§126-14-1 General				
2018-04-20 14:43:00	Preston Modlin Principal Greenbrier County Ronceverte WV	I am concerned about the days spent testing. To give the summative test a few weeks after the CBA seems redundant for parents, staff, and students. The test itself appears to have some inconsistencies that will need to be addressed.

§126-14-3 Definitions				
2018-05-14 10:04:39	Dawn Dooley Director of Elementary/Assessment Fayette County Schools Fayetteville wv	There is not a definition for "Fixed Form" test. We used a fixed form test this year, and would like a definition for it in the policy. Like the change in 4.9 home-school students in regard that the WVDE will choose participation date of testing.

2018-05-14 10:35:03	Courtney Whitehead Director of Assessment Accountability and School C Monongalia County Schools Morgantown West	I appreciate that the language of this policy has been condensed and the specific assessment names removed. I believe that the removal of the 12th-grade retest option will allow for easier planning of test administration within our high schools.		
§126-14-5 Administration Regulations				
2018-04-	Preston Modlin	Matching TIDE to IEPs with the ACCM report is time intensive.
