SUMMARY OF THE CONTENT OF THE LEGISLATIVE RULE, AND A DETAILED DESCRIPTION OF THE RULE'S PURPOSE AND ALL PROPOSED CHANGES TO THE RULE:

The Legislature authorized DOH to establish its' own rules and policies regarding employee compensation. The State Personnel Board approved a new pay plan for DOH which allows employees in classified service to be compensated for hours actually worked after the accumulation of 40 hours for the work week, notwithstanding use of sick or annual leave during that time. This amendment incorporates the overtime policy into the rule.

STATEMENT OF CIRCUMSTANCES WHICH REQUIRE THE RULE:

The State Personnel Board approved this as part of the DOH Pay Plan Policy. The policy needs to be implemented before a flood event, other natural disaster or snow and ice removal become necessary. Without the rule, DOH will not be able to9 pay employees for the overtime they have actually worked.

SUMMARIZE IN A CLEAR AND CONCISE MANNER THE OVERALL ECONOMIC IMPACT OF THE PROPOSED LEGISLATIVE RULE:

A. ECONOMIC IMPACT ON REVENUES OF STATE GOVERNMENT:

This rule will not impact state revenues.

B. ECONOMIC IMPACT OF THE LEGISLATIVE RULE ON THE STATE OR ITS RESIDENTS:

This amendment will benefit the DOH employees who are called out to work in excess of their regularly scheduled work week. This will give the employees a little more money.

C. FISCAL NOTE DETAIL:

| Effect of Proposal | Fiscal Year | | |
|------------------------------------|----------------------------------------|----------------------------------------|----------------------------------------------|
| | 2018 Increase/Decrease (use "-") | 2019 Increase/Decrease (use "-") | Fiscal Year (Upon Full Implementation) |
| 1. Estimated Total Cost | | Approx. \$4,000,000 in 2019 | Approx. \$4,000,000 |
| Personal Services | | Approx. \$4,000,000 in 2019 | Approx. \$4,000,000 |
| Current Expenses | | | |
| Repairs and Alterations | | | |
| Assets | | | |
| Other | | | |
| 2. Estimated Total Revenues | | | |

D. EXPLANATION OF ABOVE ESTIMATES (INCLUDING LONG-RANGE EFFECT):

There will not be any effect on DOH's budget because DOH has been paying its employees for overtime actually worked regardless of whether the employee used sick or annual leave in the same week. Under the current Division of Personnel rule DOH would not be able to pay classified service employees who work overtime in the same work week they took annual or sick leave. The time would be credited back to the employee. Unfortunately, the employees lose the annual leave they have earned because the majority of overtime is worked at the end of the year so the employees aren't able to use it.

BY CHOOSING 'YES', I ATTEST THAT THE PREVIOUS STATEMENT IS TRUE AND CORRECT.

Yes

4.1.4. Classified employees of the division shall continue to be covered by the civil service system and may utilize any applicable public employee grievance process.

§157-12-5. Applications and Examinations.

5.1. The commissioner may establish an examination procedure, continue to utilize the services of the Division of Personnel, or utilize a combination of both for appointments to positions in the classified service. Any examination procedure so established shall be conducted on an open competitive basis. Any such procedure is intended to reveal the capacity of the applicant to perform the duties of the position or job class for which he or she is competing. The following provisions of this section apply if the division establishes its own examination procedures.

5.2. Any examinations established by the commissioner shall, to the extent possible, be developed on the basis of objective analysis of the job and consultation with appropriate job experts and may include:

written tests, performance tests, ratings of training and experience, or other assessment procedures related to the content of the job duties and job performance and will be administered without prejudice to all applicants in consideration for the position; and scoring and weighting procedures shall be consistently applied and based on objective job criteria.

5.3. When administering a division established examination procedure, the commissioner shall provide a public service announcement of open competitive examinations the division plans to administer at least fourteen (14) days in advance of the closing date for receipt of applications. Public service announcements may be restricted to the geographic locations where eligible applicants are needed. Public announcement of examinations shall specify the title and compensation range of the class of position, the duties to be performed, the minimum qualifications required, the final date on which applications will be accepted, and all other conditions of competition. The announcement shall also include any special minimum or substitute position qualification standards which will be used in evaluating applicants. The commissioner shall develop all announced qualifications for examination on the basis of information contained in class specifications, job descriptions, job analysis information or a combination thereof.

