ATTACH A **BRIEF** SUMMARY OF YOUR PROPOSAL

**EXECUTIVE SUMMARY
FOR
WEST VIRGINIA BOARD OF EDUCATION POLICY 2520.10
21ST CENTURY MUSIC EDUCATION CONTENT STANDARDS AND OBJECTIVES
FOR WEST VIRGINIA SCHOOLS**

Policy Number and Title: West Virginia Board of Education Policy 2520.10: *21st Century Music Education Content Standards and Objectives for West Virginia Schools*

Background: Policy 2520.10 defines the content standards and objectives for music education as required by 2510 and establishes a standardized format for such.

- The original effective date of Policy 2520 (Instructional Goals and Objectives for West Virginia Schools) was July 1997.
- The West Virginia Board of Education approved initial work on content standards in Mathematics, Reading and English Language Arts, Science, and Social Studies in December 2001. In January 2003, content standards for music were placed on comment until March 10, 2003. The version placed on comment created a separate policy for music.
- Policy 2520.10 was filed on May 8, 2003 and became effective July 1, 2003.

Major Revisions or Reasons for New Policy: A repeal and replace of Policy 2520.10 is being recommended due to the format changes.

- One set of universal performance descriptors has been employed for all levels
- Names of three music programs of study have been given new, more appropriate titles:
 - "Instrumental Music" has the new title of "Band"
 - "Strings" has the new title of "Orchestral Strings"
 - "Folk Music" has the new title of "Appalachian Folk Music"
- Levels of five music programs of study have been reduced to 3 levels: beginning, intermediate, and advanced:
 - "Band" has been condensed from eight different levels to the following:
 - Level I Beginning Band Grades 5-12
 - Level II Intermediate Band Grades 5-12
 - Level III Advanced Band Grades 5-12
 - "Orchestral Strings" has been condensed from nine different levels to the following:
 - Level I Orchestral Strings Beginning Grades 4-8
 - Level II Orchestral Strings Intermediate Grades 4-12
 - Level III Orchestral Strings Advanced Grades 9-12
 - "General Music" has been condensed from nine different levels to the following:
 - General Music Grades K-2
 - General Music Grades 3-5
 - General Music Grades 8-12
 - "Choral Music" has been condensed from eight different levels to the following:
 - Choral Music Beginning Grades 3-12
 - Choral Music Intermediate Grades 6-12
 - Choral Music Advanced Grades 8-12
 - "Piano" has been condensed from four different levels to the following:
 - Piano Beginning Grade 6-12
 - Piano Intermediate Grades 6-12
 - Piano Advanced Grades 6-12
- A glossary is offered.

Impact:

- Aligning the music CSOs with the 21st century learning skills places new emphasis on skills that are particularly demanded in the content area of music: collaboration, creativity and innovation; communication skills; personal responsibility; adaptability; self-direction; and problem-solving skills.
- The universal set of performance descriptors applies to all performance levels across all programmatic levels of music. Its simplicity makes it more practical and more likely to be used by the music teachers.
- New titles of the music programs of study are more descriptive of the content delivered.
- Condensing the levels of the music curricula is more practical given the reality of the music classroom in which students of various levels of proficiency are grouped together.
- The glossary, to be made available and accessible to all teachers, provides clarity and better serves the needs of the users.
- Students will be better prepared for success on national assessments, in postgraduate studies and in the workplace of the 21st century.
- Students will acquire a higher level of critical thinking and problem solving skills needed for success in post graduate studies and the workplace of the 21st century.
- The revised format will better enable West Virginia educators to focus instruction on the approved CSOs.

§126-44J-1. General.

1.1. Scope. -- W. Va. 126CSR42, West Virginia Board of Education Policy 2510, Assuring the Quality of Education: Regulations for Education Programs (Policy 2510), provides a definition of a delivery system for, and an assessment and accountability system for, a thorough and efficient education for West Virginia public school students. Policy 2520.10 defines the content standards (or instructional goals) and objectives for music education as required by W. Va. 126CSR42 (Policy 2510).

