SUMMARY OF THE CONTENT OF THE LEGISLATIVE RULE, AND A DETAILED DESCRIPTION OF THE RULE'S PURPOSE AND ALL PROPOSED CHANGES TO THE RULE:

The rule establishes and adopts standards of performance for new stationary sources promulgated by the U.S. EPA pursuant to § 111(b) of the federal Clean Air Act, as amended (CAA). This rule codifies general procedures and criteria to implement standards of performance for new stationary sources set forth in 40 C.F.R. Part 60. The rule adopts the federal standards by reference and adopts associated reference methods, performance specifications and other test methods which are appended to such standards. Any person who constructs, modifies, reconstructs, or operates an affected facility after the effective date of any NSPS under 40 C.F.R. Part 60 must comply with the applicable NSPS and this rule.

The purpose of this rule is to maintain consistency with current federal regulations and to fulfill West Virginia's obligations under the CAA and continue to be the primary enforcement authority for NSPS promulgated by the U.S. EPA under 40 C.F.R. Part 60.

Revisions to the rule incorporate by reference (IBR) the amendments to the NSPS promulgated by the U.S. EPA under 40 C.F.R. Part 60 as of June 1, 2021. The annual IBR update includes: (1) Fuels Regulatory Streamlining; (2) Kraft Pulp Mill Affected Sources for Which Construction, Reconstruction, or Modification Commenced After May 23, 2013; (3) Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Review; (4) Oil and Natural Gas Sector: Emission Standards for New, Reconstructed, and Modified Sources Reconsideration; (5) Test Methods and Performance Specifications for Air Emission Sources; (6) Test Methods and Performance Specifications for Air Emission Sources Corrections; and (7) Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced After July 23, 1984.

The effective date of the standards being incorporated was changed from June 1, 2020 to June 1, 2021 in the Incorporation by Reference subsection 1.6. The date the standards are being incorporated in the Adoption of Standards under subsection 4.1 was changed from June 1, 2020 to June 1, 2021.

STATEMENT OF CIRCUMSTANCES WHICH REQUIRE THE RULE:

This rule is exempt from the Regulatory Moratorium of Executive Order 2-18 under condition 3(g), updating state rules to comply with federal law requirements.

As set forth in 40 C.F.R. § 60.4(b), section 111(c) of the CAA directs the U.S. EPA Administrator to delegate to each State the authority to implement and enforce standards of performance for new stationary sources. Promulgation of this rule will enable West Virginia to continue to be the primary enforcement authority for the NSPS promulgated by the U.S. EPA. Revisions to this rule are necessary to maintain consistency with current federal regulations, and to fulfill West Virginia's responsibilities under the CAA. Upon authorization and promulgation, 45 C.S.R. 16 will be submitted to the U.S. EPA to fulfill federal obligations under the CAA, including delegations and authorizations.
