| 2026-06-03<br>22:44:31                               | Leonard Cox | Please stop all High School athletic Transfers and send the ones that have already transferred back to their school of record. Then if they want to still transfer they need to sit out a year. If the whole family relocates to a different district I assume nothing can be done. But there are several schools that have apartments that are rented out conveniently but no one is ever there. Needs to be a way to verify that family has indeed relocated. | N      | Comment not applicable to the rule |