1.2. Authority. -- W. Va. Constitution, Article XII, §2, W. Va. Code §18-2-5 and §18-9A-22.

1.3. Filing Date. --

1.4. Effective Date. -- July 1, 2008.

1.5. Repeal of former rule. -- This legislative rule repeals and replaces W. Va. 126CSR44J, West Virginia Board of Education Policy 2520.10, "Music Content Standards and Objectives for West Virginia Schools" filed May 8, 2003 and effective July 1, 2003.

§126-44J-2. Purpose.

2.1. This policy defines the content standards (or instructional goals) and objectives for the program of study required by Policy 2510 in music education.

§126-44J-3. Incorporation by Reference.

3.1. A copy of 21st Century Music Education Content Standards and Objectives for West Virginia Schools is attached and incorporated by reference into this policy. Copies may be obtained in the Office of the Secretary of State and in the West Virginia Department of Education, Office of Instruction.

§126-44J-4. Summary of the Content Standards and Objectives.

4.1. The West Virginia Board of Education has the responsibility for establishing high quality standards pertaining to all educational standards pertaining to all educational programs (W. Va. Code §18-9A-22). The content standards and objectives provide a focus for teachers to teach and students to learn those skills and competencies essential for future success in the workplace and further education. The document includes content standards for music education, an explanation of terms; objectives that reflect rigorous and challenging curriculum; and performance descriptors.

West Virginia Board of Education Policy

2520.10

*21st Century Music Education Content
Standards and Objectives for West
Virginia Schools*

Steven L. Paine
State Superintendent of Schools

Foreword

A 21st century music curriculum is an increasingly important aspect of developing learners prepared for success in the 21st century. Thus, the West Virginia Board of Education and the West Virginia Department of Education are pleased to present Policy 2520.10, 21st Century Music Content Standards and Objectives for West Virginia Schools. The West Virginia Music Standards for 21st Century Learning include 21st century content standards and objectives as well as 21st century standards and objectives for *learning skills* and *technology tools*. This broadened scope of curriculum is built on the firm belief that quality engaging instruction must be built on a curriculum that triangulates rigorous 21st century content, 21st century learning skills and the use of 21st century technology tools.

A committee of educators from different areas of the state convened to revise the content standards and objectives. The overarching goal was to build a rigorous, relevant and challenging music curriculum that would prepare students for the 21st century. West Virginia educators played a key role in shaping the content standards to align with national standards and best practice in the field of music education. The contribution of these professionals was critical in creating a policy that is meaningful to classroom teachers and appears in a format that can easily be used and understood.

Policy 2520.10 is organized around the three major components of a standards-based curriculum: learning standards, instructional objectives and performance descriptors. The learning standards are the *broad descriptions* of what *all* students must know and be able to do at the conclusion of the instructional sequence. The accompanying grade-level objectives are specific descriptors of knowledge, skills and attitudes that when mastered will enable the student to attain the standard. The instructional objectives guide instructional *planning* and provide a basis for determining appropriate *assessments, instructional strategies and resources*. The performance descriptors provide the basis for *assessing* overall student competence of grade level standards. The performance descriptors define the five student performance levels ranging from novice to distinguished. With the ultimate goal of "learning for all," these descriptors allow the teacher, students and parents to judge the *level* of student proficiency in each 21st century learning standard.

In combination, the use of learning standards, instructional objectives and performance descriptors become a comprehensive guide for delivering a rigorous and relevant music curriculum to all West Virginia students. These elements, when used to guide the instructional process and when delivered with the creativity and instructional expertise of West Virginia teachers, will become a powerful resource for preparing students to meet the challenges of the 21st century.

State Superintendent of Schools

Explanation of Terms

Content Standards are broad descriptions of what students should know and be able to do in a content area. Content standards describe what students' knowledge and skills should be at the end of a K-12 sequence of study.

Objectives are incremental steps toward accomplishment of content standards. Objectives are listed by grade level and are organized around the content standards. Objectives build across grade levels as students advance in their knowledge and skills.

Performance Descriptors describe in narrative format how students demonstrate achievement of the content standards. West Virginia has designed five performance levels: distinguished, above mastery, mastery, partial mastery and novice. Performance Descriptors serve two functions. Instructionally, they give teachers more information about the level of knowledge and skills students need to acquire. Performance levels and descriptors are also used to categorize and explain student performance on statewide assessment instruments.

Numbering of Standards

The number for each content standard is composed of four parts, each part separated by a period:

- the content area code is **MU** for Music,
- the letter **S**, for Standard,
- the grade level or performance level
- the standard number.

