2.2. Enforcement. -- Enforcement of this rule is vested with the Commissioner of Motor Vehicles or the Commissioner’s lawful designee.

§91-5-3. Denial, Cancellation or Suspension of Driving Privileges for Medical Reasons.

3.1. Statutory Provisions. -- W. Va. Code §17B-2-3 provides that the Division of Motor Vehicles shall not issue or renew a driver's license to any applicant or may cancel the driver’s license of any licensee when the Commissioner of Motor Vehicles has good cause to believe that the operation of a motor vehicle on the highways of this State by the applicant or licensee would be inimical to public safety or welfare. Good cause includes, but is not limited to, receipt of an application for license or a written notice submitted pursuant to subsection 9.2. of this rule that indicates the applicant has a medical condition that may affect his or her ability to drive.

3.2. Procedures for Original, Renewal, or Duplicate Applications for License. -- Any application for a license which indicates that the applicant has a medical condition that may affect his or her ability to safely operate a motor vehicle must be accompanied by a letter of explanation in as much detail as the Commissioner requires concerning the mental or physical condition of the applicant at the time of application. If a Medical Report Form is required under this section, it must be completed by a Licensed Medical Practitioner. A Licensed Medical Practitioner includes, but is not limited to doctors of medicine, (MD), doctors of osteopathy (DO), physician assistants (PA), advanced practice nurses (APN), and doctors

of chiropractics (DC).

The Commissioner, after reviewing the letter of explanation, may:

3.2.a. Approve the application for license;

3.2.b. Approve the application for license, and impose appropriate restrictions as the applicant's physical or mental condition may require; or

3.2.c. Delay the application decision and require the applicant to submit the following:

3.2.c.1. A Medical Report Form completed by a licensed medical practitioner of the applicant's choice who is licensed in the United States who practices in the specialty field of the medical condition under consideration or;

3.2.c.2. A Vision Examination Report Form completed by an optometrist or ophthalmologist of the applicant's choice who is licensed in the United States and who practices in the specialty field of the vision condition under consideration; and

3.2.c.3. Any other record or other information concerning the applicant or licensee's medical condition or competency to operate a motor vehicle for the Commissioner to consider.

3.2.d. After review of the records submitted under subdivision 3.2.c of this rule, the Commissioner may approve the application, approve the application with restrictions, deny the application, order the suspension of the license, order the cancellation of the license or submit the records to the Driver License Advisory Board for further review.

3.2.e. The Commissioner, based on standards recommended by the Driver's License Advisory Board, or upon individual review in instances where no standard applies, may take the action indicated in subsection 3.2 of this rule, refuse the application, or order the suspension or cancellation of the license.

3.2.f. If an application for driver's license, or application for renewal of driver's license is refused by the Commissioner because of a physical or mental condition, the Commissioner shall notify the applicant within seventy (70) calendar days from the date of application or renewal by certified or registered mail, return receipt requested. The applicant is entitled to a hearing in accordance with subsection 3.6 of this rule on the refusal by the Commissioner to issue or renew a driver's license after a review and recommendation by the Driver's License Advisory Board.

3.3. Procedures for Medical or Vision Review. -- Upon receipt of a written opinion submitted pursuant to subsection 9.2 of this rule or other sufficient evidence of a medical condition which may affect a licensee's ability to safely operate a motor vehicle, the Division may require the licensee to submit to a medical or vision review. Upon receipt of a written professional opinion submitted by a licensed medical practitioner pursuant to subdivision 9.2.b of this rule, the Division shall immediately cancel the licensee's driver's license and the licensee may request to proceed with a medical or vision review.

3.3.a. The Division may upon written notice of five days require the licensee to present on a form prescribed by the Division of Motor Vehicles to the Commissioner or the Driver's License Advisory Board a:

3.3.a.1. Medical Report Form completed by a licensed medical practitioner of the licensee's choice who is licensed in the United States and who practices in the specialty field of the medical condition under consideration; or

3.3.a.2. Vision Examination Report Form completed by an optometrist or ophthalmologist of the licensee's choice who is licensed in the United States and who practices in the specialty field of the vision condition under consideration.

3.3.b. The licensee may, in addition to the medical and or vision report forms, submit any other record or documentation concerning his or her medical condition, vision or competency to drive for consideration of the Driver License Advisory Board and the Commissioner.

