SECRETARY OF STATE

The Honorable Ken Hechler
Secretary of State
State Capitol, Suite 157-K
Charleston, West Virginia 25305

Dear Mr. Hechler:

On March 13, 1984, we filed in the State Register two copies of finally promulgated legislative rules regarding the appraisal of property for periodic statewide reappraisals for ad valorem property tax purposes. These regulations are cited as W. Va. Leg. Reg. 11-1A, Series Ia (effective April 12, 1984). These regulations were filed pursuant to the authority of West Virginia Code § 64-2-11(1a)(11) which was added by Committee Substitute for Senate Bill No. 425 which took effect on March 10, 1984.

The above regulations required that on or before March 31 of each year, certain information be filed in the State Register relating to certain factors to be considered in the valuation of coal and other natural resource properties. More specifically, the subject matter of the attachments and its relationship to the promulgated regulations may be described as follows:

A. CAPITALIZATION RATE SURVEY

1. For use in the valuation of active mining properties that includes: coal, limestone, sandstone, clay and shale, sand and gravel, and salt.

2. This information is provided pursuant to the requirements of the regulations set forth in § 11-04(c)(1)(C)(3) on pages 26 and 27; and § 11-08(c)(1)(C)(3) on pages 108 and 109.

B. REVIEW OF INACTIVE RESERVE COAL PROPERTY SALE.

1. This information is provided pursuant to the requirements set forth in § 11.04(c)(3)(B) on pages 28 and 29.

C. REVIEW OF COAL PROPERTY ROYALTY RATES.

1. This information is provided pursuant to the requirements set forth in § 11.04(c)(1)(B) on pages 15 and 16.

D. REVIEW OF OTHER NATURAL RESOURCES INACTIVE RESERVE SALES.

1. This paragraph D relates to limestone, sandstone, clay and shale, sand and gravel, and salt.

2. This information is provided pursuant to the requirements set forth in § 11.08(c)(3) on pages 109 through 111.

E. REVIEW OF OTHER NATURAL RESOURCES ROYALTY RATES.

1. This information relates to limestone, sandstone, clay and shale, sand and gravel, and salt.

2. This information is provided pursuant to the requirements set forth in § 11.08(c)(1)(B) on pages 97 through 100.

The State Tax Department will accept written public comments on these reports until May 1, 1987, and will consider these reports and the public comments when it issues the final capitalization rates, values per acre and royalty rates in valuing coal property and other natural resource property. These final reports will be issued on or before July 1, 1987.

We note that under the regulations cited [§§ 11.04(c)(3)(B), 11.04(c)(1)(B), 11.08(c)(3) and 11.08(c)(1)(B)], the Tax Commissioner is required to file this survey to include sale and lease reports for transactions that have occurred during the eight (8) years prior to the appraisal date. Although the base year for the reappraisal

is 1983, these reports will include information for the period 1976 to 1987. Thus, for the reappraisal date of July 1, 1987, the eight year review will only consider transactions that have occurred since 1979.

Very truly yours,

Michael E. Caryl
State Tax Commissioner

MEC/dhs

CAPITALIZATION RATE SURVEY

for the valuation of active mining properties that include:

Coal
Limestone
Sandstone
Clay and Shale
Sand and Gravel
Salt

March 31, 1987

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

The attached report is being filed in compliance with West Virginia Legislative Regulations § 11-1A-11.04(c)(1)(c)(3) and § 11-1A-11.08(c)(1)(c)(3). The information herein contained will be considered by the West Virginia Tax Department for the development of a capitalization rate(s) for use in the reappraisal of active coal, limestone, sandstone, clay, shale, sand, gravel, and salt properties. Public comment on the data contained in this report will be accepted until May 1, 1987, and the selection of a final capitalization rate will be issued on or before July 1, 1987.

According to West Virginia Code § 11-1A-2, "The base year for the first statewide reappraisal shall be the year one thousand nine hundred eighty-three (1983)." However, under regulations cited [§§ 11.04(c)(1)(C) and 11.08(c)(1)(C)] the capitalization rate components will be based on interest rates, loan rates and tax rates for the years 1984 to 1986.

