

EXECUTIVE SUMMARY
WEST VIRGINIA DEPARTMENT OF EDUCATION

Policy Number and Title: West Virginia Board of Education Policy 2520.5: *"Next Generation Health Education Content Standards and Objectives for West Virginia Schools"*

Background: Policies 2520 define the content standards and objectives for the programs of study required by Policy 2510 and establish a standardized format for such. Policy 2520.5 defines the content standards and objectives for health education. The original effective date of Policy 2520.5: *"21st Century Health Education Content Standards and Objectives for West Virginia Schools"* was July 13, 2003. Policy 2520.5 underwent revisions in order to make the standard objectives more rigorous. The effective date that these revisions became effective was July 1, 2008.

Proposals: Policy 2520.5 – *"Next Generation Health Education Content Standards"* were revised to incorporate Policy 2422.45 - *"Exclusion from AIDS and STDS Instruction"* and Policy 2422.13 – *"Cardiopulmonary Resuscitation Instruction"*. thus eliminating the need for three separate policies (Policy 2422.45 and 2422.13 will be repealed). This process also provided an opportunity to review, refine and update the entire Health CSOs Document. A team of health teachers were enlisted to review the document and make suggested revisions.

Impact:

- By incorporating Policy 2422.45 – *"Exclusion from AIDS and STDS Instruction"* and Policy 2422.13 – *"Cardiopulmonary Resuscitation Instruction"* into this policy, the need for three separate policies was eliminated.
- The desired outcome of adding more specification and rigor to Policy 2520.5 is to improve health education curriculum targeting health literacy skills that promote dispositions of wellness.

Policy 2520.5 – Next Generation Health Education 5-12 Content Standards and Objectives

SERIES 44E

~~21ST CENTURY~~ NEXT GENERATION HEALTH EDUCATION 5-12 CONTENT
STANDARDS AND OBJECTIVES FOR WEST VIRGINIA SCHOOLS (2520.5)

OFFICE OF THE SECRETARY OF STATE

§126-44E-1. General.

1.1. Scope. -- W. Va. 126CSR42, West Virginia Board of Education Policy 2510, Assuring the Quality of Education: Regulations for Education Programs (Policy 2510), provides a definition of a delivery system for, and an assessment and accountability system for, a thorough and efficient education for West Virginia public school students. Policy 2520.5 defines the content standards (or instructional goals) and objectives for health education 5-12 as required by Policy 2510.

1.2. Authority. -- W. Va. Constitution, Article XII, §2, W. Va. Code §§18-2-5, 18-2-9 and 18-9A-22.

1.3. Filing Date. -- ~~March 19, 2007.~~

1.4. Effective Date. -- ~~July 1, 2008.~~

1.5. Repeal of a Former Rule. -- This legislative rule ~~repeals and replaces~~ amends W. Va. 126CSR44E, West Virginia Board of Education Policy 2520.5, "21st Century Health Education Content Standards and Objectives for West Virginia Schools" filed ~~May 8, 2003~~ March 19, 2007 and effective ~~July 1, 2003~~ July 1, 2008; and repeals W. Va. §126CSR50B, West Virginia Board of Education Policy 2422.45, "Exclusion of Students From Acquired Immunodeficiency Syndrome (AIDS) and Sexually Transmitted Disease (STD) Instruction in Health Education Classes: filed January 18, 1990 and effective March 2, 1990; and repeals W. Va. §126CSR21, West Virginia Board of Education Policy 2422.13, "Cardiopulmonary Resuscitation Instruction" filed December 27, 1982 and effective February 27, 1983.

§126-44E-2. Purpose.

2.1. This policy defines the content standards (or instructional goals) and objectives for the program of study required by Policy 2510 in health.

§126-44E-3. Incorporation by Reference.

3.1. A copy of the ~~21st Century~~ Next Generation- Next Generation Health Education 5-12 Content Standards and Objectives for West Virginia Schools is attached and incorporated by reference into this policy. Copies may be obtained in the Office of the Secretary of State and in the West Virginia Department of Education, Office of Healthy Schools.

§126-44E-4. Summary of the Content Standards and Objectives.

4.1. The West Virginia Board of Education has the responsibility for establishing high quality standards pertaining to all educational standards pertaining to all education programs (W. Va. Code §18-9A-22). The content standards and objectives provide a focus for teachers to teach and students to learn those skills and competencies essential for future success in the workplace and further education. The document includes content standards for health education 5-12, an explanation of terms; objectives that reflect a rigorous and challenging curriculum; and performance descriptors.

21st Century Next Generation Health Education 5-12
Content Standards and Objectives for West Virginia Schools

Steven L. Paine Joree Marple
State Superintendent

Explanation of Terms

Content Standards are broad descriptions of what students should know and be able to do in a content area. Content standards describe what students' knowledge and skills should be at the end of a K-12 sequence of study.

Objectives are incremental steps toward accomplishment of content standards. Objectives are listed by grade level and are organized around the content standards. Objectives build across grade levels as students advance in their knowledge and skills.

Performance Descriptors describe in narrative format how students demonstrate achievement of the content standards. Five performance levels have been proposed for West Virginia: distinguished, above mastery, mastery, partial mastery and novice. Performance Descriptors serve two functions. Instructionally, they give teachers more information about the level of knowledge and skills they are building in their students. Performance levels and descriptors are also used to categorize and explain student performance on statewide assessment instruments.

Numbering of Standards

The number for each content standard is composed of three parts, each part separated by a period:

- The content area code (e.g., HE for Health);
- The letter S, for Standard; and
- The standard number.

Illustration: HE.S.1 refers to health content standard #1.

Numbering of Objectives

The number of each objective is composed of four parts, each part separated by a period:

- The content area code;
- The grade level (an exception is high school health, which uses HS for the grade designation);
- The number of the content standard addressed; and
- The objective number.

Illustration: HE.6.2.03 refers to a health sixth grade objective that addresses standard #2 in health and that is the third objective listed under that standard.

Numbering of Performance Descriptors

The number for each group of five performance descriptors is composed of four parts, each part separated by a period:

- The content area or course code;
- The letters PD, for Performance Descriptors; The grade level (See exceptions noted above for grade level under numbering of objectives); and
- The standard number.

Illustration: HE.PD.8.02 refers to Health performance descriptors for eighth grade, content standard 2.

Unique Electronic Numbers (UENs)

Unique Electronic Numbers (or UENs) are numbers that help to electronically identify, categorize and link specific bits of information. Once Policy 2520.5 is available on the Web, each standard, each objective, and each group of five performance descriptors will have a Unique Electronic Number (UEN) that will always remain the same.

The codes printed in Policy 2520.5 form the basis of the UENs. The only additional set of numbers that will be added to each code to formulate its UEN will be a prefix that indicates the year and month that a particular version of Policy 2520.5 is approved by the State Board of Education.

The prefix for the UENs for each content area in Policy 2520.5 is noted at the top of each page containing standards, objectives and performance descriptors. As sections of 2520.5 are revised, UENs will be changed to reflect the new approval date.

UENs (Unique Electronic Numbers) are unique numbers that facilitate implementation of WV Standards into Electronic formats such as Databases and XML Files. The WV Department of Education encourages everyone who is going to use the WV Content Standards in any kind of electronic distribution, alignment, or software development to use the UENs so that all efforts can be cross-referenced and there is consistency across initiatives.

126CSR44E

Illustration: The UEN for performance descriptors for fifth grade health, standard #2 will be "200602.HE.5.02".

HEALTH EDUCATION - Policy 2520.5

Health literacy for all students is the fundamental goal of a comprehensive school health education curriculum. The health literate student is a critical thinker and problem solver, a self-directed learner, an effective communicator, and a responsible, productive citizen. Students must have the capacity to obtain, interpret, and understand basic health information and services and the competence to use such information and services in ways that enhance a healthy lifestyle. A comprehensive school health education curriculum from grades five to twelve is essential to enable students to acquire and apply health promoting knowledge, skills and behaviors.

~~This document is an organized, sequential list of learning standards and objectives closely aligned with the National Standards for Health Education. A major focus has been given to what the Center for Disease Control recognizes as adolescent risk behaviors (tobacco use, dietary patterns contributing to disease, sedentary lifestyle, sexual behaviors that result in HIV infection/other STDs and unintended pregnancy, alcohol and other drug use, and behaviors that result in intentional and unintentional injury).~~

The intent of the health standards is to provide a consistent target for both educators and students in West Virginia. It is intended to show what students should know and be able to do at certain grade levels. Teachers and policy-makers can use the health standards to design curricula, to allocate instructional resources, and to provide a basis for assessing student achievement and progress.

Standard 1: Health Promotion and Disease Prevention (HE.S.1)

The acquisition of basic health concepts and functional health knowledge provides a foundation for promoting health-enhancing behaviors among youth. This standard includes essential concepts that are based on established health behavior theories and models. Concepts that focus on both health promotion and risk reduction are included in the performance indicators.

Standard 2: Culture, Media, and Technology (HE.S.2)

Health is impacted by a variety of positive and negative influences within society. This standard focuses on identifying and understanding the diverse -internal and external factors that influence health practices and behaviors among youth including personal values, beliefs and perceived norms.

Standard 3: Health Information and Services (HE.S.3)

Accessing valid health information and health-promoting products and services is critical in the prevention, early detection, and treatment of health problems. This standard focuses on how to identify and access valid health resources and to reject unproven sources. Applying the skills of analysis, comparison and evaluation of health resources empowers students to achieve health literacy.