3.3.c. The Commissioner, after reviewing the Medical Report or Vision Examination Report and the recommendation of the Driver's License Advisory Board if applicable, may:

3.3.c.1. Determine that the licensee is competent to drive a motor vehicle;

3.3.c.2. Determine that the licensee is competent to operate a motor vehicle if certain appropriate restrictions are imposed and impose such restrictions as the licensee's physical or mental condition may require; or

3.3.c.3. Determine that the licensee's operation of a motor vehicle in accordance with W. Va. Code §17B-2-3, is inimical to public safety or welfare, that no appropriate restrictions can be imposed under which the licensee could safely operate a motor vehicle, and order the cancellation of the license until such time as the licensee is permitted to submit further information to determine whether or not he or she is eligible to drive a motor vehicle.

3.3.d. Upon entry of an order of cancellation, the Division shall mail the licensee a copy of the order by registered or certified mail, return receipt requested. The licensee may request a hearing in accordance with subsection 3.6 of this rule.

3.4. Standards for Medical or Vision Review.

3.4.a. Medical. -- The Driver's License Advisory Board shall evaluate each medical case referred to it on an individual basis and make recommendations to the Commissioner for his or her decision.

3.4.b. Vision. -- The Division shall test each applicant for licensing to determine if the applicant has no serious visual defects and a visual acuity of at least 20/40 in one eye with or without conventional corrective lenses. For the purposes of this rule, conventional corrective lenses including surgical intraocular transplants and contact lenses are acceptable for meeting the visual acuity requirements. Special equipment or special lens arrangements are not considered conventional for the purposes of this rule. However, applicants for licensing who require biotic type lens arrangements may qualify for a restricted Class G driver's license in accordance with W. Va. Code §17B-2B et seq. and subsection 3.5 of this rule.

3.4.b.1. Applicants who do not meet the minimum visual acuity level or who show serious visual defects shall submit a vision examination form to the Division. The form shall be completed by an ophthalmologist or optometrist of the applicant's choice who is licensed in the United States. The Division shall approve the applicant as eligible for licensing if the ophthalmologist or optometrist certifies that the applicant's vision:

+

3.4.b.1.A. can be corrected with conventional lenses to a visual acuity level of at least 20/60 in one eye;

3.4.b.1.B. that there is no evidence of disease or rapid deterioration of vision; and

3.4.b.1.C. that the applicant can, in the opinion of the ophthalmologist or optometrist, safely operate a motor vehicle with appropriate restrictions.

3.4.b.2. The Driver’s License Advisory Board or the Commissioner may consider any applicant who has been evaluated by an ophthalmologist or optometrist as being able to safely operate a motor vehicle. The Board or the Commissioner may consider peripheral vision, depth perception and color recognition in making a driver licensing decision. Additionally, the Commissioner may prescribe a traffic environment vision test be administered to the applicant or licensee by designated employees of the Division of Motor Vehicles and/or the Division of Rehabilitation Services.

3.5. Licensing Criteria for Applicants and Licensees with Biotic Telescopic Devices.

3.5.a. This subsection applies to applicants and licensees who use biotic telescopic devices and who wish to obtain or maintain a driver’s license in accordance with W. Va. Code §17B-2B et seq.

3.5.b. A vision specialist meaning an ophthalmologist or optometrist licensed in the United States shall certify that the applicant’s vision can be corrected with the use of a biotic telescopic device without field expanders to meet the minimum visual acuity and visual field standards established in this subsection and shall certify that the applicant meets the other criteria provided in W. Va. Code §17B-2B-2(b)(1).

3.5.c. An applicant shall present a current certificate of acceptance from the Division of Rehabilitation indicating acceptance into the Low Vision Driving Program and a starting date prior to eligibility to take the knowledge examination.

3.5.d. The minimum standards for vision for persons who require biotic lenses to operate a motor vehicle are as follows:

3.5.d.1. Visual acuity of 20-40 distance visual acuity or better through a biotic telescope lens not exceeding a scope of 4X and 20-200 distance visual acuity or better through a carrier lens in one eye;

3.5.d.2. Visual field of vision with horizontal vision of 120 degrees or better and vertical vision of 70 degrees or better which may be met with the use of one or both eyes; and

3.5.d.3. Color vision sufficient to distinguish the traffic light colors red, green and yellow and the colors of turn signals and brake lights;

3.5.e. The Division shall impose and remove an applicant or licensee’s Low Vision Driver Training Program restrictions based on the Division of Rehabilitation Services individualized evaluation of each applicant.