Illustration: MU.S.GM6-8.1 refers to grades 6 -8 music content standard #1.

Numbering of Objectives

The number of each objective is composed of five parts, each part separated by a period:

- the content area code (MU for music),
- the letter **O** is for Objective,
- the grade level or performance level
- the number of the content standard addressed, and
- the objective number.

Illustration: MU.O.GM6-8.4.6 refers to a music grades 6-8 objective that addresses standard #4 in music, the sixth objective listed under that standard.

Numbering of Performance Descriptors

The number for each group of three performance descriptors is composed of four parts, each part separated by a period:

- the content area (MU for music),
- the letters **PD** are for Performance Descriptors,
- the grade level or performance level and
- the standard number.

Illustration: MU.PD.GMK-2.3 refers to music performance descriptors for general music kindergarten – 2nd grade, content standard #3.

Unique Electronic Numbers (UENs)

Unique Electronic Numbers (or UENs) are numbers that help to electronically identify, categorize and link specific bits of information. Once Policy 2520.10 is available on the Web, each standard, each objective, and each group of five performance descriptors will have a Unique Electronic Number (UEN) that will always remain the same.

The codes printed in Policy 2520.10 form the basis of the UENs. The only additional set of numbers that will be added to each code to formulate its UEN will be a prefix that indicates the year and month that a particular version of Policy 2520.10 is approved by the State Board of Education.

The prefix for the UENs for each content area in Policy 2520.10 is noted at the top of each page containing standards, objectives and performance descriptors. As sections of 2520.10 are revised, UENs will be changed to reflect the new approval date.

UENs (Unique Electronic Numbers) are unique numbers that facilitate implementation of WV Standards into Electronic formats such as Databases and XML Files. The WV Department of Education encourages everyone who is going to use the WV 21st Century Content Standards in any kind of electronic distribution, alignment, or software development to use the UENs so that all efforts can be cross-referenced and there is consistency across initiatives.

Illustration: The UEN for beginning level 1 band standard #3 will be "200607.MU.S.BI.3".

MUSIC – POLICY 2520.10

Performing, creating, and responding to music are essential parts of the school curriculum because they are fundamental processes in which human beings engage. Because music is a basic expression of human culture, every student must have access to a balanced comprehensive and sequential program of study in music during the school day, including the opportunity to perform and attend performances. Singing, playing instruments, moving to music, and creating music enables students to acquire musical skills and knowledge that can be developed in no other way. Learning to read and notate music gives them skills to explore music independently. Listening to, analyzing, and evaluating music are important building blocks of musical learning. To relate to a diverse, global society, students must understand historical and cultural heritage.

West Virginia's vision is to prepare all students with the skills they need to succeed in the 21st Century. This includes a focus on the core academic subjects, which includes the arts. In addition to these traditional subjects, West Virginia also recognizes key content areas and skills that have not been previously emphasized, including global awareness, civic literacy, critical thinking and problem-solving skills, creativity, accountability, collaboration and self-direction. The study of music is particularly well-suited to addressing these subjects and skills.

The West Virginia Content Standards and Objectives are arranged into four broad State Standards which align with the National Standards in the following manner:

WV Standard 1: Performing

- National Standard 1: Singing, alone and with others, a varied repertoire of music.
- National Standard 2: Performing on instruments, alone and with others, a varied repertoire of music.

WV Standard 2: Exploring

- National Standard 5: Reading and notating music.
- National Standard 6: Listening to, analyzing, and describing music.
- National Standard 7: Evaluating music and music performances.

WV Standard 3: Creating

- National Standard 3: Improvising melodies, variations, and accompaniments.
- National Standard 4: Composing and arranging music within specified guidelines.

WV Standard 4: Relating

- National Standard 8: Understanding relationships between music, the other arts, and disciplines outside the arts.
- National Standard 9: Understanding music in relation to history and culture.

WV Standard 1: Performing

Singing, playing, and moving are fundamental processes of musical expression. Basic performing skills in singing and in playing a variety of pitched and non-pitched instruments are developed in the K-8 general music area of study. Students who participate in the concentrated study of

choral and/or instrumental music area of study will develop advanced musical skills and technical accuracy through a varied repertoire of musical literature. Piano and folk music areas of study may also be taught at the high school level.

