BRIEF SUMMARY OF PROPOSAL
THOROUGHBRED RACING 178 CSR 1

The proposed amendments to the rule are intended to update, clarify and address problems with the rule so that the West Virginia Racing Commission can effectively regulate thoroughbred racing in this State. In 2011, the Commission completely re-wrote, repealed and replaced the existing Thoroughbred Racing Rule that was effective April 6, 2007. In going through the re-write process in 2011, the Commission recognized that a more frequent examination of its rule is necessary to keep abreast of industry standards and to address issues with the rule that arise from time to time. Accordingly, the Commission proposed amendments for the 2013 rulemaking cycle, that were passed by the Legislature in 2013. The current proposed amendments are a result of efforts undertaken in 2013, with an eye toward the 2014 legislative rule-making cycle, to keep the rule current and responsive to the needs of the industry and the regulation thereof.

Several of the proposed amendments are a by-product of the West Virginia Racing Commission's cooperation with other racing regulators in the Mid-Atlantic region to achieve uniform rules with regard to the regulation of medications in racing. Given the significant number of racing starts concentrated in the Mid-Atlantic region and the mobility of horsemen from track to track in different states, uniformity in the region is desirable. In addition, the medication regulations espoused by the regulators in the Mid-Atlantic region are important to the integrity of racing.

When the Commission re-wrote the rule in 2011, it appointed a constituent committee to deliberate and recommend changes to the rule. The Commission followed this same practice for these rule amendments. The committee members who engaged in the re-examination process are as follows: The Commission's legal counsel from the Attorney General's Office, Kelli Talbott, Senior Deputy Attorney General, Chair; Danny Wright, Chief Steward for the Commission at Charles Town Racetrack; Steve Kourpas, State Steward for the Commission at Mountaineer Racetrack; Erich Zimny, Director of Racing Operations at Charles Town Racetrack; Rose Mary Williams, Director of Racing at Mountaineer Racetrack; Maria Catagnani, Executive Director of the Charles Town Horsemen's Benevolence and Protective Association (HBPA); Philip Heidenreich, Second Vice President of the Mountaineer HBPA; Dr. Elizabeth Daniel, State Veterinarian at Charles Town Racetrack; and, Dr. Beth Albrecht, D.V.M., State Veterinarian at Mountaineer Racetrack.

In May 2013, the committee's work resulted in a recommendation to the Racing Commission to make amendments to the rule and the proposed amendments were submitted for the Commission's consideration. The Commission voted to adopt the committee's proposed amendments and put the rule out for public comment. The public comment period is now completed.

The highlights of the proposed amendments to the rule are as follows:

- The adoption and incorporation into the rule of the "Racing Commissioners International (RCI) Controlled Therapeutic Medication Schedule - Version 1.0." The post-race testing medication

thresholds contained in this schedule and the time period prior to race within which the medications may be given are the state of the art science on these medications at the present time. Currently, West Virginia's rule has medication thresholds for seven of the twenty-four medications in RCI's schedule. Adopting RCI's schedule will establish medication thresholds for the remaining seventeen and administration time periods for all twenty-four. All of the Mid-Atlantic states, including Virginia, Delaware, Maryland, New Jersey, New York, and Pennsylvania, are in the process of adopting this medication schedule into their rules.

- The adoption of an amendment that would clarify that the administration guidelines for the medications contained in the afore-mentioned schedule are recommended and that, ultimately, the post-race test result for a horse is the determining factor in the imposition of medication penalties.

- The adoption of an amendment to authorize the Commission to require the reporting of the administration of procaine penicillin to a horse.

- Updates to Table D of the Rule, the Uniform Classification Guidelines for Foreign Substances published by RCI, to incorporate changes made by RCI after the last enactment of West Virginia's rule.

- The adoption of amendments to the rule pertaining to the administration of furosemide (lasix®) to horses on race day. The amendments would require that there be Commission oversight with regard to the administration of this anti-bleeder medication on race day.

- The adoption of amendments to the rule to update the list of blood-doping agents that are prohibited on the racetrack to make West Virginia's rule consistent with the current RCI Model Rule.

- The adoption of amendments to make the rule internally consistent on the issue of the age at which a permit holder is eligible to obtain a permit on the racetrack.

- Amendments to require that the West Virginia Racing Commission's primary testing laboratory for testing of specimens taken from horses and split sample testing laboratories be accredited by the Racing Medication Testing Consortium (RMTTC).

- An amendment to authorize the stewards and the Racing Commission to discipline a permit holder who makes a bad faith complaint against another permit holder or a racing official.

STATEMENT OF CIRCUMSTANCES REQUIRING THE RULE

178 CSR 1 THOROUGHBRED RACING

The proposed amendments to the rule are intended to update, clarify and address problems with the rule so that the West Virginia Racing Commission can effectively regulate thoroughbred racing in this State. In 2011, the Commission completely re-wrote, repealed and replaced the existing Thoroughbred Racing Rule that was effective April 6, 2007. In going through the re-write process in 2011, the Commission recognized that a more frequent examination of its rule is necessary to keep abreast of industry standards and to address issues with the rule that arise from time to time. Accordingly, the Commission proposed amendments for the 2013 rulemaking cycle, that were passed by the Legislature in 2013. The current proposed amendments are a result of efforts undertaken in 2013, with an eye toward the 2014 legislative rule-making cycle, to keep the rule current and responsive to the needs of the industry and the regulation thereof.

Several of the proposed amendments are a by-product of the West Virginia Racing Commission's cooperation with other racing regulators in the Mid-Atlantic region to achieve uniform rules with regard to the regulation of medications in racing. Given the significant number of racing starts concentrated in the Mid-Atlantic region and the mobility of horsemen from track to track in different states, uniformity in the region is desirable. In addition, the medication regulations espoused by the regulators in the Mid-Atlantic region are important to the integrity of racing.

The constituents in the horse racing industry support the Racing Commission's decision to improve the rules of thoroughbred racing by updating the rules. To develop the proposed amendments, the Racing Commission appointed a constituent committee to work with its legal counsel from the Attorney General's Office. The proposed amendments are the culmination of the committee's deliberations and represents the committee's and the Racing Commission's vision of what is in the best interest of the thoroughbred racing industry.

25.4. Racing Colors. The following provisions apply to racing colors:

25.4.a. Owners or trainers shall provide racing colors which may be subject to the approval of the Racing Commission except at racetracks where colors are furnished by the association. 25.5.a. If a horse is transferred by private sale or at public auction, the written acknowledgment of both parties is necessary to prove the fact that the horse was transferred with its

engagements. The transfer of a horse under any circumstances to a non-eligible person shall not give that person the privilege of racing the horse.

25.5.b. No horse entered in a race may be sold or transferred until after the race in which the horse is entered has been run unless otherwise permitted by the stewards.

25.5.j. Any transfer of ownership or change of a trainer in a stake, handicap, futurity or other special event must occur at least thirty (30) days before the event unless the transferor and transferee can satisfy the board of stewards that the transfer of ownership or change of a trainer was, in fact, an arms length transaction and not for the purpose of evading the coupling rules or any other rule of racing.

25.6. Death of Owner. Subscriptions and all entries or rights of entry under them become void on the death of a subscriber, except in the case of a surviving partnership or except upon the approval of the stewards when the personal representative of an estate requests in writing that the benefits accrue to the estate of the decedent subscriber for the privilege of transfer, and agrees to assume any and all obligations incident to the original entries.

§178-1-28. Jockeys.

28.1. Eligibility. The following provisions apply to the eligibility of jockeys for permits and for racing:

28.1.a. A jockey shall obtain an occupational permit from the Racing Commission, and the Racing Commission shall not issue an occupational permit to any jockey under eighteen (18) years of age.

28.1.b. A jockey shall pass a physical examination given within the previous twelve (12) months by a licensed physician affirming fitness to participate as a jockey. The stewards may require that any jockey be reexamined and may refuse to allow any jockey to ride pending completion of such examination.

28.1.c. An applicant for an occupational permit to act as a jockey shall show competence by evidence of the holding of other racing permits and/or the demonstration of riding ability, which may include the riding of ten (10) or more races under a temporary occupational permit issued by the stewards. The stewards and/or the Racing Commission may consult representatives of the jockeys and the horsemen, the starter, and any other racing personnel that they deem appropriate in determining the competence and ability of an individual applying for an occupational permit to act as a jockey.

28.1.d. A jockey who is serving a suspension of ten (10) race days or less may ride in designated races during the suspension if:

28.1.d.1. the race has been specified as a designated race by the association's racing secretary before the inception of the race meeting at the association; or

28.1.d.2. the race has been approved as a designated race by the stewards officiating at the meeting; and

28.1.d.3. the jockey is named no later than the time set for the close of entries for the race; and

28.1.d.4. the jockey agrees to serve an additional race day of suspension in place of the race day on which the jockey rides in a designated race.

28.1.d.5. Reciprocity of this rule applies only to those states, which have adopted the designated race rule.

28.1.e. The suspension of a jockey for a riding interference or other riding offense begins on the second race day after the ruling, unless otherwise ordered by the stewards. A suspension for all other offenses begins immediately after the ruling.

28.1.f. A jockey temporarily suspended may exercise or gallop horses until the racetrack closes for the morning.

28.2. Apprentice Jockeys. The following provisions apply to apprentice jockeys:

28.2.a. Jockey apprentices shall obtain an occupational permit from the Racing Commission and shall comply with the provisions of this section relating to jockeys, except those that are in conflict with this subsection specifically relating to apprentices.

28.2.b. An application for an occupational permit to act as an apprentice jockey shall be accompanied by:

28.2.b.1. an original, notarized contract between the apprentice and his or her employer, if a contract has been entered into;

28.2.b.2. written proof of at least one (1) year of service with a racing stable;

28.2.b.3. a certificate of proficiency from the starter; and

28.2.b.4. a birth certificate or satisfactory evidence of the date of birth.

28.2.c. Any person eighteen (18) years of age or older who has not been previously issued an occupational permit as a jockey in this or any other country, and who meets the eligibility requirements, may be granted an apprentice certificate. The certificate shall be subject to the approval and jurisdiction of the Racing Commission.

28.2.d. Apprentice contracts entered into and apprentice certificates issued in the state of West Virginia shall be made on forms approved by the Racing Commission and completed originals of these documents shall be on file with the stewards.

28.2.e. Any and all amendments to an apprentice contract shall be made in writing, shall be notarized, and the original amendments shall be filed with the stewards. Copies of the amendments shall be retained by the parties to the contract.

28.2.f. All apprentice contracts, wherever entered into, shall be approved by and filed with the stewards.

28.2.g. If an apprentice contract is transferred, that transfer shall be approved by and filed with the stewards by both the transferor and the transferee.

28.2.h. No person may enter into a contract in West Virginia with an apprentice jockey unless he or she is the owner or trainer of a stable of horses, which would, in the opinion of the stewards, warrant his or her employment of an apprentice.

28.2.i. All engagements for an apprentice jockey to ride, other than those for his or her contract employer, shall be made by himself or herself, his or her agent, or his or her contract employer, who may act as his or her agent without an agent occupational permit. However, the person making the engagements is responsible for the proper maintenance of the apprentice's engagement book.

