STATEMENT AND CIRCUMSTANCES REQUIRING
PROPOSAL AND PROMULGATION OF PROPOSED EMERGENCY RULE CHANGE
TO SERIES 5 OF TITLE 162 OF THE WV CODE OF STATE REGULATIONS

The West Virginia Consolidated Public Retirement Board, as administrator of the West Virginia Public Employees Retirement System, adopted the July 1, 2008 Actuarial Valuation Report at its January 2009 Board meeting. Based upon this report, the Board's actuary recommended an increase from 10.5% to 11% effective July 1, 2009 in the employer contribution rate for the West Virginia Public Employees Retirement System. Such an increase is actuarially necessary to properly fund the Plan. Failure to properly fund the Plan would jeopardize future benefits for plan participants.

The West Virginia Consolidated Public Retirement Board, as administrator of the West Virginia State Police Retirement System, proposes an emergency amendatory revision to Title 162, Series 5, of the West Virginia Code of State Regulations. RE: PERS – Statement of Actuarial Need

Dear Ms Tennant,

The WVCPRB accepted the July 1, 2008 Actuarial Valuation Report for the Public Employees Retirement System ("PERS") at its meeting on January 21, 2009. The Report includes an adequacy test of expected contributions to PERS to the Actuarially Required Contribution ("ARC") under current funding policy. The adequacy test showed that the ARC would not be properly funded.

In response to the adequacy test results, The Board Actuary recommended an increase in the PERS employer contribution rate from 10.5% to 11.0%, effective July 1, 2009. The WVCPRB approved the increase.

As the Board Actuary, I hereby certify that the increase in contribution rate is actuarially necessary to properly fund the ARC requirement in PERS. Failure to properly fund the ARC would result in adverse consequences of:

1. PERS will not be properly funded and future PERS benefits would be put at risk.
2. GASB financial reporting would require an adverse footnote on the State of West Virginia's financial statements.

Respectfully,

FISCAL NOTE FOR PROPOSED RULES

Rule Title: Title 162 (Series 5) Public Employees Retirement System

Type of Rule: ☒ Legislative ☐ Interpretive ☐ Procedural

Agency: West Virginia Consolidated Public Retirement Board

Address: 4101 MacCorkle Ave. S.E.
Charleston, West Virginia 25304

Phone Number: (304) 558-3570 X 52465 Email: Harry.W.Mandel@WV.gov

Fiscal Note Summary

Summarize in a clear and concise manner what impact this measure will have on costs and revenues of state government.

The "Emergency Rule" provides for an increase in the employer contribution rate from 10.5% to 11.0% of pay. The increased rate is effective July 1, 2009. The increase applies to all members, both state agencies and local governmental entities participating in the PERS.

The increase in contribution rate for FY 2010 is expected to generate an increase in employer contributions to PERS of about \$5,100,000. The increase in contributions is necessary to fund the Actuarially Required Contribution for PERS. Membership in PERS includes both State employees and local government employees. It is estimated that the increase in contributions for State employers will be about \$3,400,000 with the remaining \$1,700,000 being paid by local governmental employers.

It is noted that this contribution increase is primarily necessary due to investment losses on PERS assets. Benefit provisions under PERS for active members have not been increased. Some increase in expected costs for current PERS provisions is recognized for military service credits expected due to Operation Noble Eagle. Certain retirees received a "one time" supplemental retirement payment in the form of a "13th check."

Fiscal Note Detail

Show over-all effect in Item 1 and 2 and, in Item 3, give an explanation of Breakdown by fiscal year, including long-range effect.

FISCAL YEAR			
Effect of Proposal	2009 Increase/Decrease (use "-")	2010 Increase/Decrease (use "-")	Fiscal Year (Upon Full Implementation)
1. Estimated Total Cost	\$ 0	\$ 3,400,000	\$3,400,000
Personal Services			
Current Expenses			
Repairs & Alterations			
Assets			
Equipment			
Other	\$ 0	\$ 3,400,000	\$ 3,400,000
2. Estimated Total Revenues			

Explanation of above estimates (including long-range effect):

Please include any increase or decrease in fees in your estimated total revenues.

An Actuarial Valuation for PERS was completed as of July 1, 2008 and approved by the WVCPRB at its meeting on January 21, 2009. Employer funding for the PERS is based on a set percent of pay contributed for all actively employed members. The Actuarial Valuation determines the financial soundness of the contribution percentage by comparing the expected contributions at the current employer contribution percentage to the Actuarially Required Contribution (ARC) determined under the current PERS funding policy and GASB guidelines. The Actuarial Valuation showed that the current 10.5% employer contribution rate is not sufficient to fund the ARC. The increased employer contribution rate of 11.0% of pay is projected to be sufficient to fund the ARC.

MEMORANDUM

Please identify any areas of vagueness, technical defects, reasons the proposed rule **would not** have a fiscal impact, and/or any special issues **not** captured elsewhere on this form.

The Emergency Rule does not modify benefits payable under PERS. The Rule provides increased employer funding to PERS to maintain proper funding of the ARC under current funding policy and GASB guidelines.

The primary cause of the need to increase the employer contribution rate is the experienced investment return for FY 2008 below the 7.5% actuarially assumed rate of return. Increases in expected military service credits for future PERS retirees and a one time "13th check" additional retirement payment to certain retirees contributed to the need for the increase.
