Fiscal Note Summary

Summarize in a clear and concise manner what effect this measure will have on costs and revenues of state government.

These legislative rules establish general standards and procedures for the licensure of nonprofit corporations to serve as conservator, limited conservator and temporary conservator of persons declared by circuit courts to be protected persons. These rules are intended to protect and promote the rights and interests of protected persons of all ages for whom corporations are appointed to serve in a conservatorship capacity. This rule will generate revenues of \$100 per initial license application and for each license renewal application. Costs associated with license application review, approval and subsequent compliance monitoring (sureveyors) will be offset against revenue received. DHHR Finance will be receiving the revenues and incurring the costs associated with proper handling of such applications.

Fiscal Note Detail

Show over-all effect in Item 1 and 2 and, in Item 3, give an explanation of Breakdown by fiscal year, including long-range effect.

2. Estimated Total Revenues		1,500	1,500

3. Explanation of above estimates (including long-range effect):

Please include any increase or decrease in fees in your estimated total revenues.

The estimates should include all anticipated revenues based on projected number of applications to be received as well as all staffing and other costs related to proper handling of applications and review protocols applied to licensed entities.

Memorandum

Please identify any areas of vagueness, technical defects, reasons the proposed rule would not have a fiscal impact, and/or any special issues not captured elsewhere on this form.

Because this is a new concept in West Virginia, the Department is unable to accurately estimate the costs associated with the operation of this program. However, we believe it will be in excess of the estimated revenues as the rule requires at least one onsite review of each program annually.

Requirements For Licensure of Nonprofit Corporations For Conservatorship Service
Department of Health and Human Resources
Bureau for Behavioral Health and Health Facilities

BRIEF SUMMARY

The proposed rule is a new rule to comply with the requirements of West Virginia Code section 44-10A-1 which required the Secretary of Health and Human Resources to propose legislative rules for the licensure of nonprofit corporations and the review of licenses and establishing standards to assure that any corporation licensed for conservatorship meets certain designated requirements.

STATEMENT OF CIRCUMSTANCES

The West Virginia Legislature has required the Secretary of Health and Human Resources to propose rules to govern licensure of nonprofit corporations to serve as conservator. There is an immediate need for appointment of nonprofit corporations by circuit courts in the state and the courts' ability to effectuate the establishment of conservatorship for protected persons is impaired by the lack of a licensure process.