Standard 4: Communication (HE.S.4)

Effective communication enhances personal, family, and community health. This standard focuses on how responsible individuals use verbal and non-verbal skills to develop and maintain healthy personal relationships. The ability to organize and to convey information and feelings is the basis for strengthening interpersonal interactions and reducing or avoiding conflict.

Standard 5: Decision Making (HE.S.5)

Decision-making skills are needed in order to identify, implement and sustain health enhancing behaviors. This standard includes the essential steps needed to make healthy decisions as prescribed in the performance indicators. When applied to health issues, the decision-making process enables individuals to collaborate with others to improve quality of life.

Standard 6: Goal Setting (HE.S.6)

Goal-setting skills are essential to help students identify, adopt and maintain healthy behaviors. This standard includes the critical steps needed to achieve both short-term and long-term health goals. These skills make it possible for individuals to have aspirations and plans for the future.

Standard 7: Health Behaviors (HE.S.7)

Research confirms that practicing health enhancing behaviors can contribute to a positive quality of life. In addition, many diseases and injuries can be prevented by reducing harmful and risk taking behaviors. This standard promotes accepting personal responsibility for health and encourages the practice of healthy behaviors.

Standard 8: Advocacy (HE.S.8)

Advocacy skills help students promote healthy norms and healthy behaviors. This standard helps students develop important skills to target their health enhancing messages and to encourage others to adopt healthy behaviors.

The Role of Technology

West Virginia’s vision for education includes the integration of technology throughout the curriculum so that all West Virginia students have the opportunity to develop technology skills that support learning and provide the ability to adapt to change. Successful learning environments provide opportunities for students to use education technology interwoven with relevant curricular content. West Virginia teachers are responsible for integrating technology appropriately in the students’ learning environment.

Organization of the Health Education Program of Study

This document is an organized, sequential list of learning standards and objectives closely aligned with the National Standards for Health Education regarding quality health education for middle and high students. A major focus has been given to what the Center for Disease Control recognizes as risk behaviors (tobacco use, dietary patterns contributing to disease, sedentary lifestyle, alcohol and other drug use, and behaviors that result in intentional and unintentional injuries). Teachers and policy-makers can use the health education standards to design curricula, allocate instructional resources, provide a basis for assessing student achievement and progress, and promote a rigorous and challenging health education curriculum.

Fifth Grade Health Content Standards and Objectives

Grade five represents the beginning of an important time in the social, emotional and physical growth of students. Students are assessing future prospects and making important decisions that will shape who they become as adults. Because of these factors, the health education curriculum will focus on promoting positive behaviors as societal norms, critically examining the influence of media, peers and society on individual decisions and actions and improving proficiency and confidence with skills that will enhance health and safety. Students will understand the physical changes occurring during puberty, the relationship of varying growth and development patterns to health and self-acceptance and the role of relationship of varying growth and development patterns of health and self-acceptance, and the role-effects of physical activity and nutrition to on personal health, growth and self-concept. By examining Attitudes toward tobacco, alcohol and other drug non-use, are important and students should recognize the benefits of being drug-free. Respect for individuality and independence are incorporated into the delivery of the fifth grade curriculum. The West Virginia Standards for 21st CenturyNext Generation Learning include the following components: 21st CenturyNext Generation Learning Standards and Objectives and 21st CenturyNext Generation Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates learning skills, technology and objectives.

Grade 5	Health Education			
Standard:2	Culture, Media, and Technology (HE.S.2)			
(HE.S.2)	Students will analyze the influence of family, peers, culture, media, technology and other factors on health behaviors.			
Performance Descriptors HE.S.2				
Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Fifth grade students performing at the distinguished level will analyze and explain: how risk behaviors as seen through the media on TV, movies and video games may influence a student's future behaviors: identify ways how peers, societal norms and the media influence the development of eating disorders; health practices are impacted by cultural differences; peers can influence healthy and unhealthy behaviors; technology can influence personal health; describe how families, schools, and communities support personal health practices and behaviors.	Fifth grade students performing at the above mastery level will give examples of: how risk behaviors as seen through the media on TV, movies and video games may influence a student's future behaviors: identify ways how peers, societal norms and the media influence the development of eating disorders; health practices are impacted by cultural differences; peers can influence healthy and unhealthy behaviors; technology can have and influence personal health; describe how families, schools, and communities can support personal health practices and behaviors.	Fifth grade students performing at the mastery level will: discuss how risk behaviors as seen on TV, movies and video games through the media may influence a student's future behaviors: identify how ways peers, societal norms and the media influence the development of eating disorders; describe how health practices are impacted by cultural differences; discuss how peers can influence healthy and unhealthy behaviors; describe ways technology can have and positive and negative influence personal health; describe how families, schools, and communities can support personal health practices and behaviors.	Fifth grade students performing at the partial mastery level will with practice: discuss how risk behaviors as seen through the media on TV, movies and video games may influence a student's future behaviors: identify ways how peers, societal norms and the media influence the development of eating disorders; describe how health practices are impacted by cultural differences; discuss how peers can influence healthy and unhealthy behaviors; describe ways technology can have and positive and negative influence personal health; describe how families, schools, and communities can support personal health practices and behaviors.	Fifth grade students performing at the novice level with guidance and assistance will: discuss how risk behaviors as seen through the media on TV, movies and video games may influence a student's future behaviors: identify ways how peers, societal norms and the media influence the development of eating disorders; describe how health practices are impacted by cultural differences; discuss how peers can influence healthy and unhealthy behaviors; describe ways technology can have and positive and negative influence personal health; describe how families, schools, and communities can support personal health practices and behaviors.

126CSR44E

Objectives	Students will
HE.5.2.01	discuss how risk behaviors as seen on through the media (e.g., TV, movies, and video games, smart phones) may influence a student's future behaviors (e.g., tobacco and alcohol use , sexual activity, violence, relationships).
HE.5.2.02	identify how ways that peers, societal norms, and the media influence the development of eating disorders.
HE.5.2.03	describe how health practices are impacted by cultural differences (e.g., diet, religion, traditions):
HE.5.2.04	discuss how peers can influence healthy and unhealthy behaviors.
HE.5.2.05	describe ways technology can <u>have a positive and negative influence on</u> personal health.
HE.5.2.06	describe how families, schools, and communities can support personal health practices and behaviors.

Grade 5	Health Education
Standard: 3	Health Information and Services (HE.S.3)
(HE.S.3)	Students will demonstrate the ability to access valid information and products and services to enhance health.

Performance Descriptors HE.S.3	
Distinguished	Novice
Fifth grade students performing at the distinguished level will research and analyze: safety-promoting activities of community agencies; legal and illegal drugs; characteristics of valid health information products and services <u>locate valid health information resources;</u> <u>legal and illegal drugs;</u> and <u>valid health information:</u>	Fifth grade students performing at the novice level will with guidance and assistance: investigate safety-promoting activities of community agencies; identify legal and illegal drugs; identify characteristics of valid health information products and services; <u>locate valid health information resources;</u> <u>identify legal and illegal drugs;</u> and <u>valid health information:</u>
Above Mastery	Partial Mastery
Fifth grade students performing at the above mastery level will explain and give examples of: safety-promoting activities of community agencies; legal and illegal drugs; characteristics of valid health information products and services; <u>locate valid health information resources;</u> <u>legal and illegal drugs;</u> and <u>valid health information:</u>	Fifth grade students performing at the partial mastery level will with practice: investigate safety-promoting activities of community agencies; identify legal and illegal drugs; identify characteristics of valid health information products and services <u>locate valid health information resources;</u> <u>identify legal and illegal drugs;</u> and <u>valid health information:</u>

126CSR44E

Objectives	Students will
HE.5.3.01	investigate activities that community agencies that <u>do to</u> promote safety.
HE.5.3.02	identify legal and illegal drugs (e.g., consider access, purpose, cost, effects on the body).
HE.5.3.03	identify characteristics of valid health information products and services.
HE.5.3.04	locate resources from home, school, and community, and <u>web resources</u> that provide valid health information.

Grade 5	Health Education			
Standard:4	Communication (HE.S.4)			
(HE.S.4)	Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risk.			
Performance Descriptors HE.S.4				
Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Fifth grade students performing at the distinguished level will research and analyze: interpersonal communication skills; positive coping and conflict resolution skills to help manage upset feelings and/or difficult situations; refusal skills to avoid risky behaviors; assertive strategy methods when asking for help in an emergency.	Fifth grade students performing at the above mastery level will explain and give examples of: interpersonal communication skills; positive coping and conflict resolution skills to help manage upset feelings and/or difficult situations; refusal skills to avoid risky behaviors; assertive strategy methods when asking for help in an emergency.	Fifth grade students performing at the mastery level will: identify interpersonal communication skills; demonstrate -positive coping and conflict resolution skills to help manage upset feelings and/or difficult situations; <u>display</u> apply -refusal skills to avoid risky behaviors; <u>demonstrate</u> interoperate -assertive strategy methods when asking for help in an emergency.	Fifth grade students performing at the partial mastery level will with practice: identify interpersonal communication skills; demonstrate -positive coping and conflict resolution skills to help manage upset feelings and/or difficult situations; <u>display</u> apply -refusal skills to avoid risky behaviors; interoperate <u>demonstrate</u> -assertive strategy methods when asking for help in an emergency.	Fifth grade students performing at the novice level will with guidance and assistance: identify interpersonal communication skills; demonstrate positive coping and conflict resolution skills to help manage upset feelings and/or difficult situations; <u>display</u> apply -refusal skills to avoid risky behaviors; interoperate <u>demonstrate</u> assertive strategy methods when asking for help in an emergency.
Objectives	Students will			

126CSR44E

HE.5.4.01	identify effective verbal and non-verbal communication skills (e.g., body language, restating, listening).
HE.5.4.02	use demonstrate positive coping and conflict resolution skills to help manage upset feelings and/or difficult situations.
HE.5.4.03	apply display refusal skills to avoid risky behaviors or situations (e.g., drug use, criminal activity, being alone with a stranger, texting, internet communication);
HE.5.4.04	incorporate demonstrate assertive strategy methods when asking for help in an emergency.