WV Standard 2: Exploring

Skills in the analysis of music enable students to listen to a wide variety of music with discernment and enjoyment. Broad experiences with a variety of music assist students in evaluating musical works and performances. The ability to read and notate music is the foundation for independent study and performance. Exploring musical notation is a key to lifelong learning and participation in music. Music reading experiences begin in kindergarten and are stressed throughout all levels of study.

WV Standard 3: Creating

Creating music by improvisation and composition is encouraged and developed through experiences in music. Students at the secondary level may further develop improvisation and composition skills through participation in small ensembles and classes in music theory or composition.

WV Standard 4: Relating

Students will be encouraged to explore the commonalities and relationships between music and other disciplines. As it becomes easier to maneuver around our world, students must become more diverse in their knowledge of history, other cultures and the importance of music as it pertains to these. In an increasingly interdependent world, students must develop awareness of diversity in cultures and the uniqueness of music to cultures.

K-8 General Music Content Standards and Objectives

The sequential program of music study will include, but not be limited to, general music kindergarten through eighth grade. Sufficient time should be allotted for students to achieve the Content Standards and Objectives. High quality arts programs bring richness to the school curriculum; therefore, it is strongly recommended that schools provide more than the required minimal amount of time for the delivery of the music curriculum. The objectives were written in a way to maximize teacher flexibility in delivering quality instruction to all students.

K-2 General Music Content Standards and Objectives

K-2 students explore the world of music through singing, playing instruments, moving and listening. They develop a beginning recognition of simple music notation and an awareness of the singing voice. Opportunities are provided to sing patriotic and folk songs that support civic literacy. In addition, global awareness is introduced to the student through experiencing the music of other cultures. Collaboration skills are emphasized as students begin to sing and perform on instruments with others. Critical-thinking skills are sharpened as students are taught to actively listen and respond to what they hear. Their creativity and problem-solving skills are developed through simple composition and improvisation. Students begin relating music to other disciplines, including literature, math, science, and visual art.

To assure a quality arts education, general classroom teachers who are charged with the delivery of the K-2 Content Standards and Objectives in their school curriculum are strongly encouraged to participate in high-quality, content-specific professional development.

Grade 3-5 General Music Content Standards and Objectives

Grade 3-5 students develop further independence in the use of the singing voice. Terms are added to the basic music vocabulary for continued music literacy. Through the use of the voice, classroom instruments and body percussion, students' creativity and problem-solving skills are further developed as they improvise and compose rhythms and melodies. Their critical-thinking skills are refined as they evaluate their own musical performances and the performances of others. Global awareness is expanded through performing and listening to music of other cultures. Students continue to collaborate with others in classroom ensembles. Students relate music to other disciplines by singing songs in foreign languages and studying how music correlates with history and visual art.

To assure a quality arts education, general classroom teachers who are charged with the delivery of the K-2 Content Standards and Objectives in their school curriculum are strongly encouraged to participate in high-quality, content-specific professional development.

Grade 6-8 General Music Content Standards and Objectives

Grade 6-8 students continue to build proper singing technique. Student creativity and problem-solving are demonstrated through interpretation, improvisation, and composition of music. Students increase their civic literacy through singing both patriotic songs and the songs of West Virginia. Global awareness is further expanded through performing and listening to music of other cultures. Students explore the role of the musician in society and careers in music. Students relate music to other disciplines through the study of acoustics and the study of history as it relates to the evolution of musical style.

Music Electives K-12

Electives K-8: In addition to completing courses in General Music, elementary and middle school students should have the opportunity to take elective courses of instrumental music and choral music; therefore, content standards and objectives have been developed for K-8 music education beyond General Music. High quality arts programs bring richness to the school curriculum; therefore, it is strongly recommended that schools provide more than the required minimal amount of time for the delivery of the music curriculum.

Electives 9-12: Music is one of the four fine arts programs of study from which an elective course may be chosen to meet the graduation requirement of one arts credit. At a minimum, both instrumental and choral music electives must be offered to accommodate four sequential levels of student achievement in grades 9-12.

Within the Music program of study there are six areas of study for electives in music education. The Content Standards and Objective represent the basic curriculum, while not prescribing a specific pedagogical approach. Teachers are encouraged to augment and enhance the curriculum as their schedules and resources permit.

