active Operations:

		Limestone	Sandstone Industrial	Sandstone Aggregate	Clay, Shale	Sand, Gravel	Salt
Sales Price Per Ton	Deep Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____
	Surface Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____
Production Cost Per Ton	Deep Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____
	Surface Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____
Present Economic Royalty Per Ton	Deep Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____
	Surface Mine	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____

Reserves:

		Limestone	Sandstone Industrial	Sandstone Aggregate	Clay, Shale	Sand, Gravel	Salt
Purchase Price of Nat. Resource Estate (per acre)	Deep Mineable Resource	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____
	Surface Mineable Resource	$____.____	$____.____	$____.____	$____.____	$____.____	$____.____

C. Additional Information and Comments:
