2012 Edition

- 100.1 Active Record. “Active Record” means a UCC record that has been stored in the UCC information management system and indexed in, but not yet removed from, the Searchable Indexes.
- 100.2 Address. “Address” means information provided as an address on a UCC record as long as it includes at least a city and a state or foreign country.
- 100.3 Amendment. “Amendment” means a UCC record that amends the information contained in a financing statement. Amendments include assignments, continuations and terminations.
- 100.4 Assignment. “Assignment” is an amendment that assigns all or a part of a secured party’s power to authorize an amendment to a financing statement.
- 100.5 Correction statement. “Correction statement” means a UCC record that indicates that a financing statement is inaccurate or wrongfully filed.
- 100.6 Filing office/officer. “Filing office” and “filing officer” means the West Virginia Secretary of State’s Office.

- 100.8 Initial financing statement. “Initial financing statement” means a UCC record that causes the filing office to establish the initial record of filing of a financing statement.
- 100.9 Remitter. “Remitter” means a person who tenders a UCC record to the filing officer for filing, whether the person is a filer or an agent of a filer responsible for tendering the record for filing. “Remitter” does not include a person responsible merely for the delivery of the record to the filing office, such as the postal service or a courier service but does include a service provider who acts as a filer’s representative in the filing process.
- 100.10 Searchable indexes. “Searchable indexes” means the searchable index of individual debtor names and the searchable index of organization debtor names maintained in the UCC information management system.
- 100.11 Secured party of record. “Secured party of record” includes a secured party of record as defined in the UCC as well as person who has been a secured party of record with respect to whom an amendment has been filed purporting to delete them as a secured party of record.

- 100.14 UCC record. "UCC record" means an initial financing statement, an amendment, an assignment, a continuation statement, a termination statement, a filing officer statement or a correction statement, and includes a record thereof maintained by the filing office. The term shall not be deemed to refer exclusively to paper or paper-based writings.
- 100.15 Unlapsed record. "Unlapsed record" means a UCC record that has been stored and indexed in the UCC information management system, which has not yet lapsed under UCC Section 9-515 with respect to all secured parties of record.
- 101 Means to deliver UCC records; time of filing. UCC records may be tendered for filing at the filing office as follows.
- 101.1 Personal delivery by Remitter, at the filing office's street address. The file time for a UCC record delivered by this method is when delivery of the UCC record is taken by the filing office (even though the UCC record may not yet have been accepted for filing and subsequently may be rejected). This rule applies only to a Remitter who tenders a UCC record to the filing office and awaits an immediate determination of whether or not the UCC record will be taken or not.
- 101.2 Courier delivery by a person other than a Remitter, at the filing office's street address. The file time for a UCC record delivered by this method is, notwithstanding the time of delivery, at the earlier of the time the UCC record is first examined by a filing officer for processing (even though the UCC record may not yet have been accepted for filing and may be subsequently rejected), or the next close of business following the time of delivery. This rule does not apply to a courier who is acting as an agent of the Remitter and who tenders a UCC record to the filing office and awaits an immediate determination of whether or not the UCC record will be taken or not under rule 101.1.
- A UCC record delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business.
- 101.3 Postal service delivery, to the filing office's mailing address. The file time for a UCC record delivered by this method is, notwithstanding the time of delivery, at the earlier of the time the UCC record is first examined by a filing officer for processing (even though the UCC record may not yet have been accepted for filing and may be subsequently rejected), or the next close of business following the time of delivery.
- A UCC record delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business.
- 101.4 Electronic mail and telefacsimile delivery, to the filing office's e-mail address or the filing office's fax filing telephone number. The file time for a UCC record delivered by this method is, notwithstanding the time of delivery, at the earlier of the time the UCC record is first examined by a filing officer for processing (even though the UCC record

may not yet have been accepted for filing and may be subsequently rejected), or the next close of business following the time of delivery.

A UCC record delivered after regular business hours or on a day the filing office is not open for business will have a filing time of the close of business on the next day the filing office is open for business.

- 101.5 Electronic filing. If available by the filing office, UCC records, excluding correction statements and filing officer statements, may be transmitted electronically using the XML Format approved by the International Association of Commercial Administrators. At the request of an authorized XML remitter, the filing officer shall identify which versions and releases of the XML Format are acceptable to the filing office. The filing office publishes an implementation guide that prescribes the use of the XML Format. The implementation guide shall be available to the public upon request. The file time for a UCC record delivered by this method is the time that the filing office's UCC information management system analyzes the relevant transmission and determines that all the required elements of the transmission have been received in a required format and are machine-readable.
- 101.6 Direct web page data entry. If available by the filing office, UCC records may be delivered by on-line data entry using the filing office's website on the internet. - 101.7 Means of communication. Regardless of the method of delivery, information submitted to the UCC filing office must be communicated only in the form of characters that are defined in an acceptable character set. A financing statement or amendment form that does not designate separate fields for organization and individual names, and separate fields for first, middle and last names and suffixes for individual names is not an acceptable means of communication to the filing office.
- 101.8 Transmitting utility, manufactured-home and public-finance transactions. The only means to indicate to the filing office that an initial financing statement is being filed in connection with a manufactured-home or public-finance transaction, or that a financing statement is being or has been filed against a debtor that is a transmitting utility, in order to affect the filing office's determination of the lapse date under rule 306.3 or rule 307, is to so indicate by checking the appropriate box on a UCC1 Addendum filed with respect to the financing statement or by transmitting the requisite information in the proper field in an electronic filing that is such initial financing statement or is part of such financing statement.
- 102 Search request delivery. A search request may not be delivered by checking a box or otherwise including a search request in or on an initial financing statement, but may be delivered in or on a separate search request after the initial financing statement is filed.]
- 103 Forms. The forms prescribed by UCC Section 9-521 are accepted by the filing office, as well as the most current paper- based forms approved by the International Association of Commercial Administrators.

104 Fees. The fee for filing a UCC record is prescribed by UCC Section 9-525.]

- 104.1 Filing fee. The fee for filing and indexing a UCC record of one or two pages communicated on paper or in a paper-based format (including faxes) is \$10 . If there are additional pages, the fee is \$ 10 . The fee for filing and indexing a UCC record communicated by a medium authorized by these rules which is other than on paper or in a paper-based format shall be \$10.

If the fee is not received within 10 days of the date of the notice, the UCC record shall be returned to the remitter with a written explanation for the refusal to accept the UCC record; or
 - 107.2.2 The UCC record shall be returned to the remitter as provided in rule 203. A refund may be included with the UCC record or delivered under separate cover.

- 109 Fees for public records services. Fees for public records services (other than those established under rule 104) are established by the filing office from time to time and are available upon request.

Section 2. Acceptance and Refusal of Records

- 200 Role of filing officer. The duties and responsibilities of the filing officer with respect to the administration of the UCC are ministerial. In accepting for filing or refusing to file a UCC record pursuant to these rules, the filing officer does not determine the legal sufficiency or insufficiency of the UCC record, determine that information in the record is correct or incorrect, in whole or in part, or create a presumption that information in the UCC record is correct or incorrect, in whole or in part.
- 201 Time for filing a continuation statement.
- 201.1 First day permitted. The first day on which a continuation statement may be filed is the date corresponding to the date upon which the related financing statement would lapse, six months preceding the month in which such financing statement would lapse. If there is no such corresponding date, the first day on which a continuation may be filed is the last day of the sixth month preceding the month in which the financing statement would lapse. The foregoing rule is subject to the ability of the filing office to take delivery of the continuation statement as tendered and to rule 101.
- 201.2 Last day permitted. The last day on which a continuation statement may be filed is the date upon which the related financing statement lapses. The foregoing rule is subject to the ability of the filing office to take delivery of the continuation statement as tendered and to rule 101. Accordingly, the time of filing of the continuation statement under rule 101 must be on or prior to such last day and delivery by certain means of communication may not be available on such last day if the filing office is not open for business on such day.
- 202 Grounds for refusal. In addition to refusing a record for any reason, or multiple reasons, as set forth in UCC Section 9-516, a filing office shall refuse to accept a UCC record that does not provide an address that meets the minimum requirements, as set forth in these filing- office rules (See Section 100.2).
- 203 Procedure upon refusal. Except as provided in rule 107, if the filing officer finds grounds to refuse a UCC record, the filing officer shall refund the filing fee. Communication of the refusal, the reason(s) for the refusal and other related information will be made to the Remitter as soon as practicable and in any event within [two] business days after the refused UCC record was received by the filing office, by the same means as the means by which such UCC record was delivered to the filing office, or by mail or such more expeditious means as the filing office shall determine. Records of refusal, including a copy of the refused UCC record and the ground(s) for refusal, shall be maintained until the first anniversary of the lapse date that applies or would have applied to the related financing statement, assuming that the refused record had been accepted and filed.
- 204 Refusal errors. If a secured party or a remitter demonstrates to the satisfaction of the filing officer that a UCC record that was refused for filing should not have been refused under rule 202, the filing officer will file the UCC record with the filing date and time the UCC record was originally tendered for filing. A filing officer statement record relating to the relevant initial financing statement will be placed in the UCC information management system on the date that the corrective action was taken. The filing officer statement must provide the date of the correction and explain the nature of the corrective action taken. The record shall be preserved for so long as the record of the initial financing statement is preserved in the UCC information management system.

205 Notification of defects. Nothing in these rules prevents a filing officer from communicating to a filer or a remitter that the filing officer noticed apparent potential defects in a UCC record, whether or not it was filed or refused for filing. However, the filing office is under no obligation to do so and may not, in fact, have the resources to do so or to identify such defects. The responsibility for the legal effectiveness of filing rests with filers and remitters and the filing office bears no responsibility for such effectiveness.

Section 3. UCC Information Management System

300 General. The filing officer uses an information management system to store, index, and retrieve information relating to financing statements. The information management system includes an index of the names of debtors included on financing statements that are Active Records. The rules in this section describe the UCC information management system.

301 Primary data elements. The primary data elements used in the UCC information management system are the following.

301.1 Identification numbers.

301.1.1 Each initial financing statement is identified by its file number. Identification of the initial financing statement is stamped on written UCC records or otherwise permanently associated with the record maintained for UCC records in the UCC information management system. A record is created in the information management system for each initial financing statement and all information comprising such record is maintained in the system. The record is identified by the same information assigned to the initial financing statement.

301.1.2 A UCC record other than an initial financing statement is identified by a unique file number assigned by the filing officer. In the UCC information management system, records of all UCC records other than initial financing statements are linked to the record of their related initial financing statement.

301.2 Type of record. The type of UCC record from which data is transferred is identified in the UCC information management system from information supplied by the remitter.

301.3 Filing date and filing time. The filing date and filing time of UCC records are stored in the UCC information management system. Calculation of the lapse date of an initial financing statement is based upon the filing date.

301.4 Identification of parties. The names of debtors and secured parties are transferred from UCC records to the UCC information management system.

301.5 Page count. The total number of pages in a UCC record is maintained in the UCC information management system.

301.6 Lapse indicator. An indicator is maintained by which the information management system identifies whether or not a financing statement will lapse and, if it does, when it will lapse. The lapse date is determined as provided in rules 306.3, 307 and 308.1.

301.7 Indexes of names. The filing office maintains in the UCC information management system a searchable index of organization debtor names, and a searchable index of individual debtor names. The filing office may also maintain a searchable index of names of secured

parties of record. Such an index need not be a separate database but may be comprised of records in the UCC information management system identified to be included in such searchable index.

302 Individual debtor names. For purposes of this rule, an “individual debtor name” is any name provided as a debtor name in a UCC record in a format that identifies the name as that of a debtor who is an individual, without regard to the nature or character of the name or to the nature or character of the actual debtor.

302.1 Individual name fields. When available through the filing office the individual debtor names are stored in files that include only the individual debtor names, and not organization debtor names. Separate data entry fields are established for first (given), middle (given), and last names (surnames or family names) of individuals. The name of a debtor with a single name (e.g., “Cher”) is treated as a last name and shall be entered in the last name field. The filing officer assumes no responsibility for the accurate designation of the components of a name but shall accurately enter the data in accordance with the filer’s designations.