Grade 5	Health Education
Standard: 5	Decision Making (HE.S.5)
(HE.S.5)	Students will demonstrate the ability to use decision-making skills to enhance health.

Performance Descriptors HE.S.5	
Distinguished	Novice
Fifth grade students performing at the distinguished level will analyze and explain health-related situations that require thoughtful decisions; when to ask for assistance; healthy strategies to solving health-related issues or problems; both positive and negative potential outcomes of healthy options to health-related issues when making health-related decisions.	Fifth grade students performing at the novice level will with guidance and assistance: identify health-related situations that require thoughtful decisions; know when to ask for assistance; list healthy strategies to solving health-related issues or problems; predict the both positive and negative potential outcomes of healthy options to health-related issues when making health-related decisions.
Above Mastery	Partial Mastery
Fifth grade students performing at the above mastery level will give examples of: health-related situations that require thoughtful decisions; when to ask for assistance; healthy strategies to solving health-related issues or problems; both the positive and negative potential outcomes of healthy options to health-related issues when making health-related decisions.	Fifth grade students performing at the partial mastery level will with practice: identify health-related situations that require thoughtful decisions; know when to ask for assistance; list healthy strategies to solving health-related issues or problems; predict both the positive and negative potential outcomes of healthy options to health-related issues when making health-related decisions.
Mastery	Mastery
Fifth grade students performing at the mastery level will: identify health-related situations that require thoughtful decisions; know when to ask for assistance; list healthy strategies to solving health-related issues or problems; predict both the positive and negative potential outcomes of healthy options to health-related issues when making health-related decisions.	Fifth grade students performing at the mastery level will: identify health-related situations that require thoughtful decisions; know when to ask for assistance; list healthy strategies to solving health-related issues or problems; predict both the positive and negative potential outcomes of healthy options to health-related issues when making health-related decisions.

Objectives	Students will
HE.5.5.01	identify health-related situations that require thoughtful decisions (e.g., drinking, smoking, weight control).

126CSR44E

HE.5.5.02	know when to ask for assistance (e.g., illness, depression, legal problems, abuse).
HE.5.5.03	list healthy options strategies to solve health-related issues or problems (e.g., diet, weight control, physical activity, dental care).
HE.5.5.04	predict the both positive and negative potential outcomes when making health-related decisions.

Grade 5 Health Education	
Standard:6	Goal Setting (HE.S.6)
(HE.S.6)	Students will demonstrate the ability to use goal-setting skills to enhance health.
Performance Descriptors HE.S.6	
Distinguished	Novice
Fifth grade students performing at the distinguished level will research and develop: a disease prevention plan and strategies; strategies to change an unhealthy behavior; a personal health goal, identify resources to assist goal achievement and track progress toward its achievement; resources to assist in achieving a personal health goal.	Fifth grade students performing at the novice level will with guidance and assistance: describe a disease prevention plan and strategies; identify strategies to change an unhealthy behavior; set a personal health goal, identify resources to assist goal achievement and track progress toward its achievement; identify resources to assist in achieving a personal health goal.
Above Mastery	Partial Mastery
Fifth grade students performing at the above mastery level will describe and explain: a disease prevention plan and strategies; strategies to change an unhealthy behavior; a personal health goal, identify resources to assist goal achievement and track progress toward its achievement; resources to assist in achieving a personal health goal.	Fifth grade students performing at the partial mastery level will with practice: describe a disease prevention plan and strategies; identify strategies to change an unhealthy behavior; set a personal health goal, identify resources to assist goal achievement and track progress toward its achievement; identify resources to assist in achieving a personal health goal.
Mastery	Mastery
Fifth grade students performing at the mastery level will: describe a disease prevention plan and strategies; identify strategies to change an unhealthy behavior; set a personal health goal, identify resources to assist goal achievement and track progress toward its achievement; identify resources to assist in achieving a personal health goal.	Fifth grade students performing at the mastery level will: describe a disease prevention plan and strategies; identify strategies to change an unhealthy behavior; set a personal health goal, identify resources to assist goal achievement and track progress toward its achievement; identify resources to assist in achieving a personal health goal.
Objectives	
HE.5.6.01	Students will describe disease prevention plans and strategies (e.g., diet, exercise, hygiene, habits, universal precautions, medical checkups, immunizations).
HE.5.6.02	identify strategies to change an unhealthy behavior (e.g., smoking, energy balance overeating, nail biting), physical activity).

126CSR44E

HE.5.6.03	set a personal health goal, identify resources to assist in achieving the and goal, and track progress toward its achievement.;
HE.5.6.04	identify resources to assist in achieving a personal health goal.

Grade 5		Health Education	
Standard:7		Health Behaviors (HE.S.7)	
(HE.S.7)		Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.

Sixth Grade Health Content Standards and Objectives

The sixth grade health objectives address many important social, emotional and physical changes of young adolescents-experience. Decision making steps and application are integrated into all topics of discussion as students examine potential long and short term consequences of decisions and their impact on all aspects of health (e.g., mental, emotional, physical). Students critically examine concepts related to personal health and wellness, injury prevention and tobacco use and recognize the impact of positive health decisions on personal goal attainment. Students improve social skills, discuss the impact of peer pressure and distinguish between positive and negative influences in relationships. Students demonstrate abilities to plan physical activity-activities and nutritional practices that-to promotes good health. They and also recognizes the relationship to of body image and weight maintenance. Teaching strategies should provide students with opportunities to work in small groups and express individual opinions. The West Virginia Standards for 21st-CenturyNext Generation Learning include the following components: 21st-CenturyNext Generation Content Standards and Objectives and 21st-CenturyNext Generation Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates learning skills, technology and objectives.

Note: In accordance with West Virginia Code §18-2-9.1,

- the West Virginia Department of Education shall provide a standardized health education assessment to be administered in sixth grade health education classes in order to measure student health knowledge and program effectiveness.
- All public schools must include instruction in any of grades six through twelve in the prevention, transmission and spread of AIDS and other sexually transmitted diseases.
- An opportunity shall be afforded to the parent or guardian of a child subject to instruction in the prevention, transmission and spread of acquired immune deficiency syndrome and other sexually transmitted diseases to examine the course curriculum requirements and materials to be used in such instruction. The parent or guardian may exempt such child from participation in such instruction by giving notice to that effect in writing to the school principal.

Grade 6	Health Education		
Standard:1	Health Promotion and Disease Prevention Objectives (HE.S.1)		
(HE.S.1)	Students will comprehend concepts related to health promotion and disease prevention to enhance health.

	covering coughs, safety, diet, exercise).
HE.6.5.05	compare healthy to unhealthy alternatives when making decisions (e.g., apple: brownie; exercise non-sedentary: sedentary: leaf; smoke tobacco; don't smoke no tobacco).
HE.6.5.06	list the steps of the decision-making process to solve problems.

Grade 6	Health Education		
Standard:6	Goal Setting (HE.S.6)		
(HE.S.6)	Students will demonstrate the ability to use goal-setting skills to enhance health.		

Performance Descriptors HE.S.6			
Distinguished	Above Mastery	Mastery	Partial Mastery
Sixth grade students performing at the distinguished level will analyze and evaluate: personal health practices; how the goal setting process is important in designing strategies to quit risky behaviors; how to create a personal health goal and track it sits progress toward achievement; how personal health goals and practices can change.	Sixth grade students performing at the above mastery level will explain: personal health practices; how the goal setting process is important in designing strategies to quit risky behaviors; how to create a personal health goal and track it s its progress toward achievement; how personal health goals and practices can change.	Sixth grade students performing at the mastery level will: list personal health practices; explain how the goal setting process is important in designing strategies to quit risky behaviors; select a personal health goal and track it s its progress toward achievement; describe how personal health goals and practices can change.	Sixth grade students performing at the partial mastery level will with encouragement: list personal health practices; explain how the goal setting process is important in designing strategies to quit risky behaviors; select a personal health goal and track it s its progress toward achievement; describe how personal health goals and practices can change
Novice	Sixth grade students performing at the novice level will with guidance and assistance: list personal health practices; explain how the goal setting process is important in designing strategies to quit risky behaviors; select a personal health goal and track it s- itsprogress toward achievement; describe how personal health goals and practices can change		
Objectives	Students will		
HE.6.6.01	list personal health practices (e.g., exercise, proper rest, diet, doctor/dental appointments).		
HE.6.6.02	explain how the goal setting process is important in designing strategies to avoid risky behaviors (e.g., tobacco use, alcohol consumption, drug usealcohol, tobacco, and other drugs, sexual activity).		
HE.6.6.03	select a personal health goal and track it sits progress toward achievement (e.g., nutritional goals, fitness goals).		

