AGENCY: WV State Board of Registration for Professional Engineers TITLE NUMBER: 7

CITE AUTHORITY: WV Code 29A-3-15(a) & 30-13-9 etc(General Authority), WV Code 30-13-18(e) (2015)(Specific Mandate)

AMENDMENT TO AN EXISTING RULE: YES NO

IF YES, SERIES NUMBER OF RULE BEING AMENDED: Series 1

TITLE OF RULE BEING AMENDED: Examination, Licensure and Practice of Professional Engineers

IF NO, SERIES NUMBER OF RULE BEING PROPOSED: _____

TITLE OF RULE BEING PROPOSED: _____

THE ABOVE PROPOSED LEGISLATIVE RULE HAVING GONE TO A PUBLIC HEARING OR A PUBLIC COMMENT PERIOD IS HEREBY APPROVED BY THE PROMULGATING AGENCY FOR FILING WITH THE SECRETARY OF STATE AND THE LEGISLATIVE RULE-MAKING REVIEW COMMITTEE FOR THEIR REVIEW.

Authorized Signature

The Legislature has determined there is a need to regulate the practice of engineering, including the licensure of professional engineers and the certification of engineer interns in order to protect the health, safety and welfare of the public. These statutory procedures were amended in both 2013 and 2015. To further the public interest of licensure and certification, the Board's rules need to adequately inform potential licensees of the procedures to be followed for examination, licensure and renewal.

In 2015, significant changes were enacted with regard to the renewal process (SB389, which was effective from passage). In order to implement the new provisions this renewal season, emergency rules were specifically required in WV Code 30-13-18(e). The 2015 amendment to WV Code 30-13-18 also requires reinstatement of any former registrant with a non-practicing status, which is also addressed as integral to the renewal process.

The submission also includes the changes necessitated by the 2013 legislation reflecting the national transition to computer-based testing. Portions of the 2004 rules can no longer be implemented and have been rendered archaic, null & void due to the changes at the national level. To have our legislative rules reflect prior enactments and outline procedures that are no longer available is both confusing and problematic. The legislative rules filed in December 2014 were scheduled for approval pending the statutory authorization related to reinstatement contained in SB389, but technical issues delayed the bill from becoming law. The 2004 Rules are impossible to effect. The irreconcilable differences between certain procedures outlined in the rules and the procedures actually available to persons seeking professional engineering licensure is a circumstance constituting an emergency requiring that emergency rules be promulgated.

The changes at the national level took effect January 1, 2014 and completely changed the application and examination process for applicants for engineer interns, a pre-requisite to future licensure. These processes are in effect, and there is no going back to the procedures set forth in the 2004 rules. It is in the public interest to have engineering students and graduates become certified as Engineer Interns (EIs), the FE exam is required both for EI certification and licensure as a Professional Engineer (PE), and the Board's rules need to adequately inform potential licensees of the new NCEES procedures for examination and licensure.

APPENDIX B

FISCAL NOTE FOR PROPOSED RULES

Rule Title: Examination, Licensure and Practice of Professional Engineers

Type of Rule: Legislative Interpretive Procedural

Agency: WV State Board of Registration for Professional Engineers

Address: 300 Capitol Street - Suite 910, Charleston, WV 25301

Phone Number: 304-558-3554 Email: lesley@wvpebd.org

Fiscal Note Summary

Summarize in a clear and concise manner what impact this measure will have on costs and revenues of state government.

Due to other provisions of law, the Board will be alternating PE and COA renewals to allow for revenue generation each year. The PEs and Retired PEs will renew in even years while firm COAs will renew in odd years. For this reason, there will be minimal financial impact as we are converting from annual renewal to biennial renewal. COA fees were simply doubled to account for the biennial renewal so there is no change in revenue collected over a two year period. However, due to cost savings authorization of electronic renewal notifications, thus minimizing paper notifications and licenses being mailed, the Board offered a \$10 reduction in PE renewals and a \$20 reduction in Retired PE renewals to offset the decrease in expenditures. Transitioning from a 90-day grace period to a one month grace period will result in minimal loss of late fees typically collected during Aug-Sept as savings will occur in preparation time and cost for additional notifications normally mailed during the previous extended timeframe.

Fiscal Note Detail

Show over-all effect in Item 1 and 2 and, in Item 3, give an explanation of Breakdown by fiscal year, including long-range effect.

FISCAL YEAR			
Effect of Proposal	Current Increase/Decrease (use "-")	Next Increase/Decrease (use "-")	Fiscal Year (Upon Full Implementation)
1. Estimated Total Cost	0.00	0.00	0.00
Personal Services	0.00	0.00	0.00
Current Expenses	0.00	0.00	0.00
Repairs & Alterations	0.00	0.00	0.00
Assets	0.00	0.00	0.00
Other	0.00	0.00	0.00
2. Estimated Total Revenues	0.00	0.00	0.00

Rule Title: Examination, Licensure and Practice of Professional Engineers

Rule Title: _____

3. **Explanation of above estimates (including long-range effect):**
Please include any increase or decrease in fees in your estimated total revenues.

Due to the SB389 which provides authorization for electronic notification of renewals, in addition to other cost saving measures such as new technology recently implemented by the agency to allow for licensees to print their own PE license wallet card or company COA certificate upon successful renewal completion via a secure web portal, there will be no financial impact. In fact, the Board has authorized a \$10 reduction in the 2-year renewal fee for PE licenses and a \$20 reduction in the 2-year renewal fee for Retired PEs to ensure no excess revenue. These fee reductions represent the savings in annual costs to have renewal notifications designed, mass printed, and mailed, in addition to the same for PE wallet card licenses and company COA certificates once licensees and firms successfully renew. This also takes into account the personal services and temporary employment costs involved.

The one possible, yet minimal, financial impact could be that one year revenue may be slightly higher (or lower) than the next year due to the differences in the number of renewing PE licenses and Retired PEs renewing in even years vs. the number of renewing firm COAs in odd years. However, current revenue projections for the current number of licensees shows a near even split, but the Board recognizes that number could shift from year to year depending on the number of PEs or firms that chose to maintain Active status vs. those that may elect to move to a non-practicing status.