28.2.j. A duly certified apprentice jockey may claim the following weight allowances in all overnight races, except stakes and handicaps:

28.2.j.1. Ten (10) pounds allowance beginning with the first mount and continuing until he or she has ridden five (5) winners;

28.2.j.2. Seven (7) pounds allowance until the apprentice has ridden an additional thirty-five (35) winners; and

28.2.j.3. If an apprentice has ridden a total of forty (40) winners prior to the end of a period of one (1) year from the date of riding his or her fifth winner, he or she shall have an allowance of five (5) pounds until the end of that year.

28.2.k. If after one (1) year from the date of the fifth winning mount, the apprentice jockey has not ridden forty (40) winners, the applicable weight allowance shall continue for one (1) more year or until the fortieth winner, whichever comes first. But in no event may a weight allowance be claimed for more than two (2) years from the date of the fifth winning mount, unless an extension has been granted pursuant to this rule.

28.2.l. After the completion of the conditions set forth in subdivisions 28.2.j. and 28.2.k., an apprentice jockey may claim an allowance of three (3) pounds for a period of one (1) year when riding horses owned or trained by his or her original contract employer, if the contract has not been transferred or sold since he or she rode his or her first winner. The holder of the contract at the time the apprentice rides his or her first winner is considered the original contract employer.

28.2.m. An apprentice allowance shall be claimed at the time of entry and shall not be waived except by consent of the stewards.

28.2.n. The stewards shall not consider any race, unless reported in the Daily Racing Form or an equivalent publication, in determining a jockey's right to the apprentice allowance.

28.2.o. An apprentice jockey who loses his or her apprentice allowance for any reason shall obtain a jockey occupational permit before being permitted to ride again.

28.2.p. The stewards may extend the weight allowance of an apprentice jockey when, in the discretion of the stewards, an apprentice jockey cannot continue riding due to:

28.2.p.1. physical disablement or illness;

28.2.p.2. military service;

28.2.p.3. attendance in an institution of secondary or higher education;

28.2.p.4. restriction on racing; or

28.2.p.5. other valid reasons.

28.2.q. To qualify for an extension, an apprentice jockey shall have been rendered unable to ride for a period of not less than seven (7) consecutive days during the period in which he or she was entitled to an apprentice allowance. Under exceptional circumstances, the stewards may consider total days lost collectively. An apprentice applying for an extension must produce documentation to the stewards verifying the time lost.

28.2.r. An apprentice may petition one (1) of the racing jurisdictions in which he or she has been issued an occupational permit for an extension of the time for claiming apprentice weight allowances. The apprentice is bound by the decision of the jurisdiction that is petitioned.

28.2.s. The stewards may take jurisdiction of an application for extension of an apprentice allowance in cases where the application is based upon a claim of physical injuries or restrictions on racing which occurred at racetracks licensed by the Racing Commission.

28.3. Jockey Responsibility. The following provisions apply to a jockey's responsibility:

28.3.a. A jockey shall give a best effort during a race, and each horse shall be ridden to win. A jockey shall not ease up on or coast to the finish, without reasonable cause, even if the horse has no apparent chance to win prize money.

28.3.b. A jockey shall faithfully fulfill all engagements in respect to racing.

28.3.c. Any jockey, having given a call personally or through his or her agent, who fails to fulfill an engagement in a race may not accept another mount or be assigned by the stewards to another mount in that race.

28.3.d. A jockey shall not ride or agree to ride in any race without the consent of the owner to whom he or she is under contract.

28.3.e. A jockey may not ride in any race against a horse of his or her contract employer unless his or her mount and his or her contract employer's horse are both in the hands of the same trainer.

28.3.f. A jockey may have no more than one (1) agent.

28.3.g. All engagements to ride, other than those for his or her contract employer, shall be made by him or her or his or her agent. The person making the engagements is responsible for the proper maintenance of the jockey's engagement book.

28.3.h. A jockey shall not have an attendant other than those provided by the association. If a jockey cannot find an available attendant, the clerk of scales shall assign one. A jockey may care for his or her own equipment.

28.3.i. A fine shall be paid by the jockey himself or herself and any other permit holder paying the fine is subject to discipline by the stewards.

28.4. Jockey Betting. No jockey shall make a wager on any race, nor accept the promise or token of any wager with respect to the race in which he or she is riding, except through or from the owner or trainer of the horse he or she rides, and then only on that horse.

28.5. Jockey's Spouse. A jockey shall not compete or ride in any race against a horse which is owned, trained or ridden by the jockey's spouse. If a conflict arises between a jockey and the jockey's spouse as to who shall compete or ride in a race and no agreement can be reached as to which of them shall compete or ride, the stewards shall draw lots to resolve the conflict.

28.6. Jockey Mount Fees. The following provisions apply to jockey mount fees:

28.6.a. The organization representing the majority of the horsemen and the organization representing the majority of the jockeys at each racetrack may negotiate and reach agreements specifying the mount fees to be paid to the jockeys at each racetrack. Any agreement reached shall be filed with the Racing Commission thirty (30) days prior to the start of the race meeting. In the absence of such an agreement, the jockey mount fees shall be as set forth in table 178-1B at the end of this rule.

28.6.b. The owner of the horse shall pay the jockey riding fees to the horsemen's bookkeeper.

28.6.c. If any owner or trainer engages two (2) or more jockeys for the same race, he or she shall pay the losing fee for each engaged jockey not riding in the race, as well as the appropriate fee to the jockey who does ride.

28.6.d. A jockey fee shall be considered earned when the clerk of scales weighs out the jockey. The fee shall not be considered earned if the jockey, of his or her own free will, takes himself or herself off of the horse he or she is engaged to ride and when injury to the horse or rider is not involved. The stewards are vested with the authority to interpret and apply this subdivision and to determine whether or not a jockey fee is or is not earned based upon the facts and circumstances presented in a particular instance.

28.6.e. In a dead heat, the jockeys involved shall divide equally the sum total of the fees they would have received individually had one beaten the other or others. Likewise, the owners of the horses involved shall pay their equal share of fees.

§178-1-29. Jockey Agents.

29.1. Eligibility. The following provisions apply to the eligibility of jockey agents:

30.2. An applicant for an occupational permit to act as a blacksmith who has not been previously issued a permit in this or any other state shall:

30.2.a. provide written statements from two (2) reputable persons attesting that the applicant is personally known to them; that the applicant is of good character and reputation; and that the applicant is capable of engaging in the vocation of blacksmith;

30.2.b.1. undergoes a written or oral examination regarding horse shoes and horse shoeing;

33.1. A person entering a horse in a claiming race warrants that the title to such horse is free and clear of any existing claim or lien, either as security interest mortgage, bill of sale, or lien of any kind; unless before entering such horse, the written consent of the holder of the claim or lien has been filed with the horsemen's bookkeeper. A person may not claim ownership in a horse after the horse has run in a claiming race in the name of another person who, at the time of the race, had peaceable and undisputed possession of the horse.

33.2. Every horse claimed shall run in the interest and for the account of the owner who entered it in the race, but title to the claimed horse is vested in the successful claimant from the time the horse becomes a starter. The successful claimant shall become the owner of the horse, whether it is alive or dead, sound or unsound, or injured during the race or after the race.

33.3. For claiming purposes, if a horse is owned by more than one (1) owner, the total ownership shall be considered as a single entity.

33.4. The stewards shall decide any questions arising under these sections pertaining to claiming racing; shall pass upon all claims; and, may, in their discretion, declare any claim void.

§178-1-34. Claiming of Horses.

34.1. Any horse starting in a claiming race is subject to be claimed for its entered price by any:

34.1.a. occupational permit holder in good standing;

34.1.b. holder of a valid claim certificate; or

34.1.c. an authorized agent holding an occupational permit acting on behalf of an eligible claimant.

§178-1-35. Claim Certificate.

35.1. An applicant for a claim certificate shall submit to the stewards:

35.1.a. an application for an owner's occupational permit and the required fee; and

35.1.b. the name of a trainer holding an occupational permit, or person eligible to hold a trainer's occupational permit, who will assume the care and responsibility for any horse claimed;

35.2. The stewards shall issue a claim certificate upon satisfactory evidence that the applicant is eligible for an owner's occupational permit.

§178-1-36. Prohibitions.

36.1. A person shall not claim more than one (1) horse in a race, nor shall a person submit more than one (1) claim for the same horse.

36.2. An authorized agent, although representing more than one eligible claimant, shall not submit more than one (1) claim in any race.

36.3. A trainer, even though eligible to make a claim, shall not submit a claim in the same race in which the owner of horses trained by him or her has submitted a claim. If this occurs, the stewards shall declare the trainer's claim void.

36.4. When a stable consists of horses owned by more than one (1) owner, but trained by the same trainer, not more than one (1) claim may be entered on behalf of the stable in any race. If more than one (1) claim is entered, the owners shall compete by lot for the claim.

36.5. When a stable consists of horses owned by more than one (1) owner, but trained by the same trainer, the owners are not eligible to claim from that trainer's stable.

36.6. A person shall not offer or enter into an agreement to claim, or attempt to prevent another person from claiming, a horse in a claiming race.

36.7. Owners and trainers running horses in a claiming race shall not collude or make any agreement for the protection of their horses.

36.8. Any person making a false affidavit in connection with the filing of a claim pursuant to the procedures set forth in section 37 of this rule, may be summarily suspended by the stewards or may be subject to other disciplinary action by the stewards and/or the Racing Commission.

§178-1-37. Procedure for Claiming.

37.1. The claiming price of each horse in a claiming race shall be printed on the official program and all claims for a horse shall be for the amount designated in the official program, plus all transfer fees and applicable taxes.

37.2. To make a valid claim for a horse, an eligible person shall:

37.2.a. deposit with the horsemen's bookkeeper an amount equal to the amount of the claim, plus all transfer fees and applicable taxes, unless at the time of making the claim the person has an unencumbered amount equal to the amount of the claim to his or her credit with the horsemen's bookkeeper;

37.2.b. accurately complete a written claim on a form approved by the stewards and which shall include an affidavit in which the claimant certifies that he or she is claiming the horse for his or her own account or as an authorized agent, and not for any other person;

37.2.c. identify the horse to be claimed by the spelling of its name as spelled on the official program;

37.2.d. place the completed claim form inside a sealed envelope approved by the stewards which shall have no identification marked on it other than the number of the race in which the claim is being made;

37.2.e. have the time of day that the claim is entered stamped on the envelope; and

37.2.f. have the envelope deposited in the locked claim box no later than ten (10) minutes prior to post time of the race for which the claim is entered.

37.3. After a claim has been deposited in the claim box, it is irrevocable by the claimant.

37.4. Officials and employees of the association shall not provide any information as to the filing of claims until after the race has been run, except as is necessary for processing of the claim.

37.5. If more than one claim is filed on a horse, the successful claim shall be determined by lot conducted by the stewards or their designee.

37.6. Notwithstanding any designation of sex or age appearing in the racing program or in any racing publication, the claimant of a horse shall be solely responsible for the determination of the sex or age of any horse claimed.

37.7. All horses claimed in other states and racing in the state of West Virginia are subject to the conditions of the claiming rule in the state where the claim was made.

§178-1-38. Transfer of Claimed Horses.