- Orchestral Strings provides instruction in playing the violin, viola, cello, and bass. At the adolescent level students playing these instruments are generally grouped in classes of all string players (a String Orchestra), or string players plus wind and percussion (Full Orchestra). If enrollment is large, more than one orchestra may be offered and these orchestras may be differentiated by achievement level. The most advanced players may be given additional challenges of playing more difficult parts, solos, and chamber music (such as quartets and trios).
- Band provides opportunities for students in grades 5-12 to learn wind and percussion instruments. Students enrolled in band may be scheduled into a single class period. If enrollment is large, more than one band may be offered and these bands may be differentiated by achievement level. The advanced band students may be given opportunities to participate in a variety of specialized or small ensembles (such as brass quartet, jazz ensemble, percussion ensemble, steel drum band).
- Choral Music provides opportunities for students to sing in large and small ensembles. When enrollment justifies, two or more choral groups may be offered. These groups may be differentiated by the achievement level of students and/or by their composition (treble voices, tenor and bass voices, mixed voices). Students at the advanced levels may also participate in chamber choirs, madrigal singers, barbershop quartets, and other select ensembles.
- Piano classes may be offered for beginners and more advanced students. The three levels of objectives included in this area of study provide for beginners and for those who have already studied piano. If facilities and piano lab equipment are available, a teacher can give instruction to students working at several different levels in a single classroom. On the other hand, if enrollment justifies, two or more classes differentiated by achievement level should be provided.
- Appalachian Folk Music offers opportunities for students to learn to play the guitar, banjo, and dulcimer.
- Music Literature is an area of study that provides content standards and objectives for electives in Music Appreciation or Music History.

- Music Theory, an elective appropriate for advanced students and music majors, is included in this area of study.

County school systems may exercise the option of offering additional music courses. Content Standards and Objectives must be developed for these courses and approved by the county board of education.

Level I Orchestral Strings (Beginning)

Students at this level develop basic playing skills including matching pitch, using appropriate playing posture, first position fingerings, *arco* and *pizzicato*, and reading musical notation. Typically, students are at the elementary level, but due to delayed entry into Strings or differences in scheduling, they could also be at the middle or junior high school level. Students also play *legato* and *non-legato* melodies in the keys of D and G major, two-note slurs, *staccato* bowing, and rhythms in meters of 2, 3 and 4. Students will participate in the performance of folk songs and rounds, interpret dynamics and symbols such as *D.C. al Fine*, and develop criteria for performance evaluation.

Level II Orchestral Strings (Intermediate)

Students at this level of study demonstrate characteristics of good ensemble playing while continuing to further develop their own individual playing and listening skills. Typically, these are students at the middle school or junior high level, but may also include more advanced elementary students, and high school students who have not progressed to the Advanced level. The study a wider range of dynamics, tempi and meters. Students learn to play legato and non-legato melodies, two and three-note slurred staccato, and *louré* and *martelé* bowings. Students also study syncopated rhythms and positions other than first. They become familiar with the Baroque period, play scales and melodies up to 3 sharps and 1 flat, learn the chromatic scale and continue to evaluate performances.

Level III Orchestral Strings (Advanced)

At this level students continue to develop individual playing skills and ensemble skills. They play scales and melodies in major and minor keys up to 5 sharps and 4 flats and utilize the higher positions in their performance. Students explore and perform chords, arpeggiated chords, and ornamentation. They learn irregular and changing meters and expand musical vocabulary, demonstrating the interpretation of this vocabulary in their playing. Students study vibrato and ensemble techniques. They study the Classical and Romantic period, twentieth-century music and the use of stringed instruments in American music genres. Students continue performance evaluation, and a strong emphasis is placed on listening skills through which students develop the knowledge of musical form, genre, history, and musical interpretation.

Level III Band (Advanced)

The Advanced Band objectives are written for the student who has progressed through the intermediate study of a band instrument. Typically, this student is at the high school level, but may also be an advanced middle school or junior high student. The student at the advanced level will continue to refine playing skills and study various composers, compositions, and styles. He/she learns to play in more keys, use ornamentation, and perform with more precision. The advanced level student will study the formal structures and elements of music and learn how these are used by composers. He/she will learn about the historical context of the music performed, especially American music. The student plays music from the West Virginia Bandmasters Association Graded Music List. This list can be obtained from the West Virginia State Arts Coordinator.