5.4. Filing Applications.

5.4.1. All applications shall be made on forms prescribed by the commissioner or the Division of Personnel and must be filed with the division or postmarked on or prior to the closing date specified in the announcement. The applications shall be completed in full and may require the inclusion of documents verifying pertinent education, training, licensure, eligibility for veterans' preference, or any other information which the commissioner may consider necessary. All applications shall be signed or affirmed by the applicant. The commissioner may require electronic completion and submission of applications. Electronic applications shall require the applicant's agreed affirmation prior to submission in place of applicant signature. For electronic applications, applicant affirmation agreement and the application submission shall be equivalent to affirmation and signature. The commissioner may verify any information provided on or with an application.

5.4.2. The commissioner may provide for continuous receipt of applications and for conducting examinations as needed.

5.5. Disqualification of Applicants.

5.5.1. The commissioner, in his or her sole discretion, may temporarily or permanently prohibit the reinstatement, appointment, temporary employment, promotion, reallocation, demotion, lateral class change, temporary upgrade, transfer, or examination of an applicant, or after examination, may disqualify the applicant or remove his or her name from a list or certification, or refuse to certify any eligible on a list if sufficient evidence reveals that:

5.5.1.a. he or she is found to lack any of the requirements established for the position or class;

5.5.1.b. he or she has been convicted of a crime which has a reasonable connection to the classification for which he or she is applying;

5.5.1.c. he or she has made a false statement or omission of material fact or has misrepresented his or her qualifications in his or her application;

5.5.1.d. he or she has previously been dismissed, or resigned in lieu of dismissal, from any public service for delinquency, misconduct, or other similar cause;

5.5.1.e. he or she has used or attempted to use political pressure or bribery to secure an advantage in the examination or appointment;

5.5.1.f. he or she has directly or indirectly obtained information regarding examinations to which he or she was not entitled;

5.5.1.g. he or she has failed to submit his or her application correctly or within the prescribed time limits;

5.5.1.h. he or she has taken part in the compilation, administration, or correction of the examination;

5.5.1.i. he or she has taken the same exact examination within the prescribed re-test waiting period;

5.5.1.j. he or she is not eligible to work in the United States;

5.5.1.k. he or she fails to comply with any other reasonable requirements established by the commissioner for the position;

5.5.1.l. if employed in the classification or position applied for, the applicant is a significant risk to the safety or security of information or persons;

5.5.1.m. he or she has otherwise violated provisions of this rule; or

5.5.1.n. the applicant may be disqualified under applicable law.

5.5.2. The Division of Personnel shall notify the commissioner of every person it has disqualified for state employment to assure that disqualified persons are not inadvertently appointed to division employment.

5.5.3. Applicants disqualified by the commissioner shall be notified of their disqualification. The commissioner shall also notify the Division of disqualifications.

5.5.4. Any applicant whose application for a Division of Highways examination has been rejected may request that the commissioner reconsider his or her qualifications. The commissioner shall consider the request if it is submitted in writing and received not later than 15 days following the date the rejection notice was sent. Within thirty (30) days after a properly submitted request for reconsideration is received, the commissioner shall report his or her decision in writing to the applicant. The commissioner shall determine that uniform rating or review procedures have been applied. A rating in any part of an examination shall not be changed unless the commissioner finds that an error has been made. Any correction resulting from the reconsideration shall not affect a certification or appointment that has already been made from a list.

5.6. Conduct of Examinations.

5.6.1. If written or other performance examinations are administered by the commissioner, they shall be conducted, to the extent possible, in as many places as are practicable for proper administration. The commissioner may have a continuous recruitment program as provided for in this rule. The

commissioner may designate monitors as necessary to conduct examinations under instructions prescribed by him or her.

5.6.2. Applicants taking competitive examinations shall present personal identification which includes a signature and photograph prior to admission to an examination. Applicants without proper identification shall not be admitted to examinations.

