

78CSR28

TITLE 78
LEGISLATIVE RULES
DEPARTMENT OF HEALTH AND HUMAN RESOURCES

SERIES 28
DEEMED HEAD START CHILD CARE CENTER LICENSES
Comments Summary and Response

§ 78-28-1. General.

Comment Summary: I offer my support of Deemed Licensure for Head Start Centers. Head Start is tightly regulated and monitored, subject to the rules of the Head Start Act, Head Start Performance Standards, and the OMB Circulars governing the management of federal funds. Rules and reporting requirements are in place for every facet of the program, including child supervision, staff and volunteer background checks, curriculum, transportation, meal service, health screenings, playground specifications, safety drills and much more. Extensive monitoring and reporting protocols are in place. Deemed Licensure will reduce redundant administrative processes for Head Start programs, while maintaining safety standards.

Response: The agency appreciates this comment.

Hello --

I offer my support of Deemed Licensure for Head Start Centers.

Head Start is tightly regulated and monitored, subject to the rules of the Head Start Act, Head Start Performance Standards, and the OM Circulars governing the management of federal funds. Rules and reporting requirements are in place for every facet of the program, inc child supervision, staff and volunteer background checks, curriculum, transportation, meal service, health screenings, playground and safety drills and much more. Extensive monitoring and reporting protocols are in place.

Deemed Licensure will reduce redundant administrative processes for Head Start programs, while maintaining safety standards.

Thank you.

Shannon Cunningham-Sneed