126CSR44E

HE.6.6.04	describe how personal health goals and practices can change (i.e., maturity, peer influences, environment).				
Grade 6	Health Education				
Standard:7	Health Behaviors (HE.S.7)				
(HE.S.7)	Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.				
Performance Descriptors HE.S.7					
Distinguished	Above Mastery	Mastery	Partial Mastery	Novice	
Sixth grade students performing at the distinguished level will analyze and evaluate: safe and risky behaviors in relationships; differences between safe and risky behaviors for preventing pregnancy and STDs; protective behaviors used to avoid and reduce threatening situations; signs and strategies that can be used to reduce stress, anxiety and depression; discuss good health practices to improve personal and family health.	Sixth grade students performing at the above mastery level will analyze safe and risky behaviors in relationships; differences between safe and risky behaviors for preventing pregnancy and STDs; protective behaviors used to avoid and reduce threatening situations; signs and strategies that can be used to reduce stress, anxiety and depression; discuss good health practices to improve personal and family health.	Sixth grade students performing at the mastery level will: differentiate between safe and risky behaviors in relationships; contrast the differences between safe and risky behaviors for preventing pregnancy and STDs; list protective behaviors used to avoid and reduce threatening situations; exhibit signs and strategies that can be used to reduce stress, anxiety and depression; discuss good health practices to improve personal and family health.	Sixth grade students performing at the partial mastery level will with encouragement: differentiate between safe and risky behaviors in relationships; contrast the differences between safe and risky behaviors for preventing pregnancy and STDs; list protective behaviors used to avoid and reduce threatening situations; exhibit signs and strategies that can be used to reduce stress, anxiety and depression; discuss good health practices to improve personal and family health.	Sixth grade students performing at the novice level will with guidance and assistance: differentiate between safe and risky behaviors in relationships; contrast the differences between safe and risky behaviors for preventing pregnancy and STDs; list protective behaviors used to avoid and reduce threatening situations; exhibit signs and strategies that can be used to reduce stress, anxiety and depression; discuss good health practices to improve personal and family health.	
Objectives	Students will				
HE.6.7.01	differentiate between safe and risky behaviors in relationships (e.g., abuse, date rape, peer pressure, sexual activity).				
HE.6.7.02	contrast the differences between safe and risky behaviors for preventing pregnancy and STDs (e.g., abstinence, birth control, drug use).				

126CSR44E

HE.6.7.03	list protective behaviors used to avoid and reduce threatening situations (e.g., be with a group, confide in parents or teachers).
HE.6.7.04	exhibit identify signs and strategies that can be used to reduce stress, anxiety and depression.
HE.6.7.05	discuss good health practices to improve personal and family health (e.g., hygiene, nutrition, food preparation).

Grade 6	Health Education		
Standard:8	Advocacy (HE.S.7)		
(HE.S.7)	Students will demonstrate the ability to advocate for personal, family, and community health.		

Performance Descriptors HE.S.7

Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Sixth grade students performing at the distinguished level will analyze and evaluate how to: work cooperatively to advocate for healthy individuals, families, and schools; discuss ways that health messages and communication techniques can be altered depending on their audiences; influence others to make positive health choices.	Sixth grade students performing at the above mastery level will demonstrate and explain how to: work cooperatively to advocate for healthy individuals, families, and schools; discuss ways that health messages and communication techniques can be altered depending on their audiences; influence others to make positive health choices.	Sixth grade students performing at the mastery level will: work cooperatively to advocate for healthy individuals, families, and schools; discuss ways that health messages and communication techniques can be altered depending on their audiences; explain how to influence others to make positive health choices.	Sixth grade students performing at the partial mastery level will with encouragement: work cooperatively to advocate for healthy individuals, families, and schools; discuss ways that health messages and communication techniques can be altered depending on their audiences; explain how to influence others to make positive health choices.	Sixth grade students performing at the novice level will with guidance and assistance: work cooperatively to advocate for healthy individuals, families, and schools; discuss ways that health messages and communication techniques can be altered depending on their audiences; explain how to influence others to make positive health choices.
Objectives	Students will			
HE.6.8.01	work cooperatively to advocate for healthy individuals, families, and schools (i.e., blog, portfolio, school newspaper)			
HE.6.8.02	discuss ways that health messages and communication techniques can be altered depending on their audiences (i.e., tots, pre-teens, teens, adults, senior citizens,).			
HE.6.8.03	explain how to influence others to make positive health choices (e.g., by example, encouragement, positive messages).			

126CSR44E

Seventh Grade Health Content Standards and Objectives

Skills practice, improvement and application in stress management, positive communication skills, conflict resolution, decision making and refusal skills provide the potential for guiding seventh graders through one of the most difficult developmental periods and for helping students distinguish between normal transitional behaviors that are developmentally enhancing and those behaviors that can be risky or lead to unforeseen consequences. Drug, alcohol and pregnancy prevention should focus on correcting erroneous perceptions of the prevalence and acceptability of behaviors, establishing ~~enforceable~~ safe, health enhancing group norms and establishing or reinforcing perceived personal susceptibility to the consequences of risk-taking behavior. Students demonstrate responsible personal health choices and competence with skills for developing positive relationships. Students investigate the relationship of personal diet and physical activity to good health and disease prevention. Multiple teaching strategies and activities enhance the student's experience and perceived relevance of health education. Students learn to access and use available information and services to enhance and advocate for health. The West Virginia Standards for 21st ~~Century~~ Next Generation Learning include the following components: 21st ~~Century~~ Next Generation Content Standards and Objectives and 21st ~~Century~~ Next Generation Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates learning skills, technology and objectives.

Note: In accordance with West Virginia Code §18-2-9:

- the West Virginia Department of Education shall provide a standardized health education assessment to be administered in sixth grade health education classes in order to measure student health knowledge and program effectiveness.
- All public schools must include instruction in any of grades six through twelve in the prevention, transmission and spread of AIDS and other sexually transmitted diseases.
- An opportunity shall be afforded to the parent or guardian of a child subject to instruction in the prevention, transmission and spread of acquired immune deficiency syndrome and other sexually transmitted diseases to examine the course curriculum requirements and materials to be used in such instruction. The parent or guardian may exempt such child from participation in such instruction by giving notice to that effect in writing to the school principal.

Grade 7		Health Education	
Standard:2		Culture, Media and Technology (HE.S.2)	
(HE.S.2)		Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.	
Performance Descriptors HE.S.2			
Distinguished	Above Mastery	Mastery	Novice
Seventh grade students performing at the distinguished level will analyze and evaluate: the influence of cultural beliefs on health behaviors; how messages from the media can influence health behaviors; the impact of bullying and identify necessary coping skills; recognize the importance of respecting individual differences; media messages about alcohol, tobacco, and other drugs; the influence that advertisers have on consumer choices; how peers, schools, and communities can impact personal health practices and behaviors; the influence of the family on the health of adolescents.	Seventh grade students performing at the above mastery level will analyze and give examples of: the influence of cultural beliefs on health behaviors; how messages from the media can influence health behaviors; the impact of bullying and identify necessary coping skills; recognize the importance of respecting individual differences; media messages about alcohol, tobacco, and other drugs; the influence that advertisers have on consumer choices; how peers, schools, and communities can impact personal health practices and behaviors; the influence of the family on the health of adolescents.	Seventh grade students performing at the mastery level will: compare and contrast the influence of cultural beliefs on health behaviors; debate how messages from the media can influence health behaviors; describe the impact of bullying and identify necessary coping skills; recognize the importance of respecting individual differences; analyze media messages about alcohol, tobacco, and other drugs; analyze the influence that advertisers have on consumer choices; evaluate how peers, schools, and communities can impact personal health practices and behaviors; examine the influence of the family on the health of adolescents.	Seventh grade students performing at the novice level will with guidance and assistance: compare and contrast the influence of cultural beliefs on health behaviors; debate how messages from the media can influence health behaviors; describe the impact of bullying and identify necessary coping skills; recognize the importance of respecting individual differences; analyze media messages about alcohol, tobacco, and other drugs; analyze the influence that advertisers have on consumer choices; evaluate how peers, schools, and communities can impact personal health practices and behaviors; examine the influence of the family on the health of

126CSR44E

		adolescents.	adolescents.
Objectives	Students will		
HE.7.2.01	compare and contrast the influence of cultural beliefs on health behaviors (e.g., nutrition, hygiene, medical treatment, ATOD alcohol, tobacco, and other drugs-use).		
HE.7.2.02	debate how messages from the media can influence health behaviors (e.g., advertising techniques).		
HE.7.2.03	describe the impact of bullying (e.g., physical, verbal, cyber) and identify necessary coping skills.:		
HE.7.2.04	recognize the importance of respecting individual differences (e.g., race, religion, size, age, sex).		
HE.7.2.05	analyze media messages about alcohol, tobacco, and other alcohol, tobacco, and other drugs drugs (e.g., "beer" and other alcoholic beverage commercials, medication prescription and OTC drugs).		
HE.7.2.06	analyze the influence that advertisers have on consumer choices (e.g., tobacco and alcohol use, clothing styles, makeup).		
HE.7.2.07	evaluate how peers, schools, and communities can impact personal health practices and behaviors (e.g., PTA, scouting and other youth organizations).		
HE.7.2.08	examine the influence of the family on the health of adolescents (e.g., smoking, drinking, drug use, meal plans).		