SURVEY

In developing a capitalization rate for use in valuing active mining properties, consideration will be given to three (3) approaches generally considered in estimating the discount component. These are:

(1) Market comparison

(2) Summation technique

(3) Bands of investment

The accumulation of data necessary for use in these three approaches was accomplished by giving attention to the following items:

(a) Research and review of possible willing-buyer, willing-seller sales of active mining operations that have taken place in West Virginia.

(b) Review of the Federal Reserve Statistical Release for the period July, 1983 to July, 1986, with special attention given to the auction rates for 90-day Treasury Bills, 6-month Treasury Bills, and 1-year Treasury Bills.

(c) Questionnaire sent to most lending institutions in West Virginia. The questionnaire included responses for the following topics:

(1) Interest rates and factors involved in financing active mining operations for various types of mineral properties for 1984, 1985, and 1986.

(2) Interest rates involved in financing acquisition of various types of mineral reserve properties for 1984, 1985, and 1986.

(3) Equity-capital requirements for financing active operations and for acquisition of reserves.

(4) Management charges.

(d) Review of Tax Department statistical reports relating to classified assessed valuations and distributions of taxes.

I. Market Comparison

(a) Active Coal Properties

A review of records at courthouses where active properties are located and a review of newspaper articles announcing possible sale transactions have shown that sales of active coal properties have occurred over the past eight years. However, because of the limited amount of transactions, the Tax Department has not been able to research and construct adequate appraisal reviews. Therefore, this approach, market comparison, does not provide ample capitalization rate information.

(b) Active Other Natural Resource Properties

A review of records at courthouses in counties where active properties were located did not reveal sale transactions of such properties. Therefore, this approach for the active properties of limestone, sandstone, clay, shale, sand, gravel and salt will not be used.

II. Summation Technique

(a) Safe Rate - 90-day Treasury Bills [for further discussions of the determination of the Safe Rate, see West Virginia Legislative Regulations §§ 11-1A-11.04(c)(1)(c) and 11-1A-11.08(c)(1)(c)]

	83-84	84-85	85-86
July	9.123%	10.184%	7.088%
August	9.400	10.510	7.163
September	9.130	10.405	7.078
October	8.714	9.872	7.190
November	8.830	8.665	7.203
December	9.003	8.096	7.060
January	8.914	7.775	7.045
February	9.113	8.218	7.025
March	9.505	8.565	6.540
April	9.678	7.970	5.993
May	9.960	7.488	6.145
June	9.938	7.008	6.166

Fiscal Year Average - (83-84) = 9.27%
(84-85) = 8.75%
(85-86) = 6.81%

(b) Risk Rate - interest differential between loan rates and 90-day Treasury Bills. [for further discussions of the determination of the Risk Rate, see West Virginia Legislative Regulations §§ 11-1A-11.04(c)(1)(c) and 11-1A-11.08(c)(1)(c)]

TO ALL BANKING INSTITUTIONS AND/OR
SAVINGS AND LOAN ASSOCIATIONS
STATE OF WEST VIRGINIA

Ladies and Gentlemen:

On March 10, 1984, the West Virginia Legislature passed specific rules and regulations which describe the methodology to be used in valuing natural resource properties for ad valorem property tax purposes. In connection with these rules and regulations, the West Virginia Tax Department is required to conduct an annual survey of lending institutions to gain information on the interest rates established on loans for acquisition and/or development of natural resource properties. Therefore, attached please find a questionnaire which has been developed to meet this requirement.