Level I Piano (Beginning)

The beginning piano objectives are written for students who have begun their study of the piano. Typically, these students have never studied an instrument or have had minimal musical training. The student learns the correct wrist, hand, and body positions in playing major scales, block and broken chord patterns, cadences using I, IV, and V chords, and simple pieces. They accompany simple melodies with broken chord accompaniment. Sight-reading in treble and bass clefs are practiced and evaluation skills are developed.

Music Theory, Composition, Arranging

Music Theory, Composition, and Arranging are designed to challenge the most advanced music students. Emphasis is on the study of scales, key signatures, chords and chord structure, composition, and improvisation. Students will learn to use composition as a tool for composing, transposing, and transcribing music. All objectives for each level must be taught; therefore, the differences among the three levels of performance depend upon the number and accuracy of objectives accomplished.

Music Terminology

This glossary was designed for quick reference for the classroom generalist as well as the music specialist.

- A cappella.** Designation for choral music without instrumental accompaniment.
- AB Form.** See *Binary Form*.
- Accelerando (accel.).** Becoming faster.
- Accidental.** The signs used in musical notation to indicate chromatic alterations or to cancel them.
- Accompaniment.** The musical background provided for a principle part.
- Acoustics.** A term often used to distinguish instruments from their electric counterparts.
- Adagio.** Slow; between andante and largo.
- Alla breve.** A tempo marking indicating quick duple time.
- Allegretto.** A tempo between andante and allegro.
- Allegro.** A fast tempo mark.
- Alto.** A female voice of low range; can also be called contralto.
- Andante.** Tempo mark indicating a very moderate "walking" speed between allegro and adagio.
- Antecedent/ Consequent.** The terms are usually applied to melodic phrases that stand in the relationship of question and answer or statement and confirmation.
- Appalachian Folk Music.** Old time music. A traditional style of American music, has its roots in Irish, English, Scottish, and African Folk music. Practitioners play it with stringed instruments such as fiddle, banjo, guitar, mandolin and bass. Associated with the Appalachia region of the United States of America.
- Arco.** bow
- Arpeggio.** The notes of a chord played one after another instead of simultaneously.
- Articulation (attacks and releases).** In performance the characteristics of attack and decay of single tones or groups of tones and the means by which these characteristics are produced.
- Aural.** Listening skill in the learning of music.
- Balance.** The harmonious adjustment of volume and timbre between instruments or voices; it can be between players or vocalists or electronically while recording or mixing.
- Ballad.** The term derives from Medieval terms which originally denotes dancing songs. However most ballads are narrative and deal with fabulous, miraculous, or gruesome deeds. Ballad singers made living by singing their newest production in the streets and country fairs.
- Bar line.** A vertical line drawn through the staff to mark off measures.
- Baroque Period.** In the history of music, the term applied to the period c. 1600-1750.
- Bass.** The lowest of the men's voices.

Beat. The temporal unit of a composition.

Binary. Both sections are repeated.

Block Chord. In music, block chords are chords built below the melody to create a 4-part harmonized melody line with an additional 5th part that doubles the melody an octave down. If the melody note is part of the chord, the harmony notes are also taken from the chord.

Body Percussion. A percussive sound created using the body (e.g., stamp, pat, clap, snap).

Breath Support. Efficient and appropriate use of the breath stream.

Broken Chord. *see arpeggio*

Cadence. A melodic or harmonic formula that occurs at the end of a composition, a section, or a phrase, conveying the impression of a momentary or permanent conclusion.

Canon. A contrapuntal device whereby an extended melody stated in one part, is imitated strictly and in it's entirety in one or more other parts. Usually the imitating part follows at a short distance (one measure).

Chamber music. Instrumental ensemble music performed by one player for each part, as opposed to orchestral music in which there are several players for each part.

Chromatic Scale. A scale that includes all of the twelve pitches (and thus all of the twelve semitones).

Classical Period. In the history of music, the term applied to the period c. 1770- c.1830.

Clef. A sign written at the beginning of the staff in order to indicate the pitch of the notes.

