§127-4-3. Code for Interscholastic Athletics.				
6-2-25	Abram Highley	I believe the principals unanimously approved classification by enrollment only. I feel like that should be the only factor. Schools should not get to change classifications (go up) if they want. Enrollment is enrollment, that should be your classification. You should not get the opportunity to look at specific sports and say, we can win in AA here, but lets stay A in this sport to win. If your enrollments says you are A then you are A.	N	Current rule allows for schools to participate in a higher classification by sport.