Grade 7	Health Education		
Standard:3	Health Information and Services (HE.S.3)		
(HE.S.3)	Students will demonstrate the ability to access valid health information and products and services to enhance health.		
Performance Descriptors HE.S.3			
Distinguished	Above Mastery	Mastery	Partial Mastery
Seventh grade students performing at the distinguished level will analyze and evaluate: the costs of health information, products and services; valid health information found in the home, school, and community; the accessibility of products that enhance health;	Seventh grade students performing at the above mastery level will analyze and give examples of: the costs of health information, products and services; valid health information found in the home, school, and community; the accessibility of products that enhance health;	Seventh grade students performing at the mastery level will: evaluate the costs of health information, products and services; recognize valid health information found in the home, school, and community; appraise the accessibility of products that enhance health; list situations that require	Seventh grade students performing at the novice level will with guidance and assistance: evaluate the costs of health information, products and services; recognize valid health information found in the home, school, and community; appraise the accessibility of products that enhance health; list

healthy and unhealthy alternatives when making decisions.	healthy and unhealthy alternatives when making decisions.	between healthy and unhealthy alternatives when making decisions.	problem; differentiate between healthy and unhealthy alternatives when making decisions.
Objectives	Students will		
HE.7.5.01	apply the USDA Dietary Guidelines and Food Pyramid-in meal planning.		
HE.7.5.02	discuss the consequences of poor nutritional choices (e.g., eating disorders) for self and others (e.g., families, babies).		
HE.7.5.03	illustrate situations and practice skills requiring decisions with alcohol, tobacco and other drugs.		
HE.7.5.04	apply the steps of a decision-making process to solve a problem.		
HE.7.5.05	differentiate between healthy and unhealthy alternatives when making decisions.		

Grade 7 Health Education

Standard:6 Goal Setting (HE.S.6)

(HE.S.6) Students will demonstrate the ability to use goal-setting skills to enhance health.

Performance Descriptors HE.S.5

Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Seventh grade students performing at the distinguished level will analyze and evaluate: personal health practices; how the goal setting process is important when planning future events; the-develop a personal health goal; how time may change personal health goals.	Seventh grade students performing at the above mastery level will analyze and give examples of: personal health practices; how the goal setting process is important when planning future events; the develop a personal health goal; how time may change personal health goals.	Seventh grade students performing at the mastery level will: develop personal health practices; explain how the goal setting process is important when planning future events; create and develop a personal health goal; discuss how time may change personal health goals.	Seventh grade students performing at the partial mastery level will with encouragement: develop personal health practices; explain how the goal setting process is important when planning future events; create and develop a personal health goal; discuss how time may change personal health goals.	Seventh grade students performing at the novice level will with guidance and assistance: develop personal health practices; explain how the goal setting process is important when planning future events; create and develop a personal health goal; discuss how time may change personal health goals.

Objectives	Students will			
HE.7.6.01	develop a personal health plan to address strengths, weaknesses and health risks.practees-(e.g., diet, exercise, sleep,			

126CSR44E

	relationships, drug-free).
HE.7.6.02	explain how the goal setting process is important when planning future events (e.g., college, marriage, job).
HE.7.6.03	create and develop a personal health goal.
HE.7.6.04	discuss how time may change personal health goals. (e.g., change of schools, getting older, new interests, family alteration)

Grade 7	Health Education
Standard: 7	Health Behaviors (HE.S.7)
(HE.S.7)	Students will demonstrate the ability to practice health-enhancing behaviors and avoid or reduce health risks.

Performance Descriptors HE.S.7

Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Seventh grade students performing at the distinguished level will analyze and evaluate: safe and risky or harmful behaviors in relationships; the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; protective behaviors used to avoid and reduce threatening situations; signs of and strategies to reduce stress, anxiety and depression; good health practices to improve personal and family health.	Seventh grade students performing at the above mastery level will analyze and give examples of: safe and risky or harmful behaviors in relationships; the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; protective behaviors used to avoid and reduce threatening situations; signs of and strategies to reduce stress, anxiety and depression; good health practices to improve personal and family health.	Seventh grade students performing at the mastery level will: distinguish between safe and risky or harmful behaviors in relationships; analyze the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; dramatize protective behaviors used to avoid and reduce threatening situations; identify signs of and strategies to reduce stress, anxiety and depression; establish good health practices to improve personal and family health.	Seventh grade students performing at the partial mastery level will with encouragement: distinguish between safe and risky or harmful behaviors in relationships; analyze the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; dramatize protective behaviors used to avoid and reduce threatening situations; identify signs of and strategies to reduce stress, anxiety and depression; establish good health practices to improve personal and family health.	Seventh grade students performing at the novice level will with guidance and assistance: distinguish between safe and risky or harmful behaviors in relationships; analyze the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; dramatize protective behaviors used to avoid and reduce threatening situations; identify signs of and strategies to reduce stress, anxiety and depression; establish good health practices to improve personal and family health.

126CSR44E

		health.	health.
Objectives	Students will		
HE.7.7.01	Discuss risky or harmful behaviors that may occur in relationships (e.g., abuse, date rape, sexual activity).		
HE.7.7.02	analyze the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs, including HIV/AIDS and HBV (e.g., abstinence, birth control, disease control).		
HE.7.7.03	dramatize protective behaviors used to avoid and reduce threatening situations (e.g., anger, bullying, harassment).		
HE.7.7.04	identify strategies to reduce stress, anxiety and depression.		
HE.7.7.05	establish good health practices to improve personal and family health (e.g., hygiene, nutrition, food preparation).		

Grade 7	Health Education		
Standard:8	Advocacy (HE.S.8)		
(HE.S.8)	Students will demonstrate the ability to advocate for personal, family, and community health.		

Performance Descriptors HE.S.8			
Distinguished	Above Mastery	Mastery	Partial Mastery
Seventh grade students performing at the distinguished level will analyze and evaluate how to: work cooperatively with their family to advocate for healthy lifestyles; examine methods to alter health messages and communication techniques for different audiences; influence others to make positive health choices.	Seventh grade students performing at the above mastery level will explain how to: work cooperatively with their family to advocate for healthy lifestyles; examine methods to alter health messages and communication techniques for different audiences; influence others to make positive health choices.	Seventh grade students performing at the mastery level will: work cooperatively with their family to advocate for healthy lifestyles; examine methods to alter health messages and communication techniques for different audiences; demonstrate how to influence others to make positive health choices.	Seventh grade students performing at the partial mastery level will with encouragement: work cooperatively with their family to advocate for healthy lifestyles; examine methods to alter health messages and communication techniques for different audiences; demonstrate how to influence others to make positive health choices.
Novice	Seventh grade students performing at the novice level will with guidance and assistance: work cooperatively with their family to advocate for healthy lifestyles; examine methods to alter health messages and communication techniques for different audiences; demonstrate how to influence others to make positive health choices.		

Objectives	Students will		
HE.7.8.01	advocate to their family to work cooperatively for healthy lifestyles (e.g., exercise together, diet plans, food preparation,		

126CSR44E

	spend time together).
HE.7.8.02	examine methods how communication techniques are altered for different audiences.
HE.7.8.03	explain why making positive health choices will influence others.

Eighth Grade Health Content Standards and Objectives

The eighth grade health education objectives provide opportunities for students to practice ~~using~~ decision making, communication skills and goal setting in role-played or simulated situations that outline the importance of taking responsibility for individual actions. Consequences of poor decisions are examined closely in relationship to a variety of important risks and strategies to enhance personal health and wellness. Students examine violence prevention and develop strategies to promote safety ~~among~~ for themselves and others. Discussion of the negative consequences of drug, alcohol, and tobacco use and sexual activity are important components of the eighth grade health education curriculum. Multiple teaching strategies and activities enhance the student's experience and perceived relevance of health education. Students learn to access, use, critically evaluate and apply health information and services. The West Virginia Standards for ~~21st-Century~~ Next Generation Learning include the following components: ~~21st-Century~~ Next Generation Content Standards and Objectives and ~~21st-Century~~ Next Generation Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates learning skills, technology and objectives.

Note: In accordance with West Virginia Code §18-2-9:

- the West Virginia Department of Education shall provide a standardized health education assessment to be administered in sixth grade health education classes in order to measure student health knowledge and program effectiveness.
- All public schools must include instruction in any of grades six through twelve in the prevention, transmission and spread of AIDS and other sexually transmitted diseases.
- An opportunity shall be afforded to the parent or guardian of a child subject to instruction in the prevention, transmission and spread of acquired immune deficiency syndrome and other sexually transmitted diseases to examine the course curriculum requirements and materials to be used in such instruction. The parent or guardian may exempt such child from participation in such instruction by giving notice to that effect in writing to the school principal.

Objectives	Students will			
HE.8.1.01	apply sound nutritional principles to healthy food choices (e.g., menu preparation, nutrition labels).			
HE.8.1.02	analyze the effects of risky behaviors on body systems and wellness (e.g., substance abuse, eating disorders).			
HE.8.1.03	label and explain the functions of the bodies systems (e.g., circulatory, skeletal, reproductive, digestive).			
HE.8.1.04	determine the risk factors that lead to teen pregnancy, HIV/AIDS, and other sexually transmitted diseases.			
HE.8.1.05	demonstrate first aid procedures (e.g., CPR, control bleeding, airway obstructions, fractures).			
HE.8.1.06	list and explain the components of total wellness (e.i., emotional, intellectual, physical, social, and spiritual).			
HE.8.1.07	recognize behaviors that protect and keep the male and female reproductive systems healthy.			

Grade 8	Health Education
Standard.2	Culture, Media and Technology (HE.S.2)
(HE.S.2)	Students will analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors.