38.1. Upon a successful claim, the stewards shall issue an authorization of transfer of the horse from the original owner to the claimant. Copies of the transfer authorization shall be forwarded to and maintained by the stewards and the association's racing secretary. Upon notification by the stewards, the horsemen's bookkeeper shall immediately debit the claimant's account for the claiming price, applicable taxes and transfer fees.

38.2. A person shall not refuse to deliver a properly claimed horse to the successful claimant. If a person refuses to deliver a properly claimed horse, the stewards may prevent the horse claimed from racing, and may prevent all other horses owned or trained by that person from racing, until delivery is made.

38.3. Transfer of possession of a claimed horse shall take place immediately after the race has been run by the delivery of the horse to the claimant in the paddock, unless otherwise directed by the stewards. However, if the horse is required to be taken to the test barn for post-race testing, the original trainer or his/her designee shall maintain physical custody of the claimed horse; shall observe the testing procedure; shall sign the official form as witness to the taking of the specimen; and, shall, upon the release of the horse by the Racing Commission veterinarian or his or her designee, transfer possession of the claimed horse to the claimant. The successful claimant or his or her designee may also accompany the horse to the test barn for post-race testing.

38.4. When a horse is claimed out of a claiming race, the horse's engagements are transferred, with the horse, to the claimant.

38.5. Any horse claimed shall not be sold or transferred, wholly or in part thereof, to anyone for thirty (30) days except in another claiming race. The horse shall not remain in the same barn or under the control or management of its former owner or trainer for thirty (30) days, unless reclaimed, nor shall it race outside of the state of West Virginia for a period of sixty (60) days, except for stakes races and special events, or unless special permission is granted by the stewards.

PART 7. RULES OF THE RACE.**§178-1-39. Entries and Nominations.**

39.1. Entries. The following provisions apply to entries:

39.1.a. A horse shall not be qualified to start in any race unless the horse has been entered and is qualified at the time of starting for the race in which it has been entered.

39.1.b. No person shall willfully enter, or cause to be entered, or start a horse in a race, when he or she knows or believes the horse to be ineligible or disqualified.

39.1.c. A person who does not have an interest in a horse that is at least equal to the ownership interest of any other individual owner may not enter the horse in a race as the owner.

39.1.d. One (1) or more of the owners of a horse may make joint subscriptions and entries. However, each owner is jointly and separately liable for all fees.

39.1.e. A horse must be eligible at the time of starting.

39.1.f. No horse owned by multiple owners shall be permitted to enter or to start until the owners have complied with rules for the permitting of multiple owners as set forth in subsection 25.2. of this rule.

39.1.g. If the association's racing secretary receives an entry from any disqualified person or a disqualified horse, the entry is void and any money paid for that entry shall be returned if the disqualification is disclosed forty-five (45) or more minutes before post time for the race. Otherwise, any money shall be paid to the winner.

39.1.h. The association's racing secretary shall not accept an entry from spouses while either is disqualified from racing. For the purpose of this rule, spouses shall be considered as one.

39.2. Procedure. The following provisions apply to the procedure for entries:

39.2.a. For all races, the association's racing secretary or his or her assistants are authorized to receive entries.

39.2.b. Entries shall be made in writing, by telephone, by facsimile or by electronic means approved by the Racing Commission. Each association shall provide blank forms on which written entries may be made. Upon the request of the association's racing secretary or the stewards, any entry not made in writing shall be confirmed in writing.

39.2.c. A signed entry blank is prima facie evidence that the contents of the entry blank express the desires and intent of the person making entry.

39.2.d. When a horse is entered, it must be clearly identified by stating its age, sex, name, color, and the names of its sire and dam.

39.2.e. The stewards may refuse an entry of any person, or the transfer of any entry, with notice and the reason given.

39.2.f. The entry of a horse shall be in the name of his or her valid owner.

39.2.g. The association's racing secretary shall immediately compile and conspicuously display the number of entries upon the closing of all overnight races.

39.2.h. Alterations shall not be made in any entry after closing of entries, except correction of errors approved by the stewards.

39.3. Coupled Entries. The following provisions apply to coupled entries:

39.3.a. Two (2) or more horses which are entered in a race shall be joined as a mutuel entry and constitute one (1) betting interest if they are owned or leased in whole or in part by the same owner or are trained by a trainer who owns or leases any interest in any of the other horses in a race, except that such entries may be uncoupled in stakes races, futurities or other special events.

39.3.b. No more than two (2) horses having common ties through ownership or training may be entered in an overnight race. Under no circumstances may both horses of a coupled entry start to the exclusion of a single entry. When making a coupled entry, a preference for one (1) of the horses must be made.

39.3.c. In the event of disqualification of any part of a coupled entry, it shall be in the discretion of the stewards whether the disqualification shall extend to all or any other part of the coupled entry.

39.3.d. In a stakes race, futurity or other special event, any two (2) or more horses entered that are owned in whole or in part by the same owner or trained by the same trainer shall be given an equal draw according to the eligibility conditions of the race.

39.3.e. In any race ordered split by the association's racing secretary into two (2) or more divisions, horses coupled pursuant to subdivisions 39.3.a. and 39.3.b. of this subsection shall be seeded in separate divisions and uncoupled.

39.4. Closings. The following provisions apply to the closing of entries:

39.4.a. The association's racing secretary shall close all entries at an advertised time with no entry accepted thereafter. The association's racing secretary, however, may postpone closing or filling of overnight races. Provided that, if the association's racing secretary postpones the closing or filling of one or more overnight races past the advertised time, he or she shall postpone the closing or filling of all other overnight races until the same time.

39.4.b. For futurity races, if a horse is not named through the entry box at the published time of closing, the horse shall be denied entry.

39.4.c. No races shall be drawn or cancelled until such time as all races comprising the racing card have been filled.

39.5. Number of Starters in a Race. The following provisions apply to the number of starters in a race:

39.5.a. The maximum number of starters in any race shall be limited to the number of starting positions afforded by the association starting gate and its extensions. The number of starters may be further limited by the number of horses which, in the opinion of the stewards, can be afforded a safe, fair and equal start.

39.5.b. If, due to racetrack limitations, the number of entries to any purse race is in excess of the number of horses that may be permitted to start, the horses for the race and their post or starting gate positions, shall be determined by the preference system or the conditions of the race. The same methods shall be employed in determining the horses and post or starting positions in split races.

39.6. Split or Divided Races. The association's racing secretary may split or divide any overnight race.

39.7. Post Positions. The manner of selecting positions of horses at the starting gate shall be determined by lot by the association's racing secretary or his or her designee, in public, at the close of the entries. The horses drawn are entitled to the position at the starting gate corresponding to the number drawn.

39.8. Also-Eligible List. The following provisions apply to the also-eligible list:

39.8.a. If the number of entries for a race exceeds the number of horses permitted to start, the association's racing secretary may create and post an also-eligible list.

39.8.b. If any horse is scratched from a race for which an also-eligible list was created, a replacement horse shall be drawn from the also-eligible list into the race in order of preference.

39.8.c. Any owner or trainer of a horse on the also-eligible list who does not wish to start the horse in such race shall so notify the association's racing secretary prior to scratch time for the race, thereby forfeiting any preference to which the horse may have been entitled.

39.8.d. A horse which draws into a straightaway race from the also-eligible list shall start from the post position vacated by the scratched horse. In the event more than one horse is scratched, post positions of horses drawing in from the also-eligible list shall be determined by public lot.

39.8.e. Horses which draw into a non-straightaway race from the also-eligible list shall start from the outermost post positions.

39.8.f. If a horse is on the also-eligible list and is selected on a subsequent race day, the horse is an automatic scratch or elimination from the eligible list the first day.

39.9. Preferred List. The association's racing secretary shall maintain a list of entered horses eliminated from starting by a surplus of entries, and these horses shall constitute a preferred list and have preference. The manner in which the preferred list shall be maintained and all rules governing such list shall be the responsibility of the association's racing secretary. Such rules must be submitted to the Racing Commission thirty (30) days prior to the commencement of the race meeting and are subject to the approval of the Commission.

§178-1-40. Naming of Riders.

40.1. Owners and/or trainers shall name their jockeys no later than scratch time of that race.

40.2. Any change of a jockey after scratch time of a race must be sanctioned by the stewards and shall be promptly and publicly displayed and announced.

§178-1-41. Declarations and Scratches.

41.1. Declarations. The following provisions apply to declarations:

41.1.a. A declaration is the act of withdrawing an entered horse from a race prior to the closing of entries.

41.1.b. The declaration of a horse from a race is irrevocable.

41.1.c. If the miscarriage of any declaration by mail or otherwise is alleged, satisfactory proof of the miscarriage is required of the complainant. Otherwise, the declaration shall not be accepted.

41.2. Scratches. The following provisions apply to scratches:

41.2.a. A scratch is the act of withdrawing an entered horse from a contest after the closing of entries.

41.2.b. A scratch of a horse from a race is irrevocable.

41.2.c. No horse shall be considered to be scratched from a race until the trainer or his or her designee notifies the association's racing secretary within the prescribed time period established by the association.

41.2.d. Scratches from stakes races shall close four (4) hours before post time for that race, unless otherwise approved by the stewards.

41.2.e. No horse in an overnight race shall be scratched without the approval of the stewards.

41.2.f. A recommendation from a Racing Commission veterinarian to scratch a horse shall be given to the stewards and shall be used only as an aid in determining whether a scratch shall be approved.

§178-1-42. Weights.

42.1. Allowances. The following provisions apply to weight allowances:

42.1.a. A weight allowance must be claimed at time of entry and shall not be waived after the posting of entries, except by consent of the stewards.

42.1.b. A horse shall start with only the allowance of weight to which it is entitled at time of starting, regardless of its allowance at time of entry.

42.1.c. Horses not entitled to the first weight allowance in a race shall not be entitled to any subsequent allowance specified in the conditions.

42.1.d. A claim of weight allowance to which a horse is not entitled shall not disqualify it unless a protest is made in writing and lodged with the stewards at least one (1) hour before post time for that race.

42.1.e. A horse shall not be given a weight allowance for failure to finish second or lower in any race.

42.1.f. No horse shall receive an allowance of weight nor be relieved extra weight for having been beaten in one (1) or more races, but this rule shall not prohibit maiden allowances or allowances to horses that have not won a race within a specified period or a race of a specified value.

42.1.g. Except in handicap races which expressly provide otherwise, two (2) year old fillies shall be allowed three (3) pounds, and fillies and mares, three (3) years old and upward, shall be allowed five (5) pounds before September 1 and three (3) pounds thereafter in races where competing against male horses.

42.2. Penalties. The following provisions apply to weight penalties:

42.2.a. Weight penalties are obligatory.

42.2.b. Horses incurring weight penalties for a race shall not be entitled to any weight allowance for that race.

42.2.c. No horse shall incur a weight penalty or be barred from any race for having been placed second or lower in any race.

42.2.d. Penalties incurred and allowances due in steeplechase or hurdle races shall not apply to races on the flat, and vice versa.

42.2.e. The reports, records and statistics as published by the Daily Racing Form, Equibase or other recognized publications shall be considered official in determining eligibility, allowances and penalties, but may be corrected.

