§126-44D-1. General.				
5/1/2016	Joe Hunt, Teacher, Delbarton, WV	I do not feel it is necessary to add a Comprehensive US History course to WV Social Studies. Teaching all of US History in one school calendar year is a daunting task, even in an AP class. I don't feel on level or below level students would get the depth of knowledge of US History if it was taught in one school calendar year.	N/o	This course gives students the flexibility to cover US History in one course instead of two. All students are required to take a Civics course which takes many aspects of US History to a deeper level. This policy allows counties to sequence the courses and provide options that best meet the needs of their students regarding US History.
5/16/2016	Michel Moffatt, Delegate, House of Delegates, Hurricane, WV	I think the feedback form does not allow flexibility. rnl also think that the adoption of a Civics test would be worth while.	N/o	Comments do not address the standards.