126CSR44E

Performance Descriptors HE.S.2

Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
<p>Eighth grade students performing at the distinguished level will analyze and evaluate: how culture influences decision on health behaviors; how the use of technology can help and hurt our health; how bullying can negatively affect one's life; the importance of respecting individual differences; critique methods of advertising focused on health information, products and services; the influence advertisers have on consumer choices; why peers, schools, and communities impact personal health practices and behaviors.</p>	<p>Eighth grade students performing at the above mastery level will analyze and give examples of: how culture influences decision on health behaviors; how the use of technology can help and hurt our health; how bullying can negatively affect one's life; the importance of respecting individual differences; critique methods of advertising focused on health information, products and services; the influence advertisers have on consumer choices; why peers, schools, and communities impact personal health practices and behaviors.</p>	<p>Eighth grade students performing at the mastery level will: distinguish how culture influences decision on health behaviors; debate how the use of technology can help and hurt our health; describe how bullying can negatively affect one's life; defend the importance of respecting individual differences; critique methods of advertising focused on health information, products and services; examine the influence advertisers have on consumer choices; explain why peers, schools, and communities impact personal health practices and behaviors.</p>	<p>Eighth grade students performing at the partial mastery level will with encouragement: distinguish how culture influences decision on health behaviors; debate how the use of technology can help and hurt our health; describe how bullying can negatively affect one's life; defend the importance of respecting individual differences; critique methods of advertising focused on health information, products and services; examine the influence advertisers have on consumer choices; explain why peers, schools, and communities impact personal health practices and behaviors.</p>	<p>Eighth grade students performing at the novice level will with guidance and assistance: distinguish how culture influences decision on health behaviors; debate how the use of technology can help and hurt our health; describe how bullying can negatively affect one's life; defend the importance of respecting individual differences; critique methods of advertising focused on health information, products and services; examine the influence advertisers have on consumer choices; explain why peers, schools, and communities impact personal health practices and behaviors.</p>

Objectives	Students will
HE.8.2.01	distinguish <u>identify</u> <u>culture-cultural influences</u> <u>decision on health behaviors</u> <u>behaviors</u> -(e.g., nutrition, hygiene, relationships, medical, drug use).
HE.8.2.02	debate <u>how</u> <u>discuss</u> the use of technology <u>can help and hurt</u> and its positive and negative effects on <u>our health</u> (e.g., video games, computers, cell phones, medical advances)

126CSR44E

HE.8.2.03	describe how bullying can negatively affect one's life (low esteem, antisocial behavior).
HE.8.2.04	defend the importance of respecting individual differences.
HE.8.2.05	critique methods of advertising focused on health information, products and services.
HE.8.2.06	examine the influence list methods that advertisers have <u>use to influence</u> on consumer choices (e.g., brand names, medicines, alcohol use).
HE.8.2.07	explain why <u>how</u> peers, schools, and communities impact personal health practices and behaviors.

Grade 8 Health Education			
Standard: 3 Health Information and Services (HE.S.3)			
Students will demonstrate the ability to access valid information and products and services to enhance health.			
Performance Descriptors HE.S.2			
Distinguished	Above Mastery	Mastery	Partial Mastery
Eighth grade students performing at the distinguished level will analyze, evaluate, and report: how health information, products and services are financed; health information from home, school, and community that is reliable; products that are advertised to enhance health; occasions that require professional health agencies; medical care and cost; myths, misinformation and stereotyping associated with health services.	Eighth grade students performing at the above mastery level will analyze and give examples of: how health information, products and services are financed; health information from home, school, and community that is reliable; products that are advertised to enhance health; occasions that require professional health agencies; medical care and cost; myths, misinformation and stereotyping associated with health services.	Eighth grade students performing at the mastery level will: investigate how health information, products and services are financed; evaluate if health information from home, school, and community is reliable; list and analyze products that are advertised to enhance health; list occasions that require professional health agencies; evaluate medical care and cost; research myths, misinformation and stereotyping associated with health services.	Eighth grade students performing at the novice level will with guidance and assistance: investigate how health information, products and services are financed; evaluate if health information from home, school, and community is reliable; list and analyze products that are advertised to enhance health; list occasions that require professional health agencies; evaluate medical care and cost; research myths, misinformation and stereotyping associated

126CSR44E

		with health services.	with health services.
Objectives	Students will		
HE.8.3.01	investigate how health information, products and services are financed (e.g., government, consumers, trusts).		
HE.8.3.02	evaluate if health information from home, school, and community is reliable (e.g., source, purpose).		
HE.8.3.03	list and analyze products that are advertised to enhance health (e.g., vitamins, supplements).		
HE.8.3.04	list occasions that require professional health agencies (e.g., illness, accidents, education).		
HE.8.3.05	evaluate medical care and cost (e.g., doctor fees, hospital costs, medicine, Medicare/Medicaid).		
HE.8.3.06	research myths, misinformation and stereotyping associated with health services (e.g., quackery, medical fraud).		

Grade 8	Health Education		
Standard: 4	Communication (HE.S.4)		
(HE.S.4)	Students will demonstrate the ability to use interpersonal communication skills to enhance health.

Grade 8 Health Education				
Standard:6 Goal Setting and Decision Making (HE.S.6)				
(HE.S.6) Students will demonstrate the ability to use goal-setting skills to enhance health.				
Performance Descriptors HE.S.6				
Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Eighth grade students performing at the distinguished level will analyze and evaluate: personal health practices; how the goal setting process is important in designing strategies to quit using tobacco and other risking behaviors; a personal health goal and also track progress toward its achievement; how personal health goals and practices can vary as priorities change.	Eighth grade students performing at the above mastery level will analyze and give examples of: personal health practices; how the goal setting process is important in designing strategies to quit using tobacco and other risking behaviors; a personal health goal and also track progress toward its achievement; how personal health goals and practices can vary as priorities change.	Eighth grade students performing at the mastery level will: assess personal health practices; compare and contrast how the goal setting process is important in designing strategies to quit using tobacco and other risking behaviors; design a personal health goal and track progress toward its achievement; determine how personal health goals and practices can vary as priorities change.	Eighth grade students performing at the partial mastery level will with encouragement: assess personal health practices; compare and contrast how the goal setting process is important in designing strategies to quit using tobacco and other risking behaviors; design a personal health goal and track progress toward its achievement; determine how personal health goals and practices can vary as priorities change.	Eighth grade students performing at the novice level will with guidance and assistance: assess personal health practices; compare and contrast how the goal setting process is important in designing strategies to quit using tobacco and other risking behaviors; design a personal health goal and track progress toward its achievement; determine how personal health goals and practices can vary as priorities change.
Objectives	Students will			
HE.8.6.01	assess personal health practices (e.g., safety, diet, exercise, sleep, alcohol, tobacco, and other drugs/AFOD).			
HE.8.6.02	compare and contrast <u>how</u> discuss <u>the importance of</u> the goal setting process is important -in designing strategies to quit using tobacco and other risking - <u>risky</u> behaviors.			
HE.8.6.03	design a personal health goal and track progress toward its achievement (e.g., exercise, weight control, dental care).			
HE.8.6.04	determine how personal health goals and practices can vary as priorities change- (e.g., family illness, death of close friend, personal tragedy, maturity)			

126CSR44E

Grade 8	Health Education			
Standard: 7	Health Behaviors (HE.S.7)			
(HE.S.7)	Students will demonstrate the ability to practice health-enhancing behaviors and reduce health risks.			
Performance Descriptors HE.S.7				
Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
Eighth grade students at the distinguished level will: analyze and evaluate: safe and risky or harmful behaviors in relationships; the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; protective behaviors used to avoid and reduce threatening situations; strategies to reduce stress, anxiety and depression; create good health practices to improve personal and family health; safety guidelines for preventing intentional and unintentional injuries.	Eighth grade students at the above mastery level will analyze and give examples of: safe and risky or harmful behaviors in relationships; the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; protective behaviors used to avoid and reduce threatening situations; strategies to reduce stress, anxiety and depression; create good health practices to improve personal and family health; safety guidelines for preventing intentional and unintentional injuries.	Eighth grade students at the mastery level will: distinguish between safe and risky or harmful behaviors in relationships; contrast the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; explain protective behaviors used to avoid and reduce threatening situations; design strategies to reduce stress, anxiety and depression; create good health practices to improve personal and family health; describe safety guidelines for preventing intentional and unintentional injuries.	Eighth grade students performing at the partial mastery level will with encouragement: distinguish between safe and risky or harmful behaviors in relationships; contrast the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; explain protective behaviors used to avoid and reduce threatening situations; design strategies to reduce stress, anxiety and depression; create good health practices to improve personal and family health; describe safety guidelines for preventing intentional and unintentional injuries.	Eighth grade students performing at the novice level will with guidance and assistance: distinguish between safe and risky or harmful behaviors in relationships; contrast the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs; explain protective behaviors used to avoid and reduce threatening situations; design strategies to reduce stress, anxiety and depression; create good health practices to improve personal and family health; describe safety guidelines for preventing intentional and unintentional injuries.
Objectives	Students will			
HE.8.7.01	distinguish between safe and risky or harmful behaviors in relationships (e.g., abuse, date rape, peer pressure, suicide,			

126CSR44E

	gang membership, anger, depression, anxiety).
HE.8.7.02	contrast-examine the differences between safe and risky behaviors, including methods for preventing pregnancy and STDs (e.g., abstinence, birth control).
HE.8.7.03	explain protective behaviors used to avoid and reduce threatening situations (e.g., anger, bullying, harassment, gang membership, eating disorders).
HE.8.7.04	design strategies to reduce stress, anxiety and depression.
HE.8.7.05	create good health practices to improve personal and family health (e.g., hygiene, nutrition, food preparation, family time).
HE.8.7.06	describe safety guidelines for preventing intentional and unintentional injuries (e.g., pedestrian, motor vehicle, bicycle, ATV, safety).

Grade 8 Health Education

Standard:8 Advocacy (HE.S.8)

(HE.S.8) Students will demonstrate the ability to advocate for personal, family, and community health.