42.2.f. For determining weight penalties and allowances for horses that have previously won or placed in Graded or Group races, penalties in the race conditions will only apply to Graded or Group races in Part 1 countries as recognized in the International Catalogue Standards (ICS) book.

42.2.g. When a race is in dispute, both the horse that finished first and any other horse involved in the dispute are subject to all penalties attached to the winner of that race until the matter is decided.

42.3. Scale of Weights. The following provisions apply to the scale of weights:

42.3.a. With the exception of apprentice allowances, handicap races, three (3) year old horses entered to run in races against horses four (4) years old and upwards, and the allowance provided in subdivision 42.3.b., no jockey shall be assigned a weight of less than one hundred eighteen (118) pounds. For three (3) year old horses entered to run in races against horses four (4) years old and upwards from January 1 through August 31, no jockey shall be assigned a weight of less than one hundred sixteen (116) pounds.

42.3.b. Except in handicaps, fillies two (2) years old shall be allowed three (3) pounds, and fillies and mares three (3) years old and upward shall be allowed five (5) pounds before September 1, and three (3) pounds thereafter in races where competing against horses of the opposite sex.

42.3.c. A notice shall be included in the daily program that lists the weight to be carried by each horse as established by the association's racing secretary and that notifies the public that jockeys may carry approximately three (3) pounds more than the published weight to account for safety equipment (vest and helmet) that is not included in required weighing out procedures. Additionally, the public shall be notified in the daily program that upon the stewards' approval, jockeys may weigh in with an additional three (3) pounds for inclement weather gear.

§178-1-43. Workouts.

43.1. Requirements. Any horse which has not raced for a period of sixty (60) days shall have one (1) published workout, or a workout certified by the clocker, to be announced over the public address system prior to the horse starting.

43.2. Identification. The following provisions apply to the identification requirements for workouts:

43.2.a. An occupational permit holder exercising a horse in a workout shall identify the horse at the request of the clocker.

43.2.c. An occupational permit holder wishing to exercise a horse on the racing strip between races shall obtain permission from the stewards and the track superintendent. When a horse is being warmed

up or exercised between races, a public announcement shall be made giving the name of the horse and explaining its presence on the racing strip.

§178-1-44. Horses Ineligible.

A horse is ineligible to start in a race when:

44.1. its breed registration certificate is not on file with the association's racing secretary one-half (½) hour before post time for the first race; the stewards may waive this requirement if the information contained on the registration certificate is otherwise available and the horse is otherwise correctly identified to the stewards' satisfaction; provided that the stewards shall not waive this requirement if the horse is scheduled to start in a claiming race.

44.2. its name has been changed and it has not been issued a new registration certificate by the appropriate breed registry;

The association shall notify the Racing Commission and the stewards upon the issuance of a grade for a race by the American Graded Stakes Committee so that the stewards may allow the appropriate toe grab rule to be administered and enforced. A copy of the toe grab rule in graded stakes races shall be published in the office of the association's racing secretary.

48.4.d.5. Any person participating in the use of extracorporeal shock wave therapy and/or in the possession of extracorporeal shock wave therapy machines in violation of this rule shall be considered to have committed a prohibited practice and is subject to a Class A penalty as set forth in table 178-1E at the end of this rule.

48.4.e. The use of a nasogastric tube (a tube longer than six inches) for the administration of any substance within twenty-four (24) hours prior to the post time of a race in which the horse is entered is prohibited without the prior permission of a Racing Commission veterinarian or his or her designee.

§178-1-49. Medications and Prohibited Substances.

49.1. General. Upon a finding of a violation of this medication and prohibited substances rule, the stewards shall consider the classification level of the violation as listed in the Uniform Classification Guidelines for Foreign Substances as promulgated by the Association of Racing Commissioners International (RCI) (revised December 2011 2012), set forth in table 178-1D at the end of this rule. Imposition of penalties and disciplinary action by the stewards for a violation of this medication and prohibited substances rule shall be consistent with the penalty guidelines set forth in table 178-1E at the end of this rule. The stewards may also consult with a Racing Commission veterinarian to determine if the violation was a result of the administration of a therapeutic medication as documented in a veterinarian's treatment record per subsection 48.3. The stewards may also consult with the laboratory director or other individuals to determine the seriousness of the laboratory finding or the medication violation. Penalties for all medication and drug violations shall be investigated, reviewed and determined on a case by case basis. As a result of the investigation, there may be mitigating circumstances for which a lesser or no penalty is appropriate for the permit holder and aggravating factors, which may increase the penalty beyond the minimum. Factors that may be considered are:

- 49.1.a. The past record of the trainer, veterinarian and/or owner in drug cases;
- 49.1.b. The potential of the drug(s) to influence a horse's racing performance;
- 49.1.c. The legal availability of the drug;
- 49.1.d. Whether there is reason to believe the responsible party knew of the administration of the drug or intentionally administered the drug;
- 49.1.e. The steps taken by the trainer to safeguard the horse;
- 49.1.f. The probability of environmental contamination or inadvertent exposure due to human drug use;
- 49.1.g. The purse of the race;
- 49.1.h. Whether the drug found was one for which the horse was receiving a treatment as documented by the treating veterinarian's treatment records;
- 49.1.i. Whether there was any suspicious betting pattern in the race;
- 49.1.j. Whether the trainer was acting under the advice of a veterinarian licensed to practice in West Virginia and holding an occupational permit issued by the Racing Commission; and
- 49.1.k. Any other factors deemed relevant and documented in writing by the stewards.

49.2. Uniform Classification Guidelines. The following outline describes the types of substances placed in each category of the Uniform Classification Guidelines for Foreign Substances as promulgated by the Association of Racing Commissioners International (RCI) (revised December 2011 2012), set forth in table

178-1D at the end of this rule. The Guidelines shall be publicly posted in the offices of the Racing Commission veterinarian(s) and the association's racing secretary.

49.2.a. Class 1. Opiates, opium derivatives, synthetic opioids, psychoactive drugs, amphetamines and United States Drug Enforcement Agency (DEA) scheduled I and II drugs. Also found in this class are drugs which are potent stimulants of the nervous system. Drugs in this class have no generally accepted medical use in the racehorse and their pharmacological potential for altering the performance of a race is very high.

49.2.b. Class 2. Drugs in this category have a high potential for affecting the outcome of a race. Most are not generally accepted as therapeutic agents in the racehorse. Many are products intended to alter consciousness or the psychic state of humans, and have no approved or indicated use in the horse. Some, such as injectable local anesthetics, have legitimate use in equine medicine, but should not be found in a racehorse. The following groups of drugs are in this class:

49.2.b.1. Opiate partial agonists, or agonist-antagonists;

49.2.b.2. Non-opiate psychotropic drugs, which may have stimulant, depressant, analgesic or neuroleptic effects;

49.2.b.3. Miscellaneous drugs which might have a stimulant effect on the central nervous system (CNS);

49.2.b.4. Drugs with prominent CNS depressant action;

49.2.b.5. Antidepressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects;

49.2.b.6. Muscle blocking drugs which have a direct neuromuscular blocking action;

49.2.b.7. Local anesthetics which have a reasonable potential for use as nerve blocking agents (except procaine); and

49.2.b.8. Snake venoms and other biologic substances, which may be used as nerve blocking agents.

49.2.c. Class 3. Drugs in this class may or may not have an accepted therapeutic use in the horse. Many are drugs that affect the cardiovascular, pulmonary and autonomic nervous systems. They all have the potential of affecting the performance of a racehorse. The following groups of drugs are in this class:

49.2.c.1. Drugs affecting the autonomic nervous system which do not have prominent CNS effects, but which do have prominent cardiovascular or respiratory system effects (bronchodilators are included in this class);

49.2.c.2. A local anesthetic which has nerve blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anesthetic effect of the drug (procaine);

49.2.c.3. Miscellaneous drugs with mild sedative action, such as the sleep inducing antihistamines;

49.2.c.4. Primary vasodilating/hypotensive agents;

49.2.c.5. Potent diuretics affecting renal function and body fluid composition; and

49.2.c.6. Anabolic and/or androgenic steroids and other drugs.

49.2.d. Class 4. This category is comprised primarily of therapeutic medications routinely used in racehorses. These may influence performance, but generally have a more limited ability to do so. Groups of drugs assigned to this category include the following:

49.2.d.1. Non-opiate drugs which have a mild central analgesic effect;

49.2.d.2. Drugs affecting the autonomic nervous system which do not have prominent CNS, cardiovascular or respiratory effects;

49.2.d.3. Drugs used solely as topical vasoconstrictors or decongestants;

49.2.d.4. Drugs used as gastrointestinal antispasmodics;

49.2.d.5. Drugs used to void the urinary bladder;

49.2.d.6. Drugs with a major effect on CNS vasculature or smooth muscle of visceral organs;

49.2.d.7. Antihistamines which do not have a significant CNS depressant effect (This does not include H1 blocking agents, which are listed in Class 5);

49.2.d.8. Mineralocorticoid drugs;

49.2.d.9. Skeletal muscle relaxants;

49.2.d.10. Anti-inflammatory drugs -- those that may reduce pain as a consequence of their anti-inflammatory actions, which include:

49.2.d.10.A. Non-Steroidal Anti-Inflammatory Drugs (NSAIDs);

49.2.d.10.B. Corticosteroids (glucocorticoids); and

49.2.d.10.C. Miscellaneous anti-inflammatory agents.

49.2.d.11. Less potent diuretics;

49.2.d.12. Cardiac glycosides and antiarrhythmics including:

49.2.d.12.A. Cardiac glycosides;

49.2.d.12.B. Antiarrhythmic agents (exclusive of lidocaine, bretylium and propranolol); and

49.2.d.12.C. Miscellaneous cardiotonic drugs.

49.2.d.13. Topical Anesthetics -- agents not available in injectable formulations;

49.2.d.14. Antidiarrheal agents; and

49.2.d.15. Miscellaneous drugs including:

49.2.d.15.A. Expectorants with little or no other pharmacologic action;

49.2.d.15.B. Stomachics; and

49.2.d.15.C. Mucolytic agents.

49.2.e. Class 5. Drugs in this category are therapeutic medications for which concentration limits have been established as well as certain miscellaneous agents. Included specifically are agents, which have very localized action only, such as anti-ulcer drugs and certain anti-allergenic drugs. The anticoagulant drugs are also included.

49.3. Penalties. The following provisions apply to penalties for violations of this medication and prohibited substance rule:

49.3.a. Upon a finding that an occupational permit holder is in violation of this medication and prohibited substance rule, the stewards or the Racing Commission may, in their discretion, issue a reprimand or warning, assess a fine, require forfeiture or redistribution of a purse or award, place a permit holder on probation, suspend a permit or racing privileges, revoke a permit, exclude the permit holder from grounds under the jurisdiction of the Racing Commission, or impose any combination of these penalties.

49.3.b. In issuing penalties against individuals found guilty of medication and drug violations a regulatory distinction shall be made between the detection of therapeutic medications used routinely to treat racehorses and those drugs that have no reason to be found at any concentration in the test sample on race day.