5.7. Scoring Examinations.

5.7.1. The commissioner shall determine a final score for each applicant's Division of Highways established examination. Failure in any part of an examination may disqualify the applicant in the entire examination and may disqualify him or her from participation in subsequent parts of the examination. All applicants for the same position shall be accorded uniform and equal treatment in all phases of the examination procedures.

5.7.2. Any veteran, as defined in Section 2 of this rule, who claims veterans' preference and who has made a passing grade in an open competitive examination shall have five (5) points added to his or her final earned score. An additional five (5) points shall be added to the augmented earned score of any veteran with a compensable service connected disability or who has been awarded the Purple Heart.

5.7.2.a. Any person claiming veterans' preference or service connected disability preference shall submit satisfactory proof of his or her service or disability to the commissioner. Veterans' preference points are not added to final passing scores on promotional examinations, if such exams are required.

5.7.2.b. To receive veterans' preference points, separation from active duty must have been under honorable conditions. This includes honorable and general discharges. A clemency discharge does not meet the requirement of this subsection. Active duty for training in the military reserve and national guard programs is not considered active duty for purposes of veteran preference.

5.7.3. The commissioner shall utilize appropriate professional standards, techniques and procedures in rating the results of examinations and in determining the final scores of competitors.

5.8. If evaluation of training and experience form a part of the total examination, the commissioner shall determine a procedure for the evaluation of the training and experience qualifications of the various applicants. The procedure and standards used in the evaluation shall be job-related and consistently applied to all applicants.

5.9. Each applicant passing all parts of the examination shall be notified of his or her final score as soon as practical after the scoring of the examination has been completed and the competitive list established. The commissioner shall notify an applicant who fails any part of the examination or the total examination.

5.10. The commissioner may modify examination procedures to afford reasonable accommodation to otherwise qualified disabled applicants. The modifications may include changes in the existing testing procedures or the use of specific evaluations of the applicants' observable job skills, the applicants' record of past performance, experience and training or a combination thereof.

5.11. If, within thirty (30) days after receipt of his or her score notice, an applicant notifies the commissioner of a manifest error in the scoring of an examination or other evaluation of the applicant's qualifications, the commissioner shall, after verification of the error, promptly correct that error. The

commissioner shall send formal written notice of the correction to the applicant. These corrections of errors shall not invalidate any certifications or appointments made prior to corrections of the errors.

5.12. The commissioner is responsible for the maintenance of all records pertinent to the examination program in accordance with official retention schedules and shall hold the records in confidence as specified in W. Va. Code §29B-1-1 *et seq.* and §5A-8-21 and §5A-8-22.

§157-12-6. Applicant lists and registers.

6.1. Establishment of competitive lists; use of registers.

6.1.1. After each examination created and administered by the division, the commissioner shall prepare a competitive list of persons with passing grades. The names of these persons shall be placed on the competitive list in the order of their final ratings starting with the highest.

6.1.2. After the layoff of permanent classified employees, the Division of Personnel prepares preference registers of qualified permanent classified employees who have been laid off. The commissioner shall request preference registers from the Division of Personnel for each vacant position to be filled by an outside candidate.

6.1.3. The Division of Personnel maintains competitive registers of eligible applicants for state employment. The commissioner may request and select applicants from competitive registers until such time as the commissioner has sufficient qualified applicants on the division's competitive list.

§157-12-7. Certification of Eligibles.

7.1. Certification Methods.

7.1.1. The commissioner shall request the appropriate preference register from the Division of Personnel for each vacant classified position to be filled by applicants outside the division. If there are no available qualified eligibles on the appropriate preference register, the commissioner may request a register. If the commissioner has established an examination procedure, the commissioner shall certify and submit to the organization seeking to fill a vacancy the names of persons meeting the minimum qualifications for the classification.

7.1.2. If the competitive list established as a result of the division's examination for a specific classification is exhausted, the commissioner may certify names from the lists that most closely meet the qualifications for the position.

7.1.3. Appointments may be made from a certified competitive list anytime within one year of the date of the certification, or such other timeframe determined by the commissioner to be adequate for the needs of the division.