302.2 Titles, prefixes and suffixes. Titles, prefixes (e.g. “Ms.”) and suffixes or indications of status (e.g. “M.D.”) are not typically part of a debtor’s name. However, when entering a “name” into the UCC information management system, the data will be entered exactly as they appear.

302.3 Truncation - individual names. When and if available through the filing office the personal name fields in the UCC information management system are fixed in length. Although filers should continue to provide full names on their UCC records, a name that exceeds the fixed length is entered as presented to the filing officer, up to the maximum length of the data entry field. The lengths of data entry name fields are as follows.

302.3.1 First name: 20 characters.

302.3.2 Middle name: 16_ characters.

302.3.3 Last name: 32 characters.

302.3.4 Suffix: 5 characters.

303 Organization debtor names. For purposes of these rules, an “organization debtor name” is any name provided as a debtor name in a UCC record in a format that identifies the name as that of a debtor who is an organization, without regard to the nature or character of the name or to the nature or character of the actual debtor.

303.1 Single field. When available through the filing office the organization debtor names are stored in files that include only organization debtor names and not individual debtor names. A single field is used to store an organization debtor name.

303.2 Truncation-organization names. The organization debtor name field in the UCC database is fixed in length. Maximum length 300 characters. Although filers should continue to provide full names on their UCC records, a name that exceeds the fixed length is entered as presented to the filing officer, up to the maximum length of the organization debtor name field.

- 304 Estates. The debtor name to be provided on a financing statement for a debtor that is an estate is the name of the relevant decedent. In order for the information management system to function in accordance with the usual expectations of filers and searchers, the filer should provide the debtor name as an individual debtor name. However, the filing office will enter Data submitted by a filer in the fields designated by the filer exactly as it appears in such fields.
- 305 Trusts. The debtor name to be provided for a debtor that is a trust or a trustee acting in respect of trust property is the name of the trust as set forth in its organic record(s), if the trust has such a name or, if the trust is not so named, the name of the trust's settlor. In order for the information management system to function in accordance with the usual expectations of filers and searchers, the name of a trust or of a settlor that is an organization should be provided as an organization debtor name, and the name of a settlor who is an individual should be provided as an individual debtor name, in each case without regard to the nature or character of the debtor. Notwithstanding the foregoing, the filing office will enter data submitted by a filer in the fields designated by the filer exactly as it appears in such fields.
- 306 Initial financing statement. Upon the filing of an initial financing statement the status of the parties and the status of the financing statement shall be as follows.
- 306.1 Status of secured party. Each secured party named on an initial financing statement shall be a secured party of record, except that if the UCC record names an assignee, the secured party/assignor shall not be a secured party of record and the secured party/assignee shall be a secured party of record.
- 306.2 Status of debtor. Each debtor name provided by the initial financing statement shall be indexed in the UCC information management system so long as the financing statement is an Active Record.
- 306.3 Status of financing statement. The financing statement shall be an Active Record. A lapse date shall be calculated, five years from the file date, unless (i) the initial financing statement indicates as provided in rule 101.8 that it is filed with respect to a public-financing transaction or a manufactured-home transaction, in which case the lapse date shall be thirty years from the file date, or (ii) the initial financing statement indicates as provided in rule 101.8 that it is filed against a transmitting utility, in which case there shall be no lapse date.
- 307 Amendments generally. Upon the filing of an amendment the status of the parties shall be unchanged, except that in the case of an amendment that adds a debtor or a secured party, the new debtor or secured party shall be added to appropriate index and associated with the record of the financing statement in the UCC information management system, and an amendment that designates an assignee shall cause the assignee to be added as a secured party of record with respect to the affected financing statement in the UCC information management system. Notwithstanding the filing of an amendment that deletes a debtor or a secured party from a financings statement, no debtor or secured party of record is deleted from the UCC information management system. A deleted secured party will still be treated by the filing office as a secured party of record as the filing office cannot verify the effectiveness of an amendment. In general, the filing of an amendment does not affect the status of the financing statement, but an amendment that indicates that the debtor is a transmitting utility will cause the filing office to reflect in the information management system that the amended financing statement has no lapse date.