Treble Clef Alto Clef
Bass Clef Tenor Clef

Coda. A concluding section or passage, extraneous to the basic structure of the composition but added in order to confirm the impression of finality.

Col legno. In violin playing, striking the strings with the bow-stick instead of playing with the hair

Compose. to make tunes, or set notes for music.

Composition. Musical composition has three meanings in music: 1. An original piece of music. 2. The musical structure of a musical piece. 3. The process of creating a new piece of music.

Con sordino. Use a mute.

Concert pitch. The pitch at which the piano and other nontransposing instruments play.

Concerto. A composition for orchestra and a solo instrument.

Conductor. One who directs a performing group- orchestra, chorus, opera- in order to bring about complete coordination of all the players and singers.

Counter melody. A secondary melody played against a principle theme, usually after that theme has already been heard by itself. The addition of a counter melody to a repeated theme is a subtle and effective way for a composer to vary music.

Court Musician (minstrel). The professional musician (instrumentalist) of the Middle Ages, especially one employed in the feudal household.

Crescendo. Indicated by signs. The usual terms and signs for increasing the loudness.

Da Capo (D.C.). From the beginning. Indication that the piece is to be repeated from the beginning to the end, to a place marked *fine*. (D.C. al fine) or to a place marked with a specified sign.

D.S. al coda (da capo al segno). On reaching the sign in the last case, the player is to skip ahead to the next occurrence of the same sign, often marking the beginning of a coda.

Damper pedal. In pianos and harpsichords, the part of the mechanism that terminates the vibration of the string- hence, the sound- at the moment the key is released.

Decrescendo (Diminuendo/ dim.). Indicated by signs. The usual terms and signs for decreasing the loudness.

Detache' Bowing. A broad, vigorous stroke in which the notes of equal time value are bowed singly with a slight articulation or detachment from one another owing to the rapid change of bow.

Dotted Notes. A dot is placed after a note adds to it one-half of its value.

Double Bar Line. Two vertical lines drawn to mark the end of a piece.

Double flat (bb). Lowers the pitch by two semitones.

Double Sharp (X). Raises the pitch by two semitones.

Double stop. The execution of two or more tones simultaneously for rendering intervals or two parts.

Drone. Long sustained notes usually in a low instrument.

Duet. A composition for two performers of equal importance, with or without accompaniment.

Eighth Note. One eighth total value of a whole note.

Eighth Rest. One eighth total value of a whole rest.

Embouchure. Manipulation of lips and tongue in playing a wind instrument.

Ensemble. Since 1600, a group of instrumental players and/or vocalists performing together; usually applied to smaller groups of players, larger than a duet but smaller than a chamber orchestra.

Ensemble playing. Style or quality of a group's performance, especially accuracy of attack and decay.

Expression mark. Written instructions (sign, word, or phrase) indicating the desired type of performance. pp mp p f mf ff

Fermata. Pause.

Fiddle. Colloquial name for the violin and stringed instruments resembling it, particularly the folk varieties used to accompany dancing.

Fingering. The methodical use of the fingers in playing instruments.

Folk Music, Folksong. The musical repertory and tradition of communities (particularly rural), as opposed to art music, which is the work of individual, formally trained composers.

Form. In the most fundamental sense, the shape of a musical composition as defined by all of its pitches and rhythms.

Genre. Any category of literature, painting, sculpture, and by extension, a specific form or type of composition.

Grace note. Vocal or instrumental ornament or embellishment not essential to the melody or harmony.

Half Note. Note one half the value of a whole note and represented by a white circle and a stem.

Half Rest. Rest one half the value of a whole note and represented by a small black rectangle sitting above a line on a staff.

Hammer On. Hammer on is a stringed instrument (usually electric guitar) playing technique performed by sharply bringing a fretting-hand finger down on the fingerboard behind a fret, causing a note to sound. This technique is the logical opposite of the pull-off, and multiple hammer-ons and pull-offs together are sometimes referred colloquially to as "rolls," a reference to the fluid sound of the technique.

Harmony. Combining of tones to form chords.

Improvisation. Art of spontaneous performance without preliminary plan; extemporization.

Interval/ Intervallic. The distance between two notes measured in diatonic degrees.

Intonation. Production of tone, either vocal or instrumental, with emphasis on proper pitch.

Introduction. Instrumental prelude.