3.5.f. The Division may take action in the form of a warning, modification of restriction, suspension for a fixed term, or revocation against any Class G licensee based on:

3.5.f.1. The Division determining that the licensee was operating a motor vehicle in violation of his or her restrictions by receipt of a crash report, ticket, conviction or any other written notification

indicating the unsafe operation of a motor vehicle;

3.5.f.2. Failure of the applicant or licensee to have a vision report submitted in a timely manner when required by law or requested by the Division; 3.5.f.3. Receipt of a crash report indicating the licensee caused a crash that resulted in bodily injury or death; or

3.5.f.3. Determination by the Division of Rehabilitation Services that the licensee no longer meets the minimum requirements to obtain and retain a Class G driver's license.

3.6. Administrative Due Process. -- Any applicant or licensee may appeal the Commissioner's decision of denial, suspension, restriction or non-renewal of driving privileges by requesting a hearing within 30 days after receipt of the order. Any request for hearing shall not stay the original order. An applicant or licensee who intends to submit new or additional information not previously considered by the Driver's License Advisory Board shall first submit the new or additional information to the Division for review and recommendation by the Driver's License Advisory Board before proceeding with a hearing.

3.6.a. The scope of the hearing is to provide the applicant or licensee the opportunity to show that the Division erred in its decision based upon its records or other evidence previously submitted by the licensee. Only evidence previously submitted by the licensee under the provisions of subsection 3.2, 3.3 and 3.6 of this rule may be considered at the hearing.

3.6.b. After the hearing and consideration of all the testimony and evidence in the case, the Division shall within seventy (70) calendar days, make and enter an order affirming, rescinding, or modifying the Commissioner's original order. If an order is not issued within seventy (70) calendar days, the licensee may file a motion to compel issuance of a decision.

§91-5-4. Reinstatement of Suspended Registration.

4.1. Procedures. --The Division shall destroy any license plate received in accordance with any of the provisions of the West Virginia Motor Vehicle Safety Responsibility Law, Chapter 17D of the Code. Accordingly, upon reinstatement of any registration within the registration period, the registrant shall make application for a duplicate or substitute registration or license plate upon the form prescribed for that purpose and remit the fee required by W. Va. Code §17A-10-11.

§91-5-5. Agency Action Upon Receiving Notice of Driving While License is Suspended or Revoked.

5.1. Pursuant to W. Va. Code §17B-4-3(c), the Division shall, upon receipt of a second or subsequent conviction for a violation within the last five years for driving while suspended under the provisions of W. Va. Code §17B-4-3(a) or similar municipal ordinance, shall suspend the licensee's license or privilege to operate a motor vehicle for a period of ninety days. This period of suspension shall begin ten (10) days from entry of the conviction on the records of the Division. The determination that the conviction is the second or subsequent conviction shall be based on the records of the Division. In accordance with §17E-1-7, any conviction for driving a commercial motor vehicle (CMV) without a valid commercial driver's license (CDL) requires a sixty (60) day suspension of the driving privilege.

5.2. Pursuant to W. Va. Code §17B-4-3(c), the Division shall, upon receipt of a conviction for driving while his or her license is revoked for a driving under the influence related offense under the provisions of W. Va. Code §17B-4-3(b) or similar municipal ordinance, shall suspend the licensee's license or privilege to operate a motor vehicle for a period of six months. This period of suspension shall begin ten (10) days from entry of the conviction on the records of the Division. The determination that the conviction is for

driving while the licensee's privilege to operate a motor vehicle while revoked for a driving under the influence related offense shall be based on the records of the Division.

§91-5-6. Suspending a West Virginia Resident's License upon Conviction in another State or Jurisdiction.

6.1. Statutory Provisions. -- W. Va. Code §17B-3-3 authorizes the Commissioner to suspend a resident's license upon conviction for a traffic offense in another jurisdiction.

6.2. Procedures. -- The Division shall suspend or revoke the driving privileges of any resident of this state upon receiving notice of conviction for a traffic offense in another jurisdiction, which if committed in this state, would be grounds for the mandatory suspension or revocation of driving privileges.

6.3. If the records of the Division disclose that a conviction is the second or subsequent conviction for the same offense in this or any other Jurisdiction, the Division shall suspend or revoke the resident's driving privileges in the same manner as if the traffic offense had occurred in this State.

6.4. The Division shall restore driving privileges only after the licensee has complied with all the provisions of the W. Va. Code and this rule in the same manner that would be required if the licensee had been convicted in this State.

§91-5-7. The Point System.

7.1. Records. -- W. Va. Code §17B-2-14 requires that the Division keep records in order that an individual record of the licensee showing the convictions of such licensee is readily ascertainable and available for consideration by the Division upon any application for renewal of license "and at other suitable times" consistent with the provisions of W. Va. Code §17B-3-6(a). Accordingly, a record keeping system to be known as the Point System and to be administered by the Division's Driver Improvement Section is established in this section.

7.2. Offenses. -- Point Total -- When any licensee of the State of West Virginia who has reached the age of eighteen years or older or has obtained a level three full license, is convicted in the State of West Virginia or, pursuant to the provisions of W. Va. Code §17B-3-3, in any other jurisdiction, of any of the following offenses involving a motor vehicle, which conviction has become final, the Division shall enter the offense and the point total shown opposite the offense on the licensee's driver record maintained by the Division of Motor Vehicles. However, the division shall not record any conviction which is received more than one year from the date of conviction unless the nature of the offense by statute requires suspension, revocation, or disqualification or the offense was committed by a licensee with a Commercial Driver's License or committed in a Commercial Vehicle.

7.3. Traffic Convictions with No Point Value. -- The abstracts of traffic convictions outlined in this subsection have no point value in the administration of the Driver Improvement Program:

7.3.a. Convictions for operating vehicles on the highways of this or any other state with defective or improper equipment;

7.3.b. Convictions for operating vehicles on the highways of this or any other state in violation of the weight, height, length and width provisions of W. Va. Code;

7.3.c. Convictions for operating a vehicle on the highways of this or any other state with improper registration;

7.3.d. Convictions for operating a vehicle on the highways of this or any other state with an expired vehicle inspection decal or certificate; and

7.3.e. Convictions for operating a vehicle on a controlled access highway of this or any other state at a speed of ten miles per hour or less above the speed limit in accordance with the provisions of W. Va. Code §17C-6-1 (a), (i) or (j);

7.3.f. Convictions for offenses which are grounds for a driver's license revocation or suspension.

7.3.g. Convictions for speeding 10 mph or less over the posted speed limit except if the driver holds a commercial driver's license or was operating a commercial motor vehicle.

7.3.h. Speeding convictions received from another jurisdiction without speed detail unless licensee has received a conviction while holding a Commercial Driver's license or while operating a Commercial Vehicle.

7.4. Traffic Convictions. -- The Division shall note the appropriate number of points indicated in Subsection 7.2 of this rule on the driver record of any licensee convicted of any of the offenses listed in Subsection 7.2 in West Virginia Circuit, Magistrate or Municipal Court. Consistent with the provisions in W. Va. Code §17B-3-3 the Division shall charge any licensee of the State of West Virginia convicted in any other state, municipality of another state or in the District of Columbia of any offense described in Subsection 7.2 of this rule in violation of any statute or ordinance of such other state, municipality of another state or District of Columbia with the appropriate number of points shown in Subsection 7.2 of this rule opposite the description of the offense. A conviction includes a finding of guilt, a plea of guilty or a plea of nolo contendere.

7.5. Forfeiture of Bail or Deposited Collateral. -- Consistent with the provisions of W. Va. Code §17B-3-4 requiring that all Circuit, Magistrate, and Municipal Courts provide the Division with certified abstracts of judgments on convictions, for the purposes of the point system, a forfeiture of bail or collateral deposited to secure a licensee's appearance in court, which has not been vacated, is equivalent to a conviction.

7.6. Points assigned for Same Occurrence. -- When a licensee is convicted of two or more offenses arising out of the same occurrence, the Division shall assign points for only one of the offenses. When there is a difference in the point values of the offenses, the Division shall assign the greater point value.

7.7. Revocations. -- W. Va. Code §17B-3-5 provides that certain convictions shall result in an automatic revocation, as opposed to suspension, of the driver's license of the person convicted. The Division records these convictions on the licensee's driver record with no assignment of points. The Division assesses points for reckless driving convictions unless three convictions occur within a period of twenty-four months. In these cases, the licensee is subject to the mandatory revocation in accordance with W. Va. Code §17B-3-5(5). When any person is convicted in the State of West Virginia for an offense for which no point value is assigned but for which a certified abstract of judgment on the conviction is required and furnished to the Division under the provisions of W. Va. Code §17B-3-4 the Division shall note the conviction, without point value, on the driver record of the licensee.

7.8. Accumulation of Twelve or More Points. -- The Division shall suspend a licensee's privilege to operate a motor vehicle upon the accumulation of twelve or more points in accordance with the following schedule:

7.8.a. When a licensee accumulates twelve to thirteen points, the period of suspension is thirty days.

7.8.b. When a licensee accumulates fourteen to fifteen points, the period of suspension is forty-five days.

7.8.c. When a licensee accumulates sixteen to seventeen points, the period of suspension is sixty days.

7.8.d. When a licensee accumulates eighteen to nineteen points, the period of suspension is ninety days.

7.8.e. When a licensee accumulates twenty or more points, the period of suspension is one hundred twenty days.

7.8.f. Any suspension received under the provisions of subdivision 7.8.a., 7.8.b., 7.8.c., or 7.8.d of this rule shall run consecutively and any suspension under subdivision 7.8.e of this rule shall run concurrently.

7.8.g. In lieu of any suspension enumerated above and any reinstatement fee due, the licensee may choose to pay a \$200 penalty fee prior to the effective date of the suspension provided that the licensee has not availed himself or herself of this alternative in the prior two years from the date of suspension. The penalty fee shall be deposited in the Motor Vehicle Fees Fund established pursuant to W. Va. Code §17A-2-21.

7.9. Length of Time Points Maintained On Driving Record. -- The Division shall remove the points assessed for a conviction two years from the date of the conviction. However, the conviction shall remain a part of the drivers' record.

7.10. Effective Starting Time for Period of Suspension. -- The suspension of any driver's license under the Driver Improvement Program is effective ten days from the mailing of the notice of suspension.

7.11. Hearings. -- The licensee may appeal an Order of Suspension by requesting a hearing within ten (10) days of receipt of the Order. The scope of the hearing is whether the person whose license is suspended is the same person to whom the citations were issued or whether the point total is correct.

7.12. Prohibition Against Masking -In accordance with the provisions of W. Va. Code §17E-1-13(g), implementing the requirements of 49C.F.R. §384.226, all citations accumulated by a licensee who holds a commercial driver's license shall be recorded and retained as a part of the licensee's driver record. The provisions of W. Va. Code §17C-6-1(i) and (j) which exempt convictions for speeding violation ten miles per hour or less over the speed limit committed on an interstate or other controlled access highway from being reported to the Division do not apply to a licensee who holds a commercial driver's license.

§91-5-8. Driver Improvement Course.

8.1. Procedures. – Organizations approved by the Division conduct Driver Improvement courses at various times and locations throughout the State. The Division shall approve the course-which is not to exceed fifteen (15) hours but shall consist of at least seven (7) hours of instruction time. The approved organization shall certify the instructors conducting these courses.

8.1.a. Points to Be Deducted Upon Successful Completion. -- Attendance at any Driver Improvement course is voluntary on the part of the licensee. Upon successful completion of a course, the Division shall deduct three points from the total points shown on the driver record of the licensee who has reached the age of eighteen years or older or obtained a level three full driver's license. The Division shall deduct points for completing a course once during a one (1) year period. Any suspension placed against a licensee under the provisions of section seven of this rule will not be altered, reduced or expunged by completion of this program.

8.1.b. The Division shall remove three points from the licensee's record after the licensee submits a certificate from the instructor of the course to the Division of Motor Vehicles, showing that the course has been completed by the licensee.

8.1.c. Although the Division shall subtract three points from the driver record, the record of all convictions involving motor vehicles shall remain so that if at any future time sufficient points are

accumulated to cause the Division to require another review, the Division may consider the conviction for which the points were eliminated along with all other convictions of record in the Division in determining the action, if any, the Division will take following the review.

8.2. Graduated Driver Improvement Course. - In accordance with the provisions of W. Va. Code §17B-2-3a, any level 2 licensee under the age of eighteen who has been convicted of a moving traffic offense or violation of the terms and conditions of a level two intermediate driver’s license shall complete an approved graduated driver improvement course prior to obtaining a level 3 full license. The course shall consist of at least four hours of instruction specifically designed for younger drivers.

8.2.a. Completion of the Graduated Driver Improvement Course shall not remove the record of conviction from a licensee’s record. In accordance with the provisions of W. Va. Code §17B-2-3a, the privilege to operate a motor vehicle of any licensee who holds a graduated driver’s license shall be revoked until the licensee’s eighteenth birthday or longer if applicable, upon the second conviction for a moving traffic violation or violation of the terms and conditions of a level two intermediate license.

8.2.b. Completion of the Graduated Driver Improvement Course shall not affect the provisions of W. Va. Code §17B-2-3a which establishes a prerequisite of conviction free driving for the twelve months immediately preceding the date of application for a level three full license.

8.2.c. Completion of the driver improvement course as provided in subsection 8.1 of this rule may substitute for the requirements of this subdivision if a Graduated Driver Improvement Course is not available. However, a licensee under the age of eighteen who completes the course as substitution may repeat the course for the purposes of point reduction after obtaining a level three full license.

§91-5-9. Procedures for Medical Review and Driving Re-Examination of Licensed Drivers.

9.1. Statutory Provisions. -- In accordance with W. Va. Code §17B-3-7, the Division of Motor Vehicles may require a re-examination of a licensed driver. The Division, having good cause to believe that a licensed driver is inimical to public safety or welfare or otherwise not qualified to be licensed, may upon written notice of at least five days require the licensee to submit to a medical review, vision, written and driving examination, and may immediately suspend or cancel the licensee’s driving privilege upon receipt of a written notice pursuant to subdivision 9.2.b or d of this rule. Upon the conclusion of the examination, the Division shall take action as may be appropriate and may cancel, suspend or revoke the license of that person or may issue a license subject to restrictions as provided under W. Va. Code §17B-2-10. The Division may cancel, suspend or revoke the license of the licensee if he or she refuses or neglects to submit to the examination.

9.2. Good Cause. -- For the purposes of this rule, good cause means:

9.2.a. A written, professional opinion from a licensed medical practitioner that the licensee has a physical, medical or emotional condition which jeopardizes the licensee’s ability to operate a motor vehicle;

9.2.b. A written, reasoned opinion from an adult relative or caregiver with an immediate knowledge of the licensee’s driving ability or medical condition that impairs the licensee’s ability to operate a motor vehicle. However, the Division shall not enter an immediate suspension or revocation of the licensee’s driving privilege based solely on notice from an adult relative or care giver until a medical review under subdivision 3.2 of this rule or driving reexamination has been completed;

9.2.c. A written notice from an employee of a rehabilitation facility's driver education, driver training or other similar program, that in his or her judgement, the licensee presents a danger to public safety or welfare, or;

9.2.d. A written notice from a law enforcement officer, an officer of the court, or a designated employee of the Division that in his or her judgment there is reason to believe that the licensee is incompetent or unable to safely drive a motor vehicle. This judgment may be based upon personal observation and/or a review of Division records or any form of the licensee's accident history. However, the Division shall not enter an immediate suspension or revocation of the licensee's driving privilege based solely on notice from an officer of the court or an employee of the Division until a medical review under subsection 3.2 of this rule or driving reexamination has been completed.

9.3. The Division shall mail the notice of re-examination to the licensee's most recent driver license address on file with the Division by certified or registered letter. The notice shall contain the time and place designated for the re-examination and, also, shall contain a brief explanation that the Division may impose a suspension or revocation if the licensee fails to appear and submit to the re-examination as directed by the notice.

9.4. The re-examination may consist of a maximum of four parts.

9.4.a. The first part consists of completion of a medical report form by a physician in accordance with Section 3 of this rule.

9.4.b. The second part consists of a vision test and an inquiry into any physical disability. In addition to a review of the licensee's physical qualifications, the driver examiner conducts a personal interview with the licensee.

9.4.c. The third part of the re-examination consists of a written test composed of questions of equal value. The licensee shall answer correctly a minimum of 70% of the questions covering motor vehicles laws, rules of the road, highway warnings, traffic signs and signaling devices to pass the re-examination. The examiner may administer the written test verbally if the licensee is determined by the examiner to be illiterate. The reference document for the material on the test is the official Driver's Handbook as prescribed by the Division of Motor Vehicles.

9.4.d. The fourth part of the re-examination is a driver clinic skill to determine the driving skills of the licensee. The examiner may not give the driver clinic skills test if the licensee fails to exhibit the minimum physical ability to safely operate a motor vehicle.

9.5. If the licensee fails any part of the re-examination, the Division shall suspend his or her license and notify the licensee of the suspension. The Division shall send the notice by certified or registered mail and the suspension is effective four days after the date of the suspension order.

9.6. The licensee is not eligible for a second re-examination until the expiration of thirty days from the date of the failed re-examination. The licensee shall make a request, by letter or in person, to the Division of Motor Vehicles, for the opportunity to take subsequent re-examinations.

9.7. If a licensee fails a second re-examination, the licensee is not eligible for a re-examination until sixty days have expired from the date of the previous re-examination. If a licensee fails a third re-examination, the licensee is not eligible for the fourth re-examination until six months have elapsed. Failure

of four consecutive re-examinations is grounds for permanent revocation and the licensee is not eligible for additional testing until one year from the last re-examination date.

9.8. If the licensee fails to pass the re-examination because of failure to meet the visual qualifications, the Division shall not grant a further examination until he or she submits adequate evidence of visual improvement.

9.9. If the driver’s license is cancelled or suspended because of a physical condition and the licensee subsequently submits a satisfactory medical report, the Division may require the licensee to submit to part three and part four of the examination to determine the licensee’s driving ability before the driver’s license is reinstated.

9.10. The Division may cancel, suspend or revoke the driver’s license of a licensee who refuses or neglects to submit to any part of the examination, or both, requested in accordance with the provisions of W. Va. Code §17B-3-7.

11.4. Proof of Compliance with the Terms of the Citation. - Proof of compliance means certification from the out of state court having jurisdiction that the fine and court costs have been fully satisfied or a certification from the court showing that the citation was dismissed, or the licensee adjudicated not guilty. Proof of compliance does not mean personal representation, or copies of money orders, personal checks, or certified checks.

11.5. Failure to Respond. -- If the Division does not receive proof of compliance within the required forty-five (45) days, it shall suspend the licensee's privilege to operate a motor vehicle until such time as proof of compliance with the terms of the citation is received.

The notice shall also advise the licensee that he or she is entitled to a hearing before the county superintendent of schools or his or her designee or before the appropriate private school official concerning whether or not the licensee's withdrawal from school was due to circumstances beyond the control of the licensee, making the licensee eligible for a waiver from the provisions of W. Va. Code §18-8-11.

12.3. Administrative Hearing. -- The licensee may appeal a suspension by requesting a hearing within ten (10) days of receipt of the Order. The scope of the hearing is limited to questions of improper identity, incorrect age or some other bookkeeping error made by the Division. Code §48-15-101 et seq. and §17B-3-6(a), the Division is required to suspend or restrict the driving privileges of any person upon notification from a Circuit Court of this state that the person has failed to pay overdue child support or comply with subpoenas or warrants relating to paternity or child support proceedings. The provisions of W. Va. Code §48-15-101 et seq. prohibit the Division from issuing or renewing a driver's license to any person who fails to certify that he or she does not have a child support obligation or that he or she is not more than six months in arrearage and is not the subject of a child support related subpoena or warrant. This rule is implemented to conform to the mandates of the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 and in accordance with *Dababhah v. 15.5. Administrative Appeal. -- A licensee who believes that the license suspension order has been directed to the licensee in error may request a hearing. In accordance with the provisions of W. Va. Code §48-15-301(e), the Division does not have jurisdiction to modify, remand, reverse or stay a court order to take action against a license. Therefore, the scope of any administrative appeal is limited to the sole purpose for the licensee to present evidence that he or she is not the person named in the Court Order.

15.6. Driving While Suspended or in Violation of Restriction.

15.6.a. The provisions of W. Va. Code §17B-4-3 apply to a licensee convicted of driving while his or her license has been suspended for nonpayment of child support. Proof of compliance shall not mean Court documents which do not contain the signature of the Circuit Court judge or family law master, unsigned notice from the Child Support Division, copies of certified checks, personal checks, money orders or personal representation. A person whose license was suspended shall prior to reinstatement pay all fees assessed as a result of the suspension.