308 Continuation statement.

308.1 Continuation of lapse date. Upon the timely filing of one or more continuation statements by any secured party(ies) of record, the lapse date of the financing statement shall be postponed for five years. The lapse date is postponed once notwithstanding the fact that more than one continuation statement is filed within a given 6-month period prior to a lapse date. Notwithstanding the immediate postponement of the lapse date with respect to one or more secured parties of record who file timely a continuation statement within a given 6-month period prior to a lapse date, such lapse date remains effective solely for purposes of determining whether or not a subsequent continuation statement filed in the same 6-month period is timely.

308.2 Status. The filing of a continuation shall have no effect upon the status of any party to the financing statement or upon the status of the financing statement.

309 Termination. The filing of a termination shall have no effect upon the status of any party to the financing statement or upon the status of the financing statement.

310 Correction statement. The filing of a correction statement shall have no effect upon the status of any party to the financing statement, the status of the financing statement or to the information maintained in the information management system.

311 Filing officer statement. A filing officer statement affects the status of parties and of the relevant financing statement as provided in the corrective action described as having been taken in the filing officer statement.

312 Procedure upon lapse. If there is no timely filing of a continuation with respect to a financing statement, the financing statement lapses on its lapse date but no action is then taken by the filing office.

313 Removal of record. A financing statement must remain as an Active Record until at least one year after it lapses, or if it is indicated to be filed against a transmitting utility, until at least one year after it is terminated with respect to all secured parties of record. On or after the first anniversary of such lapse or termination date, the filing office or the UCC information management system may remove the financing statement and all related UCC records from the Searchable Indexes or from the UCC information management system and upon such removal, the removed UCC Records shall cease to be Active Records.

Section 4. Filing and Data Entry Procedures

400 Errors of the filing office. The filing office may correct data entry and indexing errors of filing office personnel in the UCC information management system at any time. If a correction is made to a record of a financing statement after the filing office has issued a search report with a through date and time (see rule 505.3.4) that is on or after the filing date and time of the financing statement, the filing office will associate with the record of the financing statement in the UCC information management system a filing officer statement on the date that the corrective action was taken providing the date and an explanation of the correction.

401 Data entry. Data are entered into the UCC information management system exactly as provided in a UCC record, without regard to apparent errors. Data provided in electronic form is transferred to the information management system exactly as submitted by the remitter.

- 402 Verification of data entry. The filing office will verify accuracy of the data from UCC records entered in accordance with Rule 401 into the UCC information management system. Data entry performed by remitters with respect to electronically filed UCC records is the responsibility of the remitter and is not verified by the filing office.
- 403 Master amendments. *Not available as of 7/31/2012*
- 404 Notice of bankruptcy. The filing officer shall take no action upon receipt of a notification, formal or informal, of a bankruptcy proceeding involving a debtor named in the UCC information management system.
- 405 Redaction of certain information. The filing officer [is/may be] obliged to redact certain information from the information it provides to searchers and bulk data purchasers in accordance with applicable privacy and identity theft protection laws. Such information should not be included in UCC records and will be redacted in accordance with such laws.

Section 5. Search Requests and Reports

- 500 General requirements. The filing officer maintains for public inspection a searchable index for all Active Records in the UCC information management system. Active Records will be retrievable by the name of the debtor or by the file number of the related initial financing statement, and each Active Record related to an initial financing statement is retrieved with the initial financing statement using either retrieval method.
- 501 Search requests – required information. Search requests shall include the following:
- 501.1 Name searched. A search request must set forth the name of the debtor to be searched using designated fields for organization or individual first, middle and last names. A search request will be processed using the data and designated fields exactly as submitted, including the submission of no data in a given field, without regard to the nature or character of the debtor that is subject of the search.
 - 501.2 Requesting party. The name and address of the person to whom the search results is to be sent.
 - 501.3 Fee. The appropriate fee shall be tendered by a method described in rule 106.
 - 501.4 Search logic. The request shall specify if a search methodology other than that described in rule 503.1 is to be applied in conducting the search, as long as that methodology is available through the filing office.
- 502 Search requests - optional information. Search requests may include the following:
- 502.1 Copies. If permitted by the filing office the request may limit the copies of UCC records that would normally be provided with a search report by requesting that no copies be provided or that copies be limited to those UCC records that:
 - 502.1.1 include a particular debtor address;
 - 502.1.2 include a particular city in the debtor address;

502.1.3 were filed on a particular date or within a particular range of dates; or

502.1.4 include a particular secured party name.