Please note that your prompt and continued assistance in completing this survey is appreciated. Should you have any questions concerning this questionnaire, please contact Mr. Mark Scott Burgess at (304) 348-3940. Also, completed questionnaires should be returned prior to March 1, 1987 to:

West Virginia Tax Department
Property Tax Division
814 Virginia Street, East
Charleston, West Virginia 25301

REVIEW OF INACTIVE RESERVE COAL PROPERTY SALES

March 31, 1987

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Legislative Regulations § 11-1A-11.04(c)(3)(B), the following report is a county-by-county list of inactive reserve coal property sales that have occurred in West Virginia primarily during the period 1976-1987. Although this report contains information from over 1,990 sale transactions, the Tax Department is aware that it (the report) does not include every coal sale transacted during this period, nor is the Tax Department concluding that every sale listed is a "willing seller-willing buyer arms-length transaction." Thus, further reviews will be necessary not only to distinguish willing buyer-willing seller arms-length transactions but to apportion values attributable to coal rights from those sales that involve property interests or rights in addition to coal.

The State Tax Department will accept written public comments on this report until May 1, 1987, and will consider this report and the public comments when it issues the final regional values per acre to be used in valuing inactive coal reserves on or before July 1, 1987.

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia is assigned to a specific region. These regions are as follows:

Region 1 - Brooke, Harrison, Marion, Marshall, Monongalia, and Ohio Counties.

Region 2 (No present mining) - Cabell, Calhoun, Doddridge, Hancock, Jackson, Pocahontas, Putnam, Roane, Tyler, Wetzel, Wirt, and Wood Counties and the northwest portion of Kanawha County (Jefferson, Union, and Poca Districts, and those parts of Big Sandy and Elk Districts that lie north of the Elk River).

Region 3 - Barbour, Grant, Mineral, Preston, Randolph, Taylor, Tucker and Upshur Counties.

Region 4 - Braxton, Clay, Gilmer, Greenbrier, Lewis, Mason, Nicholas, and Webster Counties.

Region 5 - Boone, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Raleigh, Summers, Wayne and Wyoming Counties and the southeast portion of Kanawha County (Washington, Malden, Loudon, Cabin Creek Districts, and part of Big Sandy and Elk Districts which lie south of Elk River).

2. DIST - District

For computer purposes, each district and municipality in each county has been assigned a number. A listing of this information can be viewed at the Tax Department offices at 814 Virginia Street, East, Charleston, West Virginia. Also, in those cases where this report did not provide a district number, the lease document did not describe the district where the property was located or the property was located in more than one district or county.

3. Deed Book - Page No.

The number identified here indicates the deed book and page number of the listed sale transfer.

4. Date

The dates shown in this column are either the date of transaction or the date of recordation.

5. Grantor

The name(s) listed in this column indicates the individual or company who is selling the property identified in the "Seams" column.

6. Grantee

The name(s) listed in this column indicates the individual or company who is buying the property identified in the "Seams" column.

7. Acreage

In this column, the amount of acreage involved in the sale transaction is shown. Also, it should be pointed out that the following adjustments have been made:

(a) If more than one parcel was involved in the sale, the acreage amount shown is the total of those parcels. Also, if one parcel involved coal rights and another involved mineral rights, the two were added together for one total figure.

(b) If the sale involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column identifies the estates involved in the sale transaction. Where specific coal seams were sold, those are shown by abbreviations. These abbreviations are as follows:

- BK = Bakerstown seam
- C or coal = coal estate
- C.O.G. = coal, oil, gas estate
- CB = Coalburg
- DG = Douglas
- F or fee = fee estate
- Frpt = Freeport
- GB = Gilbert
- Kt = Kittanning coals
- LK = Lower Kittanning
- LWE = Lower War Eagle
- LE = Little Eagle
- MIN = mineral estate
- M.O. = Mined out coal
- Pg = Pittsburgh
- PL = Peerless
- P_3 = Pocahontas #3
- P_6 = Pocahontas #6
- Rs = Redstone
- R of W = Right of Way
- Sur & coal = Surface and coal rights
- Sw = Sewickley (Northern Counties), Sewell (Southern Counties)
- UF = Upper Freeport
- UK = Upper Kittanning
- Wb = Waynesburg
- 5b = Five Block

9. Price

The figures shown in this column are the selling prices of the properties shown in the "Seams" column.