49.3.c. The stewards or the Racing Commission shall use the Racing Medication and Testing Consortium's (RMTC) penalty category (designated by the letters "A", "B", "C" and "D" as shown on the Uniform Classification Guidelines for Foreign Substances as promulgated by the Association of Racing Commissioners International (RCI) (revised December 2011 2012), set forth in table 178-1D at the end of this rule and the penalty guidelines set forth in table 178-1E at the end of this rule as a starting place in the penalty stage of the deliberations for a rule violation for any drug listed in the Uniform Classification Guidelines for Foreign Substances as promulgated by the Association of Racing Commissioners International (RCI) (revised December 2011 2012), set forth in table 178-1D at the end of this rule.

49.3.d. The penalty guidelines for those drugs designated a penalty category of "A", "B" or "C" are set forth in table 178-1E at the end of this rule. The recommended penalty for a violation involving a drug that carries a category "D" penalty is a written warning to the trainer and/or owner. Multiple violations may result in fines and/or suspensions.

49.3.e. If a practicing veterinarian is administering or prescribing a drug not listed in the Uniform Classification Guidelines for Foreign Substances as promulgated by the Association of Racing Commissioners International (RCI) (revised December 2011 2012), set forth in table 178-1D at the end of this rule, the identity of the drug shall be forwarded to a Racing Commission veterinarian(s) to be forwarded to the Racing Medication and Testing Consortium (RMTC) for classification.

49.3.f. In the event that any drug or metabolite thereof is found to be present in a pre- or post-race sample and the drug or metabolite is not classified in the Uniform Classification Guidelines for Foreign Substances as promulgated by the Association of Racing Commissioners International (RCI) (revised December 2011 2012), set forth in table 178-1D at the end of this rule, the Racing Commission shall cause the sample to be sent to the Racing Medication and Testing Consortium (RMTC) for a determination of the appropriate classification and penalty category. Upon a determination of classification and penalty category, the trainer and owner shall be subject to the appropriate penalties as set forth in table 178-1E at the end of this rule.

49.3.g. Any Racing Commission permit holder, including practicing veterinarians, found to be responsible for the improper or intentional administration of any drug resulting in a positive test may, after proper notice and hearing, be subject to the same penalties set forth in table 178-1E at the end of this rule for trainers holding occupational permits.

49.3.h. The owner, veterinarian or any other party holding an occupational permit involved in a positive laboratory finding shall be notified in writing of the hearing and any resulting action. In addition, their presence may be required at any and all hearings relative to the case.

49.3.i. Any practicing veterinarian found to be involved in the administration of any Class 1 drug may be referred to the West Virginia Board of Veterinary Medicine for consideration of disciplinary action against the veterinarian's license to practice in the state of West Virginia. This is in addition to any penalties issued by the stewards or the Racing Commission against the practicing veterinarian's occupational permit.

49.3.j. Any person who the stewards or the Racing Commission believe may have committed acts in violation of criminal statutes may be referred to the appropriate law enforcement agency.

49.3.k. Administrative action taken by the stewards or the Racing Commission in no way prohibits a prosecution for criminal acts committed, nor does a potential criminal prosecution stall administrative action by the stewards or the Commission.

49.3.l. Procedures shall be established by the stewards to ensure that a trainer holding an occupational permit is not able to benefit financially during the period for which he or she has been suspended. This includes, but is not limited to, ensuring that horses are not transferred to family members holding occupational permits.

49.4. Medication Restrictions. The following provisions apply to medication restrictions:

49.4.a. A finding by a Racing Commission approved laboratory of a prohibited drug, chemical or other substance in a test specimen of a horse is prima facie evidence that the prohibited drug, chemical or other substance was administered to the horse and, in the case of a post-race test, was present in the horse's body while it was participating in a race. Prohibited substances include:

49.4.a.1. Drugs or medications for which no acceptable threshold concentration has been established;

49.4.a.2. Controlled Therapeutic medications in excess of established threshold concentrations as set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 1.0, contained in table 178-1F at the end of this rule;

49.4.a.3. Substances present in the horse in excess of concentrations at which such substances could occur naturally; and

49.4.a.4. Substances foreign to a horse at concentrations that cause interference with testing procedures.

49.4.b. Except as otherwise provided by this rule, a person may not administer or cause to be administered by any means to a horse a prohibited drug, medication, chemical or other substance, including any restricted medication pursuant to this rule during the twenty-four (24) hour period before post time for the race in which the horse is entered.

49.4.c. The pre-race treatment guidelines for the controlled therapeutic medications set forth in the Association of Racing Commissioners International Controlled Therapeutic Medication Schedule, Version 1.0, contained in table 178-1F at the end of this rule, are recommendations based upon current scientific knowledge and are specific to the dosing specifications listed therein. Adherence to the pre-race treatment guidelines does not relieve or lessen a trainer's responsibilities under subdivision 51.1.a. of this rule. Provided that, a trainer or other permit holder may present evidence of compliance with these guidelines to the stewards and/or the Racing Commission as a mitigating factor to be weighed in determining penalties for medication rule violations.

49.5. Medical Labeling. The following provisions apply to medical labeling:

49.5.a. No person on association grounds where horses are lodged or kept, excluding practicing veterinarians, shall have in or upon association grounds which that person occupies or has the right to occupy, or in that person's personal property or effects or vehicle in that person's care, custody or control, a drug, medication, chemical, foreign substance or other substance that is prohibited in a horse on a race day unless the product is labeled in accordance with this subsection.

49.5.b. Any drug or medication which is used or kept on association grounds and which, by federal or state law, requires a prescription must have been validly prescribed by a duly licensed veterinarian, and in compliance with the applicable state statutes. All such allowable medications must have a prescription label which is securely attached and clearly ascribed to show the following:

49.5.b.1. The name of the product;

49.5.b.2. The name, address and telephone number of the veterinarian prescribing or dispensing the product;

49.5.b.3. The name of each patient (horse) for whom the product is intended/prescribed;

49.5.b.4. The dose, dosage, duration of treatment and expiration date of the prescribed/dispensed product; and

49.5.b.5. The name of the person (trainer) to whom the product was dispensed.

49.6. Non-Steroidal Anti-Inflammatory Drugs (NSAIDs). The following provisions apply to NSAIDs:

49.6.a. The use of one (1) of three (3) approved NSAIDs shall be permitted under the following conditions:

49.6.a.1. Not to exceed the following permitted serum or plasma threshold concentrations which are consistent with administration by a single intravenous injection at least twenty-four (24) hours before post time for the race in which the horse is entered:

49.6.a.1.A. Phenylbutazone (or its metabolite oxyphenylbutazone) -- 2 micrograms per milliliter;

49.6.a.1.B. Flunixin -- 20 nanograms per milliliter;

49.6.a.1.C. Ketoprofen -- 10 nanograms per milliliter.

49.6.a.2. These or any other NSAID are prohibited to be administered within twenty-four (24) hours before post time for the race in which the horse is entered.

49.6.a.3. The presence of more than one (1) of the three (3) approved NSAIDs, with the exception of phenylbutazone in a concentration below 0.5 microgram per milliliter of serum or plasma or any unapproved NSAID in the post-race serum or plasma sample is not permitted. The use of all but one (1) of the approved NSAIDs shall be discontinued at least forty-eight (48) hours before post time for the race in which the horse is entered.

49.6.b. Any horse to which a NSAID has been administered shall be subject to having a blood and/or urine sample(s) taken at the direction of a Racing Commission veterinarian or the stewards to determine the quantitative NSAID level(s) and/or the presence of other drugs which may be present in the blood or urine sample(s).

49.7. Furosemide (Lasix®). The following provisions apply to furosemide (lasix®):

49.7.a. The administration of furosemide (lasix®) to a horse is permissible if:

49.7.a.1. The administration is recommended by a practicing veterinarian holding an occupational permit issued by the Racing Commission;

49.7.a.2. The recommendation is submitted to a Racing Commission veterinarian in writing; and

49.7.a.3. The trainer declares the use of furosemide (lasix®) at the time of entry.

49.7.b. Furosemide (Lasix®) shall only be administered on association grounds.

49.7.c. Furosemide (Lasix®) shall be the only authorized bleeder medication.

49.7.d. A Racing Commission veterinarian is responsible for maintaining up-to-date records of horses which are permitted to use furosemide (lasix®), and these records shall be available for inspection during the hours of operation of the racetrack.

49.7.e. Race day administration of furosemide (lasix®) ~~is~~ shall be permitted as follows:

49.7.e.1. A horse scheduled to race that is permitted to use furosemide (lasix®) shall be administered furosemide (lasix®) by a veterinarian employed by the owner or trainer and holding a permit issued by the Racing Commission before the running of the race, unless, under subdivision 49.7.i. of this rule,

the horse has been declared off of furosemide (lasix®) by its owner or trainer. The furosemide (lasix®) must be administered a minimum of four (4) hours before the scheduled post time for the race in which the horse is entered and must be administered under the supervision of a person employed by the Racing Commission.

49.7.e.2. As indicated by post-race quantitation, a horse may not carry in its body at the time of the running of a race more than 100 nanograms of furosemide (lasix®) per milliliter of plasma. The practicing veterinarian must deposit with a Racing Commission veterinarian an unopened and labeled supply of furosemide (lasix®) and sterile hypodermic needles and syringes to be used for the administration.

49.7.e.3. A trainer is responsible for ensuring that the horse is available at the appropriate time for its treatment.

49.7.e.4. The trainer is responsible for ensuring that a practicing veterinarian holding a permit issued by the Racing Commission has agreed to administer furosemide at the designated time.

49.7.e.5. A trainer or his or her designee shall be responsible for the guarding, condition, care, and handling of the horse at all times and the trainer or his or her designee shall be present to handle the horse and serve as a witness to the furosemide (lasix®) administration.

49.7.e.6. If the trainer or his or her designee is not present and the administration time has passed, no furosemide (lasix®) shall be administered and the stewards shall order the horse scratched.

49.7.e.7. The dose administered shall not exceed 500 mg, nor be less than 150 mg.

49.7.e.8. Furosemide shall be administered by a single, intravenous injection.

49.7.e.9. After treatment, the horse shall be required to remain in its stall in the care, custody and control of its trainer or the trainer's designee under general association and/or Commission security supervision until called to the saddling paddock.

49.7.e.10. Test results must show a detectable concentration of furosemide (lasix®) in the post-race serum, plasma or urine sample.

49.7.f. The practicing veterinarian who administers furosemide (lasix®) to a horse scheduled to race shall prepare a written certification indicating that furosemide (lasix®) was administered:

49.7.g. The written certification set forth in subdivision 49.7.f. of this rule shall be in the possession of a designated Commission representative at least one (1) hour before the horse is scheduled to race. Test results must show a detectable concentration of the drug in the post-race serum, plasma or urine sample:

49.7.h. The stewards shall order a horse scratched if the written certification set forth in subdivision 49.7.f. is not received in a timely manner.

49.7.i. 49.7.f. The following provisions apply to racing off of furosemide (lasix®):

49.7.i.1. 49.7.f.1. A horse on the furosemide (lasix®) program that races without furosemide (lasix®) in any jurisdiction which permits the use of furosemide (lasix®), may become re-eligible for the administration of furosemide (lasix®) if the horse has been observed to have bled by a Racing Commission veterinarian either:

~~49.7.i.1.A.~~ 49.7.f.1.A. Externally; or

~~49.7.i.1.B.~~ 49.7.f.1.B. By endoscopic examination.