502.2 Scope of search. A search request may ask for a search that reports all Active Records retrieved by the search rather than only Unlapsed Records retrieved by the search.

502.3 Mode of delivery. A search request may specify a mode of delivery for search results and that request will be honored if the requested mode is made available by the filing office, and all requisite fees are tendered.

502.4 Search request with filing. If a filer requests a search at the time an Initial financing statement is filed by submitting a search request with the Initial financing statement at the time it is tendered for filing, the search request shall be deemed to request a search to be conducted as soon as practicable such that it would include all UCC records filed, against the debtor name(s) provided on the Initial financing statement, on or prior to the date the Initial financing statement is filed. The search to reflect should be held until the filing office through date meets or exceeds the date the Initial financing statement was filed.

503 Search methodology. Search results are produced by the application of search logic to the name presented to the filing officer. Human judgment does not play a role in determining the results of the search.

503.1 Standard search logic. The following rules describe the filing office's standard search logic and apply to all searches except for those where the search request specifies that a non-standard search logic and was available through the filing office, be used:

503.1.1 There is no limit to the number of matches that may be returned in response to the search criteria.

503.1.2 No distinction is made between upper and lower case letters.

503.1.3 The character "&" (the ampersand) is deleted and replaced with the characters "and" each place it appears in the name.

503.1.4 Punctuation marks and accents are disregarded. For the purposes of this rule, punctuation and accents include all characters other than the numerals 0 through 9 and the letters A through Z (in any case) of the English alphabet.

503.1.5 The following words and abbreviations at the end of an organization name that indicate the existence or nature of the organization are "disregarded" to the extent practicable as determined by the filing office's programming of its UCC information management system.

503.1.6 The word "the" at the beginning of an organization debtor name is disregarded.

503.1.7 All spaces are disregarded.

503.1.8 For first and middle names of individual debtor names, initials are treated as the logical equivalent of all names that begin with such initials, and first name and no

middle name or initial is equated with all middle names and initials. For example, a search request for “John A. Smith” would cause the search to retrieve all filings against all individual debtors with “John” or the initial “J” as the first name, “Smith” as the last name, and with the initial “A” or any name beginning with “A” in the middle name field. If the search request were for “John Smith” (first and last names with no designation in the middle name field), the search would retrieve all filings against individual debtors with “John” or the initial J as the first name, “Smith” as the last name and with any name or initial or no name or initial in the middle name field.

503.1.9 If the name being searched is the last name of an individual debtor name without any first or middle name provided, the search will retrieve from the UCC information management system all financing statements with individual debtor names that consist of only the last name.

503.1.10 After using the preceding rules to modify the name being searched, the search will retrieve from the UCC information management system all Unlapsed Records, or, if requested by the searcher, all Active Records, that pertain to financing statements with debtor names that, after being modified as provided in this rule 503, exactly match the modified name being searched.

503.2 Non-standard search logic. The following non-standard search logic options may be requested on a search request and will be applied when requested: *Not available as of 7/31/2012*

503.2.1 *[insert description of non-standard search logic offered]* *Not available as of 7/31/2012*

503.2.2 *[insert description of non-standard search logic offered]* *Not available as of 7/31/2012*

Comment: The description(s) of non-standard logic might be generic or refer to a programming or implementation guide outside the rules because unlike the standard search logic, they are not applied to determine the legal sufficiency of a debtor name.

504 Changes in standard search logic. If the filing office changes its standard search logic or the implementation of its standard search logic in a manner that could alter search results, the filing office will provide public notice of such change.

505 Search responses. Responses to a search request may include the following:

505.1 Copies. Copies of all UCC records retrieved by the search unless only limited copies are requested by the searcher. Copies may reflect any redaction of personal identifying information required by law.

505.2 Introductory information. A filing officer may include the following information with a UCC search response:
