No problem at all. Being that the change is essentially a technical change, since the Code has already been changed, I would recommend treating the email that we sent out as a comment.

Do the strikethroughs and underlines in that section of the rule for the Agency Approved filing.

Include a copy of the email in your comments and responses document when you do your Agency Approved filing.

Maureen,

I am sorry I did not answer your question quickly, I am testing in the office.

Thank you,

Veronica