Performance Descriptors HE.S.8

legislation to protect and promote personal safety and health; explaining the need for legislation to protect and promote personal safety and health; recognizing and promoting environmental practices that will preserve natural resources for personal and community health.	legislation to protect and promote personal safety and health; explaining the need for legislation to protect and promote personal safety and health; recognizing and promoting environmental practices that will preserve natural resources for personal and community health.	safety and health; explain the need for legislation to protect and promote personal safety and health; recognize and promote environmental practices that will preserve natural resources for personal and community health.	and promote personal safety and health; explain the need for legislation to protect and promote personal safety and health; recognize and promote environmental practices that will preserve natural resources for personal and community health.	safety and health; explain the need for legislation to protect and promote personal safety and health; recognize and promote environmental practices that will preserve natural resources for personal and community health.
Objectives	Students will			
HE.8.8.01	work cooperatively to advocate for healthy individuals, families, communities, and schools (e.g., health organizations, local health fairs).			
HE.8.8.02	generate-identify ways that-in which health messages and communication techniques can be altered for different audiences (e.g., age, gender, life experiences).			
HE.8.8.03	explain how to influence encourage others to make positive health choices (e.g., by example, making positive choices).			
HE.8.8.04	explain the need for legislation to protect and promote personal safety and health (traffic laws, health departments).			
HE.8.8.05	recognize and promote environmental practices that will preserve natural resources for personal and community health.			

High School Health Content Standards and Objectives

This program of study builds on the foundation established in the K-8 health education curriculum and prepares students to become wise health care consumers and responsible, productive citizens. The relationships among personal, community and world health and economic, cultural, sociological, biological, and environmental factors are examined in interdisciplinary discussions, debates, and class projects. Students examine personal health choices and the connection to the world of work and assumption of adult roles. In-depth analysis of current health issues and concepts coupled with school-wide opportunities that promote and reinforce the importance of good health and positive choices need to be coordinated to have the greatest impact on adolescent behavior. Instruction continues to focus on prevention of all risk behaviors, however, instruction must also emphasize limiting the negative consequences of high-risk behavior and promote values and norms that are age-appropriate and realistic. Students should have a personal perception of risk, the ability to recognize and resist social pressures and the skills to build positive social relationships. The West Virginia Standards for 21st Century Next Generation Learning include the following components: 21st Century Next Generation Content Standards and Objectives and 21st Century Next Generation Learning Skills and Technology Tools. All West Virginia teachers are responsible for classroom instruction that integrates learning skills, technology and objectives.

Note: In accordance with West Virginia Code §18-2-9.:

- the West Virginia Department of Education shall provide a standardized health education assessment to be administered in sixth grade health education classes in order to measure student health knowledge and program effectiveness.
- All public schools must include instruction in any of grades six through twelve in the prevention, transmission and spread of AIDS and other sexually transmitted diseases.
- An opportunity shall be afforded to the parent or guardian of a child subject to instruction in the prevention, transmission and spread of acquired immune deficiency syndrome and other sexually transmitted diseases to examine the course curriculum requirements and materials to be used in such instruction. The parent or guardian may exempt such child from participation in such instruction by giving notice to that effect in writing to the school principal.
- In accordance with West Virginia Code § 18-2-7, County Boards of Education must make available cardiopulmonary resuscitation instruction programs to all students prior to high school graduation and cardiopulmonary resuscitation techniques must be included in health education content standards and objectives (see: HE HS.7.08).

Grade HS	Health Education
Standard:1	Health Promotion and Disease Prevention Objectives (HE.S.1)
(HE.S.1)	Students will comprehend concepts related to health promotion and disease prevention to enhance health.
Performance Descriptors HE.S.1

Objectives	Students will
HE.HS.2.01	recognize cultural diversities and their influences on health behaviors (e.g., alcohol, tobacco, and other drugs) ATOD , life

126CSR44E

	expectancy, risky behaviors).
HE.HS.2.02	evaluate how media perspectives of health impact on -personal, family and community health (e.g., books, magazines, newspaper, radio, TV, internet, cell phones, social networks).
HE.HS.2.03	explore technology (e.g., exercise equipment, virtual reality, computers, computerized equipment, <u>smart phones</u>) and its influence on personal, family, and community health.
HE.HS.2.04	identify factors in the community that influence health (e.g., schools, religion, traditions, socio-economic <u>factors</u> , geography, values).
HE.HS.2.05	analyze how -ways <u>peers</u> influence healthy and unhealthy behaviors (e.g., positive and negative peer pressure).

Grade HS	Health Education
Standard: 3	Health Information and Services (HE.S.3)
(HE.S.3)	Students will demonstrate the ability to access valid information and products and services to enhance health.

Performance Descriptors HE.S.3			
Distinguished	Above Mastery	Mastery	Partial Mastery
High school students performing at the distinguished level will: locate, utilize and evaluate health services; and analyze factors that influence personal choices on health promotion products and services; create a <u>cost</u> assessment of health care for individuals and families.:-	High school students performing at the above mastery level will: locate and utilize health services; and identify factors that influence personal choices on health promotion products and services; <u>analyze and explain the cost of health care for individuals and families.:-</u>	High school students performing at the mastery level will: locate health services; and list factors that influence personal choices on health promotion products and services; <u>analyze the cost and accessibility of health care for individuals and families.:-</u>	High school students performing at the novice level will with guidance and assistance: locate health services; and list factors that influence personal choices on health promotion products and services; <u>analyze the cost and accessibility of health care for individuals and families.:-</u>
Objectives	Students will		
HE.HS.3.01	identify and evaluate the validity of health information, products and services (e.g., books, magazine advertisements, infomercials/TV, internet, newspaper advertisements, billboards, radio).		
HE.HS.3.02	identify the factors that influence personal choices on health promoting products based on current information (e.g.,		

126CSR44E

	quackery, food labels, media, peers, family).
HE.HS.3.03	locate and utilize resources to identify health care services advantages that provide for optimal health care (e.g., speakers, hotlines, internet, yellow pages).
HE.HS.3.04	analyze the cost and accessibility of health care for individuals and families.

Grade HS	Health Education		
Standard:4	Communication (HE.S.4)		
(HE.S.4)	Students will demonstrate the ability to use interpersonal communication skills to enhance health and avoid or reduce health risks.		

Performance Descriptors HE.S.4

Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
High school students performing at the distinguished level will: implement the skills outlined in the peer mediation/ conflict resolution models; and demonstrate appropriate ways to express feelings in a variety of situations.	High school students performing at the above mastery level will: employ the skills outlined in the peer mediation/ conflict resolution models; and describe and exhibit appropriate ways to express feelings in a variety of situations.	High school students performing at the mastery level will: recall the skills outlined in the peer mediation/ conflict resolution models; and describe appropriate ways to express feelings in a variety of situations.	High school students performing at the partial mastery level will with encouragement: recall the skills outlined in the peer mediation/ conflict resolution models; and describe appropriate ways to express feelings in a variety of situations.	High school students performing at the novice level will with guidance and assistance: recall the skills outlined in the peer mediation/ conflict resolution models; and describe appropriate ways to express feelings in a variety of situations.

Objectives	Students will
HE.HS.4.01	utilize skills for effective communication skills in discussions concerning alcohol, tobacco, and other drug ATOD , nutrition, sexuality, and relationships with peers, family and others.
HE.HS.4.02	exhibit identify or role play healthy ways to express feelings, needs and desires in different situations (e.g., good sportsmanship, ending relationships, death and dying, stages of grief).
HE.HS.4.03	demonstrate a variety of communication skills (e.g., verbal, non-verbal, listening, writing, technology, workplace).
HE.HS.4.04	identify potentially harmful situations (e.g., domestic violence, dating violence) and devise strategies and develop skills to avoid such situations through refusal, negotiation and collaboration skills (e.g., peer mediation, conflict resolution, support groups, constructive "I" statements).

Grade HS	Health Education				
Standard: 5	Decision-Making (HE.S.5)				
(HE.S.5)	Students will demonstrate the ability to use decision-making skills to enhance health.				
Performance Descriptors HE.S.5					
Distinguished	Above Mastery	Mastery	Partial Mastery	Novice	
High school students performing at the distinguished level will: implement the skills outlined in the peer mediation/ conflict resolution models; and demonstrate appropriate ways to express feelings in a variety of life situations; and self-assess the effectiveness of one's health-related decisions.	High school students performing at the above mastery level will: employ the skills outlined in the peer mediation/conflict resolution models; describe and exhibit appropriate ways to express feelings in a variety of life situations; and analyze health-related decisions.	High school students performing at the mastery level will: recall the skills outlined in the peer mediation/conflict resolution models; describe appropriate ways to express feelings in a variety of life situations; and evaluate health-related decisions.	High school students performing at the partial mastery level will with encouragement: recall the skills outlined in the peer mediation/conflict resolution models; describe appropriate ways to express feelings in a variety of life situations; and describe the effect of health-related decisions.	High school students performing at the novice level will with guidance and assistance: recall the skills outlined in the peer mediation/conflict resolution models; and describe appropriate ways to express feelings in a variety of life situations; and describe the effect of health-related decisions.	
Objectives	Students will				
HE.HS.5.01	apply a decision-making process for various life situations (e.g., alcohol, tobacco, and other drugs, ATOD , food choices, weight control, relationships, health care providers, making purchases, education and career options).				
HE.HS.5.02	identify and discuss health concerns that require collaborative decision-making (e.g., sexuality, STDs, HIV/AIDS transmission/prevention, refusal skills).				
HE.HS.5.03	analyze the effects of potentially harmful decisions that impact health and the effect these decisions have on their -family, community and self (alcohol, tobacco, and other drugs, ATOD -use, STD transmission, pregnancy prevention, teen parenting).				
HE.HS.5.04	formulate alternatives to health-related issues or problems (e.g., defense/coping mechanisms).				
HE.HS.5.05	evaluate the effectiveness of health-related decisions (e.g., personal assessments).				

