WEST VIRGINIA PROCEDURAL RULES
WEST VIRGINIA BOARD OF REGENTS
CHAPTERS 18-24 and 18-26
SERIES II

POLICY BULLETIN NO. 63

TITLE: Medical Education Fee and Medical Student Loan Program

Section 1. General

1.1 These rules promulgate policy and procedure regarding the establishment of a Medical Education Fee and a Medical Student Loan Program.

1.2 Authority - West Virginia Code §18-24-1c and §18-26-29

1.3 Filing Date - March 13, 1989

1.4 Effective Date - May 12, 1989

Section 2. Purpose

2.1 The legislation addresses three policy issues: rising state cost of medical education, continued access to medical education by West Virginians who demonstrate financial need, and the geographic and specialty maldistribution of physicians. The purpose of the Medical Education Fee is twofold: first, to provide funds to offset general operating costs at each of the State's three medical schools, thereby reducing their required level of state support, and; second, to provide funding for the Loan Program. The Loan Program partially offsets the Medical Education Fee to assure continued access to medical school for qualified West Virginians who demonstrate financial need. The Loan Program also provides for certain loan forgiveness incentives to encourage physicians to practice in designated medically underserved areas or medical specialties.

Section 3. Medical Education Fee Adjustments

3.1 The Board of Regents is authorized to fix the fee rates for students at each institution and may from time to time change these rates. The Board envisions increasing the Medical Education Fee incrementally over a number of years until the tuition and fees approximate the median value for medical schools of the fourteen Southern Regional Education Board states.

Section 4. Medical Education Fee Collection and Disposition

4.1 All medical students enrolled for credit at the West Virginia University School of Medicine, Marshall University School of Medicine, and the West Virginia School of Osteopathic Medicine shall pay a Medical Education Fee, except those with authorized and approved Board of Regents' waivers pursuant to Section 18-24-3 of the West Virginia Code.

4.2 The Board of Regents (Board) shall annually, or at such other times as it may desire, fix the amount of the Medical Education Fee to be assessed resident and non-resident students at the State's medical schools. All such fees collected by an institution shall be deposited promptly in the State Treasury in the accounts designated for such purposes. Sixty-seven percent of the total fees collected at each institution shall be deposited by the institution in the Medical Education Fee Account at the institution (Account #86xx-12), to be used to offset general operating expenses of the medical school. The remaining thirty-three percent of fee receipts shall be transferred promptly to the Board's Medical Education Loan Fund (Account #8700-12). The Board is authorized to transfer to the Loan Fund an amount not to exceed thirty-three percent of the total collections from the Medical Education Fee in any one year. A lesser sum may be transferred; therefore, the Board may elect by separate action to change the rules and regulations to reduce the proportion of fees transferred to the Loan Fund in future years.

4.3 In addition to the fees collected above, the Board may deposit to the Loan Fund any appropriations provided by the Governor and Legislature for this purpose or any other amounts which may be made available for this purpose from external sources, including any interest earned on amounts in the Loan Fund prior to transfer to the institutions.

Policy Buleltin No. 63
WV Board of Regents
Procedural Rule, 18-24 and 18-26
Series II, Section 4

4.4 The Board shall annually allocate to the institutions all funds which have accumulated in the Board's Loan Fund for the previous year. This allocation shall be based upon each institution's proportionate share of Medical Education Fees collected and remitted during the preceding fiscal year. Funds so allocated will be transferred to each institution's General Loan Account in the State Treasury to be maintained in a separate sub-account therein. In addition to the Board's allocation, all other income generated by the institution for the purposes of this program, including principal and interest repayments, private gifts, interest income and the like, should be maintained in this separate sub-account.

4.5 Balances remaining in these fund accounts at the end of the fiscal year shall not expire or revert. Each medical school shall retain these remaining balances in the special revenue accounts established for each school in support of this program.

4.6 Refunds of the Medical Education Fee may be made in the same manner as any other fee collected at state institutions of higher education.

Section 5. Financial Management

5.1 Each institution shall maintain complete and accurate accounting records for all funds received and disbursed under the Medical Education Fee and Loan Program, and shall upon request make such records available to the Legislative Auditor or such other independent auditor as may be designated by the Board. Receipt and disbursement of funds shall be governed by all applicable state practices and procedures.

5.2 Each institution shall submit, on an annual basis, a report summarizing all receipts and disbursements from the Medical Education Fee and the Loan Program. This report will be in such format and contain such detail as the Board may prescribe, and shall be due no later than September 15th each year.

