ATTACH A **BRIEF** SUMMARY OF YOUR PROPOSAL

## **Statement of Circumstance and Brief Summary**

This rule is designed to increase the academic and supervision requirements for West Virginia LPCs. It increases the core areas from eight to sixteen by making former electives within the rule mandatory requirements. It requires new applicants to pass a minimum of 60-semester hours of graduate level academic credit from a qualified institution. Furthermore, they must complete 3000 total hours of clinical and professional supervision before becoming fully licensed to practice independently.

Additionally, this rule requires current LPCs to meet an equivalent 60-semester hour requirement through the continuing education unit (CEU) system that is already used to maintain active licensure status (a minimum of 40 CEUs every two years). This rule uses the universally accepted formula of 15 CEUs is the equivalent of one academic credit hour to make up the difference between the graduate credits earned and the new requirement.

The Board will create a committee to review submissions of current LPCs as they acquire the necessary CEUs. Current LPCs will have until June 30, 2011 to fully meet this requirement.

This increase in requirements will place West Virginia's standards on par with those around the nation as well as all of our bordering states. It also ensures a uniform standard for all LPCs regardless of the time when he or she was initially licensed, which is in the best interest of the general public.

The rule now states that the applicant for LPC shall represent themselves as a "Counselor under Supervision".

Under accrediting bodies, the rule now reflects the Council on Rehabilitation Education (CORE) as an acceptable accrediting body.