Grade HS **Health Education**

126CSR44E

HE.HS.7.06	identify ways to develop good character and improve self-esteem (e.g., self-efficacy, role playing).
HE.HS.7.07	identify causes (e.g., accidents, natural disasters), preventions (e.g., CPR, first aid, in-school emergency plan) and treatments for injuries and list responsible actions to create a safe and healthy environment (e.g., ATVs, helmets, boating, bicycling, firearms, seatbelts, fire safety).
HE.HS.7.08	Demonstrate basic first aid skills (e.g., CPR, AED, bandaging, universal precautions)

Grade HS	Health Education		
Standard:8	Advocacy (HE.S.8)		
(HE.S.8)	Students will demonstrate the ability to advocate for personal, family and community.		

Performance Descriptors HE.S.8

Distinguished	Above Mastery	Mastery	Partial Mastery	Novice
High school students performing at the distinguished level will: analyze and compare community resources that promote health information and ideas; and create and assess a health advocacy plan for personal/family/community that employs the use of positive health messages and school/community support services; and analyze health messages and communication techniques for a specific audience.	High school students performing at the above mastery level will: identify and evaluate community resources that promote health information and ideas; create a health advocacy plan for personal/family/community that employs the use of positive health messages and school/community support services; and utilize and explain health messages and communication techniques for a specific audience.	High school students performing at the mastery level will: locate community resources that promote health information and ideas; compile positive health messages; list school/community support services; and utilize health messages and communication techniques for a specific audience.	High school students performing at the partial mastery level will with encouragement: locate community resources that promote health information and ideas; compile positive health messages; list school/community support services; and state health messages and communication techniques for a specific audience.	High school students performing at the novice level will with guidance and assistance: locate community resources that promote health information and ideas; compile positive health messages; and list school/community support services; and state health messages and communication techniques for a specific audience.

Objectives

HE.HS.8.01	Students will use written, audio and visual communication methods to express health messages (e.g., posters, reports, role playing).
HE.HS.8.02	demonstrate the ability to adapt health messages to characteristics of a particular audience (e.g., peer educators, role playing).

126CSR44E

HE.HS.8.03	promote the use of personal, family and community resources in health care situations (e.g., family practitioners, community medical facilities, yellow pages).
HE.HS.8.04	identify school support staff (e.g., counselors, nurses, professionals) and community health services (e.g., Big Brothers, mental health facilities, ministerial counseling) and describe the impact this service has on individual school and community health.
HE.HS.8.05	demonstrate that he/she is a responsible and a-productive citizen who helps ensure the health, safety and security of the community (e.g., community service, school organizations, community organizations).
HE.HS.8.06	adapt health messages and communication techniques to a specific target audience (e.g., peer educators, peer mediators).

Proposed for Repeal

Policies 2422.13 and 2422.45

TITLE 126
LEGISLATIVE RULES
BOARD OF EDUCATION

SERIES 21
CARDIOPULMONARY RESUSCITATION INSTRUCTION (2422.13)

§126-21-1. General

~~1.1 Scope—This procedural rule established a time frame and the conditions under which county boards of education would implement and make available cardiopulmonary resuscitation instruction programs to all students prior to high school graduation. It specifies that cardiopulmonary resuscitation techniques be included in physical education and health learner outcomes.~~

~~1.2 W. Va. Code 18-2-7~~

~~1.3 Filing Date—December 27, 1982~~

~~1.4 Effective Date—February 27, 1983~~

§126-21-2 Applicability

~~WHEREAS, The West Virginia Board of Education recognizes that heart disease is the leading cause of death in the United States, and West Virginia is the first among all States in the population of its citizens who are heart disease victims; and~~

~~WHEREAS, The West Virginia Board of Education recognizes that heart disease is a major health problem in West Virginia; and~~

~~WHEREAS, Such techniques have resulted in the widespread of saving of human lives by those familiar with and trained in such techniques;~~

~~WHEREAS, Voluntary organizations such as the American Heart Associate, American Red Cross, and other West Virginia affiliates and organizations offering the voluntary help of certified instructor—trainers; and~~

~~WHEREAS, There is an obvious need and value for more citizens of the state to become familiar with~~

~~and receive training in such techniques in the order to prevent the unnecessary loss of human lives in this state and elsewhere;~~

§126-21-3 Resolution.

~~BE IT THEREFORE RESOLVES THAT, Beginning with the school year 1979-80, and provided voluntary agency certified trainers are available, county boards of education are encouraged to provide the necessary training in cardiopulmonary resuscitation instruction to high school seniors where and when possible.~~

~~BE IT FURTHER RESOLVED THAT, The West Virginia Department of Education, working with county continuing education councils, regional education service agencies, and appropriate voluntary organizations pursue a plan for implementing cardiopulmonary resuscitation instruction of students, grades eight (8) through twelve (12).~~

~~BE IT FURTHER RESOLVED THAT, Cardiopulmonary resuscitation instructional techniques be included in the essential competencies and learner outcomes being developed in physical and health education, so that be school year 1980-81 that cardiopulmonary resuscitation instruction be available for all students prior to high school graduation.~~

§126-21-4. Disposition

~~All students are required to complete one (1) unit of physical education and one (1) unit of health prior to graduation.~~

~~TITLE 126~~

~~TITLE 126~~

~~LEGISLATIVE RULE~~

~~WEST VIRGINIA BOARD OF EDUCATION~~

~~SERIES 50B~~

~~EXCLUSION OF STUDENTS FROM ACQUIRED IMMUNODEFICIENCY~~

~~SYNDROME (AIDS) AND SEXUALLY TRANSMITTED DISEASE (STD)~~

~~INSTRUCTION IN HEALTH EDUCATION CLASSES (2422.45)~~

~~126-50B-1. General.~~

~~1.1. This legislative rule requires that students be excluded from instruction at parents' request.~~

~~1.2. Authority. -- W.Va. Code 18-2-9.~~

~~1.3. Filing Date. -- January 18, 1990.~~

~~1.4. Effective Date. -- March 2, 1990.~~

~~126-50B-2. Applicability.~~

~~The following policy has been written to assist in the implementation of WV Code 18-2-9, related to exclusion of students from health education class instruction about AIDS and other sexually transmitted diseases. The penalty for non-compliance with the provisions in the law could mean removal from public school employment.~~

~~All of the public schools must teach health education which includes instruction in any of grades six through twelve in the prevention, transmission and spread of AIDS and other sexually transmitted diseases. The W.Va. Board of Education approved Health Education Program of Study constitutes the course curriculum requirements. Materials used, including textbooks, should be aligned with learning outcomes. Counties must develop a comprehensive curriculum based on the health learning outcomes.~~

~~"An opportunity shall be afforded to the parent or guardian of a child subject to instruction in the prevention, transmission and spread of acquired immune deficiency syndrome and other sexually transmitted diseases to examine the course curriculum requirements and materials to be used in such instruction. The parent or guardian may exempt such child from participation in such instruction by giving notice to that effect in writing to the school principal." (18-2-9)~~

~~126-50B-3. Components.~~

~~Thus, the following shall be instituted:~~

~~3.1. Provisions and procedures for parent or guardian review of materials and curriculum shall be made on a county basis.~~

~~3.2. A form shall be developed for parents who request that their child be excluded (sample attached). This will assure a clear understanding of how individuals will be handled. The form should include the following information:~~

~~a. Health class assignments from which student will be excused.~~

~~b. Information that clarifies that an alternate assignment will be given.~~

~~c. Information that indicates that annual review of materials and requests for exclusion are necessary.~~

~~3.3. Once the parents' request has been received, it is the responsibility of the school principal to communicate this information to all appropriate personnel. The classroom teacher and other personnel are then responsible for assuring that the parents' request is honored.~~

FISCAL NOTE FOR PROPOSED RULES

Rule Title: Revised 2520.5 Next Generation Health Education Content Standards and Objectives for West Virginia Schools

Type of Rule: Legislative Interpretive Procedural

Agency: West Virginia Department of Education

Address: 1900 Kanawha Boulevard, East Building 6 Room 309
Charleston WV 25305-0330

Phone Number: 304.558.8830 x53245 Email: dchapman@access.k12.wv.us

Fiscal Note Summary

Summarize in a clear and concise manner what impact this measure will have on costs and revenues of state government.

There will be no cost.

Fiscal Note Detail

Show over-all effect in Item 1 and 2 and, in Item 3, give an explanation of Breakdown by fiscal year, including long-range effect.

FISCAL YEAR			
Effect of Proposal	Current Increase/Decrease (use "-")	Next Increase/Decrease (use "-")	Fiscal Year (Upon Full Implementation)
1. Estimated Total Cost	0	0	0
Personal Services	0	0	0
Current Expenses	0	0	0
Repairs & Alterations	0	0	0
Assets	0	0	0
Other	0	0	0
2. Estimated Total Revenues	0	0	0

Rule Title: Revised Policy 2520.5 Next Generation Health Education Content Standards and Objectives for West Virginia Schools

3. **Explanation of above estimates (including long-range effect);**
Please include any increase or decrease in fees in your estimated total revenues.

There is no cost.

MEMORANDUM

Please identify any areas of vagueness, technical defects, reasons the proposed rule **would not** have a fiscal impact, and/or any special issues **not** captured elsewhere on this form.

There is no cost.

Signature of Agency Head or Authorized Representative