5.3 Before the first day of July of each year, the Board shall provide the Legislative Auditor with a report of the projected fee collections for each of the schools of medicine.

Section 6. The West Virginia Board of Regents Medical Student Loan Program and Fund

6.1 West Virginia Code 18-26-29 creates a Medical Student Loan Program to be administered by the Board. The purpose of this program is to provide loans to state residents who demonstrate financial need, meet academic standards and are enrolled or accepted for enrollment at West Virginia University School of Medicine, Marshall University School of Medicine, or the West Virginia School of Osteopathic Medicine.

6.2 Eligibility of Applicants - In order to be considered for this award, applicants must meet the following minimum requirements:

6.2.1 Full-time enrollment in an approved state medical school in a program leading to the degree of Medical Doctor (M.D.), or Doctor of Osteopathy (D.O.), providing that the individual has not yet received one of these degrees.

6.2.2 Applicant must be a resident of West Virginia as determined by the school in accordance with the Board policy regarding "Classification of Students for Admission and Fee Purposes."

6.2.3 Have demonstrated financial need as determined by the Financial Aid Office at the respective medical school.

6.2.4 Continuing students must remain in good academic standing and make satisfactory progress in keeping with the institutional policy for awarding Title IV financial aid funds.

6.2.5 Applicant is not in default of any previous student loan.

Section 7. Application Process

7.1 Students must apply to the institution in which the applicant is registered utilizing the school's standard application process. Typically, this will involve an institutional application and a financial statement. The institution may establish a deadline for applying for this student loan.

Section 8. Selection of Recipients

8.1 Recipients will be selected each year by institutional officials of the Financial Aid Offices at the three state medical schools, i.e., Marshall University, the West Virginia School of Osteopathic Medicine, and West Virginia University. The number of awards will be determined by the availability of funds in this program at each school in any given academic year. Awards will be processed without regard to age, sex, race, handicap, national origin, marital status, or religion.

Section 9. Loan Provisions and Agreement

9.1 Loans may be made and award amounts determined annually for each of the number of years required to complete the course of study. The student-borrower may apply for additional loans for each subsequent academic year of medical school and the fund may, but shall not be obligated to, make loans to a borrower for such academic year or years.

9.2 Each applicant, before being granted a loan, shall sign an award letter issued by the institution on behalf of the West Virginia Board of Regents Medical Student Loan Fund accepting the award. Each medical school may use its own award letter; however, such letters shall include the following common elements:

9.2.1 Budgeted cost of education

9.2.2 Expected family contribution (where applicable)

9.2.3 Other resources available to meet educational expenses

9.2.4 Financial need

9.2.5 Aid awarded reflecting academic periods in which it will be disbursed

9.2.6 An indication of unmet financial need

9.2.7 Any and all such loans shall be subject to the terms and conditions specified in a promissory note. For each loan received, the borrower will deliver a promissory note, payable to the Fund on or before the date any disbursement of loan funds is made, and bearing interest at the rate specified in the promissory note.

Section 10. Promissory Note

10.1 The promissory note shall be an open ended note. All subsequent release of funds at the same interest rate shall be recorded on this promissory note. A new promissory note shall be used for changes in the interest rate, payment date, and other changes deemed necessary or desirable by the Fund to comply with these regulations or with applicable law.

10.2 Renewal shall be granted only upon the borrower's application and providing that:

10.2.1 The borrower continues as a student in good standing.

10.2.2 The borrower remains a resident of West Virginia.

10.2.3 The borrower's financial circumstances warrant continuation under the standards established by the institution.

10.2.4 There are available funds sufficient to make the award.

10.3 Any student applying for a loan under this program must use his or her Social Security Number when submitting an application. The Social Security Number will be used to verify a student's identity, track applications, authorize loans, verify enrollment and good student status, and to track fund disbursement and loan repayment. A student who fails to provide a Social Security Number will not be eligible for a loan.

10.4 The maximum amount of the loan shall be restricted during the first several years of the program to assure satisfaction of the purposes of the Loan Program. Total dollars available will be limited and financial assistance should be programmed to support those students requiring assistance to offset the programmed increase in the Medical Education Fee. The maximum amount of an individual loan available per year shall be \$5,000.

Section 11. Loan Repayment

11.1 Recipient is allowed a maximum of ten years to repay the loan (principal and interest thereon) beginning one year after the borrower ceases to be a full-time student at a school of medicine eligible to participate in the Program. Periods of authorized deferment (approved additional medical training,

including internships, residencies, or fellowships, or required military service--not to exceed five years) are not included as part of the 10-year repayment period. However, the minimum payment shall be no less than \$50.00 per month.

