Thank you for taking my call this morning and discussing your concerns with the proposed rule changes.

The Board no longer gives any state exams. The board accepts national certifications and board-approved courses as we discussed.

7.2. in Series 1 addresses anyone who is not nationally certified, including grandfathered technologists.

"7.2. Active licensees without active national certification before July 1, 2026, shall submit 24 category A continuing education credits completed within the previous 24 months."

Thank you,

Jamie Browning

Executive Director

WV Medical Imaging Board

To Whom It May Concern:

I have the following questions/comments for WV Medical Imaging Licensure in Title 18 Series 1 Legislative Rules

- **Question #1:**

I do not see any provision in this document for that small group of individuals holding a grandfathered License from the implementation of Licensure in 1977. Have all these individuals fallen off the roster for licensure in WV?

- **Question #2**

4.6.g: Will the Board no longer be administering a Board Exam for WV only?

Thank you for consideration of my concerns and I trust you will reach out to me should you have questions or comments.

Respectfully,

Nancy
