 A: Accepted or Neutral

Date	Individual/Organization	Comments	Action/ Type	Rationale
June 5, 2014	Lisa Polen	<p>' 126-CSR89 Minimum Requirements for Design and Equipment of School Buses (Manual) "I believe that special needs buses need to have air conditioning. Especially since we are starting earlier in the summer when it is hot. Several of the students can have seizures when it is too warm inside the bus and the windows blowing on them does not adequately do the job."</p>	NA+	<p>At this time, air conditioning on school buses is not a requirement, but is an option based on the county's ability to fund the installation of an air conditioning system. Consideration for a/c on special needs school buses as a requirement will be considered as funding becomes available in the future.</p>
