§127-2-7 2 a 6 Prevent acquiring temporary residence in another school zone for athletic eligibility				
2018-06-25 13:50:50	John Mensore New Martinsville	I think that sitting out 365 days for a bonafide move is unnecessary. However there should be substantial evidence of what is a bonafide move. I am fully in support of making schools stay within their attendance zones or if the can operate in an attendance zone to not be expected to be treated the same as schools that do. For example on St. Joes website they claim they go after students from a tri state area. Also when Bishop Donahue closed WCC called it a unification and was setting up scholarships for Marshall County kids. Also offered Marshall County kids money to go to Central. If Your marketing and setting up scholarships for kids well outside your attendance zone you are not following in any way shape or form any attendance area. How about out of state transfers supposedly kids care coming to immediately start for WCC football team form Bellaire, and Martins Ferry. Do out of state transfers already in High School have to		

		<p>sit out 365? PLEASE ENFORCE AND STRENGTHEN YOUR POLICY.</p> <p>Doesn't seem right when a Marshall county private school closes they are allowed a free pass to another private school in another County. If a public school closed in one county they would not allow overtures from a public school in another county. There is no attendance area for private schools.</p>		
2018-06-26 09:55:46	Jennings Illar St. Mary's Wv	<p>There has to be something done so that the public schools aren't the only ones who have to adhere to "zones" while the private schools draw from multiple communities, schools, and even states. Allowing the private schools to draw from thousands of people versus the true small communities drawing from what they truly have is unfair, and the results show in the lopsided amount of championships won by the small number of private schools compared to the public. Make the private schools play in their own division, don't punish the true class A schools anymore.</p>		
2018-07-05 15:51:47	Charles Harrison Spring Dale WV	I feel students should be able to return to their home attendance area for one transfer without penalty.		
<p>§127-2-13 7 and 13 8 Allow students coming from another sport to practice 2 less days</p>				
2018-07-05 12:24:20	Rosie Saunders Ex-Officio Retiree AFT Marion Co local 6209 Fairmont West	<p>Agree...some families move their child to different locations just so that child can play in a particular sport...not fair to those students living in their home school area cause it allows the one moving in to replace one from the home school area.</p>