~~49.7.j.~~ 49.7.g. The following provisions apply to program notice requirements for horses on furosemide (lasix®):

~~49.7.j.1.~~ 49.7.g.1. Of the horses scheduled to race, the official program shall denote the horses which have been administered:

~~49.7.j.1.A.~~ 49.7.g.1.A. Furosemide (lasix®); and

~~49.7.j.1.B.~~ 49.7.g.1.B. Furosemide (lasix®) for the first time.

~~49.7.j.2.~~ 49.7.g.2. If the official program contains past performance lines, each past performance line shall indicate if the horse was administered furosemide (lasix®).

49.8. Bleeder List. The following provisions apply to the bleeder list:

49.8.a. A list of all horses which have demonstrated external evidence of exercise induced pulmonary hemorrhage from one or both nostrils during or after a race or workout shall be maintained by the Racing Commission veterinarian(s) and the list shall be published in the association's racing secretary's office.

49.8.b. A first time bleeder shall be placed on the bleeder list and remain on the list for a minimum of ten (10) calendar days. A second time bleeder within a twelve (12) month period shall be placed on the bleeder list and remain on the list for a minimum of forty-five (45) calendar days. A bleeder in these categories is automatically released from the list after the expiration of these time periods. A horse that bleeds three (3) times within a twelve (12) month period shall be barred from further racing in West Virginia for a period of one (1) year.

~~49.9. Anti-Ulcer Medications. The following anti-ulcer medications are permitted to be administered, at the stated dosage, up to twenty-four (24) hours prior to the race in which the horse is entered:~~

~~49.9.a. Cimetidine (Tagamet®) -- 8-20 mg/kg PO BID-TID;~~

~~49.9.b. Omeprazole (Gastrogard®) -- 2.2 grams PO SID; and~~

~~49.9.c. Ranitidine (Zantac®) -- 8 mg/kg PO BID.~~

49.9. Procaine Penicillin. The administration of procaine penicillin to a horse must be reported to a Racing Commission Veterinarian at a time and on a form prescribed by the Racing Commission. If a horse entered to run in a race has been administered procaine penicillin, it shall be required to be under surveillance for a minimum of six (6) hours prior to post time at a designated area on association grounds. The owner of the horse shall be responsible for all expenses related to such surveillance.

49.10. Environmental Contaminants and Substances of Human Use. The following provisions apply to environmental contaminants and substances of human use:

49.10.a. It is recognized that there are substances that can be environmental contaminants in that they are endogenous to the horse or that they can arise from plants traditionally grazed or harvested as equine feed or are present in equine feed because of contamination during the cultivation, processing,

treatment, storage or transportation phases. It is also recognized that there are drugs of human use and addiction and which could be found in the horse due to its close association with humans. Therefore, if an owner/trainer wishes to contest a positive test by presenting a defense that the test is the result of environmental contamination or inadvertent exposure due to human drug use, he or she must prove such defense by a preponderance of evidence presented in a hearing. If an owner/trainer proves such defense by a preponderance of evidence, it may be considered as a mitigating factor in any disciplinary action taken against the affected owner/trainer.

49.10.b. Although caffeine may be found in a horse due to environmental contamination/inadvertent exposure, no sample or specimen shall exceed the level of 100 nanograms per milliliter of serum or plasma when tested post race.

49.11. Androgenic-Anabolic Steroids (AAS). The following provisions apply to androgenic-anabolic steroids (AAS):

49.11.a. No AAS shall be permitted in test samples collected from racing horses except for residues of the major metabolite of stanozolol, nandrolone, and the naturally occurring substances boldenone and testosterone at concentrations less than the indicated thresholds.

49.11.b. Concentrations of these AAS shall not exceed the following threshold concentrations for total (*i.e.*, free drug or metabolite and drug or metabolite liberated from its conjugates):

49.11.b.1. In urine:

49.11.b.1.A. 16 β -hydroxystanozolol (metabolite of stanozolol (Winstrol))
-- 1 ng/ml in urine for all horses regardless of sex;

49.11.b.1.B. Boldenone (Equipoise® is the undecylenate ester of boldenone)
in male horses other than geldings -- 15 ng/ml in urine. No boldenone shall be permitted in geldings or female horses;

49.11.b.1.C. Nandrolone (Durabolin® is the phenylpropionate ester and Deca-Durabolin® is the decanoate ester):

49.11.b.1.C.1. In geldings -- 1 ng/ml in urine;

49.11.b.1.C.2. In fillies and mares -- 1 ng/ml in urine.

49.11.b.1.D. Testosterone:

49.11.b.1.D.1. In geldings -- 20 ng/ml in urine;

49.11.b.1.D.2. In fillies and mares -- 55 ng/ml in urine;

49.11.b.2. In plasma:

49.11.b.2.A. Stanozolol -- Screening limit no greater than 100 pg/ml in serum or plasma with a confirmatory threshold no greater than 25 pg/ml for all horses regardless of sex;

49.11.b.2.B. Boldenone -- Screening limit no greater than 100 pg/ml in serum or plasma with a confirmatory threshold no greater than 25 pg/ml for all horses regardless of sex;

49.11.b.2.C. Nandrolone -- Screening limit no greater than 100 pg/ml in serum or plasma with a confirmatory threshold no greater than 25 pg/ml for geldings and fillies and mares. Male horses other than geldings will not be tested;

49.11.b.2.D. Testosterone:

49.11.b.2.D.1. In geldings -- Screening limit no greater than 100 pg/ml in serum or plasma with a confirmatory threshold no greater than 25 pg/ml;

49.11.b.2.D.2. In fillies and mares -- Screening limit no greater than 100 pg/ml in serum or plasma with a confirmatory threshold no greater than 25 pg/ml;

49.11.b.2.D.3. In male horses other than geldings -- Confirmatory threshold no greater than 2,000 pg/ml.

49.11.c. Any other anabolic steroids are prohibited in racing horses.

49.11.d. If a test on a horse exceeds the above-referenced thresholds for Boldenone, Nandrolone or Testosterone and the owner/trainer of the horse desires to have further testing to determine whether or not there is reliable proof that the amount found in the horse is naturally occurring, the owner/trainer may request that such testing be undertaken and the owner shall bear the costs of the additional testing.

49.11.e. Post-race urine and blood samples must have the sex of the horse identified to the laboratory.

49.11.f. Any horse to which an anabolic steroid has been administered in order to assist in the recovery from illness or injury may be placed on the veterinarian's list in order to monitor the concentration of the drug or metabolite in urine. After the concentration has fallen below the designated threshold for the administered AAS, the horse is eligible to be removed from the list.

49.12. Alkalinizing Substances. The use of agents that elevate the horse's TCO₂ or base excess level above those existing naturally in the untreated horse at normal physiological concentrations is prohibited. The following levels also apply to blood gas analysis:

49.12.a. The regulatory threshold for TCO₂ in non-furosemide (lasix®) treated horses is 37.0 millimoles per liter of plasma/serum or a base excess level of 10.0 millimoles;

49.12.b. The regulatory threshold for TCO₂ in furosemide (lasix®) treated horses is 39.0 millimoles per liter of plasma/serum or a base excess level of 12.0 millimoles; and

The stewards may retain the sample.

50.3.r. No action shall be taken by the stewards on the report of ~~an official chemist~~ the primary testing laboratory unless and until the medication or drug has been properly identified along with the identity of the horse from which the specimen was taken; nor until such time as an official report ~~signed by the chemist~~ issued by the primary testing authority has been received by the chief steward at the appropriate racetrack.

Preamble to the Uniform Classification Guidelines of Foreign Substances

The Preamble to the Uniform Classification Guidelines was approved by the RCI Drug Testing and Quality Assurance Program Committee (now the Drug Testing Standards and Practices Program Committee) on August 26, 1991. Minor revisions to the Preamble were made by the Drug Classification Subcommittee (now the Veterinary Pharmacologists Subcommittee) on September 3, 1991.

"The Uniform Classification Guidelines printed on the following pages are intended to assist stewards, hearing officers and racing commissioners in evaluating the seriousness of alleged violations of medication and prohibited substance rules in racing jurisdictions. Practicing equine veterinarians, state veterinarians, and equine pharmacologists are available and should be consulted to explain the pharmacological effects of the drugs listed in each class prior to any decisions with respect to penalties to be imposed. The ranking of drugs is based on their pharmacology, their ability to influence the outcome of a race, whether or not they have legitimate therapeutic uses in the racing horse, or other evidence that they may be used improperly. These classes of drugs are intended only as guidelines and should be employed only to assist persons adjudicating facts and opinions in understanding the seriousness of the alleged offenses. The facts of each case are always different and there may be mitigating circumstances which should always be considered. These drug classifications will be reviewed frequently and new drugs will be added when appropriate."

Notes Regarding Classification Guidelines

- Where the use of a drug is specifically permitted by a jurisdiction, then the jurisdiction's rule supersedes these penalty guidelines.
- Regulators should be aware that a laboratory report may identify a drug only by the name of its metabolite. The metabolite might not be listed here, but the parent compound may be.
- These classes of drugs are intended only as guidelines and should be employed only to assist persons adjudicating facts and opinions in understanding the seriousness of the alleged offenses.
- The facts of each case are different and there may be mitigating circumstances that should be considered.
- These drug classifications will be reviewed periodically. New drugs will be added or some drugs may be reclassified when appropriate.
- Found substances or drugs not included in these guidelines should be treated as Class 1 violations warranting a Class A penalty unless otherwise advised by consultation with Racing Commissioners International (RCI) and/or the Racing Medication and Testing Consortium (RMTTC).

Classification Criteria

The RCI Drug Classification Scheme is based on 1) pharmacology, 2) drug use patterns, and 3) the appropriateness of a drug for use in the racing horse. Categorization is decided using the following general guidelines:

- **Pharmacology.** Drugs that are known to be potent stimulants or depressants are placed in higher classes, while those that have (or would be expected to have) little effect on the outcome of a race are placed in lower classes.
- **Drug Use Patterns.** Some consideration is given to placement of drugs based on practical experience with their use and the nature of positive tests. For example, procaine positives have in the past been associated primarily with the administration of procaine penicillin, and this has been taken into consideration in the placement of procaine into Class 3 instead of Class 2 with other injectable local anesthetics.
- **Appropriateness of Drug Use.** Drugs that clearly are intended for use in equine therapeutics are placed in lower classes. Drugs that clearly are not intended for use in the horse are placed in higher classes, particularly if they might affect the outcome of a race. Drugs that are recognized as legitimately useful in equine therapeutics but could affect the outcome of a race are placed in the middle or higher classes.

The list includes most drugs that have been reported as detected by racing authority laboratories in the United States, Canada, the United Kingdom and other Association of Official Racing Chemists (AORC) laboratories, but does not include those which would seem to have no effect on the performance of the horse or drug detectability. For example, it does not include antibiotics, sulfonamides, vitamins, anthelmintics, or pangamic acid, all of which have been reported.

The list contains many drugs that have never been reported as detected. Usually, these are representatives of chemical classes that have the potential for producing an effect, and in many cases, for which at least one drug in that chemical class has been reported.

Most drugs have numerous effects, and each was judged on an individual basis. There are instances where there is a rather fine distinction between drugs in one category and those in the next. This is a reflection of a nearly continuous spectrum of effects from the most innocuous drug on the list to the drug that is the most offensive.