10. Rate

The numbers shown in this column are derived by dividing the acreages amounts into the selling price. Since some of the sales shown in this report involve more than coal seams or more than one specific coal seam, each individual rate or value per deed acre will have to be reviewed before a value per "coal seam" acre is derived.

11. NR Code - C

Identification symbol for computer purposes.

12. NR Code - S

Identification symbol for computer purposes.

13. County Total

Although numbers shown in this area are the sums of the acreage amounts and selling prices, no conclusions have been reached regarding value. Further review of sales is necessary in order to apportion value attributable to the coal.

REVIEW OF COAL PROPERTY ROYALTY RATES

March 31, 1987

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Legislative Regulations § 11-1A-11.04(c)(1)(B), the following report is a county-by-county list of coal property leases that have primarily occurred in West Virginia during the period 1976-87. Although this report contains information from over 1,460 leasehold transactions, the Tax Department speculates that it (the report) probably does not include every coal leasehold transacted during this time period, nor does it include those leases that were transacted prior to 1976 but are still in effect today.

The State Tax Department will accept written public comments on this report until May 1, 1987, and will consider this report and the public comments when it issues the final royalty rates to be used in valuing active coal properties on or before July 1, 1987.

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia is assigned to a specific region. Since the determination of royalty rates for valuing active coal properties is being done on a statewide basis, the region numbers shown on this report have no special meaning at this time.

2. DIST - District

For computer purposes, each district, and municipality in each county has been assigned a number. A listing of this information can be viewed at the Tax Department offices at 814 Virginia Street, East, Charleston, West Virginia. Also, in those cases where this report did not provide a district number, the lease document did not describe the district where the property was located or the property was located in more than one district or county.

3. Deed Book - Page No.

In some West Virginia counties coal property leases are recorded in deed books along with sales of all properties. In other counties, specific lease books are utilized for such transactions. Thus, in determining which specific book the transaction is entered, assistance should be requested from the county clerk's office.

4. Date

The dates shown in this column are either the date of transaction or the date of recordation.

5. Grantor

For leasehold transactions the term Grantor (or more applicable, Lessor) indicates the individual or company who is transferring the rights to mine or produce the coal to some one else. In those cases where more than one individual or company was titled as a Lessor, computer space only permitted the use of one name.

6. Grantee

For leasehold transactions the term Grantee (or more applicable, Lessee) indicates the individual or company who is receiving the rights to mine or produce the coal. In those cases where more than one individual or company was titled as a Lessee, computer space only permitted the use of one name.

7. Acreage

In this column, the amount of acreage involved in the leasehold transaction is shown. Also, it should be pointed out that the following adjustments have been made:

(a) No acreage indicated - for those transactions in which an amount of acreage was not shown, this report will designate those as .00 acres.

(b) If more than one parcel was involved in the lease, the acreage amount is the total of those parcels.

(c) If the lease involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column is the type or types of coal seams which were spelled out as being part of the seams leased for mining purposes. Since this report shows abbreviations, please note the following:

- blank = lease did not mention a specific coal seam
- coal or all = all seams
- AL = Alma
- BK = Beckley (southern counties), Bakerstown (northern panhandle)
- CG = Cedar Grove
- CB = Coalburg
- CH = Chilton
- CL = Clarion
- Dg = Douglas
- Do = Dorothy

- EG = Eagle
- EL = Elk Lick
- FC = Fire Creek
- FR = Freeport
- Gb = Gilbert
- He = Hernshaw
- HF = Hughes Ferry
- IG = Iaeger
- KT = Kittanning
- LE = Little Eagle
- LCG = Lower Cedar Grove
- LCB = Lower Coalburg
- LWE = Lower War Eagle
- LK = Lower Kittanning
- MK = Middle Kittanning
- MH = Mahoning
- PL = Peerless
- P3 = Pocahontas #3
- P4 = Pocahontas #4
- P6 = Pocahontas #6
- P12 = Pocahontas #12
- P13 = Pocahontas #13
- POW or Pw = Powellton
- Pg = Pittsburgh
- RS = Redstone
- SL = Stockton-Lewiston
- SW = Sewell (southern counties),
  Sewickley (northern counties)

- SWA = Sewell A
- UCG = Upper Cedar Grove
- UK = Upper Kittanning
- UF = Upper Freeport
- Wb = Waynesburg
- WF = Winifrede
- WT = Washington
- WM = Williamson
- 5B = Five Block
- #2 gas = Campbell's Creek #2 gas

9. Price

Not used in this report.

