PROVIDE A BRIEF SUMMARY OF THE CONTENT OF THE RULE:

Senate Bill 565 passed during the 2025 Legislative Session and becomes effective July 9, 2025. This bill expands the scope of practice of Optometry in West Virginia to include laser licensure and certification as the highest level of Optometry license in West Virginia.

The amendments in his Rule include some minor clean up edits to clarify and/or eliminate things that are no longer needed or no longer exist.

Under W. Va. Code §30-8B-4, in order to obtain a full laser certification, licensees must perform a certain number of procedures under the supervision of an approved proctor. Licensees would not be able to perform any procedures if not first licensed to practice Optometry in West Virginia. Therefore the amendment to Section 14-1-3.9 is needed as soon after the effective date as possible, otherwise the West Virginia Board of Optometry would not be able to issue any new or reciprocity licenses until the conclusion of the 2026 Legislative Session.

SUMMARIZE IN A CLEAR AND CONCISE MANNER CONTENTS OF CHANGES IN THE RULE AND A STATEMENT OF CIRCUMSTANCES REQUIRING THE RULE:

The most important amendment to this Rule (that hasnt been updated since 2011) is 14-8-4.2.2.a is the elimination of the word therapeutic so that reciprocity applicant requirements are the same as those for new applicants applying for the highest level of licensure and certification in West Virginia.

This is consistent with the Emergency request for Rule 14-1 updating Section 14-1-3.9 to clarify that applicants qualified for the highest level of licensure can be granted an Optometry license in the state, which allows incorporation of the new laser certification process outlined in the new W. Va. Code §30-8B, et al.

SUMMARIZE IN A CLEAR AND CONCISE MANNER THE OVERALL ECONOMIC IMPACT OF THE PROPOSED RULE:

A. ECONOMIC IMPACT ON REVENUES OF STATE GOVERNMENT:

There may be an initial increase in revenues for the WV Board of Optometry, but the figure cannot be estimated at this time because we do not know the exact demand for this new license level and how many License by Reciprocity candidates we may receive.

B. ECONOMIC IMPACT ON SPECIAL REVENUE ACCOUNTS:

There may be an initial increase in revenues for the WV Board of Optometry if more Optometrists want to come to West Virginia because of the modernized scope of practice, but the figure cannot be estimated at this time because we do not know the exact demand for this license.

C. ECONOMIC IMPACT OF THE RULE ON THE STATE OR ITS RESIDENTS:

We do not know the demand of current residents so cannot estimate the figure at this time.

D. FISCAL NOTE DETAIL:

Effect of Proposal	Fiscal Year		
	2025 Increase/Decrease (use "-")	2026 Increase/Decrease (use "-")	Fiscal Year (Upon Full Implementation)
<b>1. Estimated Total Cost</b>	0	0	0
Personal Services	0	0	0
Current Expenses	0	0	0
Repairs and Alterations	0	0	0
Assets	0	0	0
Other	0	0	0
<b>2. Estimated Total Revenues</b>	0	0	0

E. EXPLANATION OF ABOVE ESTIMATES (INCLUDING LONG-RANGE EFFECT):

The long-range effect may be neutral since we will naturally lose some active licensees to retirement while issuing new licensees. The short-term effect may be a slight increase since West Virginia is one of 13 states that will incorporate laser certification in Optometry licenses. We cannot estimate an amount at this time since we do not know the demand.

**BY CHOOSING 'YES', I ATTEST THAT THE PREVIOUS STATEMENT IS TRUE AND CORRECT.**
