Hon. A. James Manchin
Secretary of State
W-151 State Capitol
Charleston, West Virginia 25305

Dear Mr. Manchin:

This is notification of approval of rules and regulations in accordance with Section 11, Article 3, Chapter 29A of the West Virginia Code.

On July 17, 1978, the Legislative Rule-Making Review Committee approved regulations submitted by the Department of Agriculture concerning pseudorabies and restricted use pesticide list. The committee also approved revocation by the Department of Health of regulations for mobile intensive care paramedics.

A copy of the approved regulations is attached.

Very truly yours,

Robert M. Steptoe

Enclosures

Chapter 19, Article 9, section 2 provides that the Commissioner of Agriculture shall prevent, suppress, control and eradicate disease of animals and poultry.

The animal disease pseudorabies is a serious threat to swine production and a danger to cattle. Therefore, under the auspices of Chapter 19, Article 9, section 2 of the Code of West Virginia, 1931, as amended, I hereby promulgate the following addition to the West Virginia Health Requirements Governing Admission of Livestock and Poultry, 1C, section 11 (page 7):

11.04 Pseudorabies. Swine moved into West Virginia for breeding purposes must originate in herds not known to be infested with pseudorabies and must have had a negative serum neutralization or other acceptable test for the diagnosis of pseudorabies within the 30 days immediately prior to movement into the state. Swine moved into West Virginia for exhibition purposes must originate in herds not known to be infected with pseudorabies and must have had a negative serum neutralization or other acceptable test for the diagnosis of pseudorabies within the 60 days immediately prior to movement into the state.