10. Rate

For this report, this column lists the royalty rates that were mentioned in the leasehold documents. Since there is a limited amount of space available on the computer printout, certain abbreviations were made. These include the following:

- $2.00 ton = $2 per ton royalty
- 5% = royalty is 5% of selling price per ton
- D or deep = rate for deep mining
- S, St or strip or surface = rate for strip mining
- N/A = lease did not mention a specific rate
- A, Au or Aug = rate for auger mining
- C&S = coal and surface owner

11. NR CODE - C

Identification symbol for computer purposes.

12. CARD CODE - L

Identification symbol for computer purposes.

13. County Total

This number is the sum of acreages involved in leases for each county. Since some of the leases do not show acreage amounts, this number should be disregarded.

REVIEW OF OTHER NATURAL RESOURCES
INACTIVE RESERVE SALES

Limestone
Sandstone
Clay and Shale
Sand and Gravel
Salt

March 31, 1987

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Legislative Regulations § 11-1A-11.08(c)(3)(B), the following report is a county-by-county list of other natural resource property sales that have occurred in West Virginia primarily during the period 1976-87. Although this report contains information from a small number of transactions, the Tax Department believes that it (the report) does include most of the minor mineral transactions that occurred. However, since the Tax Department agrees that every sale listed may not be a "willing seller-willing buyer arms-length transaction", further reviews will be necessary not only to distinguish willing buyer-willing seller transactions but to apportion values attributable to limestone, sandstone, clay, shale, sand, gravel and salt rights from those sales that involve property interests or rights in addition to the minor minerals.

The State Tax Department will accept written public comments on this report until May 1, 1987, and will consider this report and the public comments when it issues the final regional values per acre to be used in valuing specific natural resources on or before July 1, 1987.

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia was assigned to a specific region. However, since the determination of values for other natural resources is being done on a statewide basis, the region numbers shown on this report have no special meaning at this time.

2. DIST - District

Not used in this report.

3. Deed Book - Page Number

The recording of all property sales in the State of West Virginia is done in deed books. However, since some of the information shown in this report are from "Options to Purchase," such documents are recorded in other county books. Thus, in determining which specific book the transaction is entered, assistance should be requested from the county clerk's office.

4. Date

The dates shown in this column are either the date of transaction or the date of recordation.

5. Grantee

The term "Grantee" indicates the individual or company who is transferring the property rights shown in the "Seam" column.

6. Grantor

The term "Grantor" indicates the individual or company who is purchasing the property rights shown in the "Seam" column.

7. Acreage

In this column, the amount of acreage involved in the property sale is shown. Also, it should be pointed out that the following adjustments have been made:

(a) No acreage listed: deed only described the location of the property, and failed to list acreages involved.

(b) If more than one parcel was involved in the sale, the acreage amount shown is the total of all parcels involved.

(c) If the sale involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column identifies the estates involved in the sale transaction. Since many of the sales shown in this report show purchases for surface rights in addition to mineral rights, notations are made for those mineral rights. The abbreviations shown are as follows:

- SS	=	Sandstone
- LS	=	Limestone

9. Price

The figures shown in this column are the selling prices of the properties shown in the "Seams" column.

10. Rate

The numbers shown in this column are derived by dividing the acreage amounts into the selling price. Since some of the sales shown in this report involve more than just natural resource rights, each individual rate or value per deed acre will have to be reviewed before a specific natural resource value per acre is derived.

11. NR Code - M

Identification for computer purposes.