Classification Definitions

- **Class 1:** Stimulant and depressant drugs that have the highest potential to affect performance and that have no generally accepted medical use in the racing horse. Many of these agents are Drug Enforcement Agency (DEA) schedule II substances. These include the following drugs and their metabolites: Opiates, opium derivatives, synthetic opioids and psychoactive drugs, amphetamines and amphetamine-like drugs as well as related drugs, including but not limited to apomorphine, nikethamide, mazindol, pemoline, and pentylenetetrazol. Though not used as therapeutic agents, all DEA Schedule 1 agents are included in Class 1 because they are potent stimulant or depressant substances with psychotropic and often habituating actions.
- **Class 2:** Drugs that have a high potential to affect performance, but less of a potential than drugs in Class 1. These drugs are 1) not generally accepted as therapeutic agents in racing horses, or 2) they are therapeutic agents that have a high potential for abuse. Drugs in this class include: psychotropic drugs, certain nervous system and cardiovascular system stimulants, depressants, and neuromuscular blocking agents. Injectable local anesthetics are included in this class because of their high potential for abuse as nerve blocking agents.
- **Class 3:** Drugs that may or may not have generally accepted medical use in the racing horse, but the pharmacology of which suggests less potential to affect performance than drugs in Class 2. Drugs in this class include bronchodilators, anabolic steroids and other drugs with primary effects on the autonomic nervous system, procaine, antihistamines with sedative properties and the high-ceiling diuretics.
- **Class 4:** This class includes therapeutic medications that would be expected to have less potential to affect performance than those in Class 3. Drugs in this class includes less potent diuretics; corticosteroids; antihistamines and skeletal muscle relaxants without prominent central nervous system (CNS) effects; expectorants and mucolytics; hemostatics; cardiac glycosides and anti-arrhythmics; topical anesthetics; antidiarrheals and mild analgesics. This class also includes the non-steroidal anti-inflammatory drugs (NSAIDs), at concentrations greater than established limits.
- **Class 5:** This class includes those therapeutic medications for which concentration limits have been established by the racing jurisdictions as well as certain miscellaneous agents and other medications as determined by the regulatory bodies. Included specifically are agents that have very localized actions only, such as anti-ulcer drugs, and certain anti-allergic drugs. The anticoagulant drugs are also included.

- **Prohibited Practices:**

- A) The possession and/or use of a drug, substance or medication, specified below, on the premises of a facility under the jurisdiction of the regulatory body for which a recognized analytical method has not been developed to detect and confirm the administration of such substance; or the use of which may endanger the health and welfare of the horse or endanger the safety of the rider or driver; or the use of which may adversely affect the integrity of racing:
 - 1) Erythropoietin
 - 2) Darbepoietin
 - 3) Oxyglobin
 - 4) Hemopure
- B) The possession and/or use of a drug, substance, or medication on the premises of a facility under the jurisdiction of the regulatory body that has not been approved by the United States Food and Drug Administration (FDA) for use in the United States.
- C) The practice, administration, or application of a treatment, procedure, therapy or method identified below, which is performed on the premises of a facility under jurisdiction of a regulatory body and which may endanger the health and welfare of the horse or endanger the safety of the rider or driver, or the use of which may adversely affect the integrity of racing:

Drug Classification Scheme

- **Class 1:** Opiates, opium derivatives, synthetic opioids, psychoactive drugs, amphetamines, and all DEA Schedule I substances (see <http://www.usdoj.gov/dea/pubs/scheduling.html>), and many DEA Schedule II drugs. Also found in this class are drugs that are potent stimulants of the CNS. Drugs in this class have no generally accepted medical use in the racing horse and their pharmacologic potential for altering the performance of a racing horse is very high.
- **Class 2:** Drugs placed in this category have a high potential for affecting the outcome of a race. Most are not generally accepted as therapeutic agents in the racing horse. Many are products intended to alter consciousness or the psychic state of humans, and have no approved or indicated use in the horse. Some, such as injectable local anesthetics, have legitimate use in equine medicine, but should not be found in a racing horse. The following groups of drugs are placed in this class:
 - A. Opiate partial agonists, or agonist-antagonists.
 - B. Non-opiate psychotropic drugs. These drugs may have stimulant, depressant, analgesic or neuroleptic effects.
 - C. Miscellaneous drugs, which might have a stimulant effect on the CNS.
 - D. Drugs with prominent CNS depressant action.
 - E. Anti-depressant and antipsychotic drugs, with or without prominent CNS stimulatory or depressant effects.
 - F. Muscle blocking drugs - those that have a direct neuromuscular blocking action.
 - G. Local anesthetics that have a reasonable potential for use as nerve-blocking agents (except procaine).
 - H. Snake venoms and other biologic substances that may be used as nerve-blocking agents.
- **Class 3:** Drugs placed in this class may or may not have an accepted therapeutic use in the horse. Many are drugs that affect the cardiovascular, pulmonary and autonomic nervous systems. They all have the potential of affecting the performance of a racing horse. The following groups of drugs are placed in this class:
 - A. Drugs affecting the autonomic nervous system that do not have prominent CNS effects, but which do have prominent cardiovascular or respiratory system effects. Bronchodilators are included in this class.
 - B. A local anesthetic that has nerve-blocking potential but also has a high potential for producing urine residue levels from a method of use not related to the anesthetic effect of the drug (procaine).
 - C. Miscellaneous drugs with mild sedative action, such as the sleep-inducing antihistamines.
 - D. Primary vasodilating/hypotensive agents.
 - E. Potent diuretics affecting renal function and body fluid composition.
 - F. Anabolic and/or androgenic steroids and other drugs.

- **Class 4:** Drugs in this category comprise primarily therapeutic medications routinely used in racehorses. These may influence performance, but generally have a more limited ability to do so. Groups of drugs assigned to this category include the following:
 - A. Non-opiate drugs that have a mild central antipyretic effect.
 - B. Drugs affecting the autonomic nervous system that do not have prominent CNS, cardiovascular, or respiratory effects:
 1. Drugs used solely as topical vasoconstrictors or decongestants.
 2. Drugs used as gastrointestinal antispasmodics.
 3. Drugs used to void the urinary bladder.
 4. Drugs with a major effect on CNS vasculature or smooth muscle of visceral organs.
 - C. Antihistamines that do not have a significant CNS depressant effect. This does not include the H2 blocking agents, which are in Class 5.
 - D. Mineralocorticoid drugs.
 - E. Skeletal muscle relaxants.
 - F. Anti-inflammatory drugs. These drugs may reduce pain as a consequence of their anti-inflammatory action.
 1. Non-steroidal anti-inflammatory drugs (NSAIDs). (Aspirin-like drugs).
 2. Corticosteroids (glucocorticoids).
 3. Miscellaneous anti-inflammatory agents.
 - G. Less potent diuretics.
 - H. Cardiac glycosides and antiarrhythmic agents.
 1. Cardiac glycosides.
 2. Antiarrhythmic agents (exclusive of lidocaine, bretylium, and propranolol).
 3. Miscellaneous cardiotonic drugs.
 - I. Topical Anesthetics - agents not available in injectable formulations.
 - J. Antidiarrheal drugs.
 - K. Miscellaneous drugs:
 1. Expectorants with little or no other pharmacologic action.
 2. Stomachics.
 3. Mucolytic agents.
- **Class 5:** Drugs in this category are therapeutic medications for which concentration limits have been established by the racing jurisdictions as well as certain miscellaneous agents. Included specifically are agents that have very localized actions only, such as anti-ulcer drugs, and certain antiallergic drugs. The anticoagulant drugs are also included.

Non-Classified Substances

Substances that are considered to have no effect on the physiology of a racing animal except to improve nutrition or treat or prevent infections or parasite infestations, are not classified. These Substances normally include antimicrobials, antiparasitic drugs, and nutrients such as vitamins. Examples of such substances include the following: Sulfonamides and trimethoprim Antibiotics: - Penicillins - Cephalosporins - Chloramphenicol - Aminoglycosides - Tetractckubes - Nitrofurans - Metronidazole Anthelmintics: - Avermectins - Benzimidazoles - Piperazines - Pyrantel - Tetramisole Antifungals Vitamins: - A, D, E, K, B vitamins - Vitamin C Bufotenine 1. It is not commercially available in any form.	2. It is a metabolite of 3-methyl-N-N dimethyltryptamine, found in reed canary grass (and potentially other food source plants). It may be found in the urine of horses eating this grass (and potentially other plant foods), and has been reported as a positive finding. Findings of bufotenine in equine urine should not be considered for regulatory action.

RE: Public Comments - Proposed 2014 Thoroughbred Rules of Racing
Jockey's Agent - 178-1-29. (29.1b)

Dear Mr. Amores,

I would like you to explain why a Jockey's Agent spouse can not own and run a thoroughbred. In 2002, we purchased a small farm in Jefferson County. We also purchased West Virginia Accredited Thoroughbreds and spent thousands of dollars getting them ready for the races. When my husband went from being a trainer to an agent everything ceased because of rule 178-1-29.-29.1b

Rule 178-1-29.29.1b states "A jockey agent may not hold an occupational permit in any other capacity as long as he or she holds an agent's occupational permit, unless the stewards approve the additional occupational permit. A jockey agent or his or her spouse shall not be the owner or trainer of any race horse nor shall he or she have any interest in the ownership of a horse".

However, an Owner/Trainer whose spouse is a jockey can own and run a horse. According to 178-1-28.28.5 the rules states "A jockey shall not compete or ride in any race against a horse which is owned, trained or ridden by the jockey's spouse. If a conflict arises between a jockey and the jockey's spouse as to who shall compete or ride in a race and no agreement can be reached as to which of them shall compete or ride, the stewards shall draw lots to resolve the conflict".

Why can't this rule for the Jockey's Spouse apply to a Jockey's Agent and/or Spouse? In the Ontario Canada Rules of Racing it states under Chapter 10, Engagement of Riders, Employees and Jockey's Agent under 10.12: No horse owned by a Jockey's Agent or their spouse shall race in a race where another horse is ridden by a jockey whose book is held by that Agent or their spouse. So, the Agent must ride his/her own rider, and if the agent has two riders, then his/her other rider can't ride in the same race.

I would like the commission to consider this change to the West Virginia Thoroughbred Rules of Racing so I may continue my racing livelihood in West Virginia. For your convenience I've attached a copy of the 2012 Ontario Canada Rules of Racing.

Thank you for your time and consideration,

9.27.08 Violation of any of the provisions in Rule 9.27.05 to 9.27.07 may result in any of the following penalties:

- a) Fine;
- b) Suspension;
- c) Placement;
- d) Disqualification; and/or
- e) Any other penalty as ordered.

Further particulars in respect to the penalties are provided in Policy Directive 4 - 2009, which also provides principles which serve as a guide for interpretation. The directive may be modified from time to time by the Commission.

9.28 Jockeys shall not wear spurs.

Chapter 10

ENGAGEMENT OF RIDERS, EMPLOYEES AND JOCKEYS' AGENTS

10.01 Each jockey shall have only one agent. All engagements to ride made prior to the drawing of entries for that specific race, other than those for his/her contract employer, shall be made by their agent. However, a jockey not represented by an agent may make their own engagements. In an emergency, an owner or trainer, when directed by the Stewards, shall book the services of a jockey by negotiating with him/her personally.