Irregular/ Asymmetrical Meters. Subdivisions of binary and ternary meters into unequal groups.

Jazz. Term covering several music styles of African-American origin. Usually characterized by improvisation and an unlimited variety of dotted or syncopated melodic rhythms against a duple or quadruple meter, producing 'swing'.

Key signatures. Accidentals placed at the beginning of a composition (and each succeeding staff) indicating the prevalent tonality of the music.

Largo. Very slow and stately, with ample breadth.

Lead Sheet. Modern form of tablature with a melody on a staff, over which the harmony is marked in shorthand.

Leaps. In harmony, a skip.

Loure. Slurred, legato, nonstaccato. Bowing technique on string instruments in which several notes are played in one bow stroke but in a detached way; most commonly indicated by a slur encompassing dotted notes.

Marcato. With distinctness and emphasis.

Martele. In violin playing, play the notes with a sharp, decided stroke

Measure. The notes and rests contained within two vertical lines, the metrical unit in composition, with regular accentuation, familiarly called a bar.

Melody. Rational progression of single notes in one part, by contrasting harmony.

Metronome. Mechanical device to beat time steadily, indicating tempo of a composition; a graduated pendulum adjusted by sliding a small weight up or down it's length.

Minstrel. See *Court Musician*.

Mode. Generic term applied to ancient Greek melodic progressions and to church scales established in the Middle Ages and codified in the system of Gregorian chant.

Moderato. At a moderate tempo or rate of speed.

Movement (symphony). Principal division or section of a composition.

Multi-meter. A metric scheme wherein the meter changes frequently.

Octave. Series of eight diatonic tones.

Open String. On any chordophone with a fingerboard, a string in its natural, unstopped state.

Ostinato/ Ostinati. A continually recurring theme accompanied by constantly changing contrapuntal parts.

Overture. Musical introduction to a play, opera or ballet.

Phrase. Half of an eight measure period; also, any figure or passage complete in itself and unbroken in continuity.

Pitch. The position of a note in the musical scale.

Pizzicato. Plucked with the finger; a direction in music, to violinists, etc., to play notes by plucking the strings with the bowing hand.

Polyphonic. Describing an instrument normally capable of producing two or more tones simultaneously, like the piano, harp, or organ.

Pop music. General term to denote a wide variety of musical styles, generally characterized by their easy accessibility to wide audiences.

Presto. Fast, rapid; faster than allegro.

Quarter Note. Equal to one beat in any time signature with a denominator of four.

Quarter Rest. Rest equal in time value to a quarter note.

Quartet. Concerted instrumental composition for four performers.

Repeat signs. The sign signifying that the music between the double dotted bars is to be repeated.

Repertoire. A collection of music that a student has learned and is prepared to demonstrate.

Rhythm. That aspect of music concerned with the organization of time. The duration of sounds and silences.

Ritardando (rit.). Growing slower and slower.

Romantic Period. In music history, the period from about 1815 to 1915, overlapping with the late Classical on one end and impressionism, expressionism, and primitivism on the other.

Rondo. A form frequently used in classical sonatas, symphonies, and concertos for the final movement (A B A C A).

Rudiment. A foundational rhythm pattern used as an exercise.

Sforzando or Sforzato (sfz). Play with a sudden sharp accent, with special stress, or marked and sudden emphasis.

Sharp #. Raising the pitch of a note immediately following it by a semitone.

Sightread. Ability to read unfamiliar music with ease.

Sixteenth Note. Half the value of an eighth note.

Skips. See *leaps*.

Slur. Curved line under two or more notes, signifying the use of legato.

Solfeggio/ Solfege. Vocal exercise either on one vowel, on the solmization of syllables, or two words.

Solo. Piece or passage for a single voice or instrument.

Sonata. Instrumental piece in multiple movements contrasted in theme, tempo, and mood; usually for one instrument with accompaniment or chamber ensemble.

Soprano. Highest class of the human voice; treble voice.

Spiccato Bowing. In string playing, separate the notes very distinctly

Staccato. Play as separate, disconnected notes, opposite of legato.

Staff. Five parallel lines used in modern pitch notation.

Steps. Melodic progression of a second.

String Quartet. Historically the most significant type of chamber music. A string quartet consists of two violins, viola, and cello.