7.1.4. If, in the exercise of its choice provided in this rule, the hiring organization, for good cause shown, passes over the name of an eligible applicant on a competitive list in connection with two (2) separate appointments it has made from the register competitive list, written request may be made to the commissioner that the name of the eligible be omitted from any subsequent list for the same position for a period of no less than one (1) year from the date of the request. If, after that one (1) year period, the eligible applicant is again certified for the same position, and passed over in connection with an appointment, the hiring organization may again request that the name of the eligible be omitted from any subsequent certification as stated in this subdivision.

7.1.5. An eligible applicant may be considered not available by the commissioner if he or she fails to reply to electronic communication [i.e., telephone or electronic mail] or a written inquiry by mail after five (5) business days to his or her last-known address.

7.1.6. If a specific position requires special qualifications that are not common to all positions in that class, the commissioner may limit, or require the Division of Personnel to limit, certification to candidates possessing those qualifications. Eligible applicants will be given adequate opportunity for special qualification consideration. The specific criteria for the restriction of certification shall be based on the duties of the position as verified by job analysis or by an official position description and written justification.

7.1.7. The commissioner may limit certification to candidates available to work at the location of the job. The commissioner may further limit certification geographically when the duties of the position require rapid response to unscheduled emergencies during off duty hours. The commissioner shall establish the boundaries of the acceptable geographic areas based on the specific location and demands of the job. The commissioner shall consider candidates living outside the boundary if they are willing to relocate to the area.

7.1.8. Except for preference certifications made by the Division of Personnel, the commissioner may determine, for certain unskilled or semiskilled job classes for which no previous education, training, or experience is required, that eligibles may be selected for certification by lot. In those cases, all eligibles shall have equal opportunity for certification. No rank order shall be established for the competitive list. Selection for certification by lot will be determined as vacancy requests are received. Once the certification has been made for a particular vacancy, a new certification shall not be issued for the same class and location for sixty (60) days.

7.2. Corrections of Errors.

7.2.1. In the event that a name is certified in error and the error is discovered before a personnel transaction has been finalized and one of the named applicants is notified that he or she is appointed, the commissioner shall withdraw the erroneous certification and make a correct certification. If a certification is to fill more than one position, the commissioner shall withdraw only that portion of it pertaining to positions for which personnel transactions have not been finalized and applicants have not been notified that they are appointed. Organizations shall only make conditional offers of employment to applicants until such time the personnel transaction to appoint has received all necessary approvals.

7.2.2. In the event a name is certified in error and the error is discovered after one of the named applicants is notified that he or she is appointed and the applicant is not disqualified for any of the reasons provided in this rule other than not meeting minimum qualifications, and the commissioner would not disapprove the appointment for other lawful reasons, the commissioner shall approve the appointment.

§157-12-8. Appointments.

8.1. Original Appointments.

8.1.1. The commissioner shall, for each position, select first from the eligibles on the preference register. Upon exhaustion of the preference register, the commissioner may select from the competitive list or may request a register from the Division of Personnel. The commissioner shall select from the top ten (10) names on the competitive list or register, including any persons scoring the same as the tenth name, or any persons scoring at or above the ninetieth percentile on the open competitive examination.

The commissioner may exclude the names of those eligibles who failed to answer or who declined appointment or of those eligibles to whom the hiring organization offers an objection in writing and the objection is sustained by the commissioner.

8.1.2. In selecting persons from among those certified, the hiring organization shall give due consideration, based on job related criteria, to all available eligibles and may examine their applications and reports of investigations and may interview them. Final selection shall be reported in writing by the organization to the commissioner and shall include a statement by the hiring organization certifying that the person charged with making the selection, complied with the requirements of this section; did not make the selection based on favoritism shown or patronage granted; and, considered all available eligibles for the position.

8.1.3. If the eligible selected declines the appointment, the hiring organization shall transmit evidence of declination to the commissioner for the permanent record. The commissioner may consider an eligible as having declined appointment if the eligible fails to reply to electronic communication [i.e., telephone or electronic mail] or a written inquiry by mail after five days. If an eligible accepts an appointment but fails to report for duty at the time and place specified, without giving reasons for the delay satisfactory to the hiring organization and the commissioner, he or she shall be considered to have declined the appointment.

8.2. Provisional Appointments.

8.2.1.
