**§135-1-3. Formula Elements.**

3.1. 3.2. Postsecondary elements. A CTE concentrator is a student enrolled in an eligible recipient who has 1) earned at least 12 credits within a CTE program or program of study; or 2) completed such a program if the program encompasses fewer than 12 credits or the equivalent in total.

3.3. Secondary elements. A CTE concentrator is a student served by an eligible recipient who has completed at least two courses in a single career and technical education program or program of study.

**§135-1-4. Formula Calculation.**

4.1. The Board and the Council collaborate for several activities and those funds will be taken out of Administration and Leadership funds as indicated below before the balance of funds are split based on the number of concentrators as reported in the CAR. After those shared funds are set aside, the Local Formula Funds, State Reserve, Leadership, and Administration funds will be split between the secondary and postsecondary systems based on the prior year enrollment as reported in the concentrators in the CAR.

4.1.1. Leadership - 10% to carry out State leadership activities. For the state leadership funds that are set aside for corrections, individuals with disabilities, non-traditional preparation, and recruitment of special populations the secondary and postsecondary state Perkins Directors will develop a joint strategy with impacted partners so that these leadership activities impact both the secondary and postsecondary systems. For the remaining balance of leadership funds, the state secondary/postsecondary split will be applied and each system will leverage their funds to address unique Perkins leadership needs in each system.

4.1.2. Administration - 5% for administration of the State plan. The state will have 2 shared positions: secondary CTE director (WVDE) and a postsecondary CTE director (CTCS). The salary and fringe for these positions will be drawn from the state administration fund pool. For the remaining balance of administration funds, the state secondary/postsecondary split will be applied, and each system will leverage their funds to address unique Perkins administration needs in each system.

**§135-1-5. Revision of Formula.**

5.1. The Council is to review the secondary/postsecondary split formula every three fiscal years to determine if changes are needed.

5.2. The Council may change the formula as needed to reflect changes in Federal or State Law.

5.3. Any revisions must be approved by the State Board of Education.