12. NR Code - S

Identification for computer purposes.

13. County - Total

Although numbers shown in this area are the sums of the acreage amounts and selling prices, no conclusions have been reached regarding values. Further review of sales is necessary in order to apportion values attributable to the various natural resources.

REVIEW OF OTHER NATURAL RESOURCE ROYALTY RATES

Limestone
Sandstone
Clay and Shale
Sand and Gravel
Salt

March 31, 1987

Michael E. Caryl
State Tax Commissioner

INTRODUCTION

In compliance with West Virginia Legislative Regulations § 11-1A-11.08(c)(1)(B), the following report is a county-by-county list of other natural resource property leases that have occurred in West Virginia during the period 1976-87. Although this report contains a small amount of leasehold transactions, the Tax Department speculates that it (the report) probably does include most minor mineral leaseholds transacted during this time period.

The State Tax Department will accept written public comments on this report until May 1, 1987, and will consider this report and the public comments when it issues the final royalty rates to be used in valuing active natural resource properties on or before July 1, 1987.

EXPLANATION OF COLUMNS AND SYMBOLS INVOLVED IN REPORT

1. RGN - Region

For the valuation of inactive reserve coal properties, each coal-containing county in West Virginia was assigned to a specific region. However, since the determination of royalty rates for valuing active other natural resource properties is being done on a statewide basis, the region numbers shown on this report have no special meaning at this time.

2. DIST - District

Not used in this report.

3. Deed Book - Page No.

In some West Virginia counties property leases are recorded in deed books along with sales of all properties. In other counties, specific lease books are utilized for such transactions. Thus, in determining which specific book the transaction is entered, assistance should be requested from the county clerk's office. Also, in those instances where no deed book and page number is shown, the information shown was delivered by the companies involved or by the county assessor.

4. Date

The dates shown in this column are either the date of transaction or the date or recordation.

5. Grantor

For leasehold transactions the term Grantor (or more applicable, Lessor) indicates the individual or company who is transferring the rights to mine or produce the natural resource to some one else. In those cases where more than one individual or company was titled as a Lessor, computer space only permitted the use of one name.

6. Grantee

For leasehold transactions the term Grantee (or more applicable, Lessee) indicates the individual or company who is receiving the rights to mine or produce the natural resource. In those cases where more than one individual or company was titled as a Lessee, computer space only permitted the use of one name.

7. Acreage

In this column, the amount of acreage involved in the leasehold transaction is shown. Also, it should be pointed out that the following adjustments have been made:

(a) No acreage indicated - for those transactions in which an amount of acreage was not shown, this report will designate those as .00 acres.

(b) If more than one parcel was involved in the lease, the acreage amount is the total of those parcels.

(c) If the lease involved a specific interest in a parcel (e.g. ½ of 50 acres), then the acreage amount shown is that percentage interest (e.g. ½ of 50 = 25 acres).

8. Seams

The information shown in this column is the type of natural resource which was spelled out as being involved in the lease agreement. Since this report shows abbreviations, please note the following:

- S.S = Sandstone
- LS = Limestone
- SH = Shale
- S&G = Sand and Gravel
- Rock = Limestone, Sandstone

9. Price

Not used in this report.

10. Rate

For this report, this column lists the royalty rates that were mentioned in the leasehold documents. Since there is a limited amount of space available on the computer printout, certain abbreviations were made. These include the following:

- $.10/ton = $.10 per ton royalty
- 5% = royalty is 5% of selling price per ton

11. NR CODE - M

Identification symbol for computer purposes.

12. CARD CODE - L

Identification symbol for computer purposes.

13. County Total

This number is the sum of acreages involved in leases for each county. Since some of the leases do not show acreage amounts, this number should be disregarded.

FINAL COMMENTS

The Tax Department is aware that a preliminary review of this report shows that royalty rates for certain natural resource rights, such as salt, were not mentioned. For those resources, this office will continue its research into such factors as sales prices for the mined natural resource, production costs, and any other data that will give assistance in determining those rates.