10.02 It is the responsibility of the jockey's agent to be present at the time of drawing of any program in which any of their jockeys have engagements to ride. If, in the event of mitigating circumstances, the agent is unable to be present, he/she must be represented by another licensed individual authorized by the agent to act on their behalf.

10.03 No jockeys' agent shall act at the same time for more than two jockeys and one apprentice jockey.

10.04 No jockeys' agent shall make or assist in making any engagement for any rider other than those he/she represents.

10.05 Jockey Agents shall not be allowed in the saddling area, the paddock or winners' circle without the permission of the Stewards.

10.06 Jockey agents shall not communicate in any way with any jockey from the time the jockey leaves the jockey room before a race until the jockey has returned to the jockey room after the race.

10.07 Before a jockey agent's application for a licence is approved by the Commission such jockey agent shall file with the Stewards a complete list of the jockeys for whom he/she acts as a jockey agent.

10.08 Should any jockey agent cease to be an agent for any jockey, such jockey agent shall promptly notify the Stewards accordingly.

10.09 Should any jockey wish to change his/her jockey agent, he/she shall promptly notify the Stewards accordingly.

10.10 Should any jockey agent cease to be an agent for their last jockey, he/she

shall within seven days after ceasing to be an agent for any jockey, either become an agent for another jockey or deliver their licence to the Stewards for delivery to the Commission.

10.11 No applicant for a jockey agent's licence shall be eligible for licensing unless their past experience in thoroughbred racing is acceptable to the board of Stewards or Director, or the applicant has successfully completed an examination held by the board of Stewards.

10.12 No horse owned by a Jockey's Agent or their spouse shall race in any race where another horse is ridden by a jockey whose book is held by that Agent or their spouse.

10.13 An agent, or a jockey acting on his/her behalf, may accept engagements to ride at more than one track in the Province of Ontario for any given race date.

FROM PADDOCK TO FINISH

See also Chapter 17- The Starter.

11.01 A trainer shall have their horse in the paddock at the time appointed. The trainer or their Assistant Trainer shall also attend the horse in the paddock, and be present to supervise its saddling, unless he/she has obtained permission of a Steward to send another trainer as a substitute.

11.02.01 The Stewards may permit a horse to be excused from parading with the other horses and be led to the post, but such horse shall nevertheless pass the Stewards' stand on its way to the post.

11.02.02 Lead ponies and their riders shall be permitted to enter the saddling paddock or walking ring only with the permission of the Stewards.

11.03 After the horses enter the racing strip, no jockey shall dismount and no horse shall be entitled to the care of an attendant without consent of the Stewards or the starter and the horse must be free of all hands other than those of the jockey or assistant starter before the starter releases the doors of the gate.

11.04 In case of accident to a jockey or to their mount or equipment, the Stewards or the starter may permit the jockey to dismount and the horse to be cared for during the delay, and may permit all jockeys to dismount and all horses to be attended during the delay.

11.05.01 If a jockey is so injured on the way to the post as to require another jockey, the horse may be taken to the paddock, another jockey obtained, and then ridden over any uncompleted portion of the exact route of the parade to the starting point. Provided the horse has carried the jockey throughout the route of the post parade, the starter may, if necessary, load the horse with the rider dismounted.

Subject: Public Comment

Mr. Chairman and Commissioners,

I would like to express concern with the amendment to authorize the stewards and the Racing Commission to discipline a permit holder who makes a bad faith complaint against another permit holder or a racing official. Allowing the Racing Commission or the stewards to determine the intent of the permit holder submitting the complaint is subjective and unenforceable, and will surely open this body up to appeals and lawsuits. By allowing such unilateral power to the Racing Commission and/or the stewards, the proposed amendment may actually deter valid complaints, as the permit holder may fear punishment due to the subjective nature of the rule. This seems to be counter to the Racing Commission's mission. This rule may very well discourage people from filing complaints that could potentially improve the sport. A goal of our racing governing body should be to instill confidence in the betting public by taking actions that show a dedication to making sure that racing taking place in West Virginia is done properly and ethically. I can certainly understand that there may be complaints that are filed with malice. However, I am concerned that a well-meaning permit holder may file a complaint on a matter that he or she truly believes to be an issue, only to face punishment because the complaint is deemed unfounded as no rules were being broken or impeded. If the intent is to protect our sport from petty, ill-intended complaints, a proposed resolution may be to make all complaints open and visible to the public and set an operating procedure in place that outlines the steps taken from receipt of the complaint until a ruling has been made on the complaint, with each step documented within the public record. I truly believe unfounded complaints would be reduced if the process were to be made public on the Racing Commission website, with visible standard processing procedures. If you have any questions, please feel free to contact me @ johndkirby@yahoo.com <<mailto:johndkirby@yahoo.com>> or (703) 477-9518.

Sincerely,
John D. Kirby

Executive Director

Dear Jon Amores;

We support the proposed amendments to 178 CSR 1 of the West Virginia Racing Commission (WVRC) that were published for comment in their entirety at

<http://www.racing.wv.gov/SiteCollectionDocuments/Rules/178CSR1%2006192013%20S.pdf> on June 19, 2012 and include among others:

- The adoption and incorporation into the rule of the "Racing Commissioners International (RCI) Controlled Therapeutic Medication Schedule-Version 1.0."
- The adoption of an amendment that would clarify that the administration guidelines for the medications contained in the afore-mentioned schedule are recommended, and that, ultimately, the post-race test result for a horse is the determining factor in the imposition of medication penalties
- The adoption of an amendment to authorize the commission to require the reporting of the administration of procaine penicillin to a horse.
- Updates to Table D of the rule, the Uniform Classification Guidelines for Foreign Substances, published by RCI, to incorporate changes made by RCI after the last enactment of West Virginia's rule. The adoption of amendments to the rule pertaining to the administration of furosemide (lasix®) to horses on race day. The amendments would require that there be commission oversight with regard to the administration of this anti-bleeder medication on race day.
- The adoption of amendments to the rule to update the list of blood-doping agents that are prohibited on the racetrack to make West Virginia's rule consistent with the current RCI Model Rule.
- Amendments to require that the West Virginia Racing Commission's primary testing laboratory for testing of specimens taken from horses and split sample testing laboratories be accredited by the Racing Medication & Testing Consortium (RMTC).

RESPONSE TO THE COMMENTS THOROUGHBRED RACING 178 CSR 1

The Commission received comments upon the Thoroughbred Racing Rule, 178 CSR 1, that was out for comment during the period June 19, 2013 to July 19, 2013. One of the comments had multiple signatories to it.

BACKGROUND

The proposed amendments to the Thoroughbred Racing Rule that precipitated the undertaking of a public comment period are part of the evolution of the Thoroughbred Racing Rule that began in late 2009. A total re-write of the Thoroughbred Racing Rule was undertaken by the Commission and passed by the Legislature in 2011. The re-write was necessitated by years of neglect which resulted in a rule that was not current with industry standards. This neglect pre-dated the tenure of the current Commissioners.

Industry standards, particularly with regard to the regulation of medications and foreign substances in thoroughbred racehorses, have been changing at a rapid pace as new science and integrity measures have emerged. In order to keep pace with these emerging standards, regular periodic reviews of the rule are necessary. It is against this backdrop that the Commission proposed amendments that were adopted by the Legislature during the 2013 legislative rule-making cycle and that the Commission now proposes these amendments for the 2014 legislative rule-making cycle.

In addition, a major precipitating factor in the proposed amendments for 2014 is the Commission's participation in the Mid-Atlantic Racing Regulators' group to achieve uniform rules with regard to the regulation of medications in racing. Given the significant number of racing starts concentrated in the Mid-Atlantic region and the mobility of horsemen from track to track in different states, uniformity in the region is desirable. In addition, the medication regulations espoused by the regulators in the Mid-Atlantic region are important to the integrity of racing. The Mid-Atlantic states that are participating in the group are Virginia, West Virginia, Delaware, Maryland, New Jersey, New York, and Pennsylvania.

As it did with previous efforts to address the upkeep of the rule, the Commission convened a constituent committee which was made up of representatives from the following organizations: The Charles Town Horsemen's Benevolent and Protective Association, the Mountaineer Horsemen's Benevolent and Protective Association, Charles Town Racetrack, Mountaineer Racetrack, two of the Commission's Stewards from Charles Town and Mountaineer, and two State veterinarians, one from Charles Town and one from Mountaineer.

As a result of the committee's deliberations, recommendations for rule amendments were made to the Commission at its May 21, 2013 public meeting in Charleston. At that time, the Commission voted to put several amendments to the rule out for public comment. After receiving Secretary Jason Pizatella's signature, the rule was put out for a public comment beginning on June 19, 2013 and ending on July 19, 2013.

HORSE OWNERSHIP/TRAINERSHIP FOR JOCKEYS' AGENTS AND THEIR SPOUSES

The Commission received one comment from the spouse of a jockeys' agent requesting that the rule which prohibits her from owning and training a horse on the racetrack at the same time that her husband holds a jockeys' agent permit be amended. The rule upon which she comments is not one that is proposed for amendment or change in this rule-making effort. The rule in question has been in the rule, as it is, for several years. This rule was not discussed or analyzed by the Commission's constituent committee that convened this year. The Commission has not had adequate time to thoroughly analyze the viability of a rule amendment which would allow the spouse of a jockeys' agent to own/train racehorses. Therefore, the Commission believes that this issue should be left to future rule-making efforts so that it may have the benefit of the review of its constituent committee.

BAD FAITH COMPLAINTS

The Commission received one comment expressing concern over a proposed amendment to the rule which would allow the Stewards or the Racing Commission to punish a permit holder if it is determined that he or she has made a bad faith complaint against another permit holder or a racing official. The commenting party indicates that he is concerned that this will be administered in such a way that those who file complaints in good faith, but that are found to be without merit, will be sanctioned. The intent of this rule is not to allow for the punishment of permit holders who file good faith complaints that are ultimately not found to be meritorious. Simply because a complaint does not result in the punishment of another permit holder does not mean that the Stewards or the Commission will consider the complaint to be bad faith. Therefore, the intent of the rule is not to stymie good faith complaints. The Commission believes that it and its Stewards are capable of making the appropriate judgment calls about whether a complaint is made in bad faith. In addition, it is contemplated that this rule will be invoked on what is hoped to be the rare occasion when a permit holder clearly abuses the Commission's process. Accordingly, the Commission believes that this proposed rule change should remain in the rule.

MEDICATION RULE AMENDMENTS

The Commission received one comment from the Jockey Club with multiple signatories in support of the various amendments that the Commission seeks to make to the rule. The Commission appreciates the support for these rule changes, which will bring the Commission into uniformity with the Mid-Atlantic racing states and will keep the Commission's rule current with the RCI Model Rule.

This fairly summarizes the major topics upon which comments were made to the West Virginia Racing Commission on the Thoroughbred Racing Rule, 178 W. Va. C.S.R. 1. The Commission considered and weighed all comments received. Moreover, the Commission appreciates all of those individuals and organizations who took the time and made the effort to comment on its Thoroughbred Racing Rule.
