4. Explanation of Overall Economic Impact of Proposed Rule.

A. Economic Impact on State Government.

NONE

B. Economic Impact on Political Subdivisions; Specific Industries;
Specific groups of citizens.

Permitting schools of barbering to offer permanent waving will economically benefit the schools by allowing them to compete for students on an equal basis with surrounding states and by providing increased employment opportunities for students. This benefit should offset the increased costs for an additional senior level instructor, probably in place of a student instructor, which might range as much as \$50-\$100 more per week.

C. Economic Impact on Citizens/Public at Large.

Permitting barbering schools to teach and barbers to give permanent waves will provide the consuming public with greater convenience, accessibility and healthy competition.