11.2 The first payment shall be due and payable one (1) year following the date that the recipient ceases to be a full-time student at a school of medicine eligible to participate in the Medical Student Loan Program. Payments are not due for periods of deferment--approved medical training, including internship, residency or fellowship training, the total of which may not exceed five (5) years, unless the recipient abrogates the contract.

11.3 If the borrower discontinues the full-time study of medicine, loans made by this Fund together with accrued interest thereon shall be due and payable beginning sixty (60) days from the date of last enrollment.

11.4 There shall be no penalty for early repayment of the loan.

11.5 The rate of interest charged a loan recipient shall be at the rate of eight percent (8%) simple interest, and shall accrue from the beginning of the repayment period. Interest shall not accrue during periods of deferment--required military service or periods of approved medical training, including internship, residency or fellowship. The total number of years for post-graduate medical training may not exceed five (5) years.

11.6 No interest accrues on the loan during the time the recipient is in medical school, approved intern training, residency, fellowship or required military service, if such is reinstated.

11.7 In the event of the borrower's death, unpaid indebtedness remaining on the note (principal and interest) shall be cancelled.

Section 12. Loan Forgiveness Provisions

12.1 A loan recipient may receive cancellation and forgiveness of the outstanding principal and accumulated interest on the loan in return for the actual performance of full-time service in West Virginia as a Medical Doctor or Doctor of Osteopathy in an

Policy Bulletin No. 63
WV Board of Regents
Procedural Rule, 18-24 and 18-26
Series II, Section 12

approved designated medically underserved area or in an approved designated medical specialty in which there is a shortage of physicians.

12.2 The Board, in conjunction with the State Department of Health, shall determine qualifying medically underserved geographic areas and medical specialties in which there is a shortage of physicians. An approved listing of underserved areas and qualifying medical specialties shall be published and distributed to the financial aid officers of each participating state school of medicine. At the borrower's request, additional geographic areas may be considered by the Board and the State Health Department. Among the criteria are such factors as: locations where a physician currently in practice will retire creating a shortage or a population shift which will justify additional manpower.

12.3 To be eligible for loan forgiveness, the applicant must first apply for, on an annual basis, and receive Board approval for practice in a specific designated underserved area or designated medical specialty. Such approval shall include deferral of loan repayment during the period the practitioner is performing in service authorized for loan forgiveness. The practitioner must notify the lending institution of the date that such practice commences and terminates.

12.4 The borrower shall receive cancellation and forgiveness of the outstanding principal for sums not to exceed \$5,000 plus accumulated interest during each period of twelve (12) consecutive months of full-time practice. No forgiveness shall be granted for less than twelve (12) consecutive months of full-time practice.

12.5 An exit interview shall be required by the school at the time the borrower graduates or otherwise terminates enrollment. At that time, the borrower's rights and responsibilities under the Loan Fund will be discussed. Loan recipients shall be obligated during the period the loan is active to maintain a current address record with the Student Loan Office of the medical school which provided the loan.

12.6 It shall be the responsibility of the borrower to secure a current list of approved underserved areas and medical specialties at such time as deemed necessary and appropriate by the borrower. The current list may be obtained from the school Student Financial Aid Office or from the West Virginia Board of Regents.

Policy Bulletin No. 63
WV Board of Regents
Procedural Rule, 18-24 and 18-26
Series II, Section 13

Section 13. Evidence of Practice and Application for Loan Forgiveness

13.1 The borrower shall be eligible for loan forgiveness only upon application and upon acceptance of duly certified evidence of full-time medical or osteopathic practice in one of the designated areas or medical specialties.

13.2 To be eligible for loan forgiveness, the applicant must have Board approval for practice in a specific designated underserved area or designated medical specialty. In addition, the applicant must subsequently provide evidence to support the fact that full-time physician services were rendered. Such evidence shall be presented on a form provided by the Board for that purpose. The Board shall be the authority that grants loan forgiveness. The Board shall notify the appropriate lending institution of all loan forgiveness which is granted.

Section 14. Notification of Recipients and Disbursement of Funds

14.1 Approved medical schools shall be responsible for notifying students selected to receive loans and for ensuring that borrowers receive and complete both the loan award letter and the promissory note prior to disbursement of funds. Approved medical schools shall also be responsible for disbursement of any and all funds to students. Disbursements shall usually be made at the beginning of each semester in an amount equal to one-half of the annual award.
