§2-1-1. General.

1.1. Scope. -- This Rule interprets and implements W. Va. Code §30-12-1, et seq., establishing the Board, and conferring upon it responsibility for registration of architects and the regulation of the practice of architecture.

1.2. Authority. -- W. Va. Code §§30-12-1, 30-12-3 and 30-1-7a.

1.3. Filing Date. --

1.4. Effective Date. --

§2-1-2. Definitions.

2.1. Terms Defined by Statute -- Terms defined in W. Va. Code §30-12-2 have the same meanings when used in this rule unless the context or subject matter clearly requires a different interpretation.

2.2. Terms Defined -- As used in this rule, the following terms have the following meanings unless the context or subject matter clearly requires a different interpretation:

2.2.1. Applicant -- An individual who has submitted an application for initial registration or registration renewal to the Board.

2.2.2. A.R.E. -- the current Architect Registration Examination prepared by NCARB.

2.2.3. "Certificate," "license" or "registration" means the certificate of registration issued by the board to registered architects pursuant to W. Va. Code §30-12-1 et seq.

2.2.4. Division -- A unit of the A.R.E. that tests the applicant's knowledge of a certain

subject area.

2.2.5. EESA -- Education Evaluation Services for Architects, a program administered by Educational Credential Evaluators, Inc., a private organization not affiliated with NCARB or any of its member boards.

2.2.6. Examination -- The current Architect Registration Examination (A.R.E.), as accepted by the Board.

2.2.7. "Felony" means a felony related to the fitness of an architect to practice architecture, including those crimes that have dishonesty as a fundamental and necessary element. Felonies that, upon conviction, constitute grounds for disciplinary action by the Board include, but are not limited to:

2.2.7.a False swearing or perjury in a court proceeding related to the applicant's practice of architecture;

2.2.7.b. Felonies involving theft, bribery, embezzlement, forgery, falsification or destruction of records, fraud, or misrepresentation; and

2.2.7.c. Any other felony offense demonstrating a lack of business integrity or business honesty.

2.2.8. IDP -- Intern Development Program.

2.2.9. IDP Applicant -- An individual who has completed the IDP training requirements set forth in subsection 5.2 of this rule and who has submitted an application for registration to the Board.

2.2.10. Individually Planned Educational Activities -- Educational activities in which the teaching methodology primarily consists of the architect himself or herself addressing Public Protection Subjects which are not systematically presented by others, including reading or writing articles on those subjects, studying or researching building types, designs or building systems, rendering services to the public, advancing the profession's and the public's understanding of the practice of architecture and other similar subjects.

2.2.11. NAAB -- The National Architectural Accrediting Board.

2.2.12. NCARB -- The National Council of Architectural Registration Boards.

2.2.14. Professional Development Unit -- One continuous instructional hour spent in either Structured Educational Activities or Individually Planned Educational Activities intended to increase the architect's knowledge and competence in Public Protection Subjects and Related Practice Subjects. If the vendor of the Structured Educational Activities prescribes a customary time for completion of an Activity, then the prescribed time shall, unless the Board finds the time to be unreasonable, be accepted as the architect's time for Professional Development Unit purposes irrespective of the actual time spent on the Activity.

2.2.15. "Professional negligence" means negligence demonstrating a wanton indifference to the interests of the public that caused, or that had a substantial likelihood of causing, serious harm to the public. A civil judgment for malpractice in the practice of architecture is not conclusive proof that an architect is guilty of professional negligence sufficient to support the imposition of professional discipline.

2.2.16. Public Protection Subjects -- Technical and professional subjects which the

Board considers appropriate to safeguard directly the public's health, safety and welfare. The subjects include building design, environmental or land use analyses, life safety, architectural programming, site and soils analyses, accessibility, structural systems considerations, lateral forces, building codes, evaluation and selection of building systems, products or materials, construction methods, contract documentation, construction administration and other similar subjects.

2.2.17. The subjects include building cost analysis, construction contract negotiation, construction phase of office procedures, project management, review of state registration laws including rules of professional conduct, and other similar subjects.

2.2.18. Structured Educational Activities -- Educational activities in which the teaching methodology consists primarily of the systematic presentation of Public Protection Subjects or Related Practice Subjects by qualified individuals or organizations, including monographs, courses of study taught in person or by correspondence, organized lectures, presentations or workshops and other means through which identifiable technical and professional subjects are presented in a planned manner.

2.2.19. VU -- Value unit, used to calculate the hours of training earned by IDP applicants.

2.2.20. "Willful departure from accepted standards of professional conduct" means:

2.2.20.a. Default on obligations owed to the state in connection with the practice of architecture, including but not limited to obligations under the West Virginia workers' compensation act, the West Virginia unemployment compensation act, and West Virginia state tax and revenue laws;

2.2.20.b. Willful failure to substantially perform in accordance with the terms of a contract or subcontract;

2.2.20.c. Performance in violation of standards established by law or generally accepted standards for the practice of architecture amounting to intentionally deficient or grossly negligent performance on a contract;

2.2.20.d. Specification of substandard materials, or design defects amounting to intentionally deficient or grossly negligent performance; or

10.1. The Board may deny an application for registration; place a registered architect on probation; limit or restrict a registration; revoke, suspend or annul a registration issued by the Board; or impose a civil penalty on an architect in an amount not more than two thousand dollars for each violation, upon satisfactory proof that an applicant or architect has been convicted of a felony or is, in his or her professional capacity,
