For purposes of these rules, unless a different meaning clearly appears from the context:

2.1 “Secretary” means the Secretary of the Department of Administration.

**§148-23-3. Standard for evaluating requests for exemption from vehicle management services.**

3.1. Currently, the Fleet Management Division provides fuel-purchase services and vehicle maintenance management services for state-owned vehicles under oversight of the Fleet Management Office.

3.2. In order for the Secretary to consider an exemption to use of vehicle management services provided by the Fleet Management Division, the requesting agency must have in-house or established ready availability or access to the same services as those provided by the Fleet Management Division.

3.2.a. An example of established or in-house ready availability or access to fuel service would be an agency that is already purchasing fuel for use in state-owned vehicles in bulk.

3.2.b. An example of established or in-house ready availability or access to maintenance services would be an agency that has an existing and functional garage and employees capable of performing routine maintenance on other state-owned vehicles.

3.3. In addition to having established or in-house ready availability or access to services that would otherwise be provided through the management services offered by the Fleet Management Division, the agency requesting an exemption from the utilization of those provided services must demonstrate the ability to calculate and report the comprehensive annual costs of operation on a per vehicle basis, including total fuel purchased and used by each vehicle and a total cost of maintenance for each vehicle.

3.4. Agencies may request, and the Secretary may grant, an exemption from all or only one of the vehicle management services provided by the Fleet Management Division. If an agency is granted an exemption from only one of the services offered, that agency shall utilize the remaining services offered by the Fleet Management Division.

**§148-23-4. Agencies granted exemptions from utilizing vehicle management services provided by the Fleet Management Division.**

4.1. The following agencies have been granted exemptions from using both fuel and maintenance management services:

4.3. Agencies that have been granted an exemption from utilization of the management services provided may elect to use those services at any time. Those agencies electing to use one of the vehicle management services provided by the Fleet Management Division shall notify the Division before utilizing the service.

**§148-23-5. Future requests by agencies and review by Secretary for exemptions from utilization of the vehicle management services provided by the Fleet Management Division.**

5.1. Should circumstances change that would allow an agency to have ready availability or access to established or in-house services that would otherwise be provided by the Fleet Management Division, agencies may submit a request for exemption once per year by June 30<sup>th</sup>.

5.2. The Secretary shall review the recommendations of the Director of the Fleet Management Division in the same manner as prescribed by W.Va. Code §5A-12-9 and shall propose amendments to this rule to reflect any change in status of agencies requesting an exemption.
